**W**e are thrilled to be producing our first play. It is a timeless story of good versus evil, of curses and redemption. The four Pevensie children are entering into a world of make believe where they get to influence outcomes for the better. Our actors and actresses have enjoyed stepping into the shoes of so many humans and creatures, and this is the goal of children's theatre: that they envision a world of possibilities which they help create with their own voice. They get to be part of something bigger than themselves, and that's why we endeavored to produce this play. Hartsville children deserve to have an artistic way to express themselves, and we thrive on seeing everyone take the stage and steal the show. Watch the glimmer in their eyes, and then congratulate them for their courage! For us, it is about empowering them to be the future! Thank you for your support!

Thank you for being here today! By purchasing a ticket and taking your seat in the audience, you've done something truly magical: You've helped bring this story to life. Theatre without an audience is like a wardrobe without a secret passage: still beautiful, but missing the adventure.

To the parents, guardians, and loved ones of our young cast, your support is the sweetest delight of all (even sweeter than Turkish Delight, if you ask Edmund). Thank you for encouraging their creativity, braving the carpool chaos, and sharing your shining stars with us.

Enjoy the show, and remember: Some doors open only when you believe.

# About Us

**F**ounded in 2023, Hartsville Little Theatre exists to foster a love of the arts and humanities for local youth by empowering them with confident self-expression in a collaborative environment and by modeling community engagement and healthy exploration of emotional intelligence. We believe that performance arts and humanities cultivates lifelong skills that transfer to various other aspects of learning and life.

We offer a range of educational programs for children, including acting, art, performance, musical, and staging workshops, summer camps, and performances. Our goal is to inspire the next generation of performers and theater enthusiasts.

We offer biannual children's workshops that culminate in a full-scale stage performance of a musical or stage play, with other camps and programs throughout the year.

Today, we will present our first live performance, *The Lion, the Witch, and the Wardrobe*.
