

BATHTUB KING

Refinishing of California, Inc.

1875 W. Carson Street, Torrance, CA 90501

800- 882-5464

Have you ever been afraid of slipping in the bathtub?

Here at Bathtub King, we have the solution for you.

A PERMANENT MAT

- **WHAT IS A PERMANENT MAT?**

- After your brand new tub was just refinished and after the cure time has been completed. You can add a permanent mat to avoid the slips in the tub.

- **WHAT ARE THE ADVANTAGES OF A PERMANENT MAT?**

- After your tub is refinished suction cup bathmats cannot be used. The suction cups can adhere and cause the surface to peel when lifting to clean. Everyone can benefit from a non-slip treatment. Ideal elderly, families with small children, and rental units.

- **HOW DOES A PERMANENT MAT LOOK LIKE?**

The full size of the mat is 16" x 34" for comfort and safety. With this, it has a half-inch rounded corner for better grip, and 15 millimeters thin edges stay clean with no shrinkage of the mat.

- **HOW MUCH DOES IT COST?**

- If you purchase a permanent mat with us you will have the satisfaction with great results for only \$20.00. We truly recommend using the permanent mat versus a suction cup.

Simple Installation Procedure - WILL NOT DAMAGE REFINISHED BATHTUBS!

This is a sample of our
Permanent Bathmat
