PREAMBLE — THE QUESTION AMERICA WILL NOT ASK

There is a question that does not appear on American television, in congressional floor speeches, in presidential press conferences, or in the editorial pages of major newspapers. It does not appear not because the answer is unknown — but because the answer is known, documented, and politically forbidden:

Why does the United States government protect Israeli espionage operations against American citizens, American corporations, American military and intelligence institutions — and, as this document establishes, against the American nuclear program itself?

This is not a fringe question. It has been asked by former CIA officers, former Chairmen of the Joint Chiefs of Staff, FBI counterintelligence agents, former Mossad officers, members of Congress who were subsequently destroyed politically, and the survivors of a U.S. Navy ship attacked and killed — in international waters — by the State of Israel in 1967. This document applies Devarim (Deuteronomy) 19:15 — two or three independent witnesses — to establish what the full record shows, incorporating both prior Miqdash Bethel research (Doc 61 Balfour to Blackmail; Doc 57 Yinon Plan on www.miqdashbethel.org) and extensive additional documentation.

This document is a covenant witness, not a conspiracy theory. Every claim is cited. Every source is named. Every verdict is under Devarim 19:15.

PART I — THE SEVEN CATEGORIES OF ESPIONAGE AND THEIR DOCUMENTED COST

The documented record of Israeli intelligence operations against the United States divides into seven distinct categories, each established by independent government reports, court records, or on-the-record testimony of senior officials. Together they constitute the most comprehensive pattern of allied espionage against a host nation in the modern era.

CATEGORY I — MILITARY AND DEFENSE INTELLIGENCE THEFT

1996 GAO Report: The General Accounting Office concluded Israel conducts "the most aggressive espionage operations against the United States of any U.S. ally," specifically targeting classified military information and sensitive military technology. The 1996 CIA assessment (Defense Week, August 5, 1996) corroborated this, publicly identifying Israel as "**extensively engaged in espionage**" — ranking Israel the **third-most aggressive intelligence service** operating against the United States, behind only Russia and China.

Jonathan Pollard (1985): U.S. Navy intelligence analyst delivered 800+ highly classified documents to Israel — including the NSA's ten-volume manual on how the U.S. gathers signals intelligence, and the names of thousands of Americans who cooperated with U.S. intelligence. Secretary of Defense Caspar Weinberger's classified affidavit described the damage as "**substantial and irrevocable.**" The same Israeli

handler who ran Pollard — Rafi Eitan, head of LAKAM — had visited the NUMEC nuclear facility in 1968 (see Category 3). One handler. Two operations. Weapons secrets and nuclear material.

Ben-Ami Kadish (2008): Former U.S. Army engineer pleaded guilty to being an unregistered Israeli agent, having passed classified documents on nuclear weapons and fighter jets to — the same handler who ran Jonathan Pollard. The connection between the two cases was suppressed for more than 20 years.

CATEGORY 2 — ELECTRONIC SURVEILLANCE OF U.S. OFFICIALS AND CITIZENS

White House StingRays (2019): Politico reported that the U.S. government concluded Israel was most likely responsible for placing IMSI-catcher surveillance devices — StingRays — near the White House, the U.S. Capitol, and other sensitive D.C. areas, monitoring the phones of President Trump and senior aides. No investigation was opened. No charges were filed. No congressional hearing convened.

NSO Group / Pegasus Spyware: Pegasus — developed by Israeli company NSO Group — is classified as a weapon by the Israeli government, requiring Ministry of Defense approval for every export. A 2021 global investigation found a leaked list of 50,000 potential targets including journalists, human rights workers, politicians, and heads of state. U.S. Department of State employee phones were confirmed hacked using Pegasus in 2021. Apple sued NSO Group (2021). The U.S. government placed NSO on its Entity List for 'engaging in activities contrary to the national security or foreign policy interests of the United States.' A federal court ordered NSO to pay Meta (WhatsApp) **\$167 million in damages** (2025) for unlawfully hacking 1,400 user devices.

AIPAC Espionage Scandal (2005): Pentagon analyst Lawrence Franklin pleaded guilty to passing classified U.S. policy documents on Iran to AIPAC policy director Steven Rosen and Iran analyst Keith Weissman, who transmitted information to an Israeli government official. Charges against Rosen and Weissman were ultimately dropped — a result Grant F. Smith documents as politically motivated. AIPAC faced no sanctions, no FARA registration requirement, and no reduction in congressional access.

CATEGORY 3 — NUCLEAR MATERIAL THEFT: THE NUMEC AFFAIR

Of all the documented cases of Israeli operations against the United States, this is the one the U.S. government has most aggressively buried — because its full exposure would reveal that Israel's nuclear arsenal was built, at least in part, with material stolen from American soil, and that four presidential administrations chose to cover it up rather than confront it.

The Facts: Between the late 1950s and early 1970s, **269 kilograms of weapons-grade highly enriched uranium went unaccounted for** at the Nuclear Materials and Equipment Corporation (NUMEC) plant in Apollo, Pennsylvania — enough to make more than a dozen Hiroshima-yield bombs. NUMEC's founder and president was Zalman Shapiro, a long-time Zionist with direct Israeli intelligence connections.

The Israeli Intelligence Connection: On September 10, 1968, four Israeli citizens visited the NUMEC plant by invitation. One was **Rafi Eitan** — identified as a chemist for Israel's Defense Ministry, but actually a Mossad operative and the same individual who would later recruit and run Jonathan Pollard. A second was Avraham Hermoni — scientific attaché at the Israeli Embassy and, unknown to U.S. officials, the head of Israel's nuclear bomb program at RAFAEL. An FBI employee eyewitness later described how HEU could have been shipped out inside food irradiators bound for Israel without detection.

What the CIA Concluded: CIA Director of Operations Carl Duckett briefed the Nuclear Regulatory Commission that the missing uranium **"was in Israeli bombs."** CIA Tel Aviv Station Chief John Hadden analyzed NUMEC as **"an Israeli operation from the beginning."** Environmental sampling near Israel's Dimona nuclear facility detected traces of highly enriched uranium bearing the signature of the Portsmouth, Ohio enrichment plant — the same enrichment plant that supplied NUMEC.

ADMINISTRATION	ACTION ON NUMEC	COVER-UP METHOD
Lyndon B. Johnson	Buried initial CIA findings	CIA Director Helms' 1968 request for full investigation to Attorney General Ramsey Clark was not followed through. Johnson administration shielded Shapiro from prosecution.
Gerald Ford	Reopened, then buried	Ford reopened criminal investigation into NUMEC violations — then buried it when it threatened to expose AEC complicity in failing to track nuclear material.
Jimmy Carter	Actively suppressed	NSC noted Carter 'did not have deniability.' National Security Adviser Brzezinski thwarted Senate access to intelligence. When asked years later why he covered it up, Brzezinski said: "What are we going to say to the Israelis, 'Give it back?'"
Multiple administrations	Ongoing	U.S. Army Corps of Engineers is now conducting a \$170M–\$500M environmental cleanup of the NUMEC site — paid by American taxpayers, not by Israel. IRmep's Grant F. Smith has filed multiple FOIA lawsuits to compel release of remaining CIA files, which remain heavily classified.

CATEGORY 4 — UNIT 8200 AND THE SILICON VALLEY INTELLIGENCE PIPELINE

Unit 8200 is Israel's elite signals intelligence unit — the equivalent of the U.S. NSA. It monitors phone calls, emails, and digital communications across the Middle East, Europe, Asia, and Africa from a massive base in the Negev. It developed Stuxnet (with the CIA). It operates covert listening posts in Israeli embassies. And as of 2025, it has embedded more than 1,400 veterans inside the American technology sector — the infrastructure through which hundreds of millions of American citizens route their private communications, financial data, and personal information.

COMPANY	UNIT 8200 PRESENCE	SECURITY / INTELLIGENCE IMPLICATIONS
Microsoft	~250 veterans	Microsoft directly partnered with Unit 8200 leadership on cloud services that store and analyze communications of Palestinians under military occupation in Gaza and the West Bank — enabling AI-driven targeting.
Google	99+ documented	Project Nimbus: \$1.2B contract providing AI and cloud services to the Israeli government and military. Google also acquired Wiz (2024) for \$32B — Wiz founded by four Unit 8200 veterans (CEO Assaf Rappaport, CTO Ami Luttwak, VP Product Yinon Costica, VP Engineering Roy Reznik).
Meta / Facebook	Dozens, incl. CISO	CISO Guy Rosen is a Unit 8200 veteran. Palestinian content suppression on Facebook and Instagram has been documented by human rights groups and reported by Meta's own Oversight Board.
Palo Alto Networks	Co-founded by 8200 vet	Co-founded by Nir Zuk. Acquired CyberArk (also 8200-founded) for \$25B. Both companies handle cybersecurity for banks, hospitals, and critical U.S. infrastructure.
LinkedIn / Microsoft	CPO Tomer Cohen	Chief Product Officer Tomer Cohen acquired Israeli military-linked Oribi, embedding 50+ additional Israeli intelligence-connected operatives inside the platform.
Amazon Web Services	Multiple veterans	Project Nimbus co-participant. AWS stores and routes data for hundreds of millions of Americans. Investigative reports allege a 'secret mechanism' in Nimbus designed to alert the Israeli government when foreign law enforcement accesses data.
Nvidia, Intel, Apple	Dozens each	Unit 8200 alumni in semiconductor design and AI chip development. Sequoia Capital reports 90–95% of cybersecurity investment proposals it encounters are from Unit 8200 alumni teams.

The Republic Question: No other country has this level of embedded access in American information infrastructure. Former Russian FSB officers are not hired in their hundreds by Silicon Valley. Former Chinese MSS operatives are not designing cloud architecture for Amazon. The question Philip Giraldi, Victor Ostrovsky, and now investigative journalist Murtaza Hussain (Drop Site News, 2025) all raise is the same: **Why does this one country get a different standard?**

CATEGORY 5 — THE SAYANIM NETWORK: GLOBAL VOLUNTEER INTELLIGENCE INFRASTRUCTURE

One of the most significant disclosures in Victor Ostrovsky's first-person Mossad account, *By Way of Deception* (St. Martin's Press, 1990) — which the Israeli government attempted to suppress through

Canadian courts before publication — is the sayanim system. The Israeli government and Mossad subsequently denied key claims; Ostrovsky stands by his account.

"My name is Aharon Sberf. I am the head of the Academy. Welcome to the Mossad... Our motto is: 'By way of deception, thou shalt do war.'" — Ostrovsky, p. 53

This motto — a corruption of Mishlei (Proverbs) 24:6 — is not incidental. It is the organizational identity of Israel's premier intelligence agency, stated on the first day to every incoming class.

The Sayanim: Ostrovsky documents a global network of Jewish volunteers — outside Israel, outside the Mossad payroll — who provide operational support out of loyalty. In London alone: approximately 2,000 active sayanim and 5,000 on reserve. Car sayanim provide vehicles without documentation. Apartment sayanim provide safe houses without records. Bank sayanim provide cash at any hour. Doctor sayanim treat injuries without police reports. Business sayanim produce cover inventory overnight.

"You have at your disposal a nonrisk recruitment system that actually gives you a pool of millions of Jewish people to tap from outside your own borders... One thing you know for sure is that even if a Jewish person knows it is the Mossad, he might not agree to work with you — but he won't turn you in." — Ostrovsky, p. 88

This system allows the Mossad to project global reach with only 30–35 field officers deployed worldwide — compared to the CIA's 25,000 employees. **The sayanim multiply force by embedding the Mossad invisibly inside diaspora communities.** Ostrovsky's core indictment: the Mossad is

"not accountable to anyone... hurting Israel by manipulating power not in the best interests of Israel, but in its own best interests." — Ostrovsky, p. 216

CATEGORY 6 — INFORMATION ENVIRONMENT CAPTURE: THE PARSCALE CONTRACT AND AI MESSAGING

Brad Parscale / Clock Tower X — FARA-Documented \$9M Contract: According to FARA filings from early 2026, the Israeli Ministry of Foreign Affairs expanded its contract with Clock Tower X LLC — led by former Trump campaign manager Brad Parscale — to **\$9 million (\$1.5 million monthly)**. Key contract terms:

- **Target:** Generation Z through TikTok, Instagram, and YouTube
- **KPIs:** Over 100 ads per month; 50 million impressions per month
- **AI Integration:** The contract specifically aims to influence the output of Artificial Intelligence models and distribute pro-Israel content through 'newly created websites' that appear to Americans as independent news sources

- **Havas Media:** A French PR firm serves as intermediary for nationwide messaging framed as 'combating antisemitism' while boosting pro-Israel policy narratives

This is a foreign-government-funded operation targeting American citizens with manufactured editorial content. It is not lobbying. It is information environment capture — designed to make an Israeli Ministry of Foreign Affairs narrative appear as organic American independent journalism. Under the republic's own First Amendment framework, Americans have the right to know when content is foreign-government funded. This operation is designed to ensure they don't.

CATEGORY 7 — THE USS LIBERTY: AN ACT OF WAR SUPPRESSED FOR 58 YEARS

No covenant witness document on Israeli operations against the United States can proceed without this record. The USS Liberty is not a historical footnote. It is the clearest documented case of a foreign power attacking a U.S. military vessel — killing American sailors — and the U.S. government suppressing its own investigation to protect the relationship.

The Attack: June 8, 1967. Israeli air and naval forces attacked the USS Liberty — a U.S. Navy signals intelligence ship — in international waters. 34 American sailors were killed. 174 wounded. The attack lasted over an hour. Israeli aircraft made more than a dozen low-altitude reconnaissance passes before attacking. Declassified NSA intercepts confirm Israeli pilots recognized the American flag and received orders to proceed.

WITNESS ONE — Admiral Thomas Moorer, Chairman, Joint Chiefs of Staff (1970–1974):

"I am certain that the Israeli pilots that undertook the attack, as well as their superiors who had ordered the attack, were well aware that the ship was American... I know from personal conversations I had with Admiral Kidd that President Lyndon Johnson and Secretary of Defense Robert McNamara ordered him to conclude that the attack was a case of 'mistaken identity' despite overwhelming evidence to the contrary. I know that the Court of Inquiry transcript that has been released to the public is not the same one that I certified and sent off to Washington."

WITNESS TWO — NSA Director Lieutenant General Marshall Carter: Stated in a 1988 interview the attacks *"couldn't be anything else but deliberate."* Declassified NSA transcripts released 2003 showed Israeli pilots recognized the Liberty as American.

WITNESS THREE — USS Liberty survivors: Survivors testified they were threatened with imprisonment if they blamed Israel. All critical testimony was redacted. No survivor was permitted to describe the continued machine-gun fire on wounded men in life rafts — a detail excised from the official record. The Liberty Veterans Association filed a formal Report of War Crimes with the DoD in 2005. The

DoD did not act. A 2026 FOIA lawsuit is seeking the classified HAC Report — which may contain testimony that Israeli officials threatened to attack the Liberty the day before the strike.

Devarim 19:15 Verdict on the USS Liberty: ESTABLISHED. Three or more independent witnesses — Admiral Moorer, NSA Director Carter, and the sworn and documented testimony of USS Liberty survivors — establish the attack was deliberate, the cover-up was ordered at the presidential level, and Congress has suppressed a full investigation for 58 years.

PART II — THE AIPAC MECHANISM: HOW CONGRESS IS MANAGED

The American Israel Public Affairs Committee has operated as a de facto foreign agent of Israel for 65 years — without registering under the Foreign Agents Registration Act of 1938 (FARA), which is federal law. Understanding how this is possible requires understanding the operational mechanism. Doc 61 (From Balfour to Blackmail, April 2026) provides the most detailed documentation of this mechanism in Miqdash Bethel's research archive.

THE FIVE-STEP OPERATIONAL TEMPLATE — 1917 TO 2026

STEP	METHOD	2026 APPLICATION — UNITED STATES
1	Identify the dominant power	Post-WWII America is the dominant global power. Complete.
2	Gain inner-circle access through financial relationships and strategic placement	AIPAC cultivates every Congress and administration. The Wexner-funded intellectual pipeline produces AIPAC operatives from Ivy League institutions. Miriam Adelson contributes \$106M to Trump's 2024 campaign; pledges \$250M toward a future one. Marco Rubio appointment to Secretary of State reportedly pushed by Adelson; AIPAC officials boast 'access' to internal government discussions. Complete.
3	Frame Zionist goals as the host nation's strategic interests	'Israel is America's unsinkable aircraft carrier in the Middle East.' 70 years of official rationale. Complete.
4	Neutralize opposition through leverage — financial pressure, media control, political threat	250+ members of Congress documented as reflexively compliant. AIPAC's 95% success rate against targeted incumbents. \$5M through shell PACs in March 2026 to obscure primary involvement. CBS deleted Oliver Stone's on-air statement about Israeli election interference. Complete.

5	Exploit host nation's theological sympathies for domestic cover	CUFI (10+ million members) provides grassroots theological cover making unconditional Israel support feel not like captured foreign policy but like faithfulness to Yahweh. Complete.

AIPAC 2025–2026 NAMED-CANDIDATE SPENDING RECORD

CANDIDATE	RACE	AIPAC SPENDING	SIGNIFICANCE
Tom Malinowski	NJ Special	\$2.3M against — April 2026	Targeted for supporting 'conditioning aid' — the AIPAC 'No Conditions' red line
George Latimer	NY-16	Primary recipient — defeated Jamaal Bowman	Bowman defeated specifically for criticizing Israeli policy
Sherrod Brown	OH Senate	\$7.7M+ lifetime recipient	One of highest career AIPAC recipients in Congress
Haley Stevens	D-MI	Primary win	Stated AIPAC support 'made the difference'
Laura Fine	IL-09	\$7M+ — LOST	Demonstrates limits: money does not always prevail even for the most powerful electoral infrastructure in America
Shell PAC — March 2026	Multiple primaries	\$5M+ obscured	Investigation found AIPAC funneled funds through shell PACs to hide involvement — raising direct FARA and campaign finance disclosure violations

The 'Napkin' Standard: AIPAC's own former policy director Steven Rosen stated: *"You see this napkin? In twenty-four hours, we could have the signatures of seventy senators on this napkin."* This is not a boast. It is a description of what the NUMEC cover-up by four presidents, the USS Liberty suppression by Congress for 58 years, the AIPAC FARA exemption, and the 2019 White House surveillance device investigation — that produced no response — all confirm: a de facto foreign-policy governance operating inside the forms of the republic.

FARA: THE LAW THAT DOESN'T APPLY TO ONE ORGANIZATION

The Foreign Agents Registration Act of 1938 is federal law. It requires any person or entity acting on behalf of a foreign government to register publicly, disclose finances, and report contacts with U.S. government officials. AIPAC by its own description is 'America's Pro-Israel Lobby' — founded by Israeli

government-funded principals, directing U.S. foreign policy toward Israeli objectives, and drafting U.S. legislation with AIPAC assistance.

- **1962–63:** Kennedy Justice Department ordered AIPAC's predecessor — the American Zionist Council — to register under FARA. Kennedy was assassinated before the effort succeeded. His successor Lyndon B. Johnson, who also covered up the USS Liberty attack and the NUMEC diversion, dropped the matter entirely.
- **1988:** Former Senator J.W. Fulbright (who first exposed the Israeli money-laundering operations in 1963) and former CIA official Victor Marchetti formally petitioned the Justice Department to register AIPAC under FARA. The petition was denied.
- **2005:** The AIPAC espionage scandal — Franklin/Rosen/Weissman — brought FARA scrutiny. Charges against AIPAC officials were dropped. No FARA registration was required.
- **2026:** Bipartisan congressional pressure for AIPAC FARA registration has reached new levels. The exemption has not been revoked. It is no longer invisible.

PART III — FIVE CONSTITUTIONAL VIOLATIONS

The U.S. Constitution — the foundational document every official from the President to every member of Congress swears to uphold — is violated by the documented pattern of government protection of Israeli espionage. Five violations are established here.

VIOLATION 1 — FIRST AMENDMENT: FREE SPEECH CRIMINALIZED TO PROTECT ISRAEL

Constitution, Amendment I: "Congress shall make no law... abridging the freedom of speech..."

The Israel Anti-Boycott Act (S.720/H.R.1697, 2017) — drafted with AIPAC assistance — had 238 House co-sponsors and 46 Senate co-sponsors. It would have criminalized American citizens who support a peaceful boycott of Israel with fines of **\$250,000 to \$1 million and up to 20 years in prison**. This from legislators who regularly invoke free speech — Senator Ted Cruz stated in 2014: "The First Amendment protects the right to boycott." Approximately 35 state anti-BDS laws have already been enacted. The First Amendment contains no carve-out for Israel.

VIOLATION 2 — ARTICLE II TAKE CARE CLAUSE: FARA NON-ENFORCEMENT

Constitution, Article II, Section 3: The President "shall take Care that the Laws be faithfully executed."

FARA is federal law. AIPAC meets every statutory criterion for registration as a foreign agent. Every president since Kennedy — across both parties, across seven decades — has refused to enforce FARA as applied to AIPAC. Political pressure has overridden the constitutional obligation to execute the law faithfully.

VIOLATION 3 — ARTICLE I, SECTION 8: CONGRESSIONAL OVERSIGHT FAILURE

Constitution, Article I, Section 8: Congress has responsibility to provide for national defense and regulate commerce with foreign nations.

Congress has refused to investigate the USS Liberty attack for 58 years. Congress has refused to investigate the NUMEC uranium diversion despite CIA, FBI, and NSC documents confirming the likelihood of a diversion. Congress has refused to investigate the transfer of U.S. military technology by Israel to China. These are not oversights. They are policy decisions driven by AIPAC campaign financing that constitute a breach of the constitutional obligation to provide for national defense.

VIOLATION 4 — FOURTH AMENDMENT: SURVEILLANCE WITHOUT RECOURSE

Constitution, Amendment IV: "The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated."

Israel was concluded to be most likely responsible for placing StingRay surveillance devices near the White House monitoring U.S. officials' private communications (2019). U.S. State Department employees' phones were hacked with NSO Group's Israeli Pegasus spyware (2021). No investigation was opened into the StingRay operation. No charges were filed. Russian surveillance of American communications produces sanctions and expulsions. The Fourth Amendment contains no foreign-ally exemption.

VIOLATION 5 — ARTICLE VI SUPREMACY CLAUSE: ONE LAW FOR ALL

Constitution, Article VI, Clause 2: "This Constitution, and the Laws of the United States... shall be the supreme Law of the Land."

U.S. law governing foreign military sales explicitly prohibits recipient nations from transferring U.S.-origin military technology to third countries without authorization. Israel transferred U.S. military technology to China in 1993 — documented and confirmed. Aid was never suspended. The Atomic Energy Act prohibits diversion of weapons-grade nuclear material to foreign governments. 269 kilograms went to Israel. No one was prosecuted. No aid was suspended. Brzezinski's dismissal — "*What are we going to say to the Israelis, 'Give it back?'*" — is an admission that the Supremacy Clause does not apply to one nation.

PART IV — THE TANAKH COVENANT STANDARD: YAHWEH'S WORD ON THESE THINGS

The Tanakh — the authority of **Yahweh** — speaks directly to every category documented in this witness. Miqdash Bethel does not apply U.S. constitutional law as its final authority. The final authority is the Written Word of **Yahweh**. But in this case the covenant standard and the constitutional standard point in the same direction.

1. BRIBES BLIND THE WISE — DEVARIM (DEUTERONOMY) 16:19

"You shall not pervert justice. You shall not show partiality, and you shall not accept a bribe, for a bribe blinds the eyes of the wise and subverts the cause of the righteous." — Devarim (Deuteronomy) 16:19

AIPAC campaign financing — **\$56.8 million in individual, group, and soft money donations since 1990** — is precisely what **Yahweh** identifies as the corruption of justice. A congressman who receives AIPAC funding then votes against opening a USS Liberty investigation, against FARA enforcement, for anti-BDS legislation criminalizing American speech — has had his eyes blinded by a bribe. The Tanakh names this.

2. ONE LAW FOR ALL — BEMIDBAR (NUMBERS) 15:16

"There shall be one law and one rule for you and for the stranger who sojourns with you." — Bemidbar (Numbers) 15:16

Russian electronic surveillance of U.S. officials produces sanctions. Israeli StingRays near the White House produce silence. Chinese technology theft produces congressional hearings and trade war. Israeli theft of 269 kg of weapons-grade uranium produces a presidential cover-up and a taxpayer-funded cleanup. **Yahweh's** covenant standard demands one law for all. Two-tiered justice is a covenant violation regardless of which nation benefits.

3. INNOCENT BLOOD DEFILES THE LAND — BEMIDBAR (NUMBERS) 35:33

"You shall not pollute the land in which you live, for blood pollutes the land, and no atonement can be made for the land for the blood that is shed in it, except by the blood of the one who shed it." — Bemidbar (Numbers) 35:33

34 American sailors were killed on the USS Liberty in 1967. Their blood was shed by a foreign power. Their own government covered it up. **Yahweh** says the land cannot be atoned for innocent blood by diplomatic settlements of \$6.7 million. It can only be atoned for by accountability.

4. DO NOT SELL JUSTICE — MIKAH (MICAH) 3:11

"Its heads give judgment for a bribe; its priests teach for a price; its prophets practice divination for money; yet they lean on Yahweh and say, 'Is not Yahweh in the midst of us? No disaster shall come upon us.'" — Mikah (Micah) 3:11

The prophet **Mikah (Micah)** wrote this about Yisra'el — but it is the most precise description in Scripture of Washington, D.C.'s relationship with the Israel lobby. Legislators taking AIPAC money. Media executives self-censoring (CBS deleted Oliver Stone's interview). Politicians invoking **Yahweh** in speeches while passing legislation criminalizing criticism of Israel. The covenant name for this is corruption.

5. BY WAY OF DECEPTION — MISHLEI (PROVERBS) 24:6 CORRUPTED

Ostrovsky documents that the Mossad took its motto from a corrupted reading of **Mishlei (Proverbs) 24:6**: *"for by wise guidance you can wage your war."* The Mossad's version — *"By way of deception, thou shalt do war"* — inverts the covenant text. **Yahweh's** word commends wisdom and counsel. The Mossad doctrine substitutes deception. This is the theological root of an intelligence service that operates against its own government, manipulates proxy forces to commit massacres, and embeds itself in allied nations' information infrastructure. The deviation from the covenant word is not a minor translation issue. It is the foundational organizational identity.

PART V — THE COVENANT REMEDY: EIGHT DEMANDS OF JUSTICE

A covenant witness document does not end with an indictment alone. **Yahweh's** standard requires that when wrong is established under two or three witnesses, a remedy must be named. Eight remedies are prescribed here — each grounded in U.S. constitutional law, applicable statute, and the covenant standard of the Tanakh.

1. **Enforce FARA — Register AIPAC as a Foreign Agent.** Federal law requires it. AIPAC's own description of itself as 'America's Pro-Israel Lobby,' its Israeli government funding history, and its legislative drafting activities all meet the statutory definition. The DOJ must enforce FARA against AIPAC as it enforces it against every other foreign lobbying operation. One law — Bemidbar 15:16.
2. **Full Independent Congressional Investigation of the USS Liberty.** 58 years is long enough. The HAC Report must be declassified. Survivors still living must be heard in public testimony. A fully independent committee — insulated from AIPAC funding — must produce a complete public record.
3. **Full Declassification of All NUMEC / CIA Records.** The CIA has blocked FOIA access to its core NUMEC files for decades. The National Security Archive and IRmep's Grant F. Smith have established that sufficient time has passed for all sources-and-methods concerns to be resolved. The American taxpayer is paying \$170M–\$500M for the environmental cleanup. They are entitled to know why.
4. **Israel Must Pay for the NUMEC Cleanup.** IRmep's lawsuit establishes the principle: if the CIA's evidence that a diversion occurred is as strong as it appears, Israel — not American taxpayers — should bear the cost of the environmental remediation of Apollo and Parks Township, Pennsylvania. The lawsuit must proceed to full discovery.
5. **Prosecute Espionage Without Partiality.** The Espionage Act, the Economic Espionage Act, and the Atomic Energy Act apply to all foreign state-sponsored theft regardless of the nation of origin. These laws must be applied to Israeli intelligence operations with the same force applied to Chinese and Russian operations. The Rosen/Weissman charges must be reopened.
6. **Require FARA-Compliant Labeling of Foreign-Government-Funded AI Content.** The Brad Parscale / Clock Tower X \$9M contract — FARA-filed — documents a foreign-government-funded operation manufacturing editorial content targeting American citizens. Every piece of content produced under this contract must be labeled as foreign-government-funded. Citizens have the right to know who is speaking to them.

7. **Repeal All Anti-BDS Legislation.** Approximately 35 state anti-BDS laws and pending federal legislation criminalizing constitutionally protected speech directed at a foreign country must be repealed or struck down. The First Amendment makes no exemption for Israel.
 8. **Convene a Full Public Accounting of the Unit 8200 / Silicon Valley Pipeline.** The concentration of 1,400+ foreign military intelligence veterans in companies that process, store, and route American citizens' private communications, financial data, and personal information — Microsoft, Google, Meta, Amazon, Apple — is a republic-level security question that must receive republic-level scrutiny. The same standard applied to Chinese technology company security reviews must be applied here. One law for all.

PART VI — THREE-RELIGION AUDIT

QUESTION	JUDAISM	CHRISTIANITY	ISLAM
<p>Does any tradition permit espionage, bribery of foreign governments, or theft of nuclear material?</p>	<p>The Torah is unambiguous: bribes blind the wise (Devarim 16:19). The theft of another nation's property is forbidden (Vayikra 19:11). There is no 'exception for the State of Israel' in the Written Torah. The State of Israel's conduct is accountable to the Torah it claims as its national foundation — first and not last.</p>	<p>Jesus (Yeshua) named 'love your neighbor' as the second greatest commandment (from Vayikra 19:18). The USS Liberty sailors were neighbors. The Pennsylvania workers contaminated by NUMEC's toxic waste are neighbors. The Gospel is not compatible with a 58-year cover-up of the killing of neighbors for political gain.</p>	<p>The Quran (4:135) commands justice even against oneself. Islam's recognition of the Tawrat (Torah) places the one-law standard (Bemidbar 15:16) in force. A Muslim community that excuses Israeli espionage against America because it is anti-Western applies a double standard the Quran itself forbids.</p>
<p>What does the Tanakh prescribe in response?</p>	<p>Amos 3:2: 'You only have I known of all the families of the earth; therefore I will punish you for all your iniquities.' The Torah holds Israel to a higher standard, not a lower one. The covenant calling for Jewish communities in America is to demand accountability from the Israeli government — not to shield it from scrutiny.</p>	<p>The Christian calling is prophetic witness without partisan loyalty. Every major denomination has a statement on justice. Applying those statements to 269 kg of stolen nuclear material, the killing of 34 U.S. Navy sailors, and 1,400 foreign intelligence veterans embedded in American information infrastructure is not antisemitism. It is faithfulness to the prophetic tradition.</p>	<p>The Muslim calling is to apply the isnad standard — chain of testimony — to the full espionage record, and speak what the record shows. The USS Liberty sailors were not enemies of Islam. American citizens whose phones are surveilled by Pegasus spyware are not enemies of Islam. Covenant justice for them is also a Muslim calling.</p>

PART VII — SEVEN INSTITUTIONAL FINDINGS AND COVENANT VERDICT

FINDING 1 — ISRAELI ESPIONAGE IS DOCUMENTED, MULTI-CATEGORY, AND ONGOING

ESTABLISHED under Devarim 19:15. Seven independent categories — military/defense theft, electronic surveillance, nuclear material diversion, Unit 8200 tech pipeline, sayanim network, AI information environment capture, and the USS Liberty attack — are each established by multiple independent witnesses. No single category requires accepting any other to be true. The cumulative record is overwhelming.

FINDING 2 — THE NUMEC DIVERSION IS THE MOST CONSEQUENTIAL UNACCOUNTED CRIME

ESTABLISHED under Devarim 19:15. CIA Director Helms, CIA Operations Chief Carl Duckett, CIA Tel Aviv Station Chief John Hadden, environmental sampling at Dimona, the FBI eyewitness account of uranium being packed in irradiators for Israel, and the documented visits of Israeli intelligence officers including Rafi Eitan to the NUMEC plant constitute multiple independent witnesses. Four presidential administrations chose cover-up over accountability. American taxpayers are now paying for the cleanup.

FINDING 3 — THE USS LIBERTY ATTACK WAS DELIBERATE AND THE COVER-UP WAS PRESIDENTIAL

ESTABLISHED under Devarim 19:15. Admiral Thomas Moorer (Chairman, Joint Chiefs), NSA Director Marshall Carter, and the sworn testimony of USS Liberty survivors constitute three or more independent witnesses. The court of inquiry transcript was altered. Testimony was suppressed under threat of imprisonment. 58 years of congressional silence confirms the cover-up is ongoing.

FINDING 4 — AIPAC OPERATES AS AN UNREGISTERED FOREIGN AGENT IN VIOLATION OF FEDERAL LAW

ESTABLISHED under Devarim 19:15. Philip Giraldi (CIA, ret.), Grant F. Smith (IRmep), the 1962–63 Kennedy Justice Department FARA demand, the 1988 Fulbright/Marchetti petition, AIPAC's own admission that it is 'America's Pro-Israel Lobby,' and the 2026 shell PAC investigation constitute multiple independent witnesses establishing AIPAC as an unregistered foreign agent operating under political protection, not legal exemption.

FINDING 5 — UNIT 8200'S SILICON VALLEY PIPELINE REPRESENTS AN UNADDRESSED NATIONAL SECURITY VULNERABILITY

ESTABLISHED under Devarim 19:15. The Drop Site News investigative database (1,400 veterans documented), the Microsoft-Unit 8200 collaboration on Gaza military cloud infrastructure, the Project Nimbus \$1.2B Google/Amazon contract, the Wiz acquisition (\$32B — all 4 founders Unit 8200 veterans), and the NSO Group Pegasus spyware record constitute multiple independent witnesses establishing that Israeli military intelligence has deeper embedded access to American citizens' private data than any other foreign military intelligence service in history.

FINDING 6 — FIVE CONSTITUTIONAL VIOLATIONS ARE DOCUMENTED

ESTABLISHED by statutory and constitutional record. First Amendment (anti-BDS legislation), Article II Take Care Clause (FARA non-enforcement), Article I Congressional Oversight (USS Liberty, NUMEC), Fourth Amendment (StingRays, Pegasus), and Article VI Supremacy Clause (arms transfer law non-enforcement, Atomic Energy Act non-enforcement) — five documented constitutional violations that remain unaddressed by any branch of the U.S. government.

FINDING 7 — THE COVENANT STANDARD REQUIRES EQUAL JUSTICE WITHOUT EXCEPTION

ESTABLISHED under Devarim 16:19-20, Bemidbar 15:16, and Mikah 3:11. The Tanakh does not permit one law for Russia and China and a different law for Israel. The remedy is not revenge or anti-Semitism. It is equal justice — applied without bribery, without political calculation, and without the fear of men. **Yahweh** says this is the only path to life in the land. The covenant witness stands.

"Justice, and only justice, you shall follow, that you may live and inherit the land that Yahweh your Elohim is giving you." — Devarim (Deuteronomy) 16:20

"Woe to those who call evil good and good evil, who put darkness for light and light for darkness." — Yeshayahu (Isaiah) 5:20

DISCUSSION QUESTIONS

9. **FARA Standard:** AIPAC by its own description is 'America's Pro-Israel Lobby' — funded by Israeli principals, representing Israeli government interests, and drafting U.S. legislation. What legal or constitutional justification exists for its FARA exemption that does not also apply to Russian or Chinese lobbying organizations?

10. **USS Liberty:** 34 Americans were killed in 1967. Congress has refused a full investigation for 58 years. Under Bemidbar 35:33 — 'blood pollutes the land' — and Article I's oversight mandate, what obligation do American citizens have to demand that investigation?
11. **NUMEC:** American taxpayers are paying \$170M–\$500M to clean up a site where weapons-grade uranium was likely stolen and used to build a foreign nation's nuclear arsenal. Four presidents covered it up. Brzezinski asked 'What are we going to say to the Israelis, Give it back?' Under Devarim 16:19 — 'a bribe blinds the eyes of the wise' — what drove those presidents? And what does covenant justice require now?
12. **Unit 8200:** 250 veterans of Israel's military intelligence unit work at Microsoft — which is building cloud infrastructure for Israeli military targeting operations in Gaza. Under what constitutional or covenant principle should American citizens be comfortable with this arrangement?
13. **The One-Law Question:** If the Devarim 15:16 standard — one law for the citizen and the sojourner — applied to U.S. policy on Israel identically as it applies to Russia, China, and Iran: what changes?
14. **The Bribe:** AIPAC's Steven Rosen: 'You see this napkin? In 24 hours we could have 70 senators' signatures.' Devarim 16:19: 'a bribe blinds the eyes of the wise.' At what point does the American church, mosque, or synagogue have an obligation to speak about the blinding of the legislature?
15. **For the Three-Religion Audience:** Amos 3:2 says Yahweh holds Israel to a higher standard, not a lower one. Quran 4:135 commands justice even against oneself. Jesus names 'love your neighbor' as the second greatest commandment. How does each tradition require its community to respond to what this document establishes?
