

# ORGANIZATIONS ARE OVERCHARGED ON SHIPPING, SAVE 30% OR MORE

If your business or nonprofit spends \$350,000 or more in shipping with DHL, UPS, FedEx and/or third-party logistics companies, you are most-likely unaware of how much overcharges are costing your organization every year.

Eco-Enterprise advocates transparency throughout the shipping industry, because we care about giving your organization the best tools to drive sustainability while saving money. Our experts provide comprehensive, localized shipping intelligence so that organizations, like yours, can catch inefficiencies. We start by revealing the rates offered by shipping carriers as benchmarks not just by your industry, but by your specific region. We provide practical advice that helps to clearly identify opportunities for measurable savings. We work on your behalf to make sure that the desired results are achieved. Since 2006, our experts offer a unique, proven process for Shipping Recovery:

## CONTRACT ANALYSIS & NEGOTIATION

Save 30% or more on shipping costs by leveraging our expert insights.

## INVOICE AUDITING

Save 3 to 5% by capturing refunds on late shipments and billing errors.

## REPORTING & ANALYTICS

Maximize efficiencies and identify new savings with real-time data.

## OUR SHIPPING EXPERTS LEVEL THE PLAYING FIELD

By choosing to work with us, your organization will access zero-risk services performed by former shipping sales executives that have saved clients millions-of-dollars for over a decade:

- A dedicated team of local experts gives you unmatched local knowledge
- Complete industry transparency helps you identify measurable savings
- Proven experts to complete invoice auditing, real-time reporting and analytics, on your behalf
- All at ZERO-COST...If our team cannot save you money, we do not get paid!

eco-enterprise

We drive sustainability for companies, nonprofits and governments while saving them money.

# WHY ECO-ENTERPRISE?

We drive sustainability for companies, nonprofits and governments while saving them money. We do this by providing the following:

1

Unique  
Financial Solutions

2

Cutting-Edge  
Technologies

3

Smart City and  
Building Automation

Businesses and nonprofits can significantly reduce expenses by engaging Eco-Enterprise, Inc. to implement unique financial solutions to acquire refunds from unknown overcharges. Organizations use the immediate refunds they receive to reallocate towards other capital expenditures. Eco-Enterprise offers cutting-edge technologies such as: COVID-CLEAN products/services, Smart Power-over-Ethernet LED lighting, HVAC optimization, improved solar energy, electricity demand reduction, etc. Moreover, Eco-Enterprise provides building automation software (*eco-system*) to monitor and control all buildings—increasing efficiency, sustainability, and safety.

## WHICH ORGANIZATIONS QUALIFY?

To qualify, an organization needs to spend \$350k or more per year on shipping (e.g.: DHL, UPS, FedEx and/or third-party logistics companies).
