

SCHOOLS OVERSPENDING MILLIONS ON UTILITIES ARE ENTITLED TO A REFUND

PROBLEM

The current problem is that many schools are facing budget challenges and have no idea that they are being overcharged to the tune of \$19 billion annually by their utility companies according to the US House of Representatives, Ways and Means Committee. This includes bills such as electricity, gas, sewage, water and telecommunications. According to the Consumer Federation of America, AT&T, Comcast, Verizon, and Charter Communications overcharge their customers \$60 billion dollars annually!

SOLUTION

Eco-Enterprise conducts forensic retroactive review of schools' utility bills in order to find overcharges that may warrant a refund. Eco-Enterprise's "Utility Cost Recovery" service is comprised of a team of auditors that have successfully acquired refunds for schools (from elementary to university), Fortune 500 companies, and other non-profits, such as:

Our experts have 35 years of experience providing refunds with an 87% success rate, which means approximately 9 out of 10 schools will receive a refund.

eco-enterprise

We drive sustainability for companies, nonprofits and governments while saving them money.

WHY ECO-ENTERPRISE?

Eco-Enterprise, Inc. helps businesses and non-profits save money and drive sustainability by providing the following:

1
Unique
Financial Solutions

2
Cutting-Edge
Technologies

3
Smart City and
Building Automation

Organizations can significantly reduce expenses by engaging Eco-Enterprise to help acquire refunds from unknown overcharges on past utility bills. Schools use the immediate refunds they receive to reallocate towards other capital expenditures. Eco-Enterprise offers cutting-edge technologies such as: *COVID-CLEAN* products/services, Smart Power-over-Ethernet LED lighting, HVAC optimization, improved solar energy, electricity demand reduction, etc. Moreover, Eco-Enterprise provides schools with building automation software (eco-system) to monitor and control all buildings—increasing efficiency, sustainability, and safety.

WHICH SCHOOLS QUALIFY?

To qualify, a school needs an electricity bill, a telecommunications bill or a gas bill of minimum \$3,000 per month.

HOW DO SCHOOLS RECEIVE A REFUND?

Visit <https://eco-enterprise.com/new-client-application> and complete the application in less than 10 minutes. Upload the 1) school's contact information 2) Tax ID, and 3) the most recent utility bills. Eco-Enterprise completes the research and provides a forensic audit of the utility bills for FREE. If the school receives a refund or credit, the school keeps 50% of the total money recovered and Eco-Enterprise keeps the other 50%. The refund check or credit will be issued within 3 to 6 months. If there is no refund found, a school does not owe any payment whatsoever.
