

SOUTHWEST WASHINGTON WOODTURNERS

NEWSLETTER – *AUGUST 2018*

Visit our website at <http://www.southwestwashingtonwoodturners.com/>

Regular meetings are held on the fourth Wednesday of the month.

AUGUST MEETING – 7:00 p.m. Wednesday, August 22nd, 2018 at Friends of the Carpenter, 1600 W. 20th St, Vancouver, WA.

Presenter: Rick Rich with Dan Baker – Bowl Turning 101

August 2018 President's Message

Good Used Tools Available. Dale Larson sends this:

I want to thank everyone that came and helped Jon Schilling clean out his garage last Saturday. Jon has sold all the big equipment except the Jet 1442VS lathe which is still for sale. It has low hours. It would be a good starter lathe. Jon is moving so I brought home all the turning tools that didn't sell. The lathe is still at Jon's in Ridgefield. I have about 50 good turning tools at my shop. They include a lot of bowl gouges, various other turning tools, several captured bar systems, the large McNaughten coring blades and a Lignomat moisture meter. If you are interested in the lathe or tools give me a call and we can work out a time.

Thank you

Dale [503-661-7793](tel:503-661-7793), woodbowl@frontier.com

Sad News. Bill Herrold passed away. Bill was a member of, and on the board of, both Cascade Woodturners and Northwest Woodturners, and always had a friendly smile.

Dan Baker, President

AAW NEWS

From Kathleen Duncan, Member –AAW Board of Directors

This is an important reminder about the AAW elections which opened August 1st and runs until August 31st. We introduced the six candidates at the symposium: Andy Cole, Joe Dickey, Lou Kinsey, Ken Ledeen, Shaun McMahon, and Harvey Rogers.

Those of you who attended the last meeting the auction, heard me ask for you to realize how important your vote is. Your vote will count! Traditionally, less than 10% of our members vote, so just a few people can make a huge impact.

PLEASE GO TO THE WEBSITE, READ THE CANDIDATE BIOS, WATCH THEIR INTERVIEW VIDEOS AND VOTE ONCE THE POLLS OPEN! As of Aug 10th, 745 votes have been cast.

<https://www.woodturner.org/general/custom.asp?page=2019BoardVote>

We do not allow campaigning, but you are welcome to contact any of the candidates and ask them questions. AAW is a good-sized non-profit organization. We have administrative board needs of any non-profit. Please consider that when you read the bios, watch the videos and select your candidates.

Library Update

We ave two new additions to our library this month.

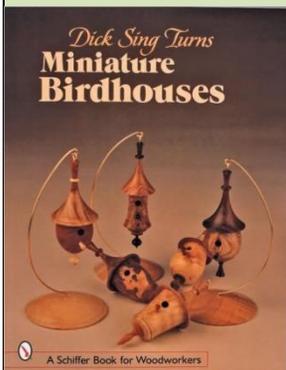

- The first, “**Fabulous Turned-Wood Projects**” was donated by Chet Graf. Thank you, Chet.
- The second addition, “**Dick Sing Turns Miniature Birdhouses**” was a club purchase.

Fabulous Turned-Wood Projects

by John Hiebert, Henry Bergen, Tim Bergen, Harm Hazeu

Today’s woodworkers seek to develop new forms that capture their own individual vision. Using 22 of their finest projects, four masters of the lathe reveal the creative possibilities offered by turned woodwork, and provide innovative techniques and graceful designs to follow. Find out how these experts envision the form a piece of wood should take just by looking at its grain and color. Discover the secret techniques and tools they use to create special effects. The projects range from relatively easy to more complex, but detailed text and color photographs make every step manageable.

Dick Sing Turns Miniature Birdhouses

by Dick Sing

World-renowned woodturner Dick Sing takes you through all the steps needed to create delightful and decorative miniature birdhouses. Starting with a basic birdhouse, Dick illustrates how to set up and turn the body, roof, perch, and finial. Clear, step-by-step instructions show wood preparation, proper use of equipment and tools, and sanding and finishing techniques. Additional chapters show how to add inlays and other intricate details; create birdhouses from rejected pipe blanks and branchwood; turn a natural edge roof; make a tiny, charming, birdfeeder; and fashion an elegant stand on which to display your finished treasures. Includes design ideas and techniques, plus a gallery of wonderfully diverse birdhouses to inspire your creativity.

22 AUG	Rick Rich / Dan Baker – Bowl Turning 101
26 SEP	TBD
24 OCT	TBD
28 NOV	TBD
DEC	

SPINDLE TURNING CLASS UPDATE

The most recent class introduced the spindle gouge. I think they would have preferred the skew as they are much more comfortable with it now. Upon picking up the spindle gouge, they quickly learned to prevent and control entry skate and to bevel rub their cuts down to the center of the cove. The next class is on September 1st, from 0800-1200 and everyone is welcome to come and see the class in session!

Rick
