

Wealth Mngt 4 - Oct 11 Part 2

Thu, Oct 27, 2022 8:08PM 1:10:35

SUMMARY KEYWORDS

people, money, quantum, create, humanitarians, rss, receiving, love, cabal, society, life, energy, redemption, heart, employment contracts, financial system, alliance, funds, person, wealth

SPEAKERS

Ron Giles, Speaker, Carrie

Carrie 00:00

As individuals, and as individuals were responsible to conduct ourselves in harmony with the collective good of our communities, instead of just doing our own thing, we will have a choice to share our uniqueness with others. And vice versa, the old concept of the haves and the have nots is going to be changing. And everyone will use their resources to contribute to society,

Ron Giles 00:29

where you go, I think that that's the responsibility of wealth is to become part of the community. So that you are supporting things that would be continuing to support for the community. This is employment contracts for service oriented businesses, and that includes, you know, that's a wide variety of people, their restaurants, and whatever, whatever else you want to throw in there. Those are the kinds of services that a committee needs in order to function properly. So that's why we, if everybody gets their RSS program, would they go away and don't want to do anything? Well, the alliance is stepping in and say, we're not even going to allow that to take place, or a choice to do that, unless you just want to do that with \$1,000 a week, which is a lot of money for, for a lot of people. So but yeah, we all get to, it is absolutely essential that we are part of our society, because there is a principle called giving and receiving. If your giving and receiving is not balanced, then you are not a balanced person. And I use parents, a mother is one of the most unbalanced persons because they give and give and give and give. And if you really get into them, they have a hard time receiving because they have an idea that those who give are the stronger and those who have to receive are the ones that are weak. And that's a philosophy. And the concept of giving and receiving in balance means that mom gets to receive from her children, special occasions, where they show her how much they appreciate her. I have one of my friends who was raising children. And she required them to tell her the things that they thought were really good for her as a as a mother. So they identified things. And they helped with her. And they helped them identify the fact that moms are not just there for you to take advantage of and carry on with your life and your washing is done, your meals are fixed and that sort of stuff. You have to be part of your life. And so giving and receiving is an actual principle that has to be balanced, it's just part of us going through it. So plan on on being balanced in your giving and receiving, if he won't receive and always give,

then you're out of balance and your life will you will have resentments about having to serve a lot of women, mothers, and husbands whose wives whose husbands are non. They don't show their love and so forth. I know there's many that do. But that's can be a problem when moms give everything and don't receive. So be aware of those kinds of things. This is just one example. Giving and Receiving can be in a lot of different areas. But you need to come from your uniqueness. It might be that you have a job as a waitress or a cook in a restaurant. If you enjoy that, then that's really good. And let's get you an employment contract. Let's get those people in employment contracts and get the business owners contracted as well so that they can stay in business and serve the community. I think that's the best way that we can serve is through doing stuff that we get money that we want to doing stuff that we enjoy, to receive the money that we get, which is essential. You have to have funds to do things so if everybody quit working, we wouldn't have anything to buy. So the alliance will be monitoring that. And we'll see how that tech, excuse me how that takes place. So that's kind of doing our share. I think they covered it all tonight.

C

Carrie 05:13

Yes. So next, okay, next one a person wants to receive more revenue, they continue to share and obtain additional downloads in their RSS account, per minute of income. This wealth transition and transfer will affect all societies at many levels, the elitist values and opinions won't be as important. As we all become more important, the homeless will no longer be considered homeless as more will want to continue to contribute to society, our individual opinions of wealth will change will be less judgmental of those who have or black wealth. And finally, as wealth is distributed opportunities for higher education and higher achievement will most likely become available.

R

Ron Giles 06:10

Yes, well, there's there's a spiritual component to this. Oftentimes, when you lack faith and trust in the future, you deviate by creating drugs and other things that help you to put up with the garbage that you're having to pull up with. What if there's no garbage there, then there's a good possibility that those kinds of things can go away. Recognizing that there's plenty of money to do the things that we really wanted to do. And that we're not going to be, there's no reason to feel that you can't do things. Drugs are a very compelling thing. When you've lost hope, alcoholism is the same way. It's those who, who lack hope and for the future. And part of the unsung part of the programs that are developed for this is that they don't let they lack the ability for an individual to create. If you want to heal yourself, start creating things, just a hobby or something of that nature that you can focus your mind on, that is coming from you. And eventually we'll you'll have something to show for it, you will be excited about that. Because that's your creation, will the creation energy is what we are, that's who we are. That's our God's spark. That's what makes us different. And so when we include creation energy in our life, that means that we get to be fulfilled. So if you want to have a real good setup for people to mentally get them involved in creating things, kids just love to do it, create things other their imaginations go wild. And it's possibly you know, if you're younger than three, then you're probably still having clothes off for your friends and and acquaintances from the other side of the veil, whatever. We get good if we create then we can, we can avoid a lot of mental stress and activities in our lives. So I I agree with you leave us values and opinions won't be as important now. If you if you lack that you, then you like things that other people do. And I use

this I don't know if this has ever been used before. It's an example. If you cannot do the things Jesus does what you do you worshiping. But if you're like him, and can do the things they can do, then you're equal, or brothers or sisters. If you can't do things, then you worship those who can. And that's why we look towards Hollywood and sports and things of this nature because he has something that we can't do that they do better. And that's why you elevate them to period two places in your life that are Superior to yourself. It's a mental thing. And if you're looking for Jesus, come follow me. I'll show you the way, I'll take you to the Father. Do the things that I have done. love people, create people with kindness and respect. Those are the things that that that's the way if Jesus had wanted a church and Christianity was not his church, if Jesus wanted a church, he'd call it the way of the teacher of righteousness. Though the way of the teacher of righteousness, Jesus said, Come, follow me, this is the way. And if you do these things, and follow me, then you'll have the same things that I have, and that's eternal life. Simple, but there it is. So, if you start worshiping other people, it's because you don't have yourself, well, use your imagination and get out of that. And then people will be equal, you'll be equal with people and and not worship them. So the homeless will no longer be considered homeless as more will want to continue to contribute to society, almost people have, can have bank accounts. And all that's all they need in the quantum financial system is an account in the quantum financial system and they are assessed program is \$10. They can pay that they can \$1,000 a week, they can get out of the poverty that they thought they had stay with. Homeless people, baby, there's those who do like living on the street. Most people don't, but there are those who do. And those who are there because they lost their job or had some problems with health, and they, they lost their home. And of course, that's just disgusting. Because there's so much that the cabal has and they, they kick people out of homes, those people should be kicked off the Earth. Our home is a sacred place. And that's the way that I look at it. Everybody should have a home, that is their safe haven. They can go there and find love and joy and happiness with their family and with people that they invite over as guests. That's the way it's supposed to be. And all of this garbage that we've had with the cabal is going away, because it's not what the what is not the way that God works. Just remember that Satan has power over exercise His power over other people who feel that they are that his stuff is more advanced or whatever. I'm not as good as they are. That's what we that's what they created for us. That's why they made us slaves. And boy, we did a good job. Well, we're not doing it anymore. We're not slaves anymore. We are children of God who have a creation process involved in our lives. And that's what makes us different. So we do it, we create things. Okay, as wealth is distributed out opportunities of higher education and higher achievement, could become available, I believe that not just could it will become available. And people will start because they have a little bit of money and again, can get more all they have to do is just do the bonus programs and so forth. Those are the things that are available for us to pull us out of the the drought consciousness of the lack consciousness, get us into the abundance, continent consciousness. That's what's available for us. It's all there. It's all there. So let's watch who we venerate. Let's watch who we think are better than we are. It's not as if we have to have a comparison. That's not what I'm looking for. We always do compare unless we're happy with ourselves and then we don't compare. But if we lack something, then we start comparing ourselves to other people. And we get whiny and well they got more than oil and keep up with the Joneses. Well, everybody's going to be the Joneses now because they all have opportunities with money to do the things that the Joneses did. If that's what turns them on, if that's what makes them happy. seeking for the peak enjoyment in life. That's what Cuba has told us to do. So we do it ourselves, we don't emulate other people, that'll be our best help. Let's go to the next one.

C

Carrie 15:13

Okay, the ability to work will be important, even after this wealth transfer begins, using employment contracts will add a significant increase to a person's wealth, people will want to do the work they love and want to do, and the additional income will be a big boost to every community.

R

Ron Giles 15:36

And that is true. You know, if you have a bad leg, then you use crutches to move around and get around. But well, if you can create something that you don't have to use crutches for with the problems that you have, what I'm trying to say is employment contracts are just, as far as I'm concerned, it is a step in the right direction. But it's like, it's like crutches, or a walking, the thing that you use to get around when you're older. Those are all things that take the place of something that we could do, we're going to get rid of all of our crutches know that people will need them when they get hurt. But the idea is that those are crutches in a, the employment contracts are, are a crutch to get us through this transition period. If people start creating on their own, and having a lot of fun doing so they create the kind of work that they really want to do. Now, if you're an automaker a viewer on the line there and you enjoy your, your job. And when you're finished, you look down and say I did that, well, those are things that come back to you if it's something that you're enjoying doing. But if you're working around a bunch of jerks and a bunch and your boss is a jerk, then you don't want to be there. But you have to be somewhere to make living well. Those are the kinds of people that can say I'm going to start doing things on my own, I'm going to create something, Mom and Pop organizations will pop up all over the place. We have been we have been deprived of the beauty of the local candy store, the grocery store, it's not very big, it's not a big, classy place like the big box places are. No there's going to we're going away from that, because that's the Cabal sway of business. Let's get rid of these larger organizations and start having restaurants that are done on a unique sort of basis rather than a McDonald's. You know, a lot of people like McDonald's. I can't stand it because they put baby stuff in their, in their, their meat. They've been doing that for years. And others have done it but they've been told to stop and they have. Okay, well, let's find some other things that we can produce. What about those who have the ability to create a new business? Doing something that they enjoy? What about the eight? Or what about dancing? What about dance lesson giving dance lessons? What about having square dances where you learn how to square dance and become really good at it? Those are the kinds of things that can happen. Those are the kinds of entertainments going to be open because people have money and they don't have to work three jobs. So they got extra time and they're wanting to do something with that time, that's going to expand the entertainment industry, not necessarily movies or anything like that, what you can create stuff to do. In the entertainment industry, it's all available for us. You just have to get out and get it done. So I think that business contracts. It'll keep the society going, keep our communities going. But eventually the mom paws will take over the restaurant industry. You'll have local settles, you have a specific menu that you really like. And you go over there and then you've got another one over there and another one over there and they just all pop down because they have the money to start. And they love to do that. Those sorts of things. That's what's going to happen in society. That's what I think is going to happen to society. We just have to transition between the old and the new and we'll See how that all works out. But I think that people need to learn how to come from their own hearts, and create things that they enjoy doing for their way of making money in life. And in fact, and indeed, if they need to make money, if \$1,000 a week or \$4,000 a month, is sufficient for their needs, and they can go out and produce all kinds of educational things or, or just their own uniqueness, that's, that's going to be prevented. They're presented to the world as their contribution to the community. I think that that's wonderful. And I encourage that, because

that's the way we're supposed to be living. Now, big box, Kmart, and Walmart's and all that sort of stuff. Let's get rid of those kinds of large corporations that were produced by the elitist to milk us. And that's just learn how to enjoy life on our own. Okay, let's go to the next

C

Carrie 21:06

one, the receiving of wealth is the same as receiving energy. Money represents kinetic energy, energy that is in constant motion, the right use of money will translate to the right use of energy, money use this energy wants to be used for the right purposes.

R

Ron Giles 21:28

Big Amen. To that, I'm going to say that the quantum financial system is total love energy. When they do the digital gold certificates, they are representing gold pulling out there as backed by gold. But it is the highest degree of love energy that any currency has had on this earth before. And it will be maintained at that high level because we have the quantum financial system that will not let money be used for the wrong thing. That's what's taking place. So I just really love the idea that this kinetic energy, this love energy, imagine if we really understood that every time we go to the store and extended, it is an exchange of love energy, whether the love was put into the creation of what you're buying, or the money that you're using to buy it. That is love extended, those are energies. Now those are transactions that have both sides of love being manifest and created at a higher and higher and a higher rate. This money is love energy, that we're talking about love energy. And when you lose, use love energy for transactions, then everything builds with love. That's where we're headed. That's what this is all for. It might be a new idea, but it's time for us to really get involved in that kind of a concept. I buy things that I want. And I appreciate them. And I'm grateful for them. And I'm sending you my love through my funds to buy what you just received and what you just made is not a great idea. Great concept. Sit down for a meal was a beautiful meal. Thank you very much. I see your heart is in it. And my heart is in giving you my fans that will create the love energy of this transaction. So I hope I'm saying that all right. Okay, let's go to the final thoughts. already.

C

Carrie 24:05

How we use money will determine if it's a curse or a blessing. Treating money with respect and righteousness provides the joy and happiness we're looking for. And life is just better when there is a flow of money coming in and I'm going to add going out as well to keep it in balance.

R

Ron Giles 24:26

Yeah. Me me me and going out. Final thoughts. I agree with this 100% trading money with respect. Have you seen people who just throw things around and others who place things around? They throw the keys on the table they throw this out I think there's a lot of disrespect there. But there could be something different if they started placing things, instead of throw a sandwich on the plate and throw this, that and the other there. And then that's what he and there's no, there's no meaningful exchange with what you're doing. You're just perfunctory,

you're just a robot. Appreciate thing, have gratitude. We feel oftentimes that food is just an entitlement we're entitled to, well, somebody had to create it. And yes, the bad people are out there helping to create it, and that sort of thing. But things are changing, because those bad people aren't going to be out there creating anymore, we're gonna get rid of those people and get farmers that want to farm the land and create things for the use of mankind. We get, that's what we're doing, we get a chance to do that. Buy these for sale lands and find families who were ticked off the land who are farmers, farming families, let's see if they want to participate again, people love farming. People love farming, because they can see the end result of what they've done that year. And if they have a good yield, then that's what they're sharing with the rest of the world. And they, you know, and then they get money from that, but the way we're going to do things, they get money before there. So things are going to change, and let's just allow that to tank to be a part of it. So Wealth Management series was designed for us to understand the use of wealth, and the money and find joy and happiness in that money. That's the net result. So I hope it's working out for people to at least get an idea of what we're trying to accomplish. Okay. So now,

- C** Carrie 27:14
we have some questions. So we have some questions. Shall we have some questions?
- R** Ron Giles 27:19
Yeah, let's do some questions.
- C** Carrie 27:22
irod first i rod your mic is open.
- S** Speaker 27:25
Hello, can you hear me?
- R** Ron Giles 27:28
Yes, hello.
- S** Speaker 27:30
Listen, I'm gone around. I, when you first started speaking, you have me in an emotional state, because I feel you're going through a lot yourself. And you've been working on this for so long for people not to get the the process of how to accomplish the test that they're supposed to do. And I think you're right, who was that people are lazy. It's just that they're not prepared. Okay. But I'm telling you, my heart goes out to you. You're under a lot of stress, and I sent you not anger, but I'm just worrying you. I know you want to make this work. And I know, I speak for a

lot of people here that concern of how not abrupt but you had a you, you spoke the truth. And they had to hear you speak the truth. Because I'm a strong person. But I get emotional when I hear people going through stress and anxiety, because the people don't get it. And another thing I want to agree in the question is, I am kind of glad that you created the the holding trust, because that's going to make people more to go to work now, because of depending on the 10 cents with six trust in seven with a 70 cents, they might not want to go to work. Now they have a motivation to go to work and find employment to get more funds. So my heart goes out to everyone for letting me speak. And I love you. And I love everybody involved. And I just hope they listen to you because I have been motivated by you by putting my binder together to get Zims all together. And I'm asking you for quite a lot of funds to be able to support not this country, but the entire planet, to be able to have enough funds for the Alliance to take and use the funds. So I'm with you all the way and I love you and I feel for you my blessing.

R

Ron Giles 29:40

That's that's just really great. Thank you very much for that. And I would say as part of what we do, part of what I do, this is my passion. This is what I love. And and when it's appreciated like that, I sure appreciate it. Thank you very much Right.

C

Carrie 30:02

Okay, Brenda? Brenda, your mic is open.

S

Speaker 30:06

Hi, everyone, how are you doing today?

R

Ron Giles 30:09

Good, Brenda,

S

Speaker 30:11

I have a special request for everyone in laguan society. If I may, go ahead, I'm not this, some of us are going through a very difficult time right now. And I would like to ask everyone to please keep your vibes as high as possible. No infighting in the chat and putting other people down. And help those people going through a very difficult time right now. Help them keep their bugs up. If you don't understand something, go to the website. It's in the website, everything is on the website. And I mean, everything. Everything we need to know up to this point is on the website. Let's keep our vibes high. I'm sorry, let's keep our vibes high for people like myself that have had a tralgy key in our family. And we're trying to get past it with a broken heart. Can we please all do that? Thank you.

R

Ron Giles 31:13

RON GILES 31:43

Nicely put, and it's appropriate for you to come and ask those kinds of things. We love each other. And we need to learn to be more kind to each other as we communicate. Putting something on an email, or on a chat is just the thoughts. But we don't recognize that other people will see that and how will they react to it? If you're not coming from the kindness, area of your heart, then maybe take a second thought and be sure that you cleanse your thinking before you post something that's negative or to demean somebody else. We love each other so why why don't we treat ourselves that way. I feel like to see love prevails. Love works. So I agree with you. Thank you for your help. I'd love to have a lot remember Elaine.

C Carrie 32:59

Brenda. Brenda.

R Ron Giles 33:01

Thanks. Good job, Brenda.

C Carrie 33:05

All right. Let's go to my Reiki mu my Reiki mu

S Speaker 33:14

Hi, first of all, I would love to express my deep gratitude for everyone here and then and your team for what you're doing. I wasn't sure why I felt so compulsive to raise my hand until I heard the last lady. I am sitting in my nephew's home right now who passed yesterday, who is a veteran and struggled with addiction. And it's so important to understand the difference between who each person really is and what they're experiencing as I've been helping here have come to see find out what was his deepest secret that he was navigating and Medicaid for with the alcohol and drugs and at the same time. He was trying so hard and accomplishing his certificates and and and trying his best. It was unnecessary for him to miss the full experience of fatherhood. He has an eight year old son. But we need I just feel so important that we that thank you for this opportunity to share this moment because we need to love now and appreciate everyone who lives in an area where there's a lot of homeless and they're each an infinite being of love and light In the temporary and Phantom experience of what they're going through, and my work is all about long story short, I was told I had six months to live 25 years ago, experienced a spontaneous healing. And my work is all based on that experience, and helping people clear what's locked in their vibration that's generating their alignment for experiences such as homeless such as addiction, such as. And we've got to make it safe for them. To open to bring that to light and transmute it. And it's my hope that I can. The tools that I've been blessed to bring for that I can help anyone who's wanting to help people like that, to understand that they, they need some inner work, they need to clean out their inner home, their their body, mind and spirit that's contributing to this alignment of homeless. And I just wanted, I wanted to share that, and I wanted to, uh, thank you so much for the conversations today. And I also had a question for you, Ron, it's my understanding that I just wanted to say

we need to love now and appreciate people's existence, wherever they are, appreciate that they're alive, because while they're alive, they can still do something to change their life. And as we were speaking about money being kinetic energy, this is so my understanding, and in my previous life, in the business world, it's my understanding of the quantum financial system is that it's a reflective experience of the infinite supply the infinite supply of love that we are innately connected to. And we've had enough race and consciousness that there can be a manifested form a reflective form of that. And I was curious what you thought about that?

R

Ron Giles 37:15

Absolutely correct. Where we have the power, the power has been X exerted, and the cabal is on the way out, and we are, we are left to pick up the mean up the trash, and pick up the things and create, recreate a new existence for ourselves. Amazing, thanks mankind. And so it's going to happen, it's going to happen, because that's who we are, we're creators, we will create. We're children of God, and we have the spark of God that's moving in us. The Spirit of God is moving in us. Everything is coming together now and we don't have the Cabal to stop us. So we're gonna get it done.

S

Speaker 38:08

In my work, it's been so helpful, since I found you carrying the higher dimensions, you're the first group in person and that spoke to a spectrum of this global reset that spoke to me that had the spiritual component to it truly, at another at a senior level. And I've created a special project for humanity. It came as an answer to how do we move out of this chrysalis time my work is a self metamorphic process. And it's a very simple and, and fun project to, to help catalyze clarity and to get the focus off where we were. And to help each individual person catalyze their clarity of what their ideal world what life after the RV matters, not which idea they focus through. But to help transmute the stuck energy of what they don't want into what they do want it and I feel very, very inspired. I will really love to offer love one, the first access to it, it'll be ready in a week. And without any pressure or need for a response right now, I would just like to offer that and if you if it feels Yes, let me know.

R

Ron Giles 39:38

Well, we contact this by just returning email to Tracy, and that'll

S

Speaker 39:47

help support us becoming increasingly aligned with this thing that's inevitable, but really supporting everyone that's been aligned to find you because I find it the highest cut appreciation. Thank you. Thank you for following your yes following your heart and stepping out into the the the razor's edge of all this fearlessly.

R

Ron Giles 40:20

Well, when I listen to somebody like you, I just thank God that we are alive and well and that

well, I when I listen to somebody like you, I just thank God that we are alive and well and that we're attracting this kind of people. There's a love energy that's going on with us in our groups. That is tremendous. And is that not what we're about is the love. And let's not forget that we follow with love and when the money comes is still love energy. So we manifested all love all the time. Isn't that wonderful? Lady and thank you for sharing with us.

S

Speaker 41:01

Thank you for letting me speak.

C

Carrie 41:09

Going to go to Jen Reed. Jen Reid. Fisher, your mic is open.

S

Speaker 41:18

Can you hear me? Yes, yes. Okay. Good. Ron, I wanted to thank thank you from from within my heart for your email, because it Oh, dear. I'm being overwhelmed by emotion. It was fantastic. I know that it was very difficult for you. But I wanted to say thank you. I really feel and I apologize if this offends anybody that it was meant to separate the wheat from the chaff. And to help people wake up a little bit more. I appreciate that you've received me to speak now because I've repeatedly put my hand up and it keeps getting shut down. My stewardship came to me in a blink of an eye almost a couple of years back, and it has continued to grow. And at the beginning of this, this chat today, I received a much larger download than I normally do. But it was a solution for for the RSS, and how to get out there. And I apologize if I start slowing down when I speak because it might come out is what what my loved ones have always called Gen language. I'm not the best at presenting information. I just am a challenge solver. And so I my my stewardship is quantum humanitarian financial. And my heart has just told me that it is intended to be a close knit net for all of the fate failed central banks of the world to fall into. And, and I apologize, I don't have all of the details. I mean, there are a lot of details to my stewardship. But basically, quantum humanitarian is meant to acquire all of the central bank logos, personas, what have you and and bring them into and within the QH the quantum financial system network. So how my heart has told me this is going to go about is that each central bank monopoly is going to be brought to light as having overreached into humanity's pockets, by giving a public apology on all platforms, all public platforms, and basically inviting humanity to make an appointment to go into a quantum humanitarian financial service center or a smaller project for h squared Community Assistance Center or through a network CAC, that will be part of what I call the hacker project to sign up to initiate or begin receiving their stolen revenue through the RSS and I know that sounds kind of it's it's very raw, because I just got this download. And I don't have all of the details. But my my stewardship is quite robust and this this last download is much larger than anything. I am as one person I need help from LW s to make this happen. I'm grateful for the New Earth foundation because they will need to assist me in getting the service centers and the financial service centers. Set up you know give them a new With a new look and how to run, but essentially all the infrastructure is already there, we just need to roll humanity slowly into the quantum financial system. Just so I, I started yesterday trying to create a group on linked to QFS, or excuse me two loved ones, B, I don't quite know how to go about this. So I have reached out to a few key people. And I am going to need some help. And I realized there are probably lots of other humanitarians that their, their

calling is to, to work within the financial services sector. And I do not intend to step on anyone's toes, I just know what my stewardship has, has been from the get go and it's growing. And now it's much greater than anything than I can accomplish on my own. So I need I need help from from my brother and sister humanitarians here and LWS.

R

Ron Giles 46:10

Well, let me just kind of explain your positioning yourself to be involved in the financial service industry. The banks are being cleared or cleansed of their negative people. And they're working down through the middle management, upper management down into the middle management to find the people that can be trained to be part of the financial service industry are calling us the financial service centers, they will take the place of what the banks have been doing now. Now, there are some banks that have not started or perhaps they have, but I said that wrong. There are banks that won't do what they're supposed to do. So they're going to be allowed to go bankrupt. Because there's no money in banking anymore. The SWIFT system destroyed 86% of the bank's interest, or income, because the quantum consciousness takes the money and sends it to the new person, or to the person that was intended to and bypassing all of the banks, trading companies. And that's how they made billions and billions of dollars using other people's money overnight, all that's gone away, and they have no money coming in. They've only they're working on 14%, let's say that we have the income that they can create. But it is insufficient to feed this this humongous monster anymore. And so the bad people taking out and the good people in Minnesota, that was one of our people have said that the Quanto Q. Credit Union had is now calling themselves financial service centers. They're physically saying that we are a financial service center. And so the financial service center are being trained by the Cabal at the present time to take over, it'll be a seamless takeover, nobody will really know about it unless there are people involved. They have a certain amount of money, but they're going to require us to come in with our funds. So we get from the humanitarian project, or from the redemption centers to take over the financial system, which will the base will be the financial service, or excuse me, the quantum financial service. But we will interface with the quantum financial service in a local area. To take care of the businesses that people need. You aren't alone, you go there. If you want to get cash for a purchase of something that you want to do from somebody else, then go there and get cash for your from the quantum financial system. There'll be just perfect. And so you're preparing yourself now. To be a part of that. So keep your eye

S

Speaker 49:28

on understand. I do understand.

R

Ron Giles 49:33

Good. Bless you. Thank you love your heart. Welcome.

C

Carrie 49:42

Just one note, everyone, the telegram app will lower your hand. It's up for a while. We don't do that on our end. It's kind of an automatic thing. It's a little bit of a glitch from my perspective

and on our end, it's kind of an automatic thing. It's a little bit of a given from my perspective. So if you're Put your hand up and it kicks you out. Just raise your hand again. Hey, go, John. John, your mics open now? John

S

Speaker 50:17

There we go. Hello, everybody. Hello, John. How you doing?

R

Ron Giles 50:21

I'm doing well.

S

Speaker 50:24

Yeah, you are doing well, you sound amazing. And yeah, you know, I've been, I've been here from the start, and you're in eight months or I can't, whatever you started. And that, yeah, I saw two things, the email that you sent, hit my heart. But it motivated me to get back on the horse, because in the last few weeks on would know, I sort of been traveling and so anyway you motivated me from from the heart. So I appreciate it. At first it was like, ouch. But, you know, it was meant to be for me. The other thing I wanted to ask you, and again, I reached out to Dom a lot on this one and NTU. And your answers have always been from the from the heart from God, but the alcohol and drug I'm gonna say, people. And for the RSS program, it was really hard for my conscience in my heart to just, you know, sign up, and you can get up to 360,000 a year and just sign up with a six trust and, and on my my gut saying they're going right? Because I, my family and circle of friends have been in that circle. So I'm aware of the disease. So, so when you came, so when you came out with this email today or yesterday, about you know, when you go to sign up for the RSS, and to go into the next trust, your vibrations have to be at a certain level to go to the next level. I love that. And then I don't know if I'm off course here by saying. So, you know, if they start going off the wagon, I'm just gonna say their vibrations will not be high. So what can they they won't be able to get, you know, trust two or three or four. I really, really, really liked that. But it is. Because that's true. It's almost like a lie detector in the heart. Am I on the right track with the thinking? That's, I mean, it's just to me, it's a godsend.

R

Ron Giles 52:41

Well, it is God's and because he taking over a vetting process. See, we don't have any control over who signs up as far as beneficiary or as has beneficiary. We don't want that control. That's up to God. We just allow it to be there. Now, the alliance has said well, there's people who will sign up that will use the money inappropriately. So let's interface with the RSS platform. Now, this is this is unusual. Obviously it's unusual. The Alliance will be in charge of the buttons on your back office. If you get a button to make a new trust it'll be put there by the Alliance now by if you're going to get a home, the information for about a home will be there. Because the Alliance put it there will create all of the documents and everything that's necessary. But some people are wanting to buy a house and some people want to sell a house and some people want to re finance a house recalling their equity redemption. Loved One society will pay all mortgages. Loved One society will pay off all mortgages for anybody who applies. Now, there's

a lot of people who say, Well, you're just giving the money to the Guess who's in charge to the money quantum financial system. You think the alliance is going to allow them to use that money? It doesn't matter to us we have let's talk about some numbers. I you know, how do you estimate we're the country United States has in 22 or \$23 trillion in debt. They call it the national debt. And our income tax pays for the interest payment and on the national debt that was created by the Cabal will all of that's going away. All of it is going away anything that's fiat currency is going away. However, between the time that we get our money and the time that the sorry is announced, might be two or three months. We don't know. It's that interim period that we're working with. But we want to be sure that we can hit the ground running with getting home people into homes. And so the alliance has said pay off that mortgage, so that they are free of that encumbrance, we come in and give them the full amount of their home that they're buying that they're selling. And we don't pay. We've already paid off the mortgages or the encumbrances. So that person has a property free and clear of mortgages and encumbrances. And he can sell his house without having to there's three \$400,000 Homes is \$365,000 in mortgage payment, or mortgage and the equivalent payments, we pay all that off. So when that person is ready to sell his home or her home, then they will get the full amount for their home. And you don't have to share it with anybody that's wanting to pay European the mortgage already paid it. It's going to be free and clear. Now it might take some time for the mortgage people to get that cleared in the title in the in the place where you record titles. But we don't we don't care about that. That's all cabal stuff, they gotta go and, and can record your titles, so they know who to send the tax to the tax certificate. That's the only way that I can justify what I feel you can justify with using their system. So we're not going to use their system anymore, the transfer of a property is going to be by a bill of sale. In other words, you buy and sell a piece of property by a document that's called the bill of sale and all of the terms and conditions that you want to put to one another are in that bill of sale. It's an agreement who are the two people that will hold know about that two entities will know pennant number one is going to be the quantum financial system because it was a transaction. The Quantum financial system has a history with it that will last forever. So if somebody wants to thinks they, they have access to your property, they have to go through the quantum financial system, which tells them it's you none of your damn business stay out of here. Now the other place will be in your back office in the quantum or excuse me in the revenue sharing platform. You will have all of the signed documents and all of the things that are necessary to show that you are the one who this person sold his house to me or her house to me. Now I own it here is the deed of that sale will be in the bill of sale. Now, other people might want to still say well we use real estate or people like that. It's okay. They'll say well we should we need to do a title search we need to do all this sort of stuff to be sure that when you go down to the county recorder and find out who owns a house and you'll find there you'll make an application and find out what they owe on the house. Well, the the encumbrances are not going to be paid off as far as the records are concerned because it takes time but you have record of it being paid off because the money will go through your back office you will get paid you will find out from the Alliance how much your money it how much you owe. It will be put in there and then the money to pay off that debt will come through the Managing Directors master account it's just something new for Madison many directors they're going to be in the housing business they didn't really understand it. Well that would you talking about 1.25 1.25 quintillion at corner at 100 T note 100 T note and 500 Alson that's a minimum anybody's really you're going to have, but quintiles dollars there's nothing in the world that's over a quarter quadrillion. Rothschilds half a quadrillion, but, you know, it takes 100 quadrillion to get to a one quintillion or 1000 quadrillion to get to 1000 to one quintillion. So, quads are just, you know, they're a bucket of water out of the ocean for us to take care if and that's why the Alliance wants us to do it this way. Did you have a question?

S

Speaker 1:00:41

I just my last thing that was on the RSS. And, you know, who am I to judge who I get to sign up or not? I love the fact that I don't have to judge. Judge is not new shall not be judged on the Bible. So I love this new program. I mean, everything's evolving, and you're rocking it. So thank you so much.

R

Ron Giles 1:01:04

Well, we're just doing what the Alliance wants us to do. I appreciate your comments. John, thank you very much. Thank you.

C

Carrie 1:01:14

So we have teamed up to finish out today, Ron, we're gonna go to joy boy next.

R

Ron Giles 1:01:21

Okay, joy, bye.

S

Speaker 1:01:25

Hello, how are you? I hope you're all doing well. Yes, yes. Last week, I've been sick, and I haven't I wasn't able to attend. So my question is, if I will give you a read. What do you think is the preparedness of LW s right now, let's say the redemption occurs this December or November, because I can feel things are changing a lot. And I think people are waking up to the reality of the inflation globally, hitting people very hard with rising interest rates. And I can feel it too. Because I had loans with a floating interest rate. So the interest rate of my loans are getting expensive. They are raising monthly. So yeah, that's my question if we are prepared if the redemption takes place, this fourth quarter.

R

Ron Giles 1:02:41

Well, as far as love on society is concerned, we have our issues and things that we're changing to prepare for the redemption appointment. So that when the redemption appointment comes, we can plow into the Nash in the RSS pro platform and start funding homes. And that's going to be between the time we get our money and the time when the SAR is announced. And there's it's not a clear cut case, as far as the alliance is concerned, it may not be announced, it might just be implemented without being announced. You might have financial service centers take over the banks without the banks crashing. And that will just be a seamless thing, because you won't even know about except for Chase is going to say we are now Chase financial service centers, or Wells Fargo financial service centers. Those are the ways that we can see it happening. But are we ready for it? That's a different question. Now, if we take care of ourselves and do what? And respond to the accusations that have been given with a loving

energy in that, thank you, we Yes, we do have these problems. So as long as these problems are solved, you know, if you have the problem, then the solution is with you. And so the problem comes with a solution, it's they're married. If we focus on the problem, then we never get to this solution because our minds are close to it. So we open up our minds to the realization that there's a solution and we focus on that and then things get get we do our creation energy and we create a solution to the problem. So as soon as we start in on that, then the are the redemption appointments will come that much quicker. I just I'm just saying like the Alliance wants, it said, the sooner we get into this, the sooner the redemption can take place. The Redemption is waiting for us. The qf s is waiting for humanitarians to come to the point that we can go in and get our appointments and redeem our funds that are putting into the quantum financials, we will activate the quantum financial system. Only humanitarians will get the funds. And I'll tell you there's no humanitarians out there that are going to ask for the big funds unless their loved one society, because nobody is telling them that they can do that. I'm saying 500,000 is a minimum. But what about the people who are going to ask for five or 10 million. They've got 100 quintillion or Yoda Lillian Noach. I've asked about that. And this line says no problems with us, we have all of the funds necessary for you to use all of your 100 your Lillian's asking for five or \$10 million, whatever your art has said. So, and the instructions with everything is that have them use the rate that they get from their heart. So if you get more SK ours, you get the second round, you you don't change your rate, you just put that in your savings account. And save it for when it's time to use it. And you'll find it, you'll find some ways to do that. That's my understanding of the way that things are going to move forward. So we're right on the edge. If we just do our job, then it will happen. It will happen like a miracle.

S

Speaker 1:07:08

That's also what they feel right now. I feel that it's almost prepared. And they're just waiting for us to prepare ourselves to do the work. And that's what makes me excited. When

R

Ron Giles 1:07:25

Yeah, we're gonna get, we're gonna get it done. We're going to solve the problems, we're going to solve our own problems, and we're gonna get to the point where we can be really excited about the funds and have them come in. And then we get to go and help people.

S

Speaker 1:07:41

Yes, yes, I'd rather busy helping other people than at my work.

R

Ron Giles 1:07:49

I understand. I understand. Thank you for your comments.

C

Carrie 1:07:55

All right. Ron, do you have any last comments you'd like to make before we close for today?

R

Ron Giles 1:08:04

No, my closing statements were well, I just made to this young man. Okay, they were great, too. When we open ourselves up to the reality of that there is much that we are not getting done yet. Let's get it done. Let's change our minds. And if we were slacking off a little bit, then do what you can change your whole life, but change your attitudes about things. So that the right things are getting done with the effort. So you're putting forth that's all I'm saying. And they just love that idea. If we can come up to speed then they're just waiting for us to happen. And then we get the funds and away we go. Nothing's going to stop us. Nothing's going to stop loved one says nothing is going to stop loved one society from making a major change on this earth. We are the ones who can do it. And so we're going to do it. That's just the way it's gonna be. I love you all. I appreciate it. Thank you, Dom and Carrie for your wonderful work. You are gems. You're God's greatest joy. Thank you for being a part of loved ones society. I appreciate it. And I have no issue there that's doing the same thing. And, and Kristen, and there's there's others and Bob. He's here working and doing his job. We're just lucky to have the real good people that we have. And so I'm grateful. And I thank you.

C

Carrie 1:09:51

Well, we we so appreciate you and being you know, as Q says it's our great honor to be working with you and serving level one society. And we will be back again next Tuesday. And at that point, we'll talk about New Earth Foundation and the changes there. We'll also have a training on Friday in the projects room. That'll be at 2pm. Eastern and we'll be back with Ron here in the main room next Tuesday at 2:30. Eastern and most of you know now that we open up for questions and comments at about two o'clock Eastern. So thank you all for taking your time and your beautiful
