

**LAUREL LAKES**  
REHABILITATION AND WELLNESS CENTER

Dear Laurel Lakes Family,

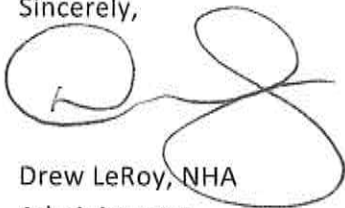

Over the past several weeks we have been working with our hospital partners and regulatory agencies to implement and monitor ongoing recommendations around COVID-19. We have been in consultation with representatives from the RRHCP regional team and Wellspan Health, along with the Pennsylvania National Guard seeking expertise around our efforts. We anticipate further discussions with Wellspan Health / Chambersburg Hospital's infection preventionist seeking collaboration around infection control protocols to ensure the ongoing safety of our residents.

I believe that every resource at our deposal is highly valuable as we work to manage COVID-19 and support our residents. As a prudent step, for the past five days we have been the beneficiaries of readiness support from the Pennsylvania National Guard for care assistance. Their dedication, commitment and expertise has truly been invaluable. We are profoundly grateful for the extended support provided by the Pennsylvania National Guard and the Healthcare Coalition for frontline care and service assistance at Laurel Lakes Rehabilitation and Wellness Center.

While our thoughts, efforts and prayers are focused on our residents and our families, we also want to thank those nurses, doctors, therapists, aids, housekeepers, dietary staff and maintenance teams that are working tirelessly to care for our elders. Their brave professionalism and dedication to the people in our care is a testament to the love and respect we all share for our residents.

We sincerely wish our community good health and will continue to issue periodic updates to maintain good communication. As we approach this holiday season of Thanksgiving and Peace, we want to reassure you that this team of healthcare providers and ancillary support staff cherish the trust and sacred responsibility of caring for your family member as our own. Please reach out to me if I can answer any questions or provide more details.

Sincerely,

Drew LeRoy, NHA  
Administrator
