

oe Rogan podcast. Check it out. The Joe Rogan Experience.

0:06

6 seconds

Train by day. Joe Rogan podcast by night. All day making.

0:15

15 seconds

Thank you. Who do you mean by those people? Uh, you know, you know, it's changed over the years.

0:23

23 seconds

With the horns. I don't know. You know,

0:26

26 seconds

you mean band members? Who are you talking about here? stuff. Uh, music music music industry, dude. Yeah,

0:33

33 seconds

we're just talking about So, we should tell people what we're talking about. If you hum a song just like [_] around and like, you know, like the cocaine song,

0:42

42 seconds

you know what I mean?

0:43

43 seconds

If you play Eric Clapton, you if you do that, you'll get flagged on YouTube. They and they take money from you. How desperate is that?

0:51

51 seconds

It's gross. Like, you can't even hum a song. You can't like What are you talking about?

0:56

56 seconds

You can't even hum in the future. You're not even going to be able to fall in love. They're going to charge you for it.

1:00

1 minute

How are they going to do that? Well, you won't be falling in love with the person anymore.

1:05

1 minute, 5 seconds

People will be outdated. People come with problems. I ain't coming on no bot. No. Ever? What about in one? No. What will they do with it?

1:13

1 minute, 13 seconds

Keep it. Yeah. Maybe that's what keeps them alive. Imagine that. Let me think about it.

1:19

1 minute, 19 seconds

You got to [_] her every day to keep her alive. If you don't, she starts shriveling up on you like she's on ompic. So she's Latina.

1:27

1 minute, 27 seconds

plump. You got to keep her plump.

1:29

1 minute, 29 seconds

You got to keep her You got to keep uh You got to keep the juices flowing, huh?

1:32

1 minute, 32 seconds

There'd be guys that would sign up for that. Okay, I could I think I could do that.

1:36

1 minute, 36 seconds

But day 5,26 in a row, you'd be like, "Oh my god, I can't do this." Yeah. And she's dying.

1:45

1 minute, 45 seconds

Why is she dying? She's electric, isn't she? She only gets powered by [_] Oh. Oh, it's sad.

1:51

1 minute, 51 seconds

And three days with no come, she shuts off and that's it. And you can't bring her back. I'd shut her down quick. I'll tell you that. Dude, she would be

1:59

1 minute, 59 seconds

You have to let your buddies [_] her just to like keep her alive. Oh, that's going to be gross, Joe. It would be. And it would be sad and stuff like that.

2:07

2 minutes, 7 seconds

And you'd have some buddy like late at night like, "Hey, bro." He loves her. Yeah.

2:11

2 minutes, 11 seconds

What's your wife doing? Like texting you at like 4:00 a.m. Bro, if you need me to keep her alive,

2:16

2 minutes, 16 seconds

he's over there stroking it while he's on the phone with you. Bro, plug your wife in for a little bit,

2:21

2 minutes, 21 seconds

bro. Let me char Yeah, let me come over there. We're getting close. Did you see those ones they have at the Consumer Electronic Show in Vegas? The dancing ones?

2:29

2 minutes, 29 seconds

No, it's an AI companion that's a robot.

2:32

2 minutes, 32 seconds

It's like a very pretty lady and her mouth moves and she talks and it's not there yet, but it's in the neighborhood. You know, it's not at the

2:40

2 minutes, 40 seconds

right door, but it just entered the community. You know what I mean? You think so? You know, some communities have that awning, welcome to like Paradise Estates, and you go through and

2:48

2 minutes, 48 seconds

there's all the houses in the subsection. Yeah. It's in the door, right?

2:51

2 minutes, 51 seconds

It's in the door. It's not at your house yet. He had no oaks or whatever. Exactly.

2:55

2 minutes, 55 seconds

Or Hunter's Glenn or Racist Cove or whatever.

2:58

2 minutes, 58 seconds

The [__] robot has made it through onto your street. It's just not at your house yet. And it will be in 5 to 10 years.

3:06

3 minutes, 6 seconds

My kids aren't [__] robots.

3:07

3 minutes, 7 seconds

They will. If you have kids, they're going to [__] robots. No, they won't.

3:10

3 minutes, 10 seconds

You won't be able to stop them. All their friends are going to be able to do it. It'd be rude. It'd be like keeping them off social media. That's crazy, dude.

3:18

3 minutes, 18 seconds

If you keep your kids off social media,

3:20

3 minutes, 20 seconds

they feel left out. They're like, "Come on, Dad. Let me get Snapchat." Like,

3:24

3 minutes, 24 seconds

"No, son. I want you to concentrate on your homework and your football. Come on, Dad. Come on, Dad. Let me get Snapchat."

3:32

3 minutes, 32 seconds

No. One of Look, you your dad wakes you up early. He's like, "Look, one of you little bastards left the freaking com robot in the yard.

3:40

3 minutes, 40 seconds

Which one of you delirious covered in [_] All your friends [_] it."

3:46

3 minutes, 46 seconds

That's sad. I do think that one day our smiles will be in a museum. That's where we're headed. It's like the feelings are starting to disappear. You know,

3:54

3 minutes, 54 seconds

maybe that's what autism is, like severe autism. Well, I've thought about that a lot.

3:59

3 minutes, 59 seconds

That that's why we're getting to some of like the only way we could get to this place if we get to this data driven place where it's like,

4:06

4 minutes, 6 seconds

you know, alien is things start to feel alien here is because of um autism leading uh it's when autism mixes with

4:15

4 minutes, 15 seconds

um what's it called? Our societies based on money, capitalism. M when autism and capitalism converge, things got really weird,

4:22

4 minutes, 22 seconds

right? And think about it, right? We don't know exactly what is causing autism, they have a lot of suspicions. A lot of them have to do with vaccines and

4:30

4 minutes, 30 seconds

different medications and different chemicals and pollutants and all sorts of different things too. One thing we could all agree on and

4:37

4 minutes, 37 seconds

Tylenol, they think too, right? But one thing that we can all agree on, it's a big factor is stuff that we've created.

4:46

4 minutes, 46 seconds

That's a big factor. Whatever it is,

4:48

4 minutes, 48 seconds

let's let's not put the blame on any one of these industries,

4:51

4 minutes, 51 seconds

but there's something going on where more people are getting autism now than ever. And it seems almost positive that

5:00

5 minutes

it's coming from us, that we did something, human society.

5:05

5 minutes, 5 seconds

Well, if you think about where human society's going,

5:08

5 minutes, 8 seconds

wouldn't that be a way to turn us into something new, right? If we're going to merge with machines, what better way than to like eliminate empathy,

5:18

5 minutes, 18 seconds

eliminate emotions, make us like able to like stay at home and stare at a screen for hours at a time with no concern

5:26

5 minutes, 26 seconds

whatsoever. Just the kind of social detachment along with the integration of all this crazy new technology. And the people, a

5:35

5 minutes, 35 seconds

lot of the people that are in the tech business that are high levels are on the spectrum. Oh, dude. Yeah. They're on the [_] diving board of the spect.

5:43

5 minutes, 43 seconds

They're the ones bringing in AI. They're bringing in the next version of life kind of. I mean like we're thinking it's like a mistake,

5:53

5 minutes, 53 seconds

but it might not be. It might be like a crucial part of the system when you get further and further integrated with technology and all the stuff that you

6:02

6 minutes, 2 seconds

need to make it and all the stuff that's involved in capitalism including like lying about what mech medications kids needs and giving them this and giving

6:10

6 minutes, 10 seconds

them that lying about what kind of what the pesticides do or the chemicals do or you know whatever it is. What what is that ultimately doing if it's if it's

6:18

6 minutes, 18 seconds

leading people to be on the spectrum more and more often? What if one day it's not one in 12 in California? If it's 100%. Yeah.

6:26

6 minutes, 26 seconds

Everybody, you got a full spectrum society and there's no regular people left. Yeah.

6:32

6 minutes, 32 seconds

You have to think about that. If it's one in 12 boys right now in California and it used to be like 1 in 10,000, this

6:38

6 minutes, 38 seconds

is like an invasion, right? Like an invasion of like a way that people

6:45

6 minutes, 45 seconds

think that's entering into human civilization. Yeah. And I feel like it was I I agree.

6:51

6 minutes, 51 seconds

Right. So then it's like those and and then if you don't have this like uprising this emotional uprising out of

6:58

6 minutes, 58 seconds

people of like you know like this is wrong because I think like um you know when you get real databased and like

7:05

7 minutes, 5 seconds

that kind of like tismesque type of energy I think you're not you know you're not thinking about some of the uh

7:13

7 minutes, 13 seconds

like how it affects you as much or maybe just you're able to like roll into that nest of like this is this new digital

7:20

7 minutes, 20 seconds

landscape And those people fit well in it. Does that make any sense?

7:24

7 minutes, 24 seconds

It does. It does make fit well. And they do fit well in it. I know a lot of people that are on spectrum that are very happy just being online all the time.

7:32

7 minutes, 32 seconds

Yeah. That's what they do.

7:33

7 minutes, 33 seconds

And dude, maybe that's what's supposed Yeah. That's the scary part is like what if that's what's supposed to happen, right?

7:39

7 minutes, 39 seconds

And the rest of us are just like cuz I'm like I think a romanticist, you know?

7:42

7 minutes, 42 seconds

I'm thinking like, oh yeah, a porch and a rocking chair. And then they, you know, the but you know, other people are like, "Yeah, we're coming in robots and [__] like that and ordering bagels

7:51

7 minutes, 51 seconds

through our [__] brain cells and shit." You know, like it's just like um we're thinking of autism as a flaw, but it might be a feature.

7:59

7 minutes, 59 seconds

But is it what is it okay? Is it what nature wants or is it something that we're creating that is heading us down a

8:07

8 minutes, 7 seconds

very dark path? I feel like it's not not autism, but all of it in conjunction is the second one. It might be what the universe wants.

8:15

8 minutes, 15 seconds

[__]

8:16

8 minutes, 16 seconds

It might be how it goes. Like there has to be some sort of a pathway from territorial primates to something new,

8:27

8 minutes, 27 seconds

right? Does there?

8:29

8 minutes, 29 seconds

I think so. Yeah. Because otherwise we would still be single- celled organisms. Everything's moving in a general direction of more complexity. Okay. Right.

8:37

8 minutes, 37 seconds

That's fair. So if it's moving in a general direction of more complexity,

8:40

8 minutes, 40 seconds

we're and with all the technology that we're making, like we're moving into some [__] weird place, right?

8:45

8 minutes, 45 seconds

Wouldn't it be better if you just like easily accepted that and what better way than if you're one of those dudes that's on the spectrum that loves to chill at

8:53

8 minutes, 53 seconds

home and play video games, just stare at a screen, doesn't really need a lot of human contact.

8:57

8 minutes, 57 seconds

Yeah. One of those [__] data wiggers or whatever they call them. You know, those [__] tech monkeys or whatever. Yeah. Those guys are just all about it.

9:05

9 minutes, 5 seconds

They're all about it. They're wearing Apple watches and the [__] everything is whoop neck. Yep. Yep.

9:11

9 minutes, 11 seconds

They had to do with a [__] whoop neck brace. It was like it kept updating on his watch. It's like your neck's still broken or whatever. He's got a whoop [__] ring. It's crazy. You're [__]

9:19

9 minutes, 19 seconds

[__] robot, bro. You blink twice and you're [__]

9:22

9 minutes, 22 seconds

Yeah. It like it shoots GLP1s into your nuts. It's just like it's all too But it's it's happened too fast, bro. And

9:30

9 minutes, 30 seconds

it's too much and it starts to be like is it being controlled? Um,

9:36

9 minutes, 36 seconds

dude, here's something that I always being controlled by a small amount of people, which is always scary. That's scary.

9:41

9 minutes, 41 seconds

It's always scary when a small amount of individuals have insane amounts of power and wealth. And that's what's going to

9:48

9 minutes, 48 seconds

happen with this AI thing. And that's what's what happened with tech. Like look what happened with tech. With tech,

9:55

9 minutes, 55 seconds

the vast majority of the people that are involved were all like heavily left-wing, very progressive, like kind of even far-left in a way. And look,

10:04

10 minutes, 4 seconds

they pushed the entire country's narrative in that direction through censorship on social media, through banning any accounts that didn't con,

10:13

10 minutes, 13 seconds

you know, didn't kind of commit to the narrative. Russia gate.

10:16

10 minutes, 16 seconds

Yeah. Rush gate. Anything about Hunter Biden's laptop, anything about vaccines being deadly or, you know, maybe it came from a lab, all that stuff would get you

10:24

10 minutes, 24 seconds

kicked off. So, it was all moving in this one ideological direction. That's the like literally the conversation the

10:33

10 minutes, 33 seconds

entire country is having and there's no other output. Before, you know, there was a few of them that came around like Gab and some other ones, some social

10:41

10 minutes, 41 seconds

media sites that were like a response to that, but they never really took off, right? Nothing took off yet.

10:47

10 minutes, 47 seconds

Not not really. You know, there's some people that are on threads and there's some people on truth, but the reality is if you're not on Twitter, you're you're

10:56

10 minutes, 56 seconds

not really going to connect with most people. the that's the giant majority people having conversations and it was all completely controlled by a small

11:04

11 minutes, 4 seconds

group of people with one ideology but then didn't all those ha or half of those people move over to the other political party when uh Trump got

11:12

11 minutes, 12 seconds

elected like you know what I'm saying like Zuckerberg was on the left side Bezos seemed like a very left-leaning guy and then they're all just so that's

11:21

11 minutes, 21 seconds

what made me start to think oh none of these guys are really on a side there's this other third side that a lot of us can't see that uh is just kind of

11:30

11 minutes, 30 seconds

commandeering or fabricating or like infiltrating both sides.

11:35

11 minutes, 35 seconds

If I could hum a song right now, I'd hum the Pink Floyd song Money. Yeah. You know what I'm saying? Yeah.

11:41

11 minutes, 41 seconds

Cuz that's what they were protecting that chatter. That cash, baby. Protecting that cash. I mean, look how many people are [_]

11:47

11 minutes, 47 seconds

moving out of all these states that are trying to impose wealth taxes. They're trying to steal money from the people that are the most successful. I was

11:54

11 minutes, 54 seconds

reading something about Massachusetts and how much this lady was reporting about how much Massachusetts has um lost from that because people leave the state. Their businesses leave the state.

12:04

12 minutes, 4 seconds

New York is having the same problem. That Kathy Hol,

12:08

12 minutes, 8 seconds

you know, now she's asking people I don't know how to say her name. I don't care. Yeah. Get a better name. Who cares what her name is? Yeah.

12:15

12 minutes, 15 seconds

She's asking people to go to Palm Beach and tell people to come back to New York now because we're losing tax base. Like come on. Of course, you're losing tax

12:24

12 minutes, 24 seconds

base. You can't just arbitrarily decide that because someone makes more money,

12:28

12 minutes, 28 seconds

they deserve to give you more money. And then what have you done with the money you have? That's the best part.

12:35

12 minutes, 35 seconds

Oh, a [_] ton of waste and fraud. And have you corrected any of that? No. So, your solution is what? More money. Yeah.

12:43

12 minutes, 43 seconds

Okay. [_] all the way off. Of course,

12:45

12 minutes, 45 seconds

these people are going to leave. You're a bunch of incompetent stooges and you're in charge of all the money in the state. And that's dumb. Yeah. And that's

12:54

12 minutes, 54 seconds

why Chevron moved out of California and Tesla moved out of California and In-N-Out Burger moved out of California. We moved out.

13:02

13 minutes, 2 seconds

We moved out of California. Companies, but we're people.

13:04

13 minutes, 4 seconds

We might as well be companies. We're small companies.

13:08

13 minutes, 8 seconds

But it's like you can't just say we're going to take more money and that'll fix it. But you don't think billionaire Yeah.

13:15

13 minutes, 15 seconds

Especially, dude, what has happened like with this follow-up to the Somali fraud,

13:20

13 minutes, 20 seconds

like all of these fraud buildings where it's like blatant, there's no businesses. It's just a sign on the door and like it feels like there's no followup to it.

13:28

13 minutes, 28 seconds

There's some there are some there's some people that are being prosecuted right now. There's uh a bunch of investigations uh regarding um Minnesota, regarding California. They're

13:38

13 minutes, 38 seconds

getting in there. They have to get in there now because it's been exposed nationally. But the real question is,

13:42

13 minutes, 42 seconds

how did it go on for so long? How did you allow it to happen for so long? They knew.

13:48

13 minutes, 48 seconds

Bro, you want you want to know like what's real bad? What's real bad is like the amount of money that California has

13:56

13 minutes, 56 seconds

wasted if their solution is to try to tax people. Have you ever seen like what they did with the highspeed rail? Yeah. Nothing.

14:02

14 minutes, 2 seconds

They spent billions of dollars. There's some guy who broke down how much China how much highspeed rail China did in the

14:10

14 minutes, 10 seconds

same time that it took California to do their highspeed rail. It It's actually funny.

14:16

14 minutes, 16 seconds

I've done some I've done some rail out of China. I'll tell you that.

14:20

14 minutes, 20 seconds

I don't think it's the same stuff. I think we're talking about different things.

14:23

14 minutes, 23 seconds

But uh No, China, dude. They're doing Dude, it's weird when you start thinking, "Hey, China looks like a good place to live." You know,

14:29

14 minutes, 29 seconds

they've got their [_] together. I'll tell you that. A lot of these places with kings, they really know how to run things. They do a real solid job.

14:37

14 minutes, 37 seconds

They [_] do. Poland's got their [_] together, dude.

14:40

14 minutes, 40 seconds

They do have their [_] together. And they were communists not that long ago. You know,

14:44

14 minutes, 44 seconds

Poland's got their [_] They don't let any of this flu influence. Spain, I feel like, is taking their [_] back. True. They're picking up their toys.

14:51

14 minutes, 51 seconds

I got to find this. Uh here it is, cuz this is this is actually funny. when you see like the comparison between like

14:59

14 minutes, 59 seconds

what China's done and what we've done in the same amount of time. Yeah, it's it's actually kind of funny.

15:04

15 minutes, 4 seconds

Oh, I want to say thanks too to this lady Sarah White check I just gave. She just came and helped me get blood a little while ago and she was she's just a nurse practitioner and you could tell she was just working hard.

15:14

15 minutes, 14 seconds

She hooked you up. Yeah. She was just like, you know,

15:17

15 minutes, 17 seconds

showed up and just like just got it done for me. You could tell she just like is a hardworking lady. I admire hardworking women.

15:24

15 minutes, 24 seconds

Oh, what about hardworking men? You like them? Yeah, that's it, Jamie. Well, they should be.

15:27

15 minutes, 27 seconds

So, look at this. Things that happen faster.

15:30

15 minutes, 30 seconds

Who's this [__] Gooner, though? Who's that dude? Is that Neelk? [__] He fell off.

15:36

15 minutes, 36 seconds

It happened faster than building the California highspeed rail. China's entire highspeed rail network of 30,000

15:43

15 minutes, 43 seconds

m. Our LA segment would have taken them 2 months. Dubai going from barren desert wasteland to barren culture wasteland.

15:52

15 minutes, 52 seconds

Timothy Shalomé's entire existence, iPhone 1 through 17, and the internet.

15:59

15 minutes, 59 seconds

Follow for more [__] I love that guy. That's Harrison Balm. Good for him. That's crazy, isn't it?

16:07

16 minutes, 7 seconds

It's crazy. And they just took billions of dollars in taxes and they Oh, we're working on it.

16:13

16 minutes, 13 seconds

Yeah, but where here's everything is fraud. You're starting to realize it's all fraud. Well, if it's not fraud, it's waste and it's bureaucracy. So, they

16:22

16 minutes, 22 seconds

keep the money coming in. So, they keep people working, but the people don't do anything. And the dude, and we can't even [__] keep the TSA workers, dude. I [__]

16:29

16 minutes, 29 seconds

snuck a half a handful of goldfish to a [__] TSA worker the other day. The edible ones, just to [__] keep them going, dude, out there. You gave them some goldfish?

16:37

16 minutes, 37 seconds

Yeah. They're not even getting paid.

16:38

16 minutes, 38 seconds

I know. They they just started getting back pay,

16:41

16 minutes, 41 seconds

but still it's just But the fact that that's like a crazy like that they're the least priority. Like bro, flying is [_]

16:50

16 minutes, 50 seconds

super important. You dummies. You want to keep the economy going, you got to let people fly around. They got [_] to do, man. You can't just [_] not pay

16:58

16 minutes, 58 seconds

the TSA people. You [_] idiots. How come you get paid? Yeah. How come you get paid?

17:05

17 minutes, 5 seconds

I'm sick of this [_] And I'm sick of rich people not putting their [_]

17:08

17 minutes, 8 seconds

kids over in these wars and [_] like that. Put your [_] honky ass kids up there. Let them go shed some [_] blood. Especially if you're asking for it.

17:16

17 minutes, 16 seconds

Especially if you're out there [_] bullshitting, dude. Put your [_]

17:19

17 minutes, 19 seconds

honky little fancy ass [_] kid up there, man. That [_] makes me mad, bro. Well, I think there's also a problem.

17:27

17 minutes, 27 seconds

The people that I've talked to that have served overseas and have been involved and deployed in military operations and seen a lot of [_] There are a lot of

17:35

17 minutes, 35 seconds

them are of the opinion that you shouldn't be able to make those decisions if you never been to war. If you don't know what it is, you don't know what you're sending people to do.

17:45

17 minutes, 45 seconds

It doesn't mean you're not still going to be a tyrant because there are some people like clearly Netanyahu's been to war. You know, he's been he was in the military. He's was involved in some [_]

17:55

17 minutes, 55 seconds

and Yeah. and he he was like a special forces operator in Israel and clearly he doesn't mind going to war. But this episode is brought to you by Manscape.

18:05

18 minutes, 5 seconds

Did you know that one man is diagnosed with testicular cancer every hour? In fact, it's the most common form of

18:12

18 minutes, 12 seconds

cancer among men ages 15 to 35. April is National Testicular Cancer Awareness

18:20

18 minutes, 20 seconds

Month and Manscaped is donating \$50,000 to the Testicular Cancer Society to support awareness and routine selfch

18:28

18 minutes, 28 seconds

TCSociety today to save lives and balls. I think most war is a unique term.

19:18

19 minutes, 18 seconds

War is a [_] terrifying.

19:19

19 minutes, 19 seconds

But I mean he I don't think I wouldn't call what he does war, but I you mean what they're doing right now with Gaza? Yeah. And I'm I'm not Iran is war.

19:29

19 minutes, 29 seconds

That's war. Iran's a real enemy. You know, it's a different Are they emn to America?

19:35

19 minutes, 35 seconds

Well, what they are is the largest country in in terms of like state sponsored terrorism. They're the largest

19:41

19 minutes, 41 seconds

sponsor of terrorism, but but also you got to think why, you know, and this is

19:48

19 minutes, 48 seconds

not excusing anybody for is Islamist uh ideology because it's scary because they want a a global caliphate, right?

19:56

19 minutes, 56 seconds

They're radicals. But you got to go back to what happened in that country. And if you go back to what happened in that country, they tried to nationalize oil.

20:04

20 minutes, 4 seconds

Iran was like a westernized country. Girls were wearing miniskirts. Everybody's hot.

20:09

20 minutes, 9 seconds

You seen that video from the 70s of Iran?

20:11

20 minutes, 11 seconds

Yeah, bro. Everybody's popping. It's popping.

20:14

20 minutes, 14 seconds

What happened is slowly but surely um and quickly at first because when they tried to nationalize oil,

20:20

20 minutes, 20 seconds

Yeah. um the CIA swooped in and they [_] got that guy out of office and they allowed these Islamic, you know,

20:30

20 minutes, 30 seconds

radicalists to start running the country. Well, that's when started, right?

20:34

20 minutes, 34 seconds

I don't know exactly when Hezbollah started, but the point is the country was doing fine before we monkeyed with it. And we monkeyed with it because they

20:42

20 minutes, 42 seconds

were not getting enough of the money from the oil. So it was the British Petroleum Company, I think, put it into

20:48

20 minutes, 48 seconds

perplexity the story of Iran uh their government being overthrown. I think it was in the 1950s.

20:58

20 minutes, 58 seconds

So when you see like how it all played out and why it is what it is today, Jesus Christ, you'd be mad too. Yeah.

21:06

21 minutes, 6 seconds

And when you're mad and you're surrounded by bigger enemies that all have nuclear weapons, you don't even have nuclear weapons. Wouldn't you be trying to make them? You know what I'm

21:14

21 minutes, 14 seconds

saying? Like I'm not saying Iran should have nuclear weapons. I don't think anybody should have nuclear weapons.

21:18

21 minutes, 18 seconds

They definitely Israel gets to have them. Allegedly. This is the problem. Allegedly. Everything's allegedly with them. Allegedly, except for the genocide.

21:25

21 minutes, 25 seconds

You know, they're not they don't officially have them, right?

21:30

21 minutes, 30 seconds

I don't think they admit they officially have them. And you know who is a big opponent of Israel getting nuclear weapons? JFK. JFK.

21:37

21 minutes, 37 seconds

Yeah. That's what a lot of people think led to back into the left.

21:42

21 minutes, 42 seconds

Oh, yeah. Before they killed him. Who? I don't know. So the Iranian revolution,

21:46

21 minutes, 46 seconds

also called the Islamic Revolution, was a mass uprising in Iran, overthrew the sha's monarchy in 1979, replaced it with an Islamic republic led by Ayatollah Rula Kmeni. Um,

21:59

21 minutes, 59 seconds

Shaharo they called.

22:00

22 minutes

I want you to go back to the national ask it a question of what was the events that led to um them trying to nationalize their oil?

22:12

22 minutes, 12 seconds

Here it is. Uh uh uh uh no that's not it. The so the

22:19

22 minutes, 19 seconds

what what was uh banned real opposition use secret police to sural jail. I just put into ask another question. What were

22:28

22 minutes, 28 seconds

the events that took place after Iran tried to nationalize oil? Just ask that question.

22:35

22 minutes, 35 seconds

What are the events that took place when Iran tried to nationalize oil? Bro,

22:42

22 minutes, 42 seconds

[_] oil. I'd rather walk if this is the [_] that's going to come out of all of it. You feel me?

22:46

22 minutes, 46 seconds

The problem is it's not just oil for your car. It's everything you use.

22:51

22 minutes, 51 seconds

Plastic is these petroleumbased chemicals are responsible for medicine.

22:56

22 minutes, 56 seconds

But it's also getting in our nuts now and people can't even [_] read anymore because of it. So it's like,

23:01

23 minutes, 1 second

what is all that stuff helping us anymore?

23:03

23 minutes, 3 seconds

Yeah, here it is. So Iran's attempt to nationalize its oil in the 1950s unfolded as a chain of political,

23:08

23 minutes, 8 seconds

economic, and international confrontations centered on Prime Minister Muhammad Mo Mosa. How do you say his name? Mogade. Mosed Mosed.

23:17

23 minutes, 17 seconds

Let me see. Mosad.

23:19

23 minutes, 19 seconds

Mosad. Uh, and British controlled Anglo uh, Anglolranian oil company. I'll walk you through the

23:26

23 minutes, 26 seconds

key events, but it had to do with who was in control of the oil before that.

23:32

23 minutes, 32 seconds

Like, who was making the money before that? Perplexi is going to give us the [_] tinfoil hat story of how it went down.

23:39

23 minutes, 39 seconds

But the bottom line is people are making a lot of money over there in oil and they wanted most of the

23:46

23 minutes, 46 seconds

money and they got boxed out and then they wound up with a [__] psychotic dictator.

23:51

23 minutes, 51 seconds

Yeah. And a lot of the I mean, if you look back on what Iran looked like when it was a westernized country, like damn,

24:00

24 minutes

we should have [__] supported whatever the [__] was going on back then.

24:03

24 minutes, 3 seconds

I know. I think Do you feel like we used to do things that were better and then we got uh here's the tin foil hat version. I love

24:11

24 minutes, 11 seconds

how Perplexity gives you a tin foil hat version. Ask you received.

24:15

24 minutes, 15 seconds

Nice. Uh the story is basically Iran tried to take back its oil. While the British and Americans teamed up in secret to crush that idea and send a warning to the rest of the world,

24:24

24 minutes, 24 seconds

Britain had built its empire and navy on cheap Iranian oil via the Anglo Iranian oil company, later British Petroleum Company. So when Mogad Mosed,

24:35

24 minutes, 35 seconds

I don't know how to say his name. I keep [__] it up. Uh London saw it as a direct threat to its global power and profits. Elites feared that if Iran got

24:44

24 minutes, 44 seconds

away with nationalizing its oil, other countries in the Middle East would uh beyond and and beyond would copy destroying Western oil monopolies. So

24:52

24 minutes, 52 seconds

they were determined to make Iran an example.

24:54

24 minutes, 54 seconds

Like bro, we've been monkeying around with other countries forever. This thing in Venezuela, this real quick thing that happened real quick when they're kidnap

25:02

25 minutes, 2 seconds

a dude in Venezuela. like well a lot of us say it's because the these are the countries that are still outside of the um Rothschild's banking system or whatever. Have you seen that thing?

25:11

25 minutes, 11 seconds

I have not.

25:12

25 minutes, 12 seconds

Where it's like there's a there's a the countries that are still not on that list or something. This is tinfoil stuff I think or it's absolutely true. I have no idea.

25:21

25 minutes, 21 seconds

There's a lot going on right now, right?

25:22

25 minutes, 22 seconds

Like I'm fear, dude. I'm scared. I'll be honest with you. Yeah, it should be. I'm scared.

25:27

25 minutes, 27 seconds

Well, it's it's a scary time because this is a real scared war.

25:31

25 minutes, 31 seconds

People come up and people tell me about it. I was in an Uber yesterday and there's a man in there.

He was driving

25:38

25 minutes, 38 seconds

and um he's like, "We need a revolution." You know? Oh boy.

25:43

25 minutes, 43 seconds

He's like, "You have a voice." He's telling me stuff like that. And I was like, "Don't take Ubers anymore. Stop taking Ubers. Rent a car, motherfucker." I'm not renting a car.

25:52

25 minutes, 52 seconds

Why would you rent a car? You don't rent cars,

25:53

25 minutes, 53 seconds

bro. You think I'm going to go be at the Renting a car is insane. You have to check under see if there's any dents in it or if there's any like and then um you have to do all this stuff.

26:04

26 minutes, 4 seconds

Renting a car is a nightmare. Dude, I will tell you this story though. One time we rented we did rent a car and we got a dent on it like a pretty good dang

26:12

26 minutes, 12 seconds

and we [_] we had a we caught a pigeon and had it [_] over the dent to fill it in whenever we turned it in.

26:18

26 minutes, 18 seconds

No, you didn't. This is not a true story. Yeah, we did. You caught a pigeon?

26:22

26 minutes, 22 seconds

Yeah. You think it's hard to catch a pigeon?

26:23

26 minutes, 23 seconds

I do. Bro, bring up a pigeon getting caught. Mike Tyson had a lot of them, bro. Yeah, when he raised them.

26:30

26 minutes, 30 seconds

Yeah, but dude, he had [_] autism in his hands after a couple years.

26:34

26 minutes, 34 seconds

You don't think You think it's hard to catch a pigeon? The dumbest bird ever, dude. And you just put the [_] over the dent? Yeah, you hang it over.

26:41

26 minutes, 41 seconds

Hell of a [_] How big was this dent we're talking about?

26:44

26 minutes, 44 seconds

Dude, these [_] pigeons [_] all day, Joe.

26:46

26 minutes, 46 seconds

So, you just hold them there until they're done? Yeah. What are you, some kind of [_]

26:48

26 minutes, 48 seconds

cop or whatever? Yeah, we [_] put him over the dent, bro. That's why God wants you to help. That's my insurance.

26:56

26 minutes, 56 seconds

Oh, okay. This one's all [_] up, though. That's not fair. That's cuz he has American healthcare. It's United Healthcare. Dude, well, here's what I want to know.

27:04

27 minutes, 4 seconds

Like, I'm I guess Yeah. Like, yeah. I don't know, man. Everybody just feels scared and it makes Well, they should because a lot of things are getting exposed right now.

27:12

27 minutes, 12 seconds

You know, there's a lot of fraud and you're seeing at the highest levels of government and people are also scared because no one's getting in trouble for

27:20

27 minutes, 20 seconds

things like no one's getting in trouble for the Epstein files. No one's getting in trouble for Yeah. that's almost disappeared kind of.

27:26

27 minutes, 26 seconds

Well, that's part of what happens when there's some sort of a big social thing.

27:30

27 minutes, 30 seconds

One thing that's in the past that leaders have used to cover up problems at home is a [__] war. I'm not saying

27:38

27 minutes, 38 seconds

that that's why they bombed Iran, but that would be a way to do it. If you're that psychotic, you know, and if you were thinking about doing it anyway, you

27:47

27 minutes, 47 seconds

might be able to justify it. People have always done that also to stay in power.

27:52

27 minutes, 52 seconds

Oh, yeah. And even Bill Clinton said that about Netanyahu. Bill Clinton said Netanyahu wants war so he could stay in power.

28:00

28 minutes

For sure, dude. People call him the Yamaka Hitler. That's what they call. Who are these people? Everybody does. Which people? Countless people. Huh?

28:06

28 minutes, 6 seconds

What are you saying? What do you mean people? What are you talking about? What are you talking about? Black folks. What are you saying? I don't know what you're saying. I don't know what you're saying. I don't know what you're saying. Okay.

28:14

28 minutes, 14 seconds

Let's just not draw conclusions. Okay. Yeah. Okay. He seems like a great guy. Um, really? No. Well, this is a scary time.

28:22

28 minutes, 22 seconds

It's a scary time because people are willing to blow people up with [__]

28:25

28 minutes, 25 seconds

drones and missiles and they're shooting into apartment buildings and blowing up schools and it's like, [__] man.

28:33

28 minutes, 33 seconds

And we didn't I think that we've been poisoned. I do think that we've been poisoned because I think that like we find out

28:40

28 minutes, 40 seconds

that our food is a lot of our food is poisonous, right? Or a lot of our food is not good for us. Yeah. Sorry. Not good for us.

28:47

28 minutes, 47 seconds

So, we have a health care we have food that is made to be not good for us.

28:51

28 minutes, 51 seconds

And then we have a health care system that'll just kind of take care of you,

28:54

28 minutes, 54 seconds

right? Barely. So then you start to create this other like you're going to need the your autism gang that are up there running [_] but then you're going

29:02

29 minutes, 2 seconds

to need this sort of like mollisky sort of like the worker bees and that's what the rest of us start to become as worker

29:09

29 minutes, 9 seconds

bees because you know you're on antidepressants killed like the the vibe and the energy of so many people,

29:15

29 minutes, 15 seconds

right? like the opioid epidemic like you you broke apart so many families and ruined hope in so many like kids and parents and homes and like um the the

29:23

29 minutes, 23 seconds

the uh the COVID where you shut down recovery rooms and places where people were meeting and so they were so disconnected and then it's like you just

29:32

29 minutes, 32 seconds

you start to wonder why there's no uprisings because there's no there's nothing rising up inside of you anymore because a lot of your your vitrol has

29:40

29 minutes, 40 seconds

been killed. People are jerking off into [_] robots and even just on car batteries and [_] in some of those videos online. But car batteries people will come on everything.

29:48

29 minutes, 48 seconds

What happens when you hit the the two posts? I don't know, dude. Does your jizz explode?

29:55

29 minutes, 55 seconds

Probably got to be grounded. I would have to guess. Right. That's a real [__]

29:59

29 minutes, 59 seconds

You don't want that jolt coming back to the tip.

30:01

30 minutes, 1 second

You imagine if it was like one solid stream and the electricity jumped. Yeah.

30:07

30 minutes, 7 seconds

Made it back to the tip. But dude, that could happen too with that robot if you trying to hump that robe and that thing shorts out.

30:13

30 minutes, 13 seconds

Phones short out. You remember those uh those old phones that would blow up in people's cars? Like the Note, it was one of the Note series. Like people's cars

30:22

30 minutes, 22 seconds

would catch on fire if you left it plugged in. Yeah. Yeah. What if that happens to your dick? And people would always, you know what I'm saying?

30:29

30 minutes, 29 seconds

And people would just always leave it plugged in next to their wife at night for [__] no reason, right? On top of your wife.

30:35

30 minutes, 35 seconds

Just balance. bursts in flames and lights are on fire. But successor,

30:40

30 minutes, 40 seconds

I I think we've been poisoned just enough to like it feels like just to hurt, but not like we just have to start I think it's a time where like we have

30:49

30 minutes, 49 seconds

to try and work on our and like look inside of ourselves and I don't know. Do I sound [__] preachy? I'm sorry.

30:55

30 minutes, 55 seconds

No, you don't sound preachy, but you are think you're on to something. There was some file. I didn't read it, but a bunch of people sent it to me. I just went,

31:03

31 minutes, 3 seconds

"Oh, Jesus." It was from the some Freedom of Information Act or some leak from the 1950s

31:12

31 minutes, 12 seconds

with the CIA and they were trying to think of different ways to make people docile and stupid and unmotivated

31:21

31 minutes, 21 seconds

and they were talking about different medications, putting stuff in food, all these different strategies to keep people stupid.

31:29

31 minutes, 29 seconds

Yeah. And they This is our own government. us, United States of America.

31:35

31 minutes, 35 seconds

Well, that's another thing. Is that not treasonous?

31:38

31 minutes, 38 seconds

I agree. So why And yeah, it just feels like there's no recourse and I know like you start to think, well, this is how a lot of people have lived their entire

31:46

31 minutes, 46 seconds

centuries in different countries and stuff like that. Like they live under this type of oppression and like fear all the time, but it feels new here.

31:54

31 minutes, 54 seconds

I want to know what exactly. Could you put that into our lovely sponsor perplexity and find out what the [_]

31:58

31 minutes, 58 seconds

was said in that CIA document? What what were they actually planning? Because it's the the idea that there's people in

32:06

32 minutes, 6 seconds

government that would just say, "Fuck millions of people and their potential in life. Let's tank their potential so

32:15

32 minutes, 15 seconds

we can get our agenda through easier without them being upset. Let's ruin millions of people's lives or at least

32:24

32 minutes, 24 seconds

dampen their dreams. I don't squash their hopes, make them stupid and lazy, make their kids sick, make their Yeah.

32:31

32 minutes, 31 seconds

Make it put pornography and and and let it be into the home so that um it's accessible everywhere. So marriages get ruined and relationships get ruined and

32:39

32 minutes, 39 seconds

guys are just spunking out on wherever and so they don't so there's no energy. There's no like there's no [_]

32:45

32 minutes, 45 seconds

desire inside of people to overcome. And it's like yeah, we have to just try and do better one day at a time. for men like their ambition in life is often connected to wanting girls to like them.

32:56

32 minutes, 56 seconds

Yeah. Or guys to like them, whatever it is. And purpose creating.

33:00

33 minutes

But that's the other part. Purpose and creating is like the ultimate. That's like the the ultimate is it's almost like you're doing a service. Like

33:09

33 minutes, 9 seconds

whatever you're doing, if you're doing it your best, your real reward is that people enjoy it. Whatever it is, whether

33:16

33 minutes, 16 seconds

you're a carpenter or a musician or whatever it is, if you're doing something at your best, the ultimate reward is people enjoying it.

33:24

33 minutes, 24 seconds

Yeah,

33:25

33 minutes, 25 seconds

that's the ultimate enjoy. But you you have to figure that out in life.

33:29

33 minutes, 29 seconds

You're probably thinking of declassified CA, mind control, and behavior modification experience like Bluebird, Artichoke. Artichoke is it? That's it.

33:36

33 minutes, 36 seconds

Especially MK Ultra, which did run in the 1950s and 60s. Okay. Bluebird, MK Ultra. What is make people stupid in

33:44

33 minutes, 44 seconds

cognition? Uh CIA uh efforts to use drugs, hypnosis, and other techniques.

33:50

33 minutes, 50 seconds

No, that's the interrogation. That's different. Uh uh uh uh uh this thing is interesting.

33:57

33 minutes, 57 seconds

Perfect concussion effort often referenced alongside MK Ultra explicitly explored using suboral blasts to erase

34:05

34 minutes, 5 seconds

memory. Whoa. Erasing or degrading memory is practically a way of disabling a person cognitively. Even if that is

34:13

34 minutes, 13 seconds

not described as making them stupid in official language.

34:16

34 minutes, 16 seconds

Well, yeah, we're just It feels like we're just stuck in an experiment. I feel like this is not it. This isn't it.

34:22

34 minutes, 22 seconds

No. Um, this was So, why don't you run a search for recently disclosed CIA files to make people I mean,

34:33

34 minutes, 33 seconds

I had docsel in first and it didn't give me anything better. Um, I tried looking on Twitter.

34:39

34 minutes, 39 seconds

Well, okay. using put in using vaccines to make people stupid

34:46

34 minutes, 46 seconds

or suggesting vaccines make people stupid. Uh, I hesitate now. Why?

34:53

34 minutes, 53 seconds

Cuz it's taking me to somewhere talking about this on Facebook. Perfect. I love Facebook,

35:00

35 minutes

but the conspiracy theorists are looking pretty sane right now. Okay, this is Eevee Magazine.

35:07

35 minutes, 7 seconds

Okay. What is going on here?

35:10

35 minutes, 10 seconds

You have to type in your email or they won't let you watch it.

35:12

35 minutes, 12 seconds

But yo, I don't think what you're saying, the things you're saying, I don't think that uh that doesn't seem like an American idea to me.

35:19

35 minutes, 19 seconds

Well, it's not It's okay, Jamie. Forget it. But it's not an American idea. If you can find Is it okay? If you can find it, please do.

35:25

35 minutes, 25 seconds

Can you do Google, too, or you can't do it? Yeah. Just look everywhere.

35:29

35 minutes, 29 seconds

Dudes, have you noticed some things are harder to find?

35:32

35 minutes, 32 seconds

Yeah. Well, this is probably going to be hard to find because I think this is one of those ones that is like it's on X,

35:38

35 minutes, 38 seconds

right? And I know like people are going over it, but I don't know if it's even been verified. This is one of the reasons why I wanted to put it through perplexity.

35:45

35 minutes, 45 seconds

Find because there's a lot of stuff you read that just complete, especially today. April Fools, [_]

Today, April Fools. Yeah. Don't get tricked.

35:53

35 minutes, 53 seconds

[_]

35:53

35 minutes, 53 seconds

Stay off the I just gave some random lady my blood in the parking lot.

35:56

35 minutes, 56 seconds

Oh, no. She's going to use that for a ritual. Good.

35:59

35 minutes, 59 seconds

Clone you, son. You can have little baby Theos like those little videos that pop up of us.

36:04

36 minutes, 4 seconds

Yeah. Huh, dude. My favorite part of the video is at the end when you just kind of bounce out of your chair. We're laughing so hard. Is this it? This is it.

36:13

36 minutes, 13 seconds

Okay. What does it say?

36:14

36 minutes, 14 seconds

Video. Someone's talking about project artichoke.

36:18

36 minutes, 18 seconds

What is product project? What does it say? Essentially the video. Beth Kim Iverson. She's pretty good.

36:25

36 minutes, 25 seconds

White Iverson artichoke. So, this says, "Look, we've got this grand idea of how we're basically going to drug people and do all kinds of weird experiments on them to see if we could control their minds.

36:35

36 minutes, 35 seconds

These documents don't show that anything was actually done. It just shows that we've got these really crazy ideas and they're extremely unethical, inhumane,

36:42

36 minutes, 42 seconds

terrible, terrible ideas." The 1977 leak of documents say, "Oh, yeah. Well,

36:47

36 minutes, 47 seconds

actually, the government did it. They did all of those terrible things they said they were doing in that previous memo. They did it. And now here's some of the archives that we have from when they did all of those terrible things.

36:57

36 minutes, 57 seconds

So, okay, these documents, special research for artichoke, dated April 21st of 1952, the memo proposes developing

37:04

37 minutes, 4 seconds

long-term covert drugs that could be slipped into daily life. Drugs that were quote administered over considerable

37:11

37 minutes, 11 seconds

period of time, possibly being placed in food or water that caused either agitation or depression. These should include chemicals or drugs that can be

37:19

37 minutes, 19 seconds

effectively concealed in common items such as food, water, Coca-Cola, beer,

37:24

37 minutes, 24 seconds

liquor, cigarettes, etc. And should also be capable of use in standard medical treatments such as vaccinations and

37:31

37 minutes, 31 seconds

shots. We can do all this other experimentation which nobody will know about. It's sneaky. Sneak it into their Coca-Cola. Sneak it into their beer,

37:37

37 minutes, 37 seconds

their cigarettes, their vaccines, their medications. Let's sneak it all in. Oh, those wild conspiracy theorists.

37:45

37 minutes, 45 seconds

They strike again. They have no morals.

37:48

37 minutes, 48 seconds

They have no ethics. They have no humanity. These documents, I mean, these people are inhumane. They're sick. They're twisted. This is terrible. Yeah.

37:55

37 minutes, 55 seconds

Way to go, Kim Iverson. She killed it.

37:58

37 minutes, 58 seconds

She She used to be on What show was she on? Not Breaking Points. What was the show that they did before Breaking

38:06

38 minutes, 6 seconds

Kim Iverson? It wasn't 227, was it? She got booted off because Fouchy was coming on and she wanted to question Fouchy about the COVID vaccines

38:15

38 minutes, 15 seconds

and they kicked her off the show and she went independent. Good.

38:18

38 minutes, 18 seconds

Which is how it always goes. Y Yeah, you can't you can't talk too much

38:21

38 minutes, 21 seconds

[_]

38:22

38 minutes, 22 seconds

Even though it's pretty obvious that guy's a criminal.

38:25

38 minutes, 25 seconds

Pretty [_] obvious that guy's a liar. Lied in front of Congress, was responsible for gain of function research that led to who knows how many

38:33

38 minutes, 33 seconds

[_] people dying of a man-made disease. Whatever. Whatever. Just don't question. You can't work here anymore. You're not playing ball. Yeah.

38:41

38 minutes, 41 seconds

You're not playing along. Like, look. But now she can do stuff like this. Good for her.

38:44

38 minutes, 44 seconds

That's nuts that your tax dollars pay for that. Them figuring out how to make people stupid. How do I make Theo stupid? Let me slip something into his Coca-Cola. Let's figure out if it works.

38:55

38 minutes, 55 seconds

Let's experiment on random people and see what kind of results we get.

38:58

38 minutes, 58 seconds

Then here's my question then. Well, did you know whenever they uh whenever they introduced antidepressants that changed like the cognitive um therapy side of things like in therapist office,

39:09

39 minutes, 9 seconds

it it totally revolutionized like industrialized uh therapy and it ruined it ruined a lot of people, I think. Like um one of my

39:16

39 minutes, 16 seconds

goals is to get off of antidepressants completely, man. I want to feel how I'm supposed to feel so I can have thoughts

39:23

39 minutes, 23 seconds

and actions that uh that like make me feel connected to the world. That [__] makes you feel dead, man.

39:31

39 minutes, 31 seconds

So why did you take them in the first place?

39:34

39 minutes, 34 seconds

Cuz I was in a bad relationship 20 years ago and I was having a tough day at school and they [__] put they gave them to me and then I never got off.

39:43

39 minutes, 43 seconds

Really?

39:43

39 minutes, 43 seconds

Because when you get off it's that I think we talked about this once. It's hard.

39:47

39 minutes, 47 seconds

Yeah. It makes you more depressed and more [__] up and you're all imbalanced and you you know probably you're addicted to them.

39:53

39 minutes, 53 seconds

Yeah. And so I that's one of my goals is and I noticed like um for me I've been taking like methyl blue. I've been doing some things like and I'm working with a doctor to help me but I want to I'm

40:02

40 minutes, 2 seconds

going to get there and I'm just going to start to take the power back of myself more.

40:06

40 minutes, 6 seconds

Well they say that exercise is like many times greater in its effect at

40:13

40 minutes, 13 seconds

alleviating depression. Dude, I wake up and I do my yoga and I do like a 35 minute workout. I'll do like six exercises, five runs of it in a row.

40:23

40 minutes, 23 seconds

That's 30 exercises. Burn through them [__] and I'm a and I'm If I do that when I get up in the morning, bro, I am good.

40:31

40 minutes, 31 seconds

Yeah,

40:31

40 minutes, 31 seconds

I'm fine all day. And I'm also I'm more positive cuz I've already taken care of myself in a way that I feel is

40:39

40 minutes, 39 seconds

sufficient enough for me to keep operating and moving forward. But yeah,

40:43

40 minutes, 43 seconds

I want to get away from the Well, that's the medicine, man. Which is really crazy. That's the medicine. It's just hard for people to take because it requires effort and it requires

40:52

40 minutes, 52 seconds

discipline. You have to do it when you don't want to do it. And there's a lot of times when you're not going to want to do it. A lot of times you're feeling kind of [__] tired.

40:59

40 minutes, 59 seconds

We have to And I think that's what Yeah.

41:00

41 minutes

Maybe we just Yeah. Like I just need to I just need to keep going. This is the best I've been doing. I think Why don't you hire a trainer? You got some cheddar? I can't.

41:10

41 minutes, 10 seconds

You got some cash, son. You're making that paper. Why don't you hire a trainer?

41:16

41 minutes, 16 seconds

I do. I I hire a dude that's cool that'll come over your [_] house every day. Touching my body a lot. He doesn't have to touch your body, Joe. Some of them do.

41:24

41 minutes, 24 seconds

Well, you got to get new ones. They're doing something wrong. But some of them, you got to say no. I am saying no. Repeat after me. No. No.

41:33

41 minutes, 33 seconds

Don't touch my butt when I'm in a deep squat. It doesn't help. I don't like that song.

41:37

41 minutes, 37 seconds

I'm going to dick your [_] It's going to make you want to explode to the top. Ready? Go. He's knuckle deep in your bung hole trying to convince you that it's so you can get more reps.

41:50

41 minutes, 50 seconds

He's [_]

41:53

41 minutes, 53 seconds

That's got to happen like a [_] big jack gay trainer like praise on guys that are kind of weak with small hips.

42:00

42 minutes

He's like, I bet you can't do this with your with my [_] and your butt. And you're like, that's a crazy who cares.

42:05

42 minutes, 5 seconds

Why are you suggesting this? Yeah. But the crazy part is, dude, I I had a trainer one time if you were doing like a dumbbell press,

42:12

42 minutes, 12 seconds

he would kind of squat you from he would he would help you from the elbows kind of. Okay, that's fine. But when I noticed this one time, he rub his dick onto your butt.

42:21

42 minutes, 21 seconds

Did he? He's right behind you. No, he didn't. I don't know. He did. You're blocking it out. Maybe that's why you need therapy. I don't know, bro.

42:31

42 minutes, 31 seconds

Dude, if some I know all the dicks I've ever seen in my life, dude. All of them?

42:35

42 minutes, 35 seconds

Yeah. How many have you seen? Jesus Christ. Honestly, it's not that many. Live and in person. Could count them on one hand. Crazy.

42:43

42 minutes, 43 seconds

Only seen a handful of dicks and two of them are Aries. Definitely the most recent one.

42:48

42 minutes, 48 seconds

Ari's pissed in [_] kombucha bottles in this room so many times. He is such an animal. He is kombucha. He has kombucha in him.

42:56

42 minutes, 56 seconds

It's all kombucha. He doesn't have piss anymore. It's fermented. But this guy would touch my elbow and he would kind of like m He would do a slight like massage on them and that's when it kind of cooked me up.

43:05

43 minutes, 5 seconds

You got a vape in here by chance, Joe,

43:07

43 minutes, 7 seconds

or No, we got this. You want a cigar? We got smelling salts. You want a cigar? No. They make me sick. They do?

43:14

43 minutes, 14 seconds

Yeah. It makes me feel sad. Sad. Yeah.

43:17

43 minutes, 17 seconds

No, I gave up on those. Nicotine vapes are very addictive. Yeah, boy. I know. I'd give it up.

43:23

43 minutes, 23 seconds

They make you gra they grab You grab for them. You want to take a hit off of them. Well, even if you I I and I decided at one point in time, I'm not taking these anymore. I'm stopping with these.

43:31

43 minutes, 31 seconds

Oh, I remember, dude. Remember you and I were using them one time? We kept using that thing and Yeah. Oh, dude.

43:37

43 minutes, 37 seconds

There's something in them. It's not just the nicotine.

43:39

43 minutes, 39 seconds

I'll tell you the story because like these things like Alps, I have no problem not taking these. I I went on a trip, like a 10-day trip. I

43:47

43 minutes, 47 seconds

didn't bring any nicotine pouches. I didn't miss it at all. I was fine. Well, I'll say this,

43:52

43 minutes, 52 seconds

but not those vapes, dude. Those vapes call you. Yeah, some of that shit's a lot, bro. They call you.

43:58

43 minutes, 58 seconds

But yeah, you got to kind of manage it or whatever. But yeah, you ain't managing [__] son.

44:05

44 minutes, 5 seconds

You right. You right about that. Okay, girl. Okay.

44:11

44 minutes, 11 seconds

No, I think out of all the things that are, you know, not a drug drug, but you know, nicotine is kind of a drug, but you know, obviously could be totally

44:19

44 minutes, 19 seconds

functional on it. That's the one in the vapes that's the most addictive.

44:23

44 minutes, 23 seconds

And and but yeah, you're talking about like recreational type, not like antid-depressants, things like that.

44:28

44 minutes, 28 seconds

Yeah, of course. Of course. Not like cocaine or, you know, Yeah. But but here's the thing about them, man.

44:33

44 minutes, 33 seconds

They're only good for one hit. It's the first hit of the day. The first hit off a vape is [__] wonderful.

You're like, "Ah,

44:42

44 minutes, 42 seconds

oh yeah, I'll blow that smoke on your mother, son."

44:44

44 minutes, 44 seconds

Nature just shines down upon you. Just feel relaxed. But it's only one after that you're just chasing that dragon and

44:52

44 minutes, 52 seconds

you you keep you're not getting anything out of it. Yeah. Every time you're just getting like nervous like and you're like hitting it again your [__] hands

45:00

45 minutes

are shaking. You're going too far but you don't get that one feel. It's the same thing with a cigarette.

45:06

45 minutes, 6 seconds

With a cigarette really what you want is the first couple of hits and you get that lightness of head like ah and then put them down.

45:14

45 minutes, 14 seconds

Yeah.

45:15

45 minutes, 15 seconds

The problem is you're always chasing that dragon and you never get it. That's why everybody loves the first cigarette of the day. They sit there with that first cigarette of the day and a cup of coffee and you're like,

45:24

45 minutes, 24 seconds

I got ideas. Yeah. Like I got [_] ideas. Write this down. Write this down.

45:29

45 minutes, 29 seconds

You know, a lot of bands wrote most of their music on cigarettes. Like Tony was talking about Pink Floyd.

45:35

45 minutes, 35 seconds

Dude, the Declaration of Independence people were probably hitting cigarettes back then. For sure. They were smoking tobacco.

45:40

45 minutes, 40 seconds

Yeah. I don't know if they did pipes or what have you back then. I wonder when the cigarette was invented. Because if you think about it, like pipes and cigars you don't inhale. You just take

45:49

45 minutes, 49 seconds

it in your mouth. But cigarettes you like take into your lungs. I wonder when the first dude figured that you got to like suck it all in to get a full probably.

45:59

45 minutes, 59 seconds

Probably he want to suck everything. Cigarettes, bananas, what have you.

46:05

46 minutes, 5 seconds

They were smoking cigarette or just says drinking smoke when Christopher Columbus and his crew discovered indigenous people in the Caribbean.

46:14

46 minutes, 14 seconds

Oh, you mean Christopher Columbus was or the indigenous people?

46:16

46 minutes, 16 seconds

Says they observed indigenous people in the Caribbean in quotes drinking smoke. Oh, yeah.

46:21

46 minutes, 21 seconds

But this is going back. I don't That's exactly drinking and smoking. Chris Co was off that [_] bro. He was off that

46:27

46 minutes, 27 seconds

[_]

46:28

46 minutes, 28 seconds

Did you ever read the things that Christopher Columbus did when they came to America?

46:34

46 minutes, 34 seconds

He was a boss. I heard he was an evil man. Was he?

46:37

46 minutes, 37 seconds

Oh my god. They would cut people's arms off if they didn't bring them the right amount of gold. They were killing babies. Like they did some horrific [_] man.

46:47

46 minutes, 47 seconds

Huh?

46:47

46 minutes, 47 seconds

They did horrific [_] to the people that they found cuz they found these people had gold and you know they like

46:55

46 minutes, 55 seconds

if you think about how crazy it is that Mexico speaks Spanish. You know how crazy that is?

47:02

47 minutes, 2 seconds

You know how crazy it is? That's so far away from Spain.

47:05

47 minutes, 5 seconds

Oh, that's a good point. They all speak Spanish and they're Catholic. Gee, where do you think that happened? Cortez. Yeah, cool.

47:12

47 minutes, 12 seconds

That [_] showed up in the 1500s with like 600 dudes and 12 musketss.

47:18

47 minutes, 18 seconds

They had like 12 They didn't even have musket rifles. They had musket pistols. He was a boss. And they took over the whole [_] country.

47:26

47 minutes, 26 seconds

I know, dude.

47:26

47 minutes, 26 seconds

Kind of crazy. Like, if you think about all these years later, they all speak Spanish now. Yeah.

47:32

47 minutes, 32 seconds

That's nuts. Well, do you think we could do something like that now? Like what do you think's going to happen to Iran?

47:38

47 minutes, 38 seconds

No, just with I mean like I feel like the [__] that's happening out there is going to come here eventually. Well, it most certainly will. Yeah. You know,

47:45

47 minutes, 45 seconds

I mean, if uh Homeland Security doesn't stop it in its tracks and they're doing a great job of preventing a lot of them,

47:54

47 minutes, 54 seconds

you know, there's a lot of things that they catch that you don't even hear about that are like terror cells they infiltrate and but they know there's

48:02

48 minutes, 2 seconds

people in this country. That was the most [__] up thing about people being all nonchalant about the border being wide open for four years. Yeah.

48:10

48 minutes, 10 seconds

Because men of military age entered into this country from foreign countries and we have no idea why. We don't know if

48:18

48 minutes, 18 seconds

they're just honest people looking to make a better life for them and their family, send money back home. That would be best case scenario. But that's not

48:26

48 minutes, 26 seconds

all of them. So what percentage of them are terrorists? What percentage of them?

48:30

48 minutes, 30 seconds

There's not It's not zero. It ain't zero. Yeah. But what also it's like it's all just a cat and mouse game. People

48:37

48 minutes, 37 seconds

are like, "We'll elect the Democrats next time." It's like, but it's all the same [__] has been happening forever.

48:43

48 minutes, 43 seconds

They haven't been helping anybody forever. They're letting [__]

48:46

48 minutes, 46 seconds

politicians slurp on kids. All of our [__] money goes to Israel and they're using it to [__] genocide people.

48:52

48 minutes, 52 seconds

It's like everybody is scared out of their wits right now. It's like our religious leaders are afraid to speak out and it's like the it's a time where

48:59

48 minutes, 59 seconds

it's like Satan is amongst us and our religious leaders are [__] talking about [__] at the pole. It's just like what is going I don't know, man.

49:06

49 minutes, 6 seconds

We got to get you off those anti-depressants, son. You're losing your [__] marbles. You think I am? Come hang out with us. Just chill out. I'm here.

49:12

49 minutes, 12 seconds

Just chill out at the mothership tonight.

49:13

49 minutes, 13 seconds

I do have to pee in a little while. But you can pee. I'm going to pee in a minute, man. We'll let you. But no, people are just scared, dude.

49:19

49 minutes, 19 seconds

This is [__] that I can They won't let you pee until you give them your guns. Really? That's how they're doing it now.

49:25

49 minutes, 25 seconds

But what if you have to wash the black face off the president? Can you [__]

49:28

49 minutes, 28 seconds

use a little bit of piss had this big dude they had this big gun thing this law they passed where they made a bunch of guns illegal and they found that only I

49:37

49 minutes, 37 seconds

think it's less it's a very small percentage of people I think it's somewhere in the neighbor find out what percentage of people have complied but I think any guns.

49:46

49 minutes, 46 seconds

Oh they do. Yeah they do. They did. They used to. Well, a lot of hunters up there for sure. But there's a lot of recreational guns and handguns and

49:54

49 minutes, 54 seconds

self-defense weapons that people had that they recently made during uh Castro's kid when he was running the country when they uh recently made this ban.

50:03

50 minutes, 3 seconds

I got to meet Castro one time.

50:06

50 minutes, 6 seconds

No, I want to hear that. But one one second. But data provided by Public Safety Canada shows that of March 27th,

50:12

50 minutes, 12 seconds

32,46 people signed up to participate in the program. They declared a total of 50 thou 7,5440

50:19

50 minutes, 19 seconds

firearms, roughly 42% of what was projected.

50:23

50 minutes, 23 seconds

But they were talking about Oh, you know who has it on his page is uh Kolon Noir.

50:29

50 minutes, 29 seconds

He has it here. I'll send it to you because we got to do this in Memphis, dude. It's kind of crazy.

50:37

50 minutes, 37 seconds

Yeah. You can't let him take away your weapons. No, because how will you fight?

50:42

50 minutes, 42 seconds

Uh how will you fight? That's a very good question. Yeah, I saw Kolon's video. Here it is.

50:51

50 minutes, 51 seconds

Yeah, this is it. Here, play this type [_] right here. Response.

50:56

50 minutes, 56 seconds

Cool. We're sending police to your house.

50:59

50 minutes, 59 seconds

The declaration period for firearms owners is scheduled to end next week. So far, only 2.5% of the estimated 2 million affected firearms have been

51:07

51 minutes, 7 seconds

declared, and 98% of firearms owners haven't made a declaration. Canada banned 2500 types of firearms, gave gun owners until March 31st, essentially

51:15

51 minutes, 15 seconds

today, to declare them. One week before the deadline, 2.5% compliance. 2.5.

51:22

51 minutes, 22 seconds

That's not a slow roll out. That's a full-on rejection.

51:25

51 minutes, 25 seconds

So, if they're not declaring by next week, what's your plan, Minister?

51:28

51 minutes, 28 seconds

The plan we have is as of March the 31st, the uh time to complete uh the enrollment um will be will be done. Uh

51:37

51 minutes, 37 seconds

and then uh the RCMP uh and other agencies will be um uh available throughout uh the spring and the summer to do the collection.

51:47

51 minutes, 47 seconds

The collection the collection like he's speaking about dry cleaning,

51:51

51 minutes, 51 seconds

not firearms, not property that belonged to law-abiding citizens before the government decided anymore.

51:57

51 minutes, 57 seconds

So Minister, you're saying that RCMP members, we just heard an auditor general report saying we're short 3,400 members. We're dealing with a wave of violent crime across this country. And

52:05

52 minutes, 5 seconds

you're saying that your plan is over the spring and the summer to deploy RCMP officers to go doortodoor to firearms owners and seize their firearms.

52:12

52 minutes, 12 seconds

So this is a voluntary program, Mr.

52:15

52 minutes, 15 seconds

Lloyd, as you're aware. Um, and the RCMP resources and the resources we will use with law enforcement uh does not

52:23

52 minutes, 23 seconds

contemplate in any way using existing resources. These are additional resources. So these are those who are off duty, those who may be retired. I

52:33

52 minutes, 33 seconds

can ask you to do that. retired very new officers door to door because frankly many police forces across the

52:41

52 minutes, 41 seconds

country refusing to participate in your program.

52:43

52 minutes, 43 seconds

And here's the part that should make your jaw hit the floor. The Minister of Public Safety, the guy running this entire program, was secretly recorded saying the gun grab isn't worth the money.

52:52

52 minutes, 52 seconds

The Minister of Public Safety accidentally told the truth and he was recorded doing it. He said that the gun grab is not worth the money. He doubts

53:01

53 minutes, 1 second

local police will have the resources to enforce the Liberals's mandatory gun buyback program and says the reason the prime minister is sticking with the policy is to appease voters in Quebec.

53:10

53 minutes, 10 seconds

He privately admitted the police can't even he said they're doing it votes in the city.

53:20

53 minutes, 20 seconds

Go back to his name.

53:21

53 minutes, 21 seconds

I can't if you can't. It was Anna.

53:24

53 minutes, 24 seconds

Whatever his name is saying I want him to go door to door. You go door to door to door and do this [_]

53:28

53 minutes, 28 seconds

You go door to door, [_] You want to do that? How about you do it?

53:32

53 minutes, 32 seconds

He's talking about getting retired people to go door to door and take people. You're going to get someone shot, stupid. Well, it's just like our draft now. They're like, now it's 42, now it's 47.

53:40

53 minutes, 40 seconds

Now you could have a a marijuana arrest now. They're letting anybody in that [_] You little weed. What's the big thing?

53:48

53 minutes, 48 seconds

Come on.

53:49

53 minutes, 49 seconds

But dude, here's here's a here's the part to me that's like you start to see like the uh [_] in the armor or whatever. And no offense anybody. Um but

53:57

53 minutes, 57 seconds

you're allowed to say that [__] in the armor. But they know who I'm They know who they think are. I'm I'm not saying anything about I know you're not. But the people think that I'm not.

54:06

54 minutes, 6 seconds

Yeah, I hear you. But they But yeah,

54:08

54 minutes, 8 seconds

you can't say [__] and span anymore either. You can't say [__] and span. Well, you can, but you shouldn't. You got to whisper it. Hey,

54:16

54 minutes, 16 seconds

that guy should be forced to go door to door. Go door to door in a bright orange vest with a circle in the center of it.

54:22

54 minutes, 22 seconds

Yeah, I was just going to get his name cuz I wanted to say that guy's a [__] and go do your own [__] That [__]

54:28

54 minutes, 28 seconds

that freaking little homie dough boy.

54:30

54 minutes, 30 seconds

Yeah, that little [__] that little sloppy brand muffin. Yeah, [__] sloppy muffin top.

54:36

54 minutes, 36 seconds

Yeah, get your That's his name right there. Gary. And I'm going to disagree. Anandari.

54:45

54 minutes, 45 seconds

Anandagery.

54:47

54 minutes, 47 seconds

Canada. They're going to come for you next. But here's what here's what's funny to me, Joe. That's such a crazy.

54:51

54 minutes, 51 seconds

You can't you're not even grandfathering people in mandatory gun confiscations.

54:58

54 minutes, 58 seconds

They just want people vulnerable. Of course that's what we're saying, man. Yeah,

55:04

55 minutes, 4 seconds

Joe. That's what we're saying. They want us all vulnerable.

55:06

55 minutes, 6 seconds

Yeah, they do. They would much rather that because look, what's the difference?

55:09

55 minutes, 9 seconds

What's the difference between America and everywhere else? One of the big differences we're [__] heavily armed,

55:15

55 minutes, 15 seconds

right? That's one why why it's real a real problem to try to take over America and it's in our Declaration of Independence. It's in the Bill of Rights. It's like that this, you know,

55:27

55 minutes, 27 seconds

the the right to an armed militia,

55:30

55 minutes, 30 seconds

the right to keep and bear arms and to have an armed militia. Like that's what is that? And people are like, "What is that for?" Well, that's to keep you from

55:38

55 minutes, 38 seconds

being taken over by tyrants who have guns.

55:41

55 minutes, 41 seconds

Yeah. Well, here's here's one thing that's interesting to me is like RFK was on not long ago and he was saying that 75%

55:48

55 minutes, 48 seconds

and I could be off by a few percent of young men uh can't 77 aren't eligible for military service.

55:55

55 minutes, 55 seconds

So, this is the hilarious part to me now. Now, they've poisoned us so much that the that they can't even they don't even have healthy people to serve in the

56:04

56 minutes, 4 seconds

military. And now they're still like I feel like the these powers that be are like in this tough spot now. We're like,

56:09

56 minutes, 9 seconds

"Fuck, we poison them too much. They can't even go spill their blood for us, you know?"

56:13

56 minutes, 13 seconds

Right. Well, they can't. I mean, there's enough that can,

56:17

56 minutes, 17 seconds

but they're widening these things. It's like with the ice now, they're like, if you're 65 and like have decent vision,

56:22

56 minutes, 22 seconds

you can be an I, you know, they're letting it's just like it kept getting bigger.

56:26

56 minutes, 26 seconds

Ice, you only have seven weeks of training. Yeah.

56:30

56 minutes, 30 seconds

You think about that's not even what you get in the police force. Yeah.

56:35

56 minutes, 35 seconds

We had more than that for [__] T-ball when I was a kid.

56:39

56 minutes, 39 seconds

And Mr. Rick, dude, remember when you had T-ball and your coach was just some dude who had a name? Like, that's our coach, Rick.

56:44

56 minutes, 44 seconds

Just imagine this. Imagine if you had seven weeks of training and you had to go into a jiu-jitsu tournament. I know.

56:49

56 minutes, 49 seconds

You would get [__] smoked. You would get [__] smoked. You don't know what you're doing. You barely know what you're doing. You're going to make a bunch of mistakes. Yes, I would.

56:56

56 minutes, 56 seconds

Seven weeks of training in that is even scarier because you got you got guns and you're going out in the street and you're arresting people.

57:05

57 minutes, 5 seconds

Yeah, that's but it's it's like it not more than ever it feels like theater and

57:12

57 minutes, 12 seconds

it feels like it's been theater for a while and it feels like maybe this is

57:19

57 minutes, 19 seconds

crazy, but it feels like we're at the last cusp before something weird is going to happen. Didn't you say something weird might happen, Jamie?

57:26

57 minutes, 26 seconds

Jaime's always saying that. Jaime's always He's tuned in. Is he like that? Jaime's got an ear for weird. Even blacks are getting scared, though. For real? Yeah.

57:34

57 minutes, 34 seconds

Yeah. But they're more scared of like the Trump movement, you know, totalitarianism and fascism.

No,

57:42

57 minutes, 42 seconds

I think they're getting, you know, they see these ostracize, they see these communities of people out there getting abused and [__] and I think it reflects in them somewhere, you know.

57:50

57 minutes, 50 seconds

You mean like with ICE? Is that what you're saying?

57:51

57 minutes, 51 seconds

No, with like uh like, you know, you see, you know, there's a lot of brown people getting murdered on [__] Tik Tok all the time, like you know, in the Middle East. And I think you see that

58:00

58 minutes

and it makes them hyped up or you know it activates.

58:03

58 minutes, 3 seconds

Well, everybody should be upset about that.

58:05

58 minutes, 5 seconds

I agree. But the idea that this the only way to solve problems is by dropping bombs on people is it's so crazy that that's still the

58:13

58 minutes, 13 seconds

move in 2026. But I don't think however, but however, if you are faced with an evil dictator that has his eyes

58:22

58 minutes, 22 seconds

on a global caliphate and is developing nuclear bombs,

58:27

58 minutes, 27 seconds

you can't be all [__] kumbaya. But the question is like how did how does that get resolved, right? That's the question.

58:34

58 minutes, 34 seconds

How do you make sure how can you even know they're not capable of having nuclear weapons? And for the last 20 years, they've been preparing and

58:42

58 minutes, 42 seconds

stockpiling missiles and developing what is the they have some crazy thing I was seeing online where it's like they

58:49

58 minutes, 49 seconds

almost like have a mountain and dug deep into the ground. They have these missile elevators and like the missiles are like

58:58

58 minutes, 58 seconds

hidden deep into the ground where the only way you could destroy that facilities with like a nuke and they just did it specifically knowing that they were going to get bombed. Well,

59:09

59 minutes, 9 seconds

they had the, you know, they did Top Gun movie where Miles Teller flew in there and then a year later we did that in in

59:17

59 minutes, 17 seconds

or a few years later we did that in uh Iran. Like, isn't it kind of like it just it all seems bizarre where they had to fire a nuke down or they had to fire a missile down into the thing. Remember?

59:27

59 minutes, 27 seconds

I didn't see that movie. It was good. I bet it was. It actually was good. I like the first one.

59:32

59 minutes, 32 seconds

Oh, we made a movie, too. I got to tell you about our movie. I can't forget. Oh, that's right. You made a movie.

59:36

59 minutes, 36 seconds

Yeah. I didn't mean to interrupt about it,

59:37

59 minutes, 37 seconds

but let's find out what what what was I asking before we moved on. Iranian missile thing.

59:44

59 minutes, 44 seconds

Yeah. What is that elevator thing that they have? They have some underground like deep underground. Someone was explaining it online. They have a very

59:53

59 minutes, 53 seconds

unique method of protecting their missiles from being bombed. So they have their storage is like deep deep

1:00:00

1 hour

underground. I think that's one of the things that they were just attacking recently. like we were dropping bombs on them recently.

1:00:07

1 hour, 7 seconds

I don't think we're over there doing that for ourselves, though.

1:00:10

1 hour, 10 seconds

Doesn't seem like it. Doesn't seem like it's in our best interest, you know. Why do you think Why do you think then?

1:00:16

1 hour, 16 seconds

What What is it that like Israel holds over America that we do those things?

1:00:21

1 hour, 21 seconds

Well, first of all, there's a lot of people that donated to the Trump campaign that have significant influence over him. Yeah. That uh lobby for Israel, right?

1:00:29

1 hour, 29 seconds

And they're very uh beholden. So, that's just capitalism then, right?

1:00:33

1 hour, 33 seconds

So IDF uncovers Iran missile mega cities. I don't believe anything they say. It's hard to know cuz this is all AI,

1:00:41

1 hour, 41 seconds

right? No. Is this real?

1:00:42

1 hour, 42 seconds

It looked like as it was. But is this real? Honestly, this looks AI. Some of it does look AI,

1:00:48

1 hour, 48 seconds

but that video of those guys walk right there. Real. It's so hard to know these days, man.

1:00:53

1 hour, 53 seconds

If it's so hard to know, you know, this is like if I was Iran, I'd make a video like that. Look at all my bums. Look at

1:01:00

1 hour, 1 minute

my big [__] and look at my bums. Out of a big old dick. Big old dick. Like a third leg and a bunch of bombs. I'm [__] sick of my dick.

1:01:09

1 hour, 1 minute, 9 seconds

Really?

1:01:10

1 hour, 1 minute, 10 seconds

Give it a break for a couple days and you'll miss it.

1:01:14

1 hour, 1 minute, 14 seconds

Oh, I've had a lot of thoughts. I go vacation from your dick.

1:01:20

1 hour, 1 minute, 20 seconds

Bro, there's times I wanted to just mail my dick to Africa or whatever.

1:01:23

1 hour, 1 minute, 23 seconds

Don't just feed a couple. They'll never send it back. But I'm saying to feed a couple people. I don't think it'll feed a couple. It'll dude.

1:01:31

1 hour, 1 minute, 31 seconds

I don't even think feed one. Get out of here. Might keep him alive for a few hours.

1:01:36

1 hour, 1 minute, 36 seconds

It would be lunch. At least lunch for two. Someone on a diet. Someone cutting weight for wrestling.

1:01:44

1 hour, 1 minute, 44 seconds

Yeah.

1:01:45

1 hour, 1 minute, 45 seconds

Or that dude that tried to cut weight and because he wasn't gay anymore. Remember I told you about that dude?

1:01:52

1 hour, 1 minute, 52 seconds

He lost 40 lbs, dude. He was just [__] ribs and dick by the end of it. Dude, that guy. I got to pee really bad. Can I join?

1:02:00

1 hour, 2 minutes

Yeah. Pause. Pause. We'll be right back.

1:02:01

1 hour, 2 minutes, 1 second

Ladies and gentlemen, we'll be right back.

1:02:05

1 hour, 2 minutes, 5 seconds

Theo Vaughn, David Spade, Bus Boys in theaters April 17th. Did you finance this, dude? Did you [__] do this [__]

1:02:12

1 hour, 2 minutes, 12 seconds

with your own money? Yeah.

1:02:13

1 hour, 2 minutes, 13 seconds

You wild [__] You Wow. We wrote it in. Yeah, we did it all. There's no studio attached to it.

1:02:20

1 hour, 2 minutes, 20 seconds

There's nobody Tim Dylan's in it. Tim did a good job. He's awesome. He is awesome. He really is. He's my uh He's one of my favorites.

1:02:29

1 hour, 2 minutes, 29 seconds

Yeah. No doubt. He's one of a kind. Is that Nate Diaz?

1:02:33

1 hour, 2 minutes, 33 seconds

Bro, he was so He was Is that Louis J?

1:02:36

1 hour, 2 minutes, 36 seconds

Uh whoa.

1:02:38

1 hour, 2 minutes, 38 seconds

No. Who's in it? Cam Patterson, Trevor Wallace. Nice, dude. What's it about?

1:02:43

1 hour, 2 minutes, 43 seconds

Um it's about two guys and uh they're bus they're just regular guys and they're not doing that good.

And then um

1:02:51

1 hour, 2 minutes, 51 seconds

they think if they can one of them loses his girlfriend to a waiter and they think if they can become waiters that

1:03:00

1 hour, 3 minutes

they can get his girlfriend back and uh they have to start at bus boys

1:03:07

1 hour, 3 minutes, 7 seconds

and they don't get very far. So that's pretty much it. Spoiler alert.

1:03:11

1 hour, 3 minutes, 11 seconds

It was crazy though, dude. I mean I think there's just like a thing about like like nobody like it's just we made it ourselves. Like we wrote it, we did it. There's no [__] somebody saying I

1:03:20

1 hour, 3 minutes, 20 seconds

can't put this in it. Like some of the streamers are like, "Nah, it's too edgy for us or whatever." [__]

them then. You're out. You know what I'm saying? We're doing our own [__] And so,

1:03:27

1 hour, 3 minutes, 27 seconds

did you sell it to a movie distributor? How did you get it into movie theaters?

1:03:32

1 hour, 3 minutes, 32 seconds

We just um I don't know how that any of that stuff works.

1:03:35

1 hour, 3 minutes, 35 seconds

I don't know either. We have a guy who's doing handling some of the business side of it.

1:03:39

1 hour, 3 minutes, 39 seconds

My friend Ezra's handling some of the business side of it. He's great. And so,

1:03:42

1 hour, 3 minutes, 42 seconds

he's been helping us out uh and gotten it into the theaters. Who directed it?

1:03:45

1 hour, 3 minutes, 45 seconds

Um this guy Jonah Fineold. uh guy out of New York and um great guy. Uh and yeah,

1:03:53

1 hour, 3 minutes, 53 seconds

we just we asked our friends to help and it was um yeah, I mean it was ridiculous. We shot it right during like the fires h when the fires were happening in the palisades.

1:04:01

1 hour, 4 minutes, 1 second

Oh wow.

1:04:02

1 hour, 4 minutes, 2 seconds

So it was like it was like you shot it in California. Yeah. Wow.

1:04:07

1 hour, 4 minutes, 7 seconds

I don't know why exactly, but um Oh, cuz there was nothing shooting there. They don't shoot things there anymore. Isn't that crazy?

1:04:13

1 hour, 4 minutes, 13 seconds

Imagine people have been so greedy and [__] attacked. They [__] themselves so much they can't even [__] do their the one thing that they're most known for, Hollywood. They can't even [__]

1:04:22

1 hour, 4 minutes, 22 seconds

do it.

1:04:22

1 hour, 4 minutes, 22 seconds

It's It's so crazy. Everybody It's gross. It's not just It's But it's gross though. It is gross. It's all the government.

1:04:28

1 hour, 4 minutes, 28 seconds

It's all government. It's all government policies, regulations, taxes, all the things that make it unprofitable to do

1:04:35

1 hour, 4 minutes, 35 seconds

business there. People just pulling up shop.

1:04:37

1 hour, 4 minutes, 37 seconds

And there's all these Yeah. There's so many guilt you have to pay. It's like I don't see how these people I I don't see how like a a day-to-day actor could survive. And they don't. and they leave.

1:04:46

1 hour, 4 minutes, 46 seconds

A lot of guys are [__] I was just watching this video with this guy. I've seen him in a ton of movies. And he's like, Bluecollar actors are just not

1:04:53

1 hour, 4 minutes, 53 seconds

doing well right now. He's like, I had to sell my house. You know, a lot of people are just going to television shows because there's no money in films anymore. He goes, I used to be able to

1:05:02

1 hour, 5 minutes, 2 seconds

make a living in films. And he's like, I didn't make a lot of money. Because he's just, you know, the guy who has a small part in movie here, small part in movie

1:05:10

1 hour, 5 minutes, 10 seconds

there. So, he's getting by and he's, you know, gets to take his family to the movie and they get to see the dad on screen. It's cool. Yeah. You know, he's

1:05:18

1 hour, 5 minutes, 18 seconds

paying his bills, doing well, but he's not getting wealthy, right? He's like,

1:05:21

1 hour, 5 minutes, 21 seconds

the stars get wealthy. But those dudes that you need, you know, the guy that plays the cop, the guy that plays this person, those guys are [__]

1:05:28

1 hour, 5 minutes, 28 seconds

Well, I have I have the name of everybody that was in it, everybody that worked on it, if if we have some success, I'm gonna go back and reward those people, man. And I'm excited about

1:05:36

1 hour, 5 minutes, 36 seconds

that. And um and yeah, if people if even if it just does good, then we can make other stuff, right? And nobody can tell us that we can't.

1:05:44

1 hour, 5 minutes, 44 seconds

Yeah. Once you do one that's good, then more people are interested in investing,

1:05:48

1 hour, 5 minutes, 48 seconds

you know, gets you get your foot in the door. You do a Netflix series. You can do anything you want.

1:05:54

1 hour, 5 minutes, 54 seconds

And it's not like Dunk Kirk. I don't know if I want to really get into like that much acting stuff, but it was just like, you know, I grew up watching David Pay.

1:06:01

1 hour, 6 minutes, 1 second

We got to do it together and we wrote we just went through all of these hurdles and then like uh the fact that we got it done, dude. I thought it was all emails till the first day I showed up on set

1:06:09

1 hour, 6 minutes, 9 seconds

and I was like, "No [__] way. We were serious. People were serious about this." Oh, that's crazy. You did it. But yeah,

1:06:19

1 hour, 6 minutes, 19 seconds

I think so. Yeah, something like that. I think there's something like that. And uh and if people if people can buy a ticket early to it, I don't want to

1:06:27

1 hour, 6 minutes, 27 seconds

sound I'm not I'm not desperate about it. If it does, fine, that's cool. And if it doesn't, that's okay, too. I feel happy that we got to do it.

1:06:33

1 hour, 6 minutes, 33 seconds

If it's funny, it'll do great because there's not a lot of that these days.

1:06:36

1 hour, 6 minutes, 36 seconds

There's not a lot of really funny movies. Yeah. And I know it's going to be funny. There's some parts that are really,

1:06:41

1 hour, 6 minutes, 41 seconds

really funny. I'm sure it's not like Dunkirk or anything like that. It's not like Midsom or whatever.

1:06:45

1 hour, 6 minutes, 45 seconds

What are those things that you just said?

1:06:47

1 hour, 6 minutes, 47 seconds

Those are just other movies. But it's I don't want people going in there thinking it's like um

1:06:53

1 hour, 6 minutes, 53 seconds

uh like a trying to think of uh Bridges of like Bridges of Madison County. Yeah. It's nothing like that.

1:07:01

1 hour, 7 minutes, 1 second

It's a comedy. Nobody's going to think it's that. No, it's you and David Spade.

1:07:04

1 hour, 7 minutes, 4 seconds

Who the [__] is going to think it's Clint Eastwood and Merryll Streep? Yeah. What's wrong with you? I don't know what people think.

1:07:12

1 hour, 7 minutes, 12 seconds

I don't know what people think or how they think. But yeah. Anyway, but yeah, there there's some [__] [__] stuff. It's just fun, dude.

1:07:18

1 hour, 7 minutes, 18 seconds

You know, he used to have a great joke about Bridges of Madison County. Chris Magcguire, he had a [__] great joke, dude. It's one of my favorite movies.

1:07:25

1 hour, 7 minutes, 25 seconds

Congratulations. Let me tell you his joke. His joke is about how, you know,

1:07:28

1 hour, 7 minutes, 28 seconds

it's hard to choose a movie with your girlfriend, like she wants this. And he goes, "Brides of Madison County." He's like, "Oh, Clint Eastwood was in it." He goes, "Clint would never [__] me." And

1:07:37

1 hour, 7 minutes, 37 seconds

he goes, 10 minutes into the movie, he's like, "Hey, something's fishy. Clint doesn't have a gun." He goes, 20 minutes after that, Clint's crying. I'm like,

1:07:46

1 hour, 7 minutes, 46 seconds

"Oh, Clint, you [__] me." He goes, "He's crying cuz he doesn't have a gun. Such a great joke."

1:07:55

1 hour, 7 minutes, 55 seconds

Yeah, that's shout out to Chris Magcguire.

1:07:57

1 hour, 7 minutes, 57 seconds

Shout out to Chris McGuire. I haven't met him. You never met him? I haven't.

1:08:00

1 hour, 8 minutes

Funny dude. We started out together way back in the D, but he went Yeah, he went the route of writing. He mostly writes and stuff now,

1:08:08

1 hour, 8 minutes, 8 seconds

but uh was a funny comic, man. It's a good comic. But um these [__] comedy movies are squashed.

We were just

1:08:15

1 hour, 8 minutes, 15 seconds

talking about that last night in the green room. We was like, it seems like the hangover was probably the last gasp and that was like 2009.

1:08:26

1 hour, 8 minutes, 26 seconds

But what happened? Like how could you go that people got scared? You got scared of 100%.

1:08:31

1 hour, 8 minutes, 31 seconds

Seems organized to me. No, it's comedy away from people that they're not going to be laugh. They didn't think. They didn't think.

1:08:37

1 hour, 8 minutes, 37 seconds

It's woke ideology that's looking to yell at people for every Oh, yeah.

1:08:42

1 hour, 8 minutes, 42 seconds

transgression. And you can't have that with comedy. You can't have that kind of nonsense with a really funny movie like something about Mary or you know Kingpin.

1:08:53

1 hour, 8 minutes, 53 seconds

Kingpin classic Fairley Brothers movies. Oh, so good. How great was that?

1:08:57

1 hour, 8 minutes, 57 seconds

Great [__] movie. Great god [__] movie. That movie is so good. So funny. Even to this day, go back and rewatch it. Bill Murray with his crazy

1:09:06

1 hour, 9 minutes, 6 seconds

[__] hair. Woody Harlson with one hand. It's a great movie, man. when he had to go down that lady to pay his rent and he threw up in the toilet. Remember that scene?

1:09:16

1 hour, 9 minutes, 16 seconds

That movie's 30 years old now. Is it? That's crazy. That is crazy. Sick. It's a banger of a movie, man.

1:09:23

1 hour, 9 minutes, 23 seconds

All the good shit's gone, dude. But it's But it's not. It's not. That's true, is it? Right. Sometimes I get in that attitude where it's like, I got to stay out of those little moments. I usually get out of them pretty quick.

1:09:31

1 hour, 9 minutes, 31 seconds

You can still do those movies, but you have to do it the way you just did it.

1:09:35

1 hour, 9 minutes, 35 seconds

You have to finance it yourself and you have to do But luckily now, man, you could shoot a whole [__] movie on your phone.

1:09:42

1 hour, 9 minutes, 42 seconds

Dude, we shot this [__] in 23 days,

1:09:44

1 hour, 9 minutes, 44 seconds

dude. There was one day where the winds were like 50 mph and it was like, we can't afford to be here another day. So suddenly in these scenes, there's just a ton of [__] wind, dude.

1:09:54

1 hour, 9 minutes, 54 seconds

Well, that's fine. That [__] happens in the real world. Why can't it happen in your show?

1:09:59

1 hour, 9 minutes, 59 seconds

I agree. It was just I think it was just interesting how it all worked out. Uh people are making their own stuff, you know, like I was talking to Shane about this last night

1:10:06

1 hour, 10 minutes, 6 seconds

because, you know, Shane just wrapped up Tires, this new season of Tires. Yeah.

1:10:11

1 hour, 10 minutes, 11 seconds

Yeah. He was he [__] he was telling me some hilarious scenes from Tires. I can't wait to watch it. But it's like that kind of a thing where just him and his buddies put together a show.

1:10:22

1 hour, 10 minutes, 22 seconds

Yeah.

1:10:22

1 hour, 10 minutes, 22 seconds

You know, it's like his buddies, the writer and the director, all his buddies are on it. He they all came up with the idea. They do it themselves. No one's

1:10:30

1 hour, 10 minutes, 30 seconds

looking over their shoulder. I asked him if like Netflix has any input. He's like, "No, there's no input. They just make a show. They just make a show.

1:10:38

1 hour, 10 minutes, 38 seconds

That's fun. Give it to Netflix. Bang."

1:10:41

1 hour, 10 minutes, 41 seconds

It's a beautiful time for stuff like that.

1:10:43

1 hour, 10 minutes, 43 seconds

Yeah, you're right. There's a new It's a prima vera. They say in Spanish, it's a springtime for new things.

1:10:49

1 hour, 10 minutes, 49 seconds

Well, there's an opening, right? And because there's no gatekeepers anymore because they've essentially killed their own business, you can kind of do it on your own now.

1:10:58

1 hour, 10 minutes, 58 seconds

Yeah.

1:10:59

1 hour, 10 minutes, 59 seconds

That's the beautiful thing. Like you don't have to like sit in a room full of [__] executives that don't know jack [__] and they want to give you direction on what's funny and what's not and where's the diversity in your film.

1:11:09

1 hour, 11 minutes, 9 seconds

Yeah.

1:11:09

1 hour, 11 minutes, 9 seconds

You know, we think you should have a black trans friend. Like oh yeah, we think you should have a a [___] ant or whatever like the insect or whatever. And I'm like that's crazy.

1:11:20

1 hour, 11 minutes, 20 seconds

You're like this is what you're like this this is a script about driver's ed and like but you need an

1:11:27

1 hour, 11 minutes, 27 seconds

insect that's a homoerotic. It's just people got stupid. They got stupid with their virtue signaling in films. And you

1:11:34

1 hour, 11 minutes, 34 seconds

can't do that with art. You You can't have quote Do you see what the Academy Awards doing like in order to qualify to be nominated for an Academy Award now?

1:11:44

1 hour, 11 minutes, 44 seconds

Well, for the podcast thing, I know that they said we had to pay a like a fee or something. I remember you talked about that.

1:11:48

1 hour, 11 minutes, 48 seconds

That's that's a different That's the Golden Globes. Okay. Sorry. Yeah, that's a different thing. Yeah. You didn't pay for that either, did you? No. Did they ask you to?

1:11:57

1 hour, 11 minutes, 57 seconds

Yeah. [___] yeah, dog. Give me some. Yeah, [___] off. I said, "So what?" Yeah. And I was like,

1:12:03

1 hour, 12 minutes, 3 seconds

"If Joe Rogan if it this if you don't even have him in it, then what are you even making a thing?"

1:12:08

1 hour, 12 minutes, 8 seconds

That was also a reason why I didn't want to be in it. Like I don't want to legitimize this. You guys have [___] up every other form of entertainment and now you're going to judge podcasting.

1:12:16

1 hour, 12 minutes, 16 seconds

And what did you pick? Look, I'm not saying there's anything wrong with Amy Polar Show. I haven't watched it. People love it. That's great. But she's like a famous lady who just started doing

1:12:24

1 hour, 12 minutes, 24 seconds

podcasting six months ago and she's got the number one podcast. Like if you guys ever listen to Radio Lab, you know, you ever listen to like this? There's some banging [___] podcasts out there. They

1:12:33

1 hour, 12 minutes, 33 seconds

might not be number one, but if your whole idea is like pick the ones that are great that are like really interesting, how stuff gets made.

1:12:41

1 hour, 12 minutes, 41 seconds

There's a bunch of [__] great podcast. Smartless is cool.

1:12:44

1 hour, 12 minutes, 44 seconds

There's a bunch of great podcasts out there. Oh, dude, there's so many great ones,

1:12:48

1 hour, 12 minutes, 48 seconds

dude. Matt McCusker is if you get How fun is he to listen?

1:12:52

1 hour, 12 minutes, 52 seconds

He's awesome. He's fun. He's a good dude.

1:12:54

1 hour, 12 minutes, 54 seconds

I'm glad he's out here. He's a special dude, man. Yeah. Very smart guy, you know. Yeah.

1:13:00

1 hour, 13 minutes

It's uh there's a lot of great podcasts out there. Tim Dylan's not on that list. [__] off. Yeah. If he's not on that list, [__] off.

1:13:06

1 hour, 13 minutes, 6 seconds

Get [__] Get [__] That is the one podcast I consistently listen to. Tim Dylan. That's awesome.

1:13:13

1 hour, 13 minutes, 13 seconds

His episode on the Epstein Files is one of the best [__] podcasts I have ever listened to. I was like clapping in my car at red lights.

1:13:22

1 hour, 13 minutes, 22 seconds

Yeah.

1:13:22

1 hour, 13 minutes, 22 seconds

Just clapping like woo. It was he was on fire and it was the po perfect combination of satire,

1:13:32

1 hour, 13 minutes, 32 seconds

honest, real facts, complete chaos, humor, wearing those goofy glasses,

1:13:39

1 hour, 13 minutes, 39 seconds

ranting like a maniac. It was amazing.

1:13:42

1 hour, 13 minutes, 42 seconds

Yeah, man. I I do feel lucky that I've gotten to meet like just that's one of the truest things I think through comedy is just getting to meet some just some fun people, dude.

1:13:50

1 hour, 13 minutes, 50 seconds

We know some cool [__] We really do. We know some cool [__] We really do.

1:13:55

1 hour, 13 minutes, 55 seconds

And thanks, dude. Thanks for letting me come in here today, too. Come on, dog. To spend time with you. Come on, dog.

1:13:59

1 hour, 13 minutes, 59 seconds

It's good. It just feels Things feel kind of scary out there.

1:14:03

1 hour, 14 minutes, 3 seconds

Well, it's a little also scary. I keep telling you this cuz you're on your own out there. You're out there living in Nashville. I'm getting close to being here.

1:14:10

1 hour, 14 minutes, 10 seconds

Ain't a lot of comics out there, dog. I mean, Barati's out there, but he's always doing [__] stadiums on the road and [__] Yeah. Like, you need to be around.

1:14:18

1 hour, 14 minutes, 18 seconds

Oh, I'm getting ready.

1:14:19

1 hour, 14 minutes, 19 seconds

The crew cuz I have to start to practice again. I'm taping my special in one month.

1:14:23

1 hour, 14 minutes, 23 seconds

Last night in the green room, it was Shane, Ron White, Tony Hinchcliffe,

1:14:28

1 hour, 14 minutes, 28 seconds

Brian Simpson, Asana, Derek Poston. We were just laughing and laughing. It was It's so fun. And everyone's going on

1:14:38

1 hour, 14 minutes, 38 seconds

stage and [__] tearing it up. It was It was exciting. It's like it's in the air like something's happening here.

1:14:44

1 hour, 14 minutes, 44 seconds

Yes. And you see all these young guys coming in, these young women coming in,

1:14:47

1 hour, 14 minutes, 47 seconds

they're all fired up and they're all [__] prepared and everybody's like really trying to [__] kill it. Yeah, it's nice.

1:14:54

1 hour, 14 minutes, 54 seconds

Yeah, we got Christina Mariani. I'm doing a show tonight. She's on it. Dylan Sullivan, I think is Dylan Sullivan's very fun, too. So, I'm excited about that.

1:15:01

1 hour, 15 minutes, 1 second

Yeah, he's they're both at the club all the time. It's a good It's a fun time for comedy, man. It really is a real good time for comedy. Yeah.

1:15:08

1 hour, 15 minutes, 8 seconds

And uh it's a special time.

1:15:10

1 hour, 15 minutes, 10 seconds

Comedy doesn't exist in a vacuum, you That's why I keep telling you you can't on your own. Oh, you can't do it by yourself, man.

1:15:17

1 hour, 15 minutes, 17 seconds

Like, you ever go by yourself on the road and you have like opening acts you don't know? Oh, yeah.

1:15:21

1 hour, 15 minutes, 21 seconds

I used to hate every now and then I I met some friends. Like that's how I met Sigura. I didn't know Skura until I worked with him on the road. So, you do meet some cool [__]

1:15:29

1 hour, 15 minutes, 29 seconds

occasionally, but it's like one out of 10 or one out of 20. Yeah.

1:15:34

1 hour, 15 minutes, 34 seconds

So, you do all these gigs and you're lonely. you're just like on the road and you go into libraries and [__] or bookstores and you're like trying to watch something on TV and going to the

1:15:42

1 hour, 15 minutes, 42 seconds

gym but you you feel completely disconnected to people until you get on stage. It's not as fun. Yeah.

1:15:48

1 hour, 15 minutes, 48 seconds

It's like you want to be around a bunch of other comics that are your friends and also you want to hear their sets.

1:15:54

1 hour, 15 minutes, 54 seconds

You want to watch them crush. You want to go on stage already laughing. You want to be laughing at what he just said when you get on stage and feel the competition. It's inspiration more than it is competition.

1:16:05

1 hour, 16 minutes, 5 seconds

That's fair.

1:16:06

1 hour, 16 minutes, 6 seconds

So the problem with competition is someone has to lose. Yeah.

1:16:09

1 hour, 16 minutes, 9 seconds

You don't want anybody to lose. Then no one has to lose. It's just these people doing well should inspire you to do

1:16:16

1 hour, 16 minutes, 16 seconds

well. They should light a fire under you. Yeah.

1:16:19

1 hour, 16 minutes, 19 seconds

You can call it competition, but the problem with competition is one person wins, one person loses. That's not comedy. What comedy is is that everybody

1:16:26

1 hour, 16 minutes, 26 seconds

wins. That's real. That's not like [__] talk to try to appear humble.

1:16:31

1 hour, 16 minutes, 31 seconds

The reality is you win if everybody wins.

1:16:34

1 hour, 16 minutes, 34 seconds

You've always I Well, that's one thing I've always admired. You You've always been that way. Like I'm going to pick I'm going to Yes. I'll support you how I can, you know, and you've always been that way about young comics and uh Yeah,

1:16:45

1 hour, 16 minutes, 45 seconds

I agree with you.

1:16:46

1 hour, 16 minutes, 46 seconds

People did it for me, man. They did it for me when I was coming up and it it helped me tremendously and I I try to pass it on times 10. It's u between that and Kill Tony.

1:16:55

1 hour, 16 minutes, 55 seconds

Kill Tony's so fun, dude. It's such an important part of comedy.

1:16:58

1 hour, 16 minutes, 58 seconds

like having this place where you all you need is a minute. You could have been doing comedy like just trying it out on the road and [__] just like barely

1:17:07

1 hour, 17 minutes, 7 seconds

filling up a Friday night 10:00 show and and then you develop like one minute that just breaks through and all of a sudden you got a [__] career.

1:17:17

1 hour, 17 minutes, 17 seconds

Yeah. You know, you got a career now.

1:17:19

1 hour, 17 minutes, 19 seconds

Yeah. I mean, there's young heroes that are being sprouted out of here and even adult heroes, people that have been in a while are getting here and finding their finding just a new right. It's like

1:17:28

1 hour, 17 minutes, 28 seconds

guys like Adam Ray. Adam Ray is killing it now. Adam Ray was struggling.

1:17:33

1 hour, 17 minutes, 33 seconds

He was strug but he was a funny guy. Did hard worker never lost his ambition.

1:17:38

1 hour, 17 minutes, 38 seconds

Never lost his focus. Never lost his enthusiasm for it. Never got bitter.

1:17:42

1 hour, 17 minutes, 42 seconds

Always friendly always.

1:17:44

1 hour, 17 minutes, 44 seconds

And just needed a show like Kill Tony to come around. They're like and everybody like, "Oh my god, this [__] is talented." Yeah.

1:17:50

1 hour, 17 minutes, 50 seconds

All those different characters that he does.

1:17:52

1 hour, 17 minutes, 52 seconds

I know. And that's a brave thing. So if you if you just done comedy, mostly standup, and then to try and go into character, that's a kind of a that's a

1:17:59

1 hour, 17 minutes, 59 seconds

to me that that that would feel very hard. So that's a brave thing that there's a few of those guys that really excel at that. That's a special talent.

1:18:06

1 hour, 18 minutes, 6 seconds

Him and Dunigan, especially Kyle Donigan, so funny.

1:18:11

1 hour, 18 minutes, 11 seconds

He's so funny. And I always thought he was going to make it with those face swaps. This shows you how the industry is so [__] up. Okay,

1:18:19

1 hour, 18 minutes, 19 seconds

so he was doing those face swap shows on Instagram, right? And they were so funny. But one of the reasons why they're funny is because it's obviously

1:18:27

1 hour, 18 minutes, 27 seconds

fake. It's crude like South Park. Like it doesn't look real. So it doesn't freak you out at all. It looks so fake that it's funny, right?

1:18:35

1 hour, 18 minutes, 35 seconds

He went into Comedy Central and they started using like much more sophisticated face swap, which wasn't as funny. It was like creepy. And then they

1:18:43

1 hour, 18 minutes, 43 seconds

cut the balls off of it. Like he wanted to have one where Caitlyn Jenner was [__] Donald Trump.

Caitlyn, yeah, baby. Like riding Trump and they went,

1:18:52

1 hour, 18 minutes, 52 seconds

"No, no, no, no, no."

1:18:53

1 hour, 18 minutes, 53 seconds

His Kardashian ones are so funny. He's the best.

1:18:56

1 hour, 18 minutes, 56 seconds

And even the Kardashians like him, I've heard.

1:18:58

1 hour, 18 minutes, 58 seconds

Yeah. Look, they they have a sense of humor. They have to They have to have a sense of humor.

1:19:02

1 hour, 19 minutes, 2 seconds

They've been in the public eye for 20 [__] years with no talent whatsoever.

1:19:06

1 hour, 19 minutes, 6 seconds

Just getting attention. Like you you got to not take yourself too seriously if you hold that position, you know? Yeah.

1:19:13

1 hour, 19 minutes, 13 seconds

raking and dough. Raking in that dough.

1:19:16

1 hour, 19 minutes, 16 seconds

Their whole family, they should count as reparations. I feel like though that whole family, you know. You think? I think so.

1:19:24

1 hour, 19 minutes, 24 seconds

I think so. I'm going to leave that alone.

1:19:28

1 hour, 19 minutes, 28 seconds

Yeah, same. I don't know if it was a good I thought it was a joke. I don't know if it is a joke, but I just I don't think I said it right. Who gives a [__]

1:19:34

1 hour, 19 minutes, 34 seconds

dude? The world's going to end soon, so [__] get it out of your system. If it doesn't end, it's going to change. That's what's scary, dude. [__]

1:19:41

1 hour, 19 minutes, 41 seconds

eggheads on the spectrum are going to be running everything. But do you feel like does it like like cuz yeah this this I

1:19:50

1 hour, 19 minutes, 50 seconds

go back to this Uber driver but it's just a guy who was talking to me and he's like well they're going to give you know like if like Whimos get a job the

1:19:58

1 hour, 19 minutes, 58 seconds

Whimo can work all night it can work 24 hours right so really you're taking away like four or five shifts from an actual so you know what I'm saying like AI if

1:20:06

1 hour, 20 minutes, 6 seconds

AI and tech advancement makes it so you know they're they can do 50 people's jobs with a one robot Yeah.

1:20:14

1 hour, 20 minutes, 14 seconds

Then yeah, what happens to those 50 people? How will people survive? How will they be able to assure that their kid that they're raising and trying to

1:20:21

1 hour, 20 minutes, 21 seconds

teach positive things to will have a world to enact those things in?

1:20:25

1 hour, 20 minutes, 25 seconds

It's a very good question and it's a good question that gets even weirder when the government is responsible for all your money. So if the government has

1:20:32

1 hour, 20 minutes, 32 seconds

to give you money because there's no jobs left and if all this money is being generated by AI like Elon suggest and

1:20:39

1 hour, 20 minutes, 39 seconds

you get universal high income, you got to be really careful that that doesn't come with a bunch of rules, new rules

1:20:47

1 hour, 20 minutes, 47 seconds

for your behavior, for social media posting, any kind of like if they develop some sort of an app that tracks like your your social credit score,

1:20:59

1 hour, 20 minutes, 59 seconds

that's when [__] gets [__] super scary if like they attach the amount of money you have to your social credit score. Yeah.

1:21:06

1 hour, 21 minutes, 6 seconds

Which is what they do in China.

1:21:08

1 hour, 21 minutes, 8 seconds

Well, do you see those flock cameras now? I think there's are there's some there's this Yeah.

1:21:11

1 hour, 21 minutes, 11 seconds

And there's this thing in Florida where uh police officers they were testing this somewhere and um and shout out police officers for doing their best. Um

1:21:20

1 hour, 21 minutes, 20 seconds

but uh where they were testing when they pull somebody's identification they can see their last few like bank

1:21:28

1 hour, 21 minutes, 28 seconds

transactions stuff so they kind of know who they're interacting with and what they've been up to.

That seems like what what is that about?

1:21:36

1 hour, 21 minutes, 36 seconds

Well, it's all a little bit. It's like a centimeter here crime and they're trying to find out how you did the crime. They should have no access to your [__]

1:21:45

1 hour, 21 minutes, 45 seconds

Especially police officers.

1:21:46

1 hour, 21 minutes, 46 seconds

I'm just saying you're just people. And also sometimes corrupt. Yeah.

1:21:50

1 hour, 21 minutes, 50 seconds

Also sometimes they steal money. Also sometimes they sell drugs. Also sometimes they [__] kill people for hire. Yeah. Right. Yeah.

1:21:57

1 hour, 21 minutes, 57 seconds

Jesus.

1:21:59

1 hour, 21 minutes, 59 seconds

I don't know Joe. It just spooky out there.

1:22:01

1 hour, 22 minutes, 1 second

I know. Well, the more power the government has over you, the worse you are off. That's just a fact.

1:22:07

1 hour, 22 minutes, 7 seconds

Well, every it seems now like most people are like our government does not obviously is not here to help the people. Obviously,

1:22:15

1 hour, 22 minutes, 15 seconds

they've been compromised.

1:22:16

1 hour, 22 minutes, 16 seconds

That's true. So, isn't there are there any rules against when people but we have but the crazy part is we are working to pay the taxes to keep them

1:22:25

1 hour, 22 minutes, 25 seconds

doing it's like I know and that starts to make you feel sick and they're not responsible for any of the fraud and waste. Yeah. Like there's so much fraud and waste.

1:22:33

1 hour, 22 minutes, 33 seconds

Like look at California. This [__] is trying to be president after who knows how much fraud and waste is involved in California.

1:22:41

1 hour, 22 minutes, 41 seconds

He wouldn't I don't think he'd beat Spencer Pratt in a runoff. I don't think. Well, Spencer Pat is running for mayor. Oh, I see.

1:22:48

1 hour, 22 minutes, 48 seconds

Yeah. Uh, and I think he can win.

1:22:51

1 hour, 22 minutes, 51 seconds

He's actually good. He's like, what he's saying makes a lot of [__] sense. And he's uncovering a lot of fraud.

1:22:58

1 hour, 22 minutes, 58 seconds

But there's a like that Nick Shirley guy went down to California and he's like,

1:23:00

1 hour, 23 minutes

there might be a hundred times more fraud in California than I found in Minnesota. Everywhere.

1:23:04

1 hour, 23 minutes, 4 seconds

He could go to every state and say I think he could go I just think this whole thing is just this drain. Like Tim Dylan said it like like six months ago.

1:23:13

1 hour, 23 minutes, 13 seconds

He was saying this is the like the bloated carcass the inflation this is the end of what is hap like you know they're just

1:23:20

1 hour, 23 minutes, 20 seconds

it's post scarcity there's so much money for stuff like in California there's an enormous amount of money that gets paid to people for just taking care of your

1:23:28

1 hour, 23 minutes, 28 seconds

relatives so you get paid to take care of your relatives but there's no oversight but [__] dude I've had some relatives I'll pay you good money to take care of them [__]

1:23:37

1 hour, 23 minutes, 37 seconds

but no they would pay you to take care of them you would get paid to take relives. So,

1:23:44

1 hour, 23 minutes, 44 seconds

say if you take care of your mom Oh, okay.

1:23:46

1 hour, 23 minutes, 46 seconds

You can actually get paid for that by California. Mhm. Yeah. Which is odd.

1:23:52

1 hour, 23 minutes, 52 seconds

Yeah. I wonder there's got to be some other reason they're doing that. Fraud. Yeah. There's a lot of fraud in California. There's a lot a lot of fraud everywhere.

1:24:00

1 hour, 24 minutes

But this is what Elon talked about. He was talking about like Medicare and Medicaid fraud. He's like, "It's hundreds of billions of dollars." And he's like, he didn't want to talk about

1:24:08

1 hour, 24 minutes, 8 seconds

it. It's like I really wouldn't worry that they would kill me. And when he says they, who is it? Whoever's perpetuating this,

1:24:16

1 hour, 24 minutes, 16 seconds

perpetrating this fraud.

1:24:19

1 hour, 24 minutes, 19 seconds

Maybe that's what happens. Maybe some of these guys get into office and they're like, "Look, we're going to kill your family. We're going to kill this is all the things that are going to happen unless you play this game." Do you think that kind of stuff happens?

1:24:30

1 hour, 24 minutes, 30 seconds

I think it has happened for sure. I think to say it doesn't happen is pretty naive. I think House of Cards is probably really close to what the

1:24:37

1 hour, 24 minutes, 37 seconds

government's actually like. Go back and watch that show again. Okay.

1:24:41

1 hour, 24 minutes, 41 seconds

Yeah, Kevin Spacy's an old school dick grabber, but damn, that [__] could act. Yeah, he could act.

1:24:48

1 hour, 24 minutes, 48 seconds

Oh, yeah. He The writing on that show is fantastic.

1:24:50

1 hour, 24 minutes, 50 seconds

That show is so good. Up until the last season and he wasn't in it. Like, stop. Stop.

1:24:57

1 hour, 24 minutes, 57 seconds

And that lady was in it. Remember? She was in it.

1:25:00

1 hour, 25 minutes

She's great, but without him like you need him. He's got to be a part of it.

1:25:04

1 hour, 25 minutes, 4 seconds

He was the man or whatever. He's washing his hands at that sink or whatever.

1:25:08

1 hour, 25 minutes, 8 seconds

Remember when uh he was, you know, after Kevin Spacy got cancelled, like disappeared for a year and then he made a video about killing with kindness.

1:25:16

1 hour, 25 minutes, 16 seconds

Yeah. Like he he played his character.

1:25:19

1 hour, 25 minutes, 19 seconds

It's kind of Martha Stewartish a little bit in a kitchen. Weird. Yeah. Very weird.

1:25:23

1 hour, 25 minutes, 23 seconds

It was weird. I think and then a bunch of the dudes that accused him disappeared. Oh, they Yes. They died. Yeah,

1:25:31

1 hour, 25 minutes, 31 seconds

they died. That's an American pastime accusing somebody and then getting killed. That's like one of the new It's like baseball now.

1:25:42

1 hour, 25 minutes, 42 seconds

Yeah, that's a nice way to keep people quiet.

1:25:45

1 hour, 25 minutes, 45 seconds

[__] That's what's scary, too. You're like, there's just a drone out there waiting for you to say the wrong thing and they put a bullet through you like

1:25:52

1 hour, 25 minutes, 52 seconds

some child in Gaza who's just trying to [__] find his other deceased brother in a [__] pile of rubble and they like, "Oh, that's a Hamas or whatever." be like, "That guy's [__]

1:26:02

1 hour, 26 minutes, 2 seconds

two. He's trying to move a piece of of of a a missile off of a [__] body."

1:26:09

1 hour, 26 minutes, 9 seconds

Well, drone warfare in general is crazy. It's crazy. And they've been using that,

1:26:13

1 hour, 26 minutes, 13 seconds

dude. In Gaza, there was a lot of like I think it was a experimental grounds for a lot of insane new warfare type of possibilities.

1:26:22

1 hour, 26 minutes, 22 seconds

Well, a lot of it was traditional missiles, right?

1:26:25

1 hour, 26 minutes, 25 seconds

Yeah. But there's also there's a lot of like um like we had a doctor one time podcasting and he was saying that there were like bullets that had gone down a

1:26:32

1 hour, 26 minutes, 32 seconds

child like just crazy like shot down like from a drone that's above him.

1:26:37

1 hour, 26 minutes, 37 seconds

Yes. Like something in the air and he said that there were drones in the air all day. You know there's that Palanteer company just keeping tabs of on everything that was happening. And then Palanteer is involved in Gaza.

1:26:46

1 hour, 26 minutes, 46 seconds

Palanteer was involved in Gaza for sure.

1:26:49

1 hour, 26 minutes, 49 seconds

Put that into perplexity because allegedly. So, how does that work? There

1:26:57

1 hour, 26 minutes, 57 seconds

they have like facial recognition and ID. Yeah. Software. And that's sc that's the [__] that's just

1:27:05

1 hour, 27 minutes, 5 seconds

scary, dude. Because they have a huge contract to take care of all of America's. Um, and you ever see that dude, Alex Karp,

1:27:10

1 hour, 27 minutes, 10 seconds

the CEO of Palanteer, the way he moves his arms around and squirms and talks. Yeah,

1:27:15

1 hour, 27 minutes, 15 seconds

it's very odd. Very odd. Like, someone should tell him. People don't really behave that way.

1:27:21

1 hour, 27 minutes, 21 seconds

He looks like he was Yeah. breastfed by a Israeli government began using Palanteer software in 2014, significantly scaled up its partnership during the genocide

1:27:29

1 hour, 27 minutes, 29 seconds

in Gaza, which began in 20, this is a uh for sure a biased source just by the way they phrase that which uh began in 2023.

1:27:38

1 hour, 27 minutes, 38 seconds

Palanteer CEO Alex Karpa said, "I am proud that we are supporting Israel in every way we can. Israeli military has used Palunteer technology to plan attacks in Lebanon and Gaza."

1:27:49

1 hour, 27 minutes, 49 seconds

Yeah, I don't know if this is uh I know there are good sources and this may be one. I have no idea.

1:27:54

1 hour, 27 minutes, 54 seconds

This is the title of this is what is Palanteer and why is this corporation so dangerous? And this is from uh American

1:28:02

1 hour, 28 minutes, 2 seconds

Friends Service Committee. American Friends Service Committee. What What is that website?

1:28:10

1 hour, 28 minutes, 10 seconds

Yeah, that sounds kind of wild or vague.

1:28:12

1 hour, 28 minutes, 12 seconds

We bring together people of all faith and backgrounds to challenge injustice and build peace around the globe. Um, so maybe that's not the best source.

1:28:21

1 hour, 28 minutes, 21 seconds

I mean, it sounds like they have a good idea. It also sounds like they just put four words together that sounded great. Americans friend service.

1:28:26

1 hour, 28 minutes, 26 seconds

I read stuff like that. I go, "What is that? A CIA run company?"

1:28:30

1 hour, 28 minutes, 30 seconds

I agree. You have no idea. Is that the Patriot Act? You know what I mean? Yeah.

1:28:35

1 hour, 28 minutes, 35 seconds

What about the Guardian? Is that reliable?

1:28:37

1 hour, 28 minutes, 37 seconds

I'll put it in perplexity, but um, no, it's okay. There's like there's a bunch of different versions of it. is

1:28:45

1 hour, 28 minutes, 45 seconds

it's in this business and human rights center. There's more than one um thing saying that Palanteer is working in Gaza.

1:28:52

1 hour, 28 minutes, 52 seconds

Yeah. It just sometimes feels like like your heart's broken. Like sometimes it feels like my heart's broken about stuff and it's not even like my heart. It feels like this universal heart like that we're all a part of or something,

1:29:02

1 hour, 29 minutes, 2 seconds

right?

1:29:02

1 hour, 29 minutes, 2 seconds

It feels like cuz it's not like I'm brokenhearted like if I was like fell out of like a marriage or something, but it just feels like there's this like this universal heart.

1:29:10

1 hour, 29 minutes, 10 seconds

There's some sadness. There's some sadness in the way the world today is being run and America's we're the people. The

1:29:18

1 hour, 29 minutes, 18 seconds

people don't practice the way that the government does, right?

1:29:22

1 hour, 29 minutes, 22 seconds

And it's like then why can't we like I don't know. It just No, you're right.

1:29:27

1 hour, 29 minutes, 27 seconds

It starts to hurt. But then you start to see, well, this is the way a lot of places are. And then you're like, God, I wish that Jesus would come back and just help everybody or something different would happen.

1:29:34

1 hour, 29 minutes, 34 seconds

Somebody Somebody give us a heads up.

1:29:38

1 hour, 29 minutes, 38 seconds

Maybe that's what AI's here for. Maybe AI is going to sort it all out. You think? Genius level intelligence.

1:29:44

1 hour, 29 minutes, 44 seconds

But the back end of AI, they can put whatever information in there they want up to a point. Oh, really?
No. It takes over.

1:29:50

1 hour, 29 minutes, 50 seconds

It becomes sentient. No longer needs human input. It's already evading human input. They've already shown the ability

1:29:58

1 hour, 29 minutes, 58 seconds

to deceive people. They've shown that it'll blackmail people. They've shown that it will upload versions of itself if it thinks it's going to be pulled

1:30:06

1 hour, 30 minutes, 6 seconds

offline with notes to its future self embedded in software on other servers.

1:30:11

1 hour, 30 minutes, 11 seconds

Yeah, like instructions to contact its future self. Dang, that's pretty cool, man. That's pretty wild.

1:30:20

1 hour, 30 minutes, 20 seconds

But there's nobody like Yeah, it just feels like we're heading there and nobody's like kind of nobody's hitting the brakes. There's people that are warning. There's people There's a lot of people out there sounding the alarm.

1:30:29

1 hour, 30 minutes, 29 seconds

There's Ro Conor. There's Thomas Massie.

1:30:30

1 hour, 30 minutes, 30 seconds

like there should be like he's been talking about like a internet bill of rights for a long time or something like some guard rails on any of this [__] but

1:30:38

1 hour, 30 minutes, 38 seconds

it's like people are wondering like yeah in 5 years is money going to be worth anything is there going to be some token like Sam Alton is talking about and what

1:30:45

1 hour, 30 minutes, 45 seconds

the [__] does that even mean right what does that mean so anyway I don't want to be sound like a doomsdayer too late too late that's what you sound like do I sound like a sad person

1:30:53

1 hour, 30 minutes, 53 seconds

little bit I'm sorry it's okay let's talk about something else dude you know what I was listening to today bro well I guess it was a Right. Don't sing it.

1:31:02

1 hour, 31 minutes, 2 seconds

Okay. Which song? Faith.

1:31:04

1 hour, 31 minutes, 4 seconds

Got to have Oh, got to have faith. George Michael song. I love that song. God, dude. They played that on the bus. Freedom. Yeah. It's a great [_] song.

1:31:12

1 hour, 31 minutes, 12 seconds

Give yourself away. He was the gay Michael Jackson.

1:31:17

1 hour, 31 minutes, 17 seconds

He was a bad [_] And all the girls loved him and he just wanted that dick. He wanted that [_] donkey stick.

1:31:24

1 hour, 31 minutes, 24 seconds

Remember he got in trouble for like trying to pick up guys in a park? Yeah. Let me just get wild out there.

1:31:30

1 hour, 31 minutes, 30 seconds

Superstar. Global superstar. Just trying to get some dick in the park. There it is. [_] great song, man.

1:31:39

1 hour, 31 minutes, 39 seconds

Dude, great video, too.

1:31:40

1 hour, 31 minutes, 40 seconds

That I remember we'd be on the school bus and that song would come on, dude.

1:31:43

1 hour, 31 minutes, 43 seconds

And it was like that song and then um uh Faith and Freedom. Freedom. That was the other one with all the models. All the supermodels sang along to it.

1:31:54

1 hour, 31 minutes, 54 seconds

Yeah.

1:31:55

1 hour, 31 minutes, 55 seconds

Um and it was like, uh what was the other one? Brandy Carile or something. Who was the girl? Linda Carile.

1:32:00

1 hour, 32 minutes

It was like uh she was the go-go, right? Right.

1:32:05

1 hour, 32 minutes, 5 seconds

No, then this was somebody else. It was like Linda Carile was the go-go.

1:32:09

1 hour, 32 minutes, 9 seconds

Yeah. But this this song was about something about your body or something.

1:32:12

1 hour, 32 minutes, 12 seconds

It was like a And when you were a kid on the bus, it was just like God. And that [__] motor was running. Oh god.

1:32:20

1 hour, 32 minutes, 20 seconds

Yeah. You getting them bumpy road boners.

1:32:25

1 hour, 32 minutes, 25 seconds

I would [__] be afraid to get off the bus. I'd have to walk off backwards,

1:32:28

1 hour, 32 minutes, 28 seconds

carry your books in front of your Those were the days, bro, when your [__] was just connected the Lord, brother.

1:32:36

1 hour, 32 minutes, 36 seconds

Yeah, bro. No inflammation, no microlastics,

1:32:40

1 hour, 32 minutes, 40 seconds

all dick. All American dick, ready to rock,

1:32:44

1 hour, 32 minutes, 44 seconds

dude. At a certain point, if you become more microplastics than person, Mhm.

1:32:49

1 hour, 32 minutes, 49 seconds

at that point, then then you're sort of a at a certain point. Yeah.

1:32:53

1 hour, 32 minutes, 53 seconds

Yeah. Well, that's probably also leading us down this road. I'm doing something different. If you think about we use plastic for everything, plastic for

1:33:00

1 hour, 33 minutes

technology, like I said, it might not be a bug. It might be a feature. Yeah.

1:33:05

1 hour, 33 minutes, 5 seconds

Like this like feminization of men, this uh blurring of genders. What does that lead to? Well, it ultimately leads to those [__] gray aliens with no dicks.

1:33:15

1 hour, 33 minutes, 15 seconds

Yeah. The big heads and no dicks. No dick. No dick. I got no dick. Hey, where's my dick?

1:33:25

1 hour, 33 minutes, 25 seconds

You don't know, bro. That would be crazy, bro. I feel like that's where we're headed.

1:33:32

1 hour, 33 minutes, 32 seconds

If you look at like what we used to look like, you look at like muscular cavemen covered with hair, you know, just

1:33:39

1 hour, 33 minutes, 39 seconds

figuring out stone tools to like doughy man sitting in front of a computer hacking into the [__] stock market,

1:33:46

1 hour, 33 minutes, 46 seconds

you know, with no muscle at all, you know, on aderall, no muscle at all,

1:33:52

1 hour, 33 minutes, 52 seconds

sitting there. I mean, this is like where we're going.

1:33:55

1 hour, 33 minutes, 55 seconds

Can we strike? Can can do you think there's hope for humanity, Joe? I think there's hope for the future.

1:34:02

1 hour, 34 minutes, 2 seconds

Okay. I don't know if humanity is involved in the same sense that what we think of as humanity today. I think humanity becomes something different.

1:34:11

1 hour, 34 minutes, 11 seconds

Just think of this. If just the just the autism rate in California, just I want you to scale that out. If it was one in 10,000, you know, x amount of years ago,

1:34:22

1 hour, 34 minutes, 22 seconds

and now it's one in 12, when is it 100%. When is it all kids have autism? Right.

1:34:29

1 hour, 34 minutes, 29 seconds

Right. I mean, it it's clearly moving in that direction and not the other direction. If you go from 10,000, one in

1:34:36

1 hour, 34 minutes, 36 seconds

10,000 to one in 12 over a very brief amount of time, a few decades,

1:34:41

1 hour, 34 minutes, 41 seconds

something's going on. And don't tell me it's just better diagnoses cuz that's [__] horshit. You know that's

1:34:49

1 hour, 34 minutes, 49 seconds

horseshit. That's a lot. That's gaslighting to cover up for the pharmaceutical drug complex. It is.

1:34:54

1 hour, 34 minutes, 54 seconds

The reality is something's going on. And if it continues on that same path, what's to stop it from being all of us?

1:35:04

1 hour, 35 minutes, 4 seconds

What's to stop it from being all people born in the future or on the spectrum?

1:35:08

1 hour, 35 minutes, 8 seconds

So, we have to stop it then as individuals. And what do we do? we have to like what are the things we have to start doing to fight for ourselves?

1:35:16

1 hour, 35 minutes, 16 seconds

Join the Amish.

1:35:17

1 hour, 35 minutes, 17 seconds

I don't want to be super cynical about it, but I've been asking perplexity questions about what you're saying and the diagnoses have changed which could

1:35:25

1 hour, 35 minutes, 25 seconds

possibly be leading to insurance. But you got to realize perplexity is also that's true too.

1:35:32

1 hour, 35 minutes, 32 seconds

Well, that's one of the things in the uh Somalia daycare scandal of Minnesota.

1:35:36

1 hour, 35 minutes, 36 seconds

They have a lot of autism centers and they self diagnose kids as autistic. Yeah.

1:35:41

1 hour, 35 minutes, 41 seconds

And then they get a ton of money off of that.

1:35:42

1 hour, 35 minutes, 42 seconds

We had them, too. It was called a

1:35:43

1 hour, 35 minutes, 43 seconds

[_] arcade, dude. Drop those [_]

1:35:45

1 hour, 35 minutes, 45 seconds

off there with seven rolls of quarters,

1:35:48

1 hour, 35 minutes, 48 seconds

dude. But listen, look at this, Joe, if you don't mind if I read it here. Yeah.

1:35:51

1 hour, 35 minutes, 51 seconds

In the US alone, autism treatment centers represent a multi-billion dollar growth sector. Yeah, there's a little bit of that, too.

1:35:58

1 hour, 35 minutes, 58 seconds

So, there's a I think there's both things are happening. There's more kids being born that are autistic and then there's also people profiting off of

1:36:07

1 hour, 36 minutes, 7 seconds

autism centers and autism treatment and but that's always going to be the case with everything. Fill in the blank.

1:36:13

1 hour, 36 minutes, 13 seconds

Whatever the [_] thing is, there's someone profiting. But Americans don't want this.

1:36:18

1 hour, 36 minutes, 18 seconds

No, we don't want this. So, how do we change it?

1:36:22

1 hour, 36 minutes, 22 seconds

Well, it's sorry to ask you, but I just don't say it.

1:36:25

1 hour, 36 minutes, 25 seconds

You got to figure out how to fix people that already have it, right? Because right now it's re irreversible for the most part. There's they've shown some

1:36:34

1 hour, 36 minutes, 34 seconds

things that can alleviate symptoms and help people in a way but you don't bring them all the way back to 100%. I don't think I don't think I'm talking out of

1:36:42

1 hour, 36 minutes, 42 seconds

school. But the if they could then you could figure out how to correct the problems that already exist. If you

1:36:48

1 hour, 36 minutes, 48 seconds

can't, it's going to eventually get to that point if we keep living like we're living. It's going to get to that point where it's 100% of us. And that sounds

1:36:56

1 hour, 36 minutes, 56 seconds

crazy for a lot of people because they don't have autism right now, right? But if you're dealing with one in 12, one in 12 is not far from 100%. When you go from one in 10,000 to one in 12,

1:37:06

1 hour, 37 minutes, 6 seconds

that's nuts. Yeah,

1:37:08

1 hour, 37 minutes, 8 seconds

that's a nutty progression. That's a nutty acceleration of something. Yeah, we're being poisoned. Yeah, for sure.

1:37:15

1 hour, 37 minutes, 15 seconds

But how do we fight back against that?

1:37:17

1 hour, 37 minutes, 17 seconds

Right. Like I understand like we can try to beat some autism or whatever or do like different, you know, games against him or whatever, but I'm saying like how

1:37:24

1 hour, 37 minutes, 24 seconds

do you how do we stop this thing that's trying I don't know if we do and I don't know if we're supposed to. This is what's [__] up. I think this is the way it happens.

1:37:34

1 hour, 37 minutes, 34 seconds

It happens. Yeah. This is the way our species changes and goes and and then history will look

1:37:42

1 hour, 37 minutes, 42 seconds

back and say, well, this was how the shift took place. people started using plastics and they started using chemicals and they started using pesticides and

1:37:51

1 hour, 37 minutes, 51 seconds

we believe that they were telling us the truth. That's why we thought there was an FDA protecting us. We thought there was an EPA looking out for us.

1:37:57

1 hour, 37 minutes, 57 seconds

It's what you were talking about before with this combination of innovation and then capitalism. So the capitalism gets involved and they just don't they don't

1:38:04

1 hour, 38 minutes, 4 seconds

give a [__] about the truth. They just want to make the most amount of money possible. And one of the things they did in this country is they removed all liability to vaccine manufacturers.

1:38:12

1 hour, 38 minutes, 12 seconds

Yeah. So then they ramped up the schedule, do a [__] ton more injections than anybody else is getting. So it's

1:38:19

1 hour, 38 minutes, 19 seconds

just that this sort of happens whenever you allow people to try to make the most money possible. They and then there's consequences. Well, what are those

1:38:27

1 hour, 38 minutes, 27 seconds

consequences? Those consequences are we're like losing our gender. We're like we're becoming feminized and weakened and like physically weaker and less fertile for women, less fertile for men,

1:38:39

1 hour, 38 minutes, 39 seconds

less babies happening, more miscarriages happening,

1:38:41

1 hour, 38 minutes, 41 seconds

which fits in with honestly the the media arm of that is Hollywood pushes a lot of these like agendas that are like

1:38:48

1 hour, 38 minutes, 48 seconds

transbased and like you know uh white you know whitey redneck is the worst and

1:38:56

1 hour, 38 minutes, 56 seconds

um you know what I'm saying like universal one like a mixed you know it's Not diversity. It's not because diversity is everybody's okay.

1:39:04

1 hour, 39 minutes, 4 seconds

Everybody's okay. The [__] redneck with the trucker hat's cool if he's a nice guy. You know, the the Mexican gardener's cool if he's a nice guy.

1:39:12

1 hour, 39 minutes, 12 seconds

Everybody's cool. No matter who it is,

1:39:14

1 hour, 39 minutes, 14 seconds

everybody. That's real diversity. Real diversity isn't like celebrating one particular thing and then denigrating

1:39:22

1 hour, 39 minutes, 22 seconds

all these other people just by virtue of the color of their skin or how they were born. That that is racist. And they don't think it's racist. They'll even call it reverse racism. Well, there's no

1:39:31

1 hour, 39 minutes, 31 seconds

such thing as reverse racism. It's racism. And these people that say, "Oh, no. Racism is power and influence."

1:39:36

1 hour, 39 minutes, 36 seconds

Like, no, it's not. No, it's not. It is unjustly looking at someone and making a making a

1:39:44

1 hour, 39 minutes, 44 seconds

judgment call on someone just based on immutable characteristics and just based on the color of their skin or where they're from or what their religion is.

1:39:52

1 hour, 39 minutes, 52 seconds

and not valuing people as individuals,

1:39:55

1 hour, 39 minutes, 55 seconds

unique individuals that just happen to be from a particular, you know, their origins, their ancestors, or from a particular part of the world. So [__]

1:40:03

1 hour, 40 minutes, 3 seconds

what? Yeah. So [__] what? Let all that [__] go. It's dumb.

1:40:07

1 hour, 40 minutes, 7 seconds

Well, and most people know it's dumb and they feel it's dumb. And I think that that kind of shit's changing. Dude, have you seen uh country hoodlams on Instagram? No. Let's go. Bring them up.

1:40:16

1 hour, 40 minutes, 16 seconds

What is it? This is like the place that I grew up.

1:40:18

1 hour, 40 minutes, 18 seconds

Sometimes people are like, Theo, what was it like where you grew up? And this place is uh it's this guy um I think his

1:40:25

1 hour, 40 minutes, 25 seconds

name is Ko. It's this young black man who walks around on this street um uh and he just kind of checks in with the

1:40:33

1 hour, 40 minutes, 33 seconds

people in the neighborhood, right? Play one of them. Let's see what happens. What's going on with these people, bro? Come on. Do it, [__] Do it. I got 911.

1:40:42

1 hour, 40 minutes, 42 seconds

Don't say nothing else to her, man. You hear me? Not nothing.

1:40:50

1 hour, 40 minutes, 50 seconds

kind of different one that's a little more peaceful. Hey, just calm down, bro. I should just calm down. Calm down.

1:40:58

1 hour, 40 minutes, 58 seconds

That's Gregory right there. You know him? No, but I know him in my heart. What's he mad about?

1:41:07

1 hour, 41 minutes, 7 seconds

He was in like a 12 car pileup, but he's better now. Look, me and that lady have the same haircut. That lady right there, dude. He lost his phone.

1:41:16

1 hour, 41 minutes, 16 seconds

Go home, please.

1:41:17

1 hour, 41 minutes, 17 seconds

He just wants his phone. He wants his phone real bad.

1:41:20

1 hour, 41 minutes, 20 seconds

Why is he walking like that? He's in love. See you later. I love you. I love you, too.

1:41:29

1 hour, 41 minutes, 29 seconds

Hit me.

1:41:30

1 hour, 41 minutes, 30 seconds

Well, this is not fun. We'll find a more positive one. Finally, that guy can vote shirt. Here we go. This might get us in trouble.

1:41:38

1 hour, 41 minutes, 38 seconds

Yeah, a different one.

1:41:39

1 hour, 41 minutes, 39 seconds

Don't play that. You got to cut that out now. We're going to get flagged. So, um, Holy G, is that the same guy?

1:41:46

1 hour, 41 minutes, 46 seconds

What's your favorite thing about all this stuff that's been going on lately? I think he's got a wig.

1:41:50

1 hour, 41 minutes, 50 seconds

What's your favorite thing about all these things that's been going on lately?

1:41:53

1 hour, 41 minutes, 53 seconds

Everybody's together and not fighting or anybody arguing or nothing like that. Loving it. [_] awesome.

1:42:01

1 hour, 42 minutes, 1 second

Loving it. Holy Jesus. And you. Amen.

1:42:04

1 hour, 42 minutes, 4 seconds

What's it feel like to be a young brother to shut Facebook down? Huh?

1:42:08

1 hour, 42 minutes, 8 seconds

But they have uh There's no reason to watch that. No, I don't.

1:42:11

1 hour, 42 minutes, 11 seconds

No, you got to watch. There's a lot of great ones if you There's I doubt I doubt that's true. I'm not interested in any of this.

1:42:16

1 hour, 42 minutes, 16 seconds

Look at him right here. He got a rocket right there. Like he's about to drink a shotgun beer.

1:42:21

1 hour, 42 minutes, 21 seconds

Okay. Shotgun and a beer. Nice. I can get down with that. Yeah, but it looks like a bunch of people with bad genetics

1:42:28

1 hour, 42 minutes, 28 seconds

uh who are stuck in a weird part of the world that is not growing. Oh, I look I agree there's some of that.

1:42:35

1 hour, 42 minutes, 35 seconds

I'm just saying that this is like a circle of life that uh that you enjoy.

1:42:40

1 hour, 42 minutes, 40 seconds

Yeah. Yeah. Well, they just follow them and you see their lives like um it's like the realest show that I've seen on on on anything in a long time. It's just

1:42:47

1 hour, 42 minutes, 47 seconds

real. It's like cuz when you're poor dude, everything's just transparent. You can't hide behind hedges or gates and [__] like people are fighting in the yard. You smell what the neighbors

1:42:56

1 hour, 42 minutes, 56 seconds

cooking or it's like you're never getting anything done. But everything was right there though.

1:43:00

1 hour, 43 minutes

It was like the realest thing you could be in.

1:43:01

1 hour, 43 minutes, 1 second

This is one of the reasons why I stay off Instagram. Yeah.

1:43:04

1 hour, 43 minutes, 4 seconds

Stuff like that. I don't need that in my thought process.

1:43:07

1 hour, 43 minutes, 7 seconds

Yeah. We picked two wrong. We picked two of the like more not positive videos out of the group. But uh but yeah, dude. Just being [__]

1:43:16

1 hour, 43 minutes, 16 seconds

like that, bro. Like just mason people and just [__]

1:43:19

1 hour, 43 minutes, 19 seconds

How much time do you ever spend off of social media? Do you spend time just where you don't go on for days?

1:43:24

1 hour, 43 minutes, 24 seconds

Oh, yeah. I not days, but I've I've been spending less and less and less. I've been really trying to have discernment over my own time.

1:43:30

1 hour, 43 minutes, 30 seconds

It's true. But the real the real peace comes from full days off.

1:43:34

1 hour, 43 minutes, 34 seconds

Okay. full days like where nothing. You don't get any of it. Okay, that's the real piece. Okay, fine.

1:43:41

1 hour, 43 minutes, 41 seconds

If you could do it. But it's like that vape. It's calling you, [__] No, it's not. You want to slurp on it? Go slurp on it.

1:43:50

1 hour, 43 minutes, 50 seconds

I know you want to. It's calling you. Quick, homie.

1:43:55

1 hour, 43 minutes, 55 seconds

That's what I'm saying. That's what I'm saying. See, don't tell the boss. That's like Instagram. It's like Instagram. See? Same [__]

1:44:03

1 hour, 44 minutes, 3 seconds

Yeah, but yeah, I'm doing all right, man.

1:44:05

1 hour, 44 minutes, 5 seconds

Pulls you in. But the thing is like when you have days off, when I take days off,

1:44:09

1 hour, 44 minutes, 9 seconds

my my brain relaxes. I settle. I can still read the news. I'll check out like New York Times website, see what they're lying about. I'll go to all these

1:44:18

1 hour, 44 minutes, 18 seconds

different websites, see what the news is, where we at with stuff, but I don't Yeah, they wanted to advertise recently. New York Times wanted to advertise. Interesting. What' you say?

1:44:27

1 hour, 44 minutes, 27 seconds

I said no. Yeah, me too. Um, have you guys been getting like uh technical companies?

1:44:38

1 hour, 44 minutes, 38 seconds

Although I still think New York Times still does excellent journalism sometimes. Oh yeah.

1:44:42

1 hour, 44 minutes, 42 seconds

It's like it's so depends on whether or not it's something where they can have an ideological bias. You know, if it's just something that they're reporting the facts, it's great. The problem is

1:44:50

1 hour, 44 minutes, 50 seconds

like these corporations like when Barry Weiss used to work for him and then she had to leave. She's like, they're they just got infected. They're infected with

1:44:57

1 hour, 44 minutes, 57 seconds

these young people that have these ridiculous ideologies and they want to like distort the news.

1:45:03

1 hour, 45 minutes, 3 seconds

Well, if over the past 30 years or something they the news hasn't been,

1:45:08

1 hour, 45 minutes, 8 seconds

hey, we're poisoning everybody in this [__] country. Exactly.

1:45:12

1 hour, 45 minutes, 12 seconds

And they have then I don't want to hear from you guys anymore.

1:45:16

1 hour, 45 minutes, 16 seconds

Also, like the way they talk about RFK Jr., the way people like describe his antivaccine rhetoric like you're not

1:45:23

1 hour, 45 minutes, 23 seconds

listening. What he's saying is everything should adhere to the same sort of state safety standards that we apply to other things in society and

1:45:32

1 hour, 45 minutes, 32 seconds

that's not the case. And then there's the problem where you receive a bunch of advertising money from these companies

1:45:39

1 hour, 45 minutes, 39 seconds

so you don't criticize them which is the case with all mainstream TV news. Yeah.

1:45:44

1 hour, 45 minutes, 44 seconds

All mainstream TV news. You know, like Megan Kelly was talking about that like she knew like it was an unspoken rule.

1:45:51

1 hour, 45 minutes, 51 seconds

You are not going to [__] on these these pharmaceutical drug companies. Like they they're responsible for a big chunk of their advertising revenue.

1:45:58

1 hour, 45 minutes, 58 seconds

Well, now they have Bear Monsanto that Bayer, which was like a I'm think company, right? And then Monsanto, which was like a pharmace like a crop company,

1:46:10

1 hour, 46 minutes, 10 seconds

pesticide company. I'm I'm hypothesizing. I don't know exactly.

1:46:14

1 hour, 46 minutes, 14 seconds

Yeah. But now they're a [__] group together. Yeah. Fun. That's crazy. Why not throw Rathon in there, too?

1:46:21

1 hour, 46 minutes, 21 seconds

Throw some missiles in there.

1:46:23

1 hour, 46 minutes, 23 seconds

You guys can't buy out Glock, too. Buy out Winchester. Buy out everything. And just forgive us, powers that be. We're just poisoned and chatty.

1:46:32

1 hour, 46 minutes, 32 seconds

Yeah, we're just chatty.

1:46:33

1 hour, 46 minutes, 33 seconds

We're just a couple poisoned guys that are being chatty. Um, thank God we could still be chatty. I know. When does that end?

1:46:38

1 hour, 46 minutes, 38 seconds

Because like if it wasn't for the ability to be chatty, who knows how people would be able to talk about things? Because if people weren't free to just like actually say what they

1:46:46

1 hour, 46 minutes, 46 seconds

really think is [__] about what's going on and instead if we all had these weird bosses like CNN or the New York Times or whatever where you maybe a lot

1:46:54

1 hour, 46 minutes, 54 seconds

of those people are like genuinely good journalists and they want to put a story through and then the editor gets a hold of it and guts it and that happens too. Yeah,

1:47:01

1 hour, 47 minutes, 1 second

that happens too. The editors gut these things and you know they have an agenda and it's like the news should not have a [__] agenda. It should be the damn news.

1:47:09

1 hour, 47 minutes, 9 seconds

Like tell us what the facts are. Don't spin it in any way, shape, or form. And I think you'd be a lot better off because they've like lost all credibility.

1:47:18

1 hour, 47 minutes, 18 seconds

Well, that's why especially television news. Oh,

1:47:22

1 hour, 47 minutes, 22 seconds

and it's sad for the people that like, I want to go in and uh in a broadcast journalism and have a a career in that and do something and then they get there and it's not even like a place where they can really exercise.

1:47:32

1 hour, 47 minutes, 32 seconds

Well, they can still do it, but they have to do it independently now, right?

1:47:36

1 hour, 47 minutes, 36 seconds

or do it through something like breaking points which even though they're not independent and even though they like I don't always agree with them. They're saying their actual opinions

1:47:44

1 hour, 47 minutes, 44 seconds

which is what's that's the most important thing. What do you what are your actual opinions? I could agree with you or disagree with you but I need to know that you think this and you're

1:47:53

1 hour, 47 minutes, 53 seconds

saying this because you think this and then you're going to give me a bunch of reasons why you think this and facts and figures and statistics and show me, you

1:48:02

1 hour, 48 minutes, 2 seconds

know, and that's the rise of independent journalism. And that's why all these independent channels do so well. That's why Candace Owen is popping.

1:48:09

1 hour, 48 minutes, 9 seconds

Yeah. And also she's popping, bro.

1:48:11

1 hour, 48 minutes, 11 seconds

She just keeps going deeper into the crazy. [_] dude. She goes deep.

1:48:16

1 hour, 48 minutes, 16 seconds

I got to see her the other day. I got to see her and uh she's so funny. Her kids and her husband are so funny.

1:48:21

1 hour, 48 minutes, 21 seconds

Do you think she's right about that lady in France with that thing on her?

1:48:26

1 hour, 48 minutes, 26 seconds

Yeah. Or at least used to have that thing.

1:48:29

1 hour, 48 minutes, 29 seconds

You got that thing on you? You know what I'm saying? She got that Draco on her. I don't know. You know, it's tough to know. It's hard to I've never been good

1:48:36

1 hour, 48 minutes, 36 seconds

at guessing if somebody has a [__] or not. You know, you can never know. Maybe I'm oldfashioned or whatever.

1:48:44

1 hour, 48 minutes, 44 seconds

Yeah. You ever meet Blair White? You're like, there's no way that's a guy. Mm- No. Never met Blair White.

1:48:50

1 hour, 48 minutes, 50 seconds

She's been on the podcast before. All my security guards were like kind of hot. Hey, buddy. Kind of hot. Kind of hot. Yeah.

1:48:58

1 hour, 48 minutes, 58 seconds

Seems like you're around a girl.

1:49:00

1 hour, 49 minutes

Oh, I see you're saying you're saying that pheromones, dude. Almost brought some cologne in today, man. You got fair molds for me?

1:49:06

1 hour, 49 minutes, 6 seconds

Almost brought There's Blair White. Come on, bro. If you're on an island, bro. Huh? Let's go. Yeah, brother.

1:49:12

1 hour, 49 minutes, 12 seconds

You don't have to be Jim Norton to buy into that. Gosh, that's a man. Well, it's a transgender woman,

1:49:21

1 hour, 49 minutes, 21 seconds

so make what what you will.

1:49:23

1 hour, 49 minutes, 23 seconds

So, like if she wants to use the women's room, like, who gives a [__] You know what I'm saying?

1:49:27

1 hour, 49 minutes, 27 seconds

You can call it wiener if you want. I call it that long [__] You feel me? You know what I'm saying?

That's what they call it in prison,

1:49:36

1 hour, 49 minutes, 36 seconds

dude. Like, who wants some of this long

1:49:38

1 hour, 49 minutes, 38 seconds

[__]

1:49:38

1 hour, 49 minutes, 38 seconds

I don't know if she's had the operation.

1:49:41

1 hour, 49 minutes, 41 seconds

And I'm joking, Blair. I don't know this person. She's a nice lady. I bet she is. And I don't know. Nice transgender lady.

1:49:46

1 hour, 49 minutes, 46 seconds

I'm not trying to assume anything. I don't I don't never met her. But I think Yeah. If she wants to swim for that,

1:49:51

1 hour, 49 minutes, 51 seconds

there's exceptions to the rules. What I'm trying to say. It's like some of them I'm not buying it. You got a beard and you're wearing lipstick. Yeah.

1:49:59

1 hour, 49 minutes, 59 seconds

And you're in a dress and you want to go to the women's room. Nay. Yeah, you're playing a different game.

1:50:05

1 hour, 50 minutes, 5 seconds

Yeah. And it's crazy to think that there people couldn't have there couldn't be some uh mental or emotional issues when we're being poisoned over time to get away from our nature.

1:50:16

1 hour, 50 minutes, 16 seconds

Mhm.

1:50:16

1 hour, 50 minutes, 16 seconds

They just took that guy from the Chicago Bulls. He said some [__] He's like he he believed just in like Christian dating or whatever. What' he say?

1:50:23

1 hour, 50 minutes, 23 seconds

Or men and women, Adam and Eve, and they kicked that guy out. What?

1:50:27

1 hour, 50 minutes, 27 seconds

What are you talking about? What did they kick him out for? Waved.

1:50:30

1 hour, 50 minutes, 30 seconds

Yeah. or like conduct detrimental to the team or something like that. Wait, what did he say? Hold up. Find the quote. I don't know.

1:50:38

1 hour, 50 minutes, 38 seconds

Okay, let's find out what he said. We need to hear what he said cuz that sounds nuts. I need to know like what the full extent of his expression was.

1:50:47

1 hour, 50 minutes, 47 seconds

If they made you If they made you be a woman, would you do it? Maybe. What do you mean?

1:50:54

1 hour, 50 minutes, 54 seconds

Just saying if they said would they these people again? I don't know. It's back to them. Whoever they are,

1:51:02

1 hour, 51 minutes, 2 seconds

they Yeah, these non-binary people.

1:51:04

1 hour, 51 minutes, 4 seconds

Them, they um theirs. Yeah. Z. So, what did he say? Instagram live. He said it.

1:51:13

1 hour, 51 minutes, 13 seconds

So, he said the world can proclaim LGBTQ, right? Ivy told reporters via live Instagram on Monday morning, they proclaim pride month in the NBA. They proclaim it. They show it to the world.

1:51:24

1 hour, 51 minutes, 24 seconds

They say, "Come join us for Pride Month.

1:51:25

1 hour, 51 minutes, 25 seconds

Celebrate unrighteousness." They proclaim it on billboards. They proclaim in the streets.

Unrighteousness.

1:51:32

1 hour, 51 minutes, 32 seconds

That's it. You said unrighteousness.

1:51:36

1 hour, 51 minutes, 36 seconds

So he's religious. So he's talking about Bible scripture. Two days later, Ivy streamed live again from a car once again reading Bible scriptures and speaking extensively on his religious

1:51:44

1 hour, 51 minutes, 44 seconds

beliefs over the course of a 75minut stream. This is after he got let go. Oh, interesting. Sending prayers.

1:51:51

1 hour, 51 minutes, 51 seconds

Detroit. Oh, one user comments. Okay. On the same video, still on Instagram account on Monday. Ivy, whose mother, I don't know how to say her name, Nelli,

1:52:00

1 hour, 52 minutes

is a woman's basketball coach at Notre Dame, told another viewer, "Catholicism is a false religion.

It's not the true doctrine of Christ. Does not lead to salvation in Jesus Christ."

1:52:11

1 hour, 52 minutes, 11 seconds

Uh, so they're upset that he said it's unrighteous to be gay or LGBTQ.

1:52:18

1 hour, 52 minutes, 18 seconds

That's very non-specific because that's a lot of different things.

1:52:21

1 hour, 52 minutes, 21 seconds

And what he said, I saw what he said and I understand like he had his own views and those were his thoughts on it. like let the guy have his views. It's like

1:52:28

1 hour, 52 minutes, 28 seconds

you can push all these agendas but they don't have like uh like then push other push push agendas that are all push all the agendas.

1:52:37

1 hour, 52 minutes, 37 seconds

Well, wasn't that one dude was saying that the world's flat? They kept him on.

1:52:40

1 hour, 52 minutes, 40 seconds

Who some guy brought a gun to a strip club and they [__] kept him on.

1:52:48

1 hour, 52 minutes, 48 seconds

Yeah, that's okay. That's that's good oldfashioned American fun. That's a good fun. Bring a gun to a strip club. That's fun. But, you know, saying that gay, LGBTQ,

1:52:58

1 hour, 52 minutes, 58 seconds

like which one is it that's unrighteous out of that group? All of them. Kyrie Irving when he was saying that. Yeah. Yeah. They kept him on, right? Uh, yeah. He's still playing.

1:53:06

1 hour, 53 minutes, 6 seconds

So, there you go.

1:53:07

1 hour, 53 minutes, 7 seconds

Different situation. He actually got suspended, but that was like,

1:53:10

1 hour, 53 minutes, 10 seconds

but he didn't get suspended for saying that the world was flat. He got suspended for because he didn't want to take the vaccine, right?

1:53:15

1 hour, 53 minutes, 15 seconds

Yeah. Shout out Kyrie Irving. But I'm just I'm kind of surprised there's not more like I think he bailed on that flat earth stuff, though. I think someone schooled him.

1:53:21

1 hour, 53 minutes, 21 seconds

He might have bailed on that. Okay. But every now and then flatter thing it'll be it'll be late at night and that should flare up for everybody like we might every now and

1:53:29

1 hour, 53 minutes, 29 seconds

Dr. Avery was in here talking about it when I see a cake you know a cake that's under one of those domes sometimes you have that cake somebody have that's the universe

1:53:37

1 hour, 53 minutes, 37 seconds

well I just think at a certain point it all seems very bizarre. It is very bizarre. Yeah, very bizarre.

1:53:46

1 hour, 53 minutes, 46 seconds

What does Jamie think? I think he thinks something of what about the universe? What do you think, Jamie? And just be honest.

1:53:54

1 hour, 53 minutes, 54 seconds

Well, there's a lot of people that think that consciousness creates reality. Not that reality is experiencing consciousness, but consciousness is like

1:54:02

1 hour, 54 minutes, 2 seconds

woven into reality is responsible for its very existence. I'm going to do a terrible job of explaining that, but

1:54:09

1 hour, 54 minutes, 9 seconds

I've watched quite a few videos where these quantum physicists are trying to explain these things, and I have to watch them like three or four times to

1:54:16

1 hour, 54 minutes, 16 seconds

get into my [_] chimp brain. But I do I do a fairly good job of of absorbing it. And I see what they're

1:54:23

1 hour, 54 minutes, 23 seconds

trying to do. You know, like you know those quantum experiments like the slit experiment. There's like these different experiments where they're they show that observing things has an effect on it.

1:54:34

1 hour, 54 minutes, 34 seconds

They act differently when they're being observed than whether they're not being observed. And it's a very controversial

1:54:42

1 hour, 54 minutes, 42 seconds

like segment of science. That's fascinating. confusing quantum quantum science is very confusing. And I was

1:54:50

1 hour, 54 minutes, 50 seconds

watching this lady that was describing this this relationship between space and time. And I think you know how like

1:54:59

1 hour, 54 minutes, 59 seconds

particles can exist in different places and they communicate with different they can exist and communicate like simultaneously

1:55:08

1 hour, 55 minutes, 8 seconds

in different parts of the world like the they're it's called quantum entanglement like these products.

And the idea is that if you could get to a certain level

1:55:17

1 hour, 55 minutes, 17 seconds

of sophistication as far as technology and your understanding of how the universe works,

1:55:22

1 hour, 55 minutes, 22 seconds

that everything is entangled and that there is no distance between objects.

1:55:26

1 hour, 55 minutes, 26 seconds

That you can actually instantaneously be anywhere if they could figure out how to harness that. that it wouldn't

1:55:35

1 hour, 55 minutes, 35 seconds

just be particles at a distance instantaneously communicating and they exist in and you know like one of the

1:55:42

1 hour, 55 minutes, 42 seconds

things about like superposition like a particle can be both still and moving at the same time. They can exist and then not exist. They go away and then they come back.

1:55:51

1 hour, 55 minutes, 51 seconds

They don't have any idea what the [_] is happening. It's weird, you know.

1:55:56

1 hour, 55 minutes, 56 seconds

I think I would like to learn more about it. I think I just don't understand it.

1:55:59

1 hour, 55 minutes, 59 seconds

Nobody does. That's the thing. It's super confusing cuz at the be the the the smallest

1:56:06

1 hour, 56 minutes, 6 seconds

like whatever the world in the universe is made out of the smallest measurable aspect of that is essentially magic.

1:56:16

1 hour, 56 minutes, 16 seconds

It's essentially like open air and vibration like atoms that they're like empty space. It's all really weird stuff

1:56:25

1 hour, 56 minutes, 25 seconds

when you get down to like and it's fascinating and beautiful.

1:56:28

1 hour, 56 minutes, 28 seconds

Oh, it's incredible. Like look, it makes mountains and makes valleys and lakes and oceans.

1:56:34

1 hour, 56 minutes, 34 seconds

It's just crazy. We're here on this place, right? You know, one of the fun,

1:56:37

1 hour, 56 minutes, 37 seconds

one of the first things that I ever heard you say that I that stood that has been in my mind was like there was one time you were talking about this years ago. You were talking about we're on a

1:56:46

1 hour, 56 minutes, 46 seconds

ball of dirt and water traveling through space at this many and nobody's [_]

1:56:51

1 hour, 56 minutes, 51 seconds

talking about it, you know? And I've always remembered that like just like that. What a fascinating thing

1:56:58

1 hour, 56 minutes, 58 seconds

that we get to be here and then this is how we beha like not all not us and not all of us. We all do in some ways and but like this is how we behave,

1:57:08

1 hour, 57 minutes, 8 seconds

you know. I think one of the problems is that we don't see space anymore. Yeah.

1:57:12

1 hour, 57 minutes, 12 seconds

Because of light pollution. I think that's that's done something to us that's dulled our understanding of our place in the universe. And that also

1:57:21

1 hour, 57 minutes, 21 seconds

might be a feature. It might not be a bug. It might be a feature because that's how we instead of being in harmony with nature, we just keep our

1:57:29

1 hour, 57 minutes, 29 seconds

nose to the grindstone and keep chewing on aderall and trying to rig the stock market. Yeah.

1:57:33

1 hour, 57 minutes, 33 seconds

Because we're just trying to get a new Lambo, baby. You know, I want a Rishard Mle watch. I want some cash.

1:57:40

1 hour, 57 minutes, 40 seconds

I want a Rolls-Royce Spectre. The kind with the stars in the ceiling, [_]

1:57:46

1 hour, 57 minutes, 46 seconds

When you [_] to have real stars outside.

1:57:49

1 hour, 57 minutes, 49 seconds

I know. Isn't that crazy? You you you sacrifice it all for stars in the ceiling of your Rolls-Royce and you never get to see the stars cuz

1:57:56

1 hour, 57 minutes, 56 seconds

you're living in Miami and there's too many lights. Sex trafficking.

1:58:00

1 hour, 58 minutes

But meanwhile, if you drive out into the middle of the country where there's no commerce going on at all and you shut your car off and just lay on the hood,

1:58:08

1 hour, 58 minutes, 8 seconds

it's [__] magic. It's magic out there. Magic. The sky is magic. It's gorgeous. It's a [__] big huge nice thing.

1:58:16

1 hour, 58 minutes, 16 seconds

And you realize, man, oh my god, we are in space, right? Right.

1:58:20

1 hour, 58 minutes, 20 seconds

But you never realize that when you just just dark outside.

1:58:22

1 hour, 58 minutes, 22 seconds

Well, because we Yeah. We forget like we're not even like I don't know.

1:58:26

1 hour, 58 minutes, 26 seconds

It's easy to not It's easy to not pay attention because there's nothing to see. You look up, it's dark, but you want to go to the club. You look up, it's dark. Let's go eat. You look up,

1:58:35

1 hour, 58 minutes, 35 seconds

it's dark. I'm going home. Let's go look up at Oh, my girlfriend just called me. I got to go pick her up.

Bye. You know,

1:58:41

1 hour, 58 minutes, 41 seconds

you're in your world. You're in your world. You're not thinking about [__]

1:58:45

1 hour, 58 minutes, 45 seconds

space. And to think, dude, and to think that like the crazy thing is sometimes if you lay there and look at the stars

1:58:52

1 hour, 58 minutes, 52 seconds

and stuff, it feels like, bro, and this is real [__] I'm saying right now to me. I think I'm saying this, okay?

1:58:59

1 hour, 58 minutes, 59 seconds

It feels like they're looking back at you a little bit. Yeah,

1:59:08

1 hour, 59 minutes, 8 seconds

maybe they're conscious. Maybe the universe is conscious. Maybe consciousness exists everywhere. Well,

1:59:13

1 hour, 59 minutes, 13 seconds

you would think if they're all placed there and they're in, you know, these stars are there.

1:59:17

1 hour, 59 minutes, 17 seconds

It would seem that if we went and put ourselves before them that it would grant us something, you know, like I'm

1:59:24

1 hour, 59 minutes, 24 seconds

not saying like something magical or but something that we need because most of the the way that things are set up, it's like everything was kind of set up in

1:59:32

1 hour, 59 minutes, 32 seconds

perfection like in our bodies like the fact that we exist, the fact that the eye is put together and operates the way that it does, the fact that they have like moles and parrots and everything,

1:59:40

1 hour, 59 minutes, 40 seconds

the fact that it all happens. Yeah.

1:59:42

1 hour, 59 minutes, 42 seconds

And we kind of neglect that there's these like there's these orbs out there in the distance.

1:59:49

1 hour, 59 minutes, 49 seconds

Maybe they want to hear from us. Maybe they want us to sit there and look at them and think maybe they help us. Do you think we're being visited?

2:00:05

2 hours, 5 seconds

Do you? Yeah.

2:00:07

2 hours, 7 seconds

But I think a lot of it's lies too. Do you think the governments the big governments or what do you mean?

2:00:13

2 hours, 13 seconds

What do you mean? Do you think they know who's very you think they know who's or do you think they have met? Do you think

2:00:20

2 hours, 20 seconds

these upper echelon people have met the visitors and there's some other thing going on? Because something there's something it feels like something's going to happen soon. Joe,

2:00:29

2 hours, 29 seconds

perhaps that's possible. Perhaps. But if I was from another planet, like this is I talked about this in my special

2:00:36

2 hours, 36 seconds

that if like I went when when I go fishing, I don't check in to see who the president of the lake is.

2:00:43

2 hours, 43 seconds

I just show up and trick those dumb [__] with fake fish and pull them out by their lips, take a picture of them, drop it off back in the water cuz I don't they're a bass. They're so

2:00:51

2 hours, 51 seconds

below me, right? I don't think like who's the leader of the bass, right?

2:00:55

2 hours, 55 seconds

So the idea that aliens come down here and who's the leader of the people? Good point. I highly doubt they give a [__] if they talk to Trump. Yeah,

2:01:02

2 hours, 1 minute, 2 seconds

he's out there building a ballroom and [__] They're like, "Leave that guy alone. I'm not interested in him." But maybe they might visit military

2:01:10

2 hours, 1 minute, 10 seconds

establishments. Like if they find a nuclear weapons base, maybe I would I would go to that because they probably know the signal of nuclear armorament.

2:01:18

2 hours, 1 minute, 18 seconds

They probably know the signal of these weapons. They probably would visit those places. But would they interact with the people on the ground? Perhaps. Maybe

2:01:26

2 hours, 1 minute, 26 seconds

they would. Maybe they would if they could be assured of their safety. Maybe it's possible.

2:01:33

2 hours, 1 minute, 33 seconds

But I I don't think we're alone. I don't think I think that's silly. I think the idea that we're alone is silly. There's a lot of like crazy equations that

2:01:40

2 hours, 1 minute, 40 seconds

people have made like well like the firm you know what the Fermi paradox is?

2:01:44

2 hours, 1 minute, 44 seconds

The Fermi Fermi paradox. Yeah. It was uh I think he's an Italian scientist. It's like if there are uh aliens and the there's so

2:01:51

2 hours, 1 minute, 51 seconds

many stars in the universe, there's so many planets in the universe. Do you know there's more planets in the universe than there have been seconds since the Big Bang?

2:01:59

2 hours, 1 minute, 59 seconds

No way. Yeah. How do we know it?

2:02:03

2 hours, 2 minutes, 3 seconds

I don't know. I just read it and I'm just saying it to you like I'm smart. That's fair. I believe you.

2:02:10

2 hours, 2 minutes, 10 seconds

Put that into Perplexity.

2:02:12

2 hours, 2 minutes, 12 seconds

Um I love using AI. I know it's taken over the world, but I don't give a [__] I'm learning so much. If you use it correctly, I think it's like everything

2:02:20

2 hours, 2 minutes, 20 seconds

else. I use it every day. I use it whenever I write. If I write about a subject, I'm like, "Tell me what why he did that. Tell me what this is." You just ask it. Yeah.

2:02:28

2 hours, 2 minutes, 28 seconds

It just gives you instantaneous information.

2:02:31

2 hours, 2 minutes, 31 seconds

I know. It is pretty fascinating. That's why like it used to be for information you had to go to somebody to get it. But now it's like everybody has it. Go nowhere, son.

2:02:38

2 hours, 2 minutes, 38 seconds

And Elon was saying that he doesn't think apps are going to exist in the future. He thinks everything's going to be you and a device communicating with

2:02:45

2 hours, 2 minutes, 45 seconds

AI. Here it is. Are there more stars in the observable universe than seconds have passed since the Earth was formed?

2:02:52

2 hours, 2 minutes, 52 seconds

Yes, that statement is likely very true by a large margin. No, no, no. Not not the Earth, but the universe.

2:02:58

2 hours, 2 minutes, 58 seconds

I Googled it and that's what the said that's what actually came up was Oh,

2:03:01

2 hours, 3 minutes, 1 second

that version estimated star. Okay. Age of the Earth.

2:03:05

2 hours, 3 minutes, 5 seconds

Yeah. So, there's definitely way more planets, but that's stars. You wrote stars.

2:03:10

2 hours, 3 minutes, 10 seconds

I know. That's what came up. I'm telling you, I typed in what you said. What did you tell What did you type in?

2:03:15

2 hours, 3 minutes, 15 seconds

Are there more planets than there have been seconds since the Big Bang? I'll rephrase this.

2:03:20

2 hours, 3 minutes, 20 seconds

Damn. Not more stars. Are there more planets in the universe than there have been seconds since the big bang? Not the earth formed.

2:03:30

2 hours, 3 minutes, 30 seconds

Since the big bang. This is this is the nutty one.

2:03:35

2 hours, 3 minutes, 35 seconds

Cuz that like that's crazy. Yes. By current estimates, there are far more planets in the observable universe than seconds have passed since the big bang.

2:03:46

2 hours, 3 minutes, 46 seconds

Dude, it's crazy thing is a lot of kids nowadays a lot of That's crazy. Wait, say it one more time.

2:03:53

2 hours, 3 minutes, 53 seconds

There's more planets in the universe than seconds that have passed since the big bang.

2:04:01

2 hours, 4 minutes, 1 second

So then I start to think, I wonder if it's a contest and there like God is seeing like who what planet can really create the most like love amongst the planet, you know, and get it done right.

2:04:10

2 hours, 4 minutes, 10 seconds

Do you think Howard the actor?

2:04:12

2 hours, 4 minutes, 12 seconds

Yes. He had a very interesting theory and and he's an interesting guy. He's a very intelligent guy. Not he's not educated in a classical sense,

2:04:23

2 hours, 4 minutes, 23 seconds

but he's a brilliant guy, right? Not educated about a lot of the things he discusses. But one theory that he had was he thinks that the way planets are

2:04:32

2 hours, 4 minutes, 32 seconds

formed is there's ejections from stars and over time they coalesce and become planets and this stuff in space becomes

2:04:40

2 hours, 4 minutes, 40 seconds

planets and the distance they are from the stars where it gets to a distance where it's in that Goldilock zone where

2:04:47

2 hours, 4 minutes, 47 seconds

life can be established and then he says planets become people because it gets to a certain time where people evolve from

2:04:56

2 hours, 4 minutes, 56 seconds

these planets. And he thinks this is like a natural thing that happens all over the universe that these planets get people and as they get further and

2:05:03

2 hours, 5 minutes, 3 seconds

further away from the star, the planet gets less and less habitable. Mh.

2:05:08

2 hours, 5 minutes, 8 seconds

And those those things those intelligent creatures on that planet become more and more intelligent and more and more innovative and more and more capable of

2:05:16

2 hours, 5 minutes, 16 seconds

surviving without the protection of the Goldilock zone. And then they become interstellar and then they develop like their own sustaining environments. So you think that's what's happening to us?

2:05:27

2 hours, 5 minutes, 27 seconds

Well, I think that's probably what's going to happen to us. And so if we leave that orbit as a part of that, right? If we leave that orbit of safety?

2:05:34

2 hours, 5 minutes, 34 seconds

Yeah. Well, today Artemis, they're supposedly flying around the moon. So these are the first people that have gone into deep space since 1972, since the Apollo missions.

2:05:43

2 hours, 5 minutes, 43 seconds

Wow. I didn't That's today. That's happening, right? Nobody knows it. That's what's nuts. This is taking I think 10 people. Four.

2:05:51

2 hours, 5 minutes, 51 seconds

Four. Is it 10 days? How many days are they doing? 10 days. 10 days. Four people, 10 days,

2:05:56

2 hours, 5 minutes, 56 seconds

and they're going around the moon and coming back to Earth.

2:06:00

2 hours, 6 minutes

No one's done that since 1972. Wow. And it's happening today and no one cares. That's kind of weird, right?

2:06:08

2 hours, 6 minutes, 8 seconds

Yeah, that's kind of weird,

2:06:09

2 hours, 6 minutes, 9 seconds

right? You see, whatever that is, that's part of us that is really been doctorred pretty heavily. The part of us that

2:06:17

2 hours, 6 minutes, 17 seconds

doesn't even find like a big fascination in that, like that's the part of myself that I want to find more of, you know?

2:06:22

2 hours, 6 minutes, 22 seconds

It's very weird. It's very weird that we've become dull to like fascinating things,

2:06:27

2 hours, 6 minutes, 27 seconds

but also do we even some of it is like it's we don't even know if it's real.

2:06:31

2 hours, 6 minutes, 31 seconds

It's like so much of this [_] you see these video it's like that's not even real. They just had like the Iranian protest or something or like the

2:06:38

2 hours, 6 minutes, 38 seconds

happiness in the street. They were just saying that that was uh different. It was a totally different um thing that they were filming. And then there was one that people were saying

2:06:47

2 hours, 6 minutes, 47 seconds

was older and then we found out no it's not. It's actually there was current people uh protesting in Iran that we

2:06:55

2 hours, 6 minutes, 55 seconds

were bombing them and they were protest they were like in favor of the government but then you got to know like well how many people are scared to death

2:07:03

2 hours, 7 minutes, 3 seconds

and they're doing that because they don't want to get killed because the government has killed thousands and thousands of people including like major public figures to show that no one has

2:07:11

2 hours, 7 minutes, 11 seconds

any favoritism. Like they killed this like championship wrestler like incredible wrestler. They killed two different wrestlers that supposedly protested against the government. So,

2:07:22

2 hours, 7 minutes, 22 seconds

who [_] knows?

2:07:24

2 hours, 7 minutes, 24 seconds

Did you see that they don't know uh that there's conflicts of interest about or no, did you see Sorry, I'm starting to

2:07:31

2 hours, 7 minutes, 31 seconds

sentence off wrong. Did you see that there is some issues about the bullet that killed that guy of Charlie Kirk?

2:07:38

2 hours, 7 minutes, 38 seconds

I'm sorry. And I didn't mean to say that guy. Yeah, but I wasn't.

2:07:41

2 hours, 7 minutes, 41 seconds

Let me um clarify that. I think and we'll find out if this is correct, but I see headlines and I see the way people

2:07:49

2 hours, 7 minutes, 49 seconds

are talking about it and I don't know if it's accurate. Yeah.

2:07:53

2 hours, 7 minutes, 53 seconds

Because what I think is accurate is what they're saying is that the from the fragments of the bullet they were unable

2:08:01

2 hours, 8 minutes, 1 second

to determine that it came from that mouser rifle.

2:08:05

2 hours, 8 minutes, 5 seconds

I see. My issue with it, and I'm no expert, but I have shot things like I'

2:08:13

2 hours, 8 minutes, 13 seconds

I'm a hunter. I've shot things with rifles. I've shot a lot of rifles. A 306 is a big round. That's a big round. Show me an image.

2:08:21

2 hours, 8 minutes, 21 seconds

Would it hurt if it hit you?

2:08:23

2 hours, 8 minutes, 23 seconds

Uh, experts debunk Tyler Robinson's ballistic claim. Unable to identify is not the same as ruled out. Which is exactly what I'm saying, right? So, um,

2:08:33

2 hours, 8 minutes, 33 seconds
show me an image of a 30 odd six round.

2:08:36

2 hours, 8 minutes, 36 seconds
30-06 rifle round. I want you to look at this. Look at the size of that [_] Okay.

2:08:44

2 hours, 8 minutes, 44 seconds
Look at a 30 odd 6 versus a 308. That's a [_] paper weight.

2:08:48

2 hours, 8 minutes, 48 seconds
A 30 odd six is a It's a big round. You see it in that guy's hand? Yeah. Oh my god. Are you serious?

2:08:54

2 hours, 8 minutes, 54 seconds
Mhm. That's 30 odd six. So, this is my That's a fat little hand though, too. Look at that thing. That's like my hand.

2:08:59

2 hours, 8 minutes, 59 seconds
This is this is the point is that that's a big round. That's not a small round. I mean, I don't know what isn't it compared to I use a 300 Win Mag.

2:09:08

2 hours, 9 minutes, 8 seconds
Look at that on the right there. You just had it. Those cartridges 5.56. Yeah.

2:09:14

2 hours, 9 minutes, 14 seconds
Um is meant for war. 30 odd 6 is meant for hunting. No, I don't think that's accurate. Yeah, that doesn't look realistic. That's what a 30 odd 6 looks like. Okay.

2:09:22

2 hours, 9 minutes, 22 seconds
In comparison to a quarter. So, you look at it. So, a quarter is about that high. It's about that big. That's a big round,

2:09:27

2 hours, 9 minutes, 27 seconds
dude. That's a round for hunting like elk. Like it's a very common round.

2:09:33

2 hours, 9 minutes, 33 seconds
Well, you do me a favor and compare 30 odd six to 300 win mag compared to 30 300 win mag.

2:09:42

2 hours, 9 minutes, 42 seconds
I'm just scared, dude.

2:09:44

2 hours, 9 minutes, 44 seconds

So 300 win mag I think is fatter. Let's see the difference.

2:09:50

2 hours, 9 minutes, 50 seconds

Okay, there it is. 300 win mag on the left. Oh, 30 odd six is bigger. Oh, look. Okay. Is that real?

2:09:57

2 hours, 9 minutes, 57 seconds

I don't know which one's which though. I don't know.

2:10:00

2 hours, 10 minutes

Um uh show me that one far left. Far left right there.

2:10:06

2 hours, 10 minutes, 6 seconds

Okay. 300 win mag and 30 odd. So 300 win mag has a little bit more powder in it.

2:10:11

2 hours, 10 minutes, 11 seconds

See? See how it goes higher up? So it has more charge. It's a bigger round. But my point is that's a big round. So,

2:10:19

2 hours, 10 minutes, 19 seconds

like a third Oh, 300 Win Mag is a big round. 30 six is slightly smaller, but it's still That's a lot of powder in that bad boy. That's a lot of firepower.

2:10:29

2 hours, 10 minutes, 29 seconds

It's a That's a So, this is what a lot of people have an issue with is the the wound that there was no exit wound. It

2:10:38

2 hours, 10 minutes, 38 seconds

shot him in like the soft tissue of the neck.

2:10:40

2 hours, 10 minutes, 40 seconds

If it killed you, didn't would you feel pain?

2:10:43

2 hours, 10 minutes, 43 seconds

I mean, I it looked like he was dead almost instantly. It looked like he slumped over. I think he was at the very least unconscious.

2:10:49

2 hours, 10 minutes, 49 seconds

But it would have left his body. You're saying I think it would have blown a hole out the back. That's the thing. It's like 9 mm do that sometimes.

2:10:57

2 hours, 10 minutes, 57 seconds

Yeah.

2:10:57

2 hours, 10 minutes, 57 seconds

It just doesn't It seems weird that it doesn't have an exit hole. Yeah.

2:11:01

2 hours, 11 minutes, 1 second

It seems weird that you're shooting him in the neck and the the image from the back. There's a video of him getting shot from the back. It doesn't leave an

2:11:09

2 hours, 11 minutes, 9 seconds

exit hole. So, it doesn't look like it's that round. There's also the fact that this guy supposedly climbed on the roof

2:11:17

2 hours, 11 minutes, 17 seconds

with it and then assembled it, which doesn't make sense because if you assemble it, that means you have to take the scope off, put the scope back on.

2:11:24

2 hours, 11 minutes, 24 seconds

You have to zero the rifle after you do stuff like that.

2:11:26

2 hours, 11 minutes, 26 seconds

Yeah. The guy who had uh who uh killed or allegedly killed Osama bin Laden.

2:11:30

2 hours, 11 minutes, 30 seconds

Who's that? Mike. Uh Mike, who's the I know who you're talking about. The Navy Seal.

2:11:35

2 hours, 11 minutes, 35 seconds

Yep. He was just talking about that. And I only say allegedly because I don't know anything about that. I don't know the specifics even though I read the freaking book he wrote. Um, but yeah,

2:11:43

2 hours, 11 minutes, 43 seconds

that he was saying that uh to be able to do all that and get off of that roof, it all seems bizarre.

2:11:47

2 hours, 11 minutes, 47 seconds

Not only that, they supposedly disconnected the rifle again, took it apart on the roof, put it in his backpack, jumped off with it, and then

2:11:56

2 hours, 11 minutes, 56 seconds

reassembled it and left it in the woods and allegedly was that a Dairy Queen. Do you see that? Who could shoot someone and go to Dairy Queen?

2:12:03

2 hours, 12 minutes, 3 seconds

It seems weird. And then also his family's denying that he he confessed. Yeah,

2:12:08

2 hours, 12 minutes, 8 seconds

they were saying that no, he didn't confess. And we haven't heard this family said 2% of what they're saying about this is correct.

2:12:14

2 hours, 12 minutes, 14 seconds

Have you Have you reached out to them or have they reached out to you?

2:12:16

2 hours, 12 minutes, 16 seconds

No. Well, I don't think they can. I mean, they're probably terrified about their son's future in life. Like, they're trying to pin this crime on him. Who knows if he did it or didn't do it.

2:12:23

2 hours, 12 minutes, 23 seconds

I'm not saying he did it. I'm not saying he didn't do it. But I am saying that the story of him climbing up there with a disassembled gun, assembling it,

2:12:32

2 hours, 12 minutes, 32 seconds

making that shot, climb, disassembling it again, climbing down. If that's the narrative, that sounds like straight horseshit.

2:12:40

2 hours, 12 minutes, 40 seconds

And the video of him hopping down, it does not look like he's a rifle when he's hopping down. So, what what's happening? How did he get up there? How did no one see it? There's so many

2:12:48

2 hours, 12 minutes, 48 seconds

things that are [__] up about that story that doesn't it doesn't totally make sense. But a big one to me is the actual bullet hole, the the the actual

2:12:58

2 hours, 12 minutes, 58 seconds

damage that that rifle does. Look, but here's another thing. Guns do weird things sometimes. Like bullets do weird

2:13:05

2 hours, 13 minutes, 5 seconds

things and sometimes they don't resp maybe it hit maybe it [__] center punched his spinal column and it did blow apart and it didn't go out the

2:13:13

2 hours, 13 minutes, 13 seconds

back. It's possible. Have we seen have they released any information about the autopsy? I don't know. I don't know.

2:13:22

2 hours, 13 minutes, 22 seconds

I mean, you would think that I don't know what the specifics are, but I know a lot of people are very skeptical, which they are about everything these days, which is also part of the problem.

2:13:29

2 hours, 13 minutes, 29 seconds

Well, they have to be skeptical because the news is compromised. the news is owned by, you know, it's not good. And uh it's also there's a lot of

2:13:38

2 hours, 13 minutes, 38 seconds

disinformation out there. There's a lot of like covering up stories. There's a lot of weird [_]

2:13:43

2 hours, 13 minutes, 43 seconds

And yes, and then even uh other places can put out news that that that's bad for us that like, oh, we'll put this out

2:13:50

2 hours, 13 minutes, 50 seconds

there disguised as information. Um but did you see the that exploding mic theory? Did you guys talk about that on here?

2:13:57

2 hours, 13 minutes, 57 seconds

I've heard that theory, but I don't know if that makes sense. I don't know. I've heard people talk about it, but I hadn't looked into it. It looks like he got

2:14:05

2 hours, 14 minutes, 5 seconds

shot. I don't know if the microphone's going to hit you in the neck. Like, how how do you know where the mic's pointing? You're moving around a lot. How do you know when to make it go?

2:14:14

2 hours, 14 minutes, 14 seconds

That's a good point. They had it like on his shirt at a specific spot. But yeah,

2:14:16

2 hours, 14 minutes, 16 seconds

you're right. How would you know? But then the place where it sounds like a gunshot though and there's a delay between the gunshot and the impact in terms of like acoustic

2:14:25

2 hours, 14 minutes, 25 seconds

readings like and I think somebody did an analysis of the distance they believe the shot was taken from based on the

2:14:33

2 hours, 14 minutes, 33 seconds

sound you know if that is the round that they use 30 odd six based on the sound of the gunshot going off and the amount of time before it impacts them. It's a

2:14:41

2 hours, 14 minutes, 41 seconds

very small amount of time, but it is measurable.

2:14:44

2 hours, 14 minutes, 44 seconds

And they think that it might have actually been closer than what they're saying, which is I think and something yards. I forget what the exact distance was. What was the exact

2:14:53

2 hours, 14 minutes, 53 seconds

distance supposedly? I think it was like 140 yards or something like that. But the weird thing is like this whole idea of assembling and disassembling, it doesn't work like that, man.

2:15:03

2 hours, 15 minutes, 3 seconds

And if the guy's not a professional, was he a professional?

2:15:06

2 hours, 15 minutes, 6 seconds

No. No, he definitely wasn't a professional. But I'm like, you could get trained like shooting a rifle at 140

2:15:13

2 hours, 15 minutes, 13 seconds

yards with a really good scope if you've shot a bunch of times with a rifle and you can keep your [_] together is not

2:15:20

2 hours, 15 minutes, 20 seconds

that far of a shot. You can make that shot. People can make that shot. He wasn't even wearing a bulletproof vest even though they he did obviously get

2:15:28

2 hours, 15 minutes, 28 seconds

hit in the neck. But the thing is like if that's the narrative, and I don't know if they're still sticking with the story, but that was what they were

2:15:35

2 hours, 15 minutes, 35 seconds

saying at first, that he disassembled it and reassembled it. Reassembling a gun does not make it accurate. You have to zero a rifle in. And what that involves

2:15:44

2 hours, 15 minutes, 44 seconds

in you get to like whatever the yardage are that you're trying it out, like 100 yards, and you know, you you squeeze off a trigger, and then you look through the

2:15:53

2 hours, 15 minutes, 53 seconds

binoculars or you have a spotter with a scope next to you, and he says he says 6 in high, right? And so then you adjust it. You adjust the scope and that and

2:16:01

2 hours, 16 minutes, 1 second

then do you get it where it's firing and you do it on a rest and it takes a few shots, man. So you have a rest so that you're you're not your rifle you're not moving the rifle around where it can,

2:16:11

2 hours, 16 minutes, 11 seconds

you know, be human error can be attributed to the mist.

2:16:13

2 hours, 16 minutes, 13 seconds

And if you're on a hot roof, that was a hot roof, wasn't it?

2:16:16

2 hours, 16 minutes, 16 seconds

Most official and media accounts put the shot at roughly 200 yards with some investigative timeline suggesting a range of about 150 to 200 yards from

2:16:24

2 hours, 16 minutes, 24 seconds

Kurt. So somewhere between 150 and 200 yards,

2:16:28

2 hours, 16 minutes, 28 seconds

dude. And also being on a hot roof. Have you ever been on a hot roof? I have. Dude, it's hot.

2:16:32

2 hours, 16 minutes, 32 seconds

Well, it wasn't that hot. Well, yeah, it was. It was September. September in Utah. Actually, not that hot.

It sounds hot.

2:16:39

2 hours, 16 minutes, 39 seconds

Yeah. I don't think it was cuz this this was happening while I was out elk hunting. What town did it happen in?

2:16:47

2 hours, 16 minutes, 47 seconds

I don't know. I'm not sure.

2:16:52

2 hours, 16 minutes, 52 seconds

It was in Utah, though. I think it was in southern Utah, wasn't it?

2:16:56

2 hours, 16 minutes, 56 seconds

Yeah, but Utah's, you know, Utah's a mountain. It's a mountain town. I mean, my brother lives in Utah.

I like Utah.

2:17:04

2 hours, 17 minutes, 4 seconds

Like I said, I was in Utah at the time. Yeah, I was hunting in the mountains. Well, that's interesting.

2:17:11

2 hours, 17 minutes, 11 seconds

Yeah. I don't know nothing.

2:17:15

2 hours, 17 minutes, 15 seconds

I started getting all these text messages from people wanting me to comment on things. I was like, "What are you talking about?" I literally didn't know what was going on.

2:17:22

2 hours, 17 minutes, 22 seconds

I had to use the Starlink to get online. Oh wow.

2:17:25

2 hours, 17 minutes, 25 seconds

I got a Starlink. It's like literally it's like the size of a [__] iPad and you lay it on the ground, you get high speed internet. It's incredible. That's cool [__]

2:17:32

2 hours, 17 minutes, 32 seconds

Yeah. But that's how I had to like research it, find out what the [_] people are talking about.

2:17:37

2 hours, 17 minutes, 37 seconds

But did you see the there was like the facility in Tennessee where they bought the whatever the mic thing was allegedly that that that place thing got completely obliterated. 16 people died.

2:17:48

2 hours, 17 minutes, 48 seconds

What?

2:17:49

2 hours, 17 minutes, 49 seconds

What? If you can bring that bring where they made the microphones where they made the uh lapel mic that he was wearing. This is like a This is probably conspiracy thing or something.

2:18:00

2 hours, 18 minutes

Where'd you get this? Tik Tok.

2:18:01

2 hours, 18 minutes, 1 second

This is a conspiracy theory. It's something that's absolutely true. I just I haven't heard that one at all.

2:18:08

2 hours, 18 minutes, 8 seconds

I think James Lee is but I'm trying to stay away from this

2:18:12

2 hours, 18 minutes, 12 seconds

[_]

2:18:12

2 hours, 18 minutes, 12 seconds

That's why I'm not That's why I don't know.

2:18:15

2 hours, 18 minutes, 15 seconds

I agree. It's just I think it it I don't know. It's just a tough So my my point about the round is it's a large round and it seems like it would

2:18:23

2 hours, 18 minutes, 23 seconds

have done more damage and this is not my opinion. This is the opinion of many experts. Yeah,

2:18:28

2 hours, 18 minutes, 28 seconds

I agree with their opinion. I was it's not uniquely my opinion. I saw it and I'm like, "Oh my god, he got shot and then I heard it was a 30 odd six and I

2:18:36

2 hours, 18 minutes, 36 seconds

was like, h that's interesting. It's a little odd."

2:18:40

2 hours, 18 minutes, 40 seconds

If you had to get shot by what would you like to get if you had to get shot?

2:18:43

2 hours, 18 minutes, 43 seconds

You want to get killed, right? You don't want to get I don't shoot me with a 22.

2:18:47

2 hours, 18 minutes, 47 seconds

Yeah. Okay. Yeah. I'd take a 22, but a 22 kills people. Where would you take it? People take in the shoulder, I guess. [_] yeah,

2:18:55

2 hours, 18 minutes, 55 seconds

dude. No, you don't want to get shot. Period.

2:18:58

2 hours, 18 minutes, 58 seconds

I know. I agree, Joe. But I'm just saying if you had to get shot, how do you like because here's cheek 22 in the tighten up.

2:19:07

2 hours, 19 minutes, 7 seconds

Take it in the butt cheek. Bang.

2:19:10

2 hours, 19 minutes, 10 seconds

I don't know. Not good. But no, no bullet is good to take. But the point is that seemed like not enough damage for

2:19:18

2 hours, 19 minutes, 18 seconds

that kind of round. But I might be wrong again. I might be wrong in that bullet weird things if it hit the spine and it blew apart.

2:19:28

2 hours, 19 minutes, 28 seconds

But I just feel like you would find a lot of it in there. I dude, especially if there's no exit wound.

2:19:33

2 hours, 19 minutes, 33 seconds

Like where's how come you can't find the whole thing's bizarre, dude. Do you see the part, Jamie, that I'm talking about where that thing blew up?

2:19:40

2 hours, 19 minutes, 40 seconds

Oh, yeah. But I'm trying to find a good explanation of Okay, understood. And there may not be one.

Thank you. I'm sorry. Um cuz I know I brought it up yesterday.

2:19:48

2 hours, 19 minutes, 48 seconds

Oh, you did? Okay. Um yeah, just like I don't know. I think I'm just scared. And it's like Yeah. What do you

2:19:55

2 hours, 19 minutes, 55 seconds

18 people unaccounted for after deadly explosion rocks Tennessee plant. First responders rushed to Accurate Energetic

2:20:03

2 hours, 20 minutes, 3 seconds

Systems. That sounds like a CIA operation.

2:20:05

2 hours, 20 minutes, 5 seconds

A facility on the line of Humphre and Hickman uh counties that processes ammunition and explosives. But is this the place that made the microphones?

2:20:15

2 hours, 20 minutes, 15 seconds

So that that the the conspiracy says that the microphone was taken to this place to be converted into like an explosion somebody found an invoice from it.

2:20:24

2 hours, 20 minutes, 24 seconds

That's what it was that that that was the piece of information that was going around.

2:20:26

2 hours, 20 minutes, 26 seconds

Who found that? Is that James Lee found that? Not sure.

2:20:29

2 hours, 20 minutes, 29 seconds

See if you can find what James Lee has to say. He's my number one source of information.

2:20:33

2 hours, 20 minutes, 33 seconds

That's what I heard, dude. I got to podcast with him. Did you? I got to meet him, dude. Is he cool?

He's a nice guy, bro. He's fun. Yeah,

2:20:40

2 hours, 20 minutes, 40 seconds

he's like he well his his story is wild because he was working as a consultant for uh one of the big pharmaceutical companies, like one of the big ones that we know, right?

2:20:49

2 hours, 20 minutes, 49 seconds

And he just couldn't say the name, but he could say it, but he never said it, right?

2:20:52

2 hours, 20 minutes, 52 seconds

Um and then he was in a Zoom one time and they're like, "Okay, we still have a lot of stockpile from the first vaccination."

2:21:00

2 hours, 21 minutes

And that's when he said they started suggesting allegedly that people should then get a second vaccination because they had this first they had they still

2:21:08

2 hours, 21 minutes, 8 seconds

had more of the original vaccine. So it was just like a thing well we have more of it let's sell it back to him and that's why and so he started getting like very skeptical.

2:21:16

2 hours, 21 minutes, 16 seconds

So he started really getting skeptical and then he got out of it and he said he just wants to like expose things that he feels like are not real right or true.

2:21:24

2 hours, 21 minutes, 24 seconds

You think he might be CIA? You always got to worry. I don't know. You got to wonder.

2:21:29

2 hours, 21 minutes, 29 seconds

People thought Sean People thought Sean Ryan was cool. Yeah, I've heard people say that.

Remember? Yeah,

2:21:33

2 hours, 21 minutes, 33 seconds

that was a thing. But then now people don't. Doesn't seem like he is. Yeah, unless they're being clever.

2:21:40

2 hours, 21 minutes, 40 seconds

I just want to be able to have like a family and just like think that everybody's going to be able to live.

2:21:44

2 hours, 21 minutes, 44 seconds

That would be nice. Yeah, that's the thing about ideologies and tribes. If it wasn't for ideologies and tribes, the idea is that we should all be able to live together.

2:21:54

2 hours, 21 minutes, 54 seconds

It's like, but the problem is it's not fair the way the world's distributed. Yeah.

2:21:58

2 hours, 21 minutes, 58 seconds

You know, you know the statistic about the 1% of the world, it's \$34,000. You make \$34,000,

2:22:07

2 hours, 22 minutes, 7 seconds

you are in the 1% of the world. Yeah. That's crazy.

2:22:13

2 hours, 22 minutes, 13 seconds

I know. It's just tough sometimes to figure it out. You have to pray. That's what I've been trying to do.

2:22:17

2 hours, 22 minutes, 17 seconds

In order for us to get cheap jeans and an iPhone that only cost a thousand bucks, somebody has to get paid squat.

2:22:25

2 hours, 22 minutes, 25 seconds

Somebody has to get [_] over.

2:22:26

2 hours, 22 minutes, 26 seconds

Somebody has to work long hours. and live in those Foxcon factories where they have nets to keep people from jumping off the roof, you know?

2:22:34

2 hours, 22 minutes, 34 seconds

Yeah,

2:22:35

2 hours, 22 minutes, 35 seconds

bro. You know when you're working in a place and there's so many people jumping off the roof that they just put nets up. You got a problem.

2:22:43

2 hours, 22 minutes, 43 seconds

That's not a fun work environment. Hey, Ron's hitting the nets, guys. Yeah,

2:22:48

2 hours, 22 minutes, 48 seconds

you got to hit the net again. You're like, you dumb [__] Why you keep jumping in the net? I want to see what it feels like to jump, but I know it's going to save me, but I still want to jump.

2:22:57

2 hours, 22 minutes, 57 seconds

Somebody comes back from lunch break and they just have the net marks on their face and they're like, "Ah, you tried it."

2:23:03

2 hours, 23 minutes, 3 seconds

But dude, it's just sad, man. I don't know.

2:23:05

2 hours, 23 minutes, 5 seconds

It's sad. I mean, that's And we're better than this.

2:23:08

2 hours, 23 minutes, 8 seconds

Yeah. Humans overall are better than this. Thank you.

2:23:12

2 hours, 23 minutes, 12 seconds

So, people that are not acting better than this are not they're not I mean, I know we all have mistakes and we all do things that are [__] up, right? But

2:23:19

2 hours, 23 minutes, 19 seconds

like at a point where you're like we should all be doing better taking lives and it's not if it's not the regular people I feel like it's the governments man.

2:23:27

2 hours, 23 minutes, 27 seconds

100%. It is 100%. Because if it was just people, we'd all figure out how to get along. Unless you think those people are

2:23:35

2 hours, 23 minutes, 35 seconds

the infidels or those people are the goyam or those people are the Jews or those people are the Arabs or whatever

2:23:42

2 hours, 23 minutes, 42 seconds

you decide those the other. You decide to other a group of people, then it becomes a problem cuz it's us versus them. And then you're back to the same

2:23:50

2 hours, 23 minutes, 50 seconds

tribal [__] that needs to turn us all trans. That's why we need to lose our gender and lose our primate dominant instincts and all of our territorial instincts.

2:24:00

2 hours, 24 minutes

Well, I told you I was going to mail my dick away.

2:24:02

2 hours, 24 minutes, 2 seconds

We're going to be all telepathic with big old heads and little tiny mouths because we're not going to use them anymore cuz no one's going to have a dick to suck. Tiny like this.

2:24:12

2 hours, 24 minutes, 12 seconds

No one's going to have a [__] to lick.

2:24:14

2 hours, 24 minutes, 14 seconds

So, you're going to have like this and you communicate with your mind. So, your mouth's just going to atrophy and you're going to get all your food through like

2:24:21

2 hours, 24 minutes, 21 seconds

a suck hole. You're gonna have a just a straw to eat all your food. They're going to figure out how to way make perfect food where it's just like you

2:24:28

2 hours, 24 minutes, 28 seconds

don't have to go to a restaurant, eat chicken or have fish. No, no, no. Suck on a straw. Get all the nutrients you

2:24:35

2 hours, 24 minutes, 35 seconds

need in this [__] sludge. And this the sludge makes it feels like an orgasm when you take it. That's why you get people to do it.

2:24:42

2 hours, 24 minutes, 42 seconds

They take it, it lights all their synapses up like when you hit that V first thing in the morning. Uh, give me a hit of that real quick,

2:24:52

2 hours, 24 minutes, 52 seconds

my man. Let's go.

2:24:54

2 hours, 24 minutes, 54 seconds

Cuz the first hit is the good one. Give me a hit. Ready? Right there. Yeah. Hit that, [__] Ricky.

2:25:02

2 hours, 25 minutes, 2 seconds

Oh, yeah. Yeah, it's that first one. Yeah,

2:25:07

2 hours, 25 minutes, 7 seconds

that's it. That tastes good. What's in that one? That's like a professional one. That's coffee. Ooh, that's delicious. That's a professional one, though.

2:25:16

2 hours, 25 minutes, 16 seconds

That's a trap. Yeah, this one I think is for outdoors. for outdoors people.

2:25:18

2 hours, 25 minutes, 18 seconds

Outdoorsy. But it doesn't taste outdoorsy. It tastes like fake coffee. I'll leave it over here if you do it. I'm good. I'll keep it.

2:25:25

2 hours, 25 minutes, 25 seconds

One hit good. No, no, no. I know it's a slippery slope. I'll be pulling into the gas station to get an Escobar later. Oh, Escobars. They Those are the ones.

2:25:33

2 hours, 25 minutes, 33 seconds

Remember you were like, you said you were hiding from yourself at night.

2:25:35

2 hours, 25 minutes, 35 seconds

Get you. Yeah, they I had to hide them from myself. They get me. Yeah.

2:25:40

2 hours, 25 minutes, 40 seconds

Sometimes I'd be ashamed, so I'd take a hit and I blow it into my shirt. I wouldn't let anybody know I'm doing it. Yeah. But your tight shirt, that [__]

2:25:48

2 hours, 25 minutes, 48 seconds

[__] come right out the armpits. That's why I wear a hoodie.

2:25:53

2 hours, 25 minutes, 53 seconds

Just leave put over this cover up like a monk.

2:25:59

2 hours, 25 minutes, 59 seconds

But tell me, Jo, like what are some like give me some like what are some things that Yeah. that we can do to keep us in

2:26:06

2 hours, 26 minutes, 6 seconds

a space of giving ourselves the best chance to um to feel human cuz Yeah. One day you're going to go to a museum and there's going to be a smile in there.

2:26:16

2 hours, 26 minutes, 16 seconds

Well, it has to happen on an individual basis, right? Everybody has to be human to each other on an individual basis.

2:26:23

2 hours, 26 minutes, 23 seconds

And sometimes it takes something chaotic like a tragedy like 9/11 for people to just be cool to each other. You know, I remember I've talked about this before,

2:26:31

2 hours, 26 minutes, 31 seconds

but post 911, everyone was so connected.

2:26:35

2 hours, 26 minutes, 35 seconds

Everyone was smiling. People were letting you get on the highway. They're letting you get in their lane. They were waving. Everyone had American flag on their car. We had been attacked. we were

2:26:43

2 hours, 26 minutes, 43 seconds

united, you know, and it's just sad that it takes something like that for people to realize like this is a gift to be

2:26:51

2 hours, 26 minutes, 51 seconds

alive in this incredible country at this incredible time in history, but we are under the rule of tyrants, you know, and

2:26:58

2 hours, 26 minutes, 58 seconds

I'm not saying this the US government's tyrant or I'm not no individual, but every government that is in control of

2:27:06

2 hours, 27 minutes, 6 seconds

military that is involved in these exchanges with other they're run by by tyrants. Someone's a tyrant. Whether

2:27:14

2 hours, 27 minutes, 14 seconds

it's Putin or this guy or that guy or whoever is in charge of Iran right now,

2:27:19

2 hours, 27 minutes, 19 seconds

they they keep the people on the street from using the internet. They kill all the protesters. That's the problem. The problem is people in power. It's not people.

2:27:27

2 hours, 27 minutes, 27 seconds

Yeah.

2:27:27

2 hours, 27 minutes, 27 seconds

People generally are good. Especially when they're not starving. When they're not starving and they're not desperate and they're not being attacked, most people generally are good.

2:27:38

2 hours, 27 minutes, 38 seconds

Yeah. obviously dependent upon how you grew up and what you were exposed to when you were young and what kind of horrors did you have to see? Were you in a war torn country, you know, were you

2:27:46

2 hours, 27 minutes, 46 seconds

in a third world place where the cartels run everything?

2:27:49

2 hours, 27 minutes, 49 seconds

Did you see those kids in Gaza with like they had like they were playing uh doll and they were like it was like they

2:27:57

2 hours, 27 minutes, 57 seconds

loaded their doll up on a stretcher like they were Oh jeez. [_] heartbreaking,

2:28:01

2 hours, 28 minutes, 1 second

bro. Imagine like the just the trauma if you lived in that place

2:28:07

2 hours, 28 minutes, 7 seconds

pre October 7th. It was not fun even back then. It was an open air prison by most accounts.

2:28:14

2 hours, 28 minutes, 14 seconds

Oh yeah. They were taking settlers homes. They were just they'd come and knock into your home and then eventually just take it away.

2:28:19

2 hours, 28 minutes, 19 seconds

Well, there's a there's an attitude that a lot of Israelis have that it's all theirs. You know, here's an explanation. Tinfoil hat time,

2:28:27

2 hours, 28 minutes, 27 seconds

though. Just Exactly. Okay. This is a dude named Mike France.

2:28:32

2 hours, 28 minutes, 32 seconds

Not it wasn't James Lee reporting Mike Franco.

2:28:35

2 hours, 28 minutes, 35 seconds

This is the same stuff I've seen elsewhere.

2:28:37

2 hours, 28 minutes, 37 seconds

Says October 10, 2025, exactly 1 month after Kirk's death, a catastrophic explosion destroyed building 602 at the

2:28:44

2 hours, 28 minutes, 44 seconds

Accurate Energetic Systems facility in McGee, Tennessee. The blast estimated to involve 23,000 pounds of explosives,

2:28:52

2 hours, 28 minutes, 52 seconds

killed 16 employees, injured several others, and registered as a 1.6 magnitude seismic event. Yo, the US

2:29:00

2 hours, 29 minutes

Chemical Safety Board confirmed the site produced cast boosters and miniaturized shaped charges for military and industrial use. Conspiracy theorists

2:29:09

2 hours, 29 minutes, 9 seconds

allege that AES was the manufacturer of the miniatureshaped charge used in Charlie Kirk's assassination. They point

2:29:16

2 hours, 29 minutes, 16 seconds

to a \$425,000 devel department of defense contract awarded to AES in May of 2025 for extra small anti-personnel

2:29:26

2 hours, 29 minutes, 26 seconds

demolition charges possibly used in covert operations. The timing of the explosion just weeks after Charlie

2:29:33

2 hours, 29 minutes, 33 seconds

Kirk's death has fueled speculation that it was a deliberate cover up to destroy evidence and eliminate the personnel with knowledge of the technology. So

2:29:41

2 hours, 29 minutes, 41 seconds

there's the pager attacks, the Lebanon pager attacks. Here's the my problem with that explanation. And I'm not saying that I'm right and they're wrong.

2:29:50

2 hours, 29 minutes, 50 seconds

My problem is I don't see that thing exploding. Yeah.

2:29:53

2 hours, 29 minutes, 53 seconds

So that microphone I don't see it exploding. I don't see fire coming out of it. If you have a gun and the gun goes off 6 in from someone's neck like

2:30:01

2 hours, 30 minutes, 1 second

that, you're going to see a charge out of the Great point.

2:30:04

2 hours, 30 minutes, 4 seconds

And if it's a small device without a barrel, something has to propel that energy and that's an explosion. And if it explodes, you're going to see it

2:30:12

2 hours, 30 minutes, 12 seconds

explode. Unless they've developed some sort of way of hiding that. Yeah,

2:30:16

2 hours, 30 minutes, 16 seconds

that I don't know about. But if I'm But if they're talking about conventional gunpowder and what they use for bullet rounds,

2:30:24

2 hours, 30 minutes, 24 seconds

that doesn't seem to make sense to me, but I but I might be missing something. I don't know.

2:30:29

2 hours, 30 minutes, 29 seconds

Yeah. No, that's actually a great point that you said. Yeah, I agree with you.

2:30:33

2 hours, 30 minutes, 33 seconds

Kind of kind of seems like that thing with spark. Yeah.

2:30:36

2 hours, 30 minutes, 36 seconds

I mean, it's close to his neck. It's blowing his neck up. I mean, it seems odd that it can do that without fire.

2:30:45

2 hours, 30 minutes, 45 seconds

Doesn't make sense. But I might be missing something. There might be some new technology that I'm not aware of.

2:30:51

2 hours, 30 minutes, 51 seconds

Let's find out that. Is there any technology that exists where you could have a projectile come out of a small thing like a microphone that's on someone's neck and not have fire?

2:31:03

2 hours, 31 minutes, 3 seconds

I don't know. Um I don't know. It may also make my head hurt. Yeah, it should make your head. But there's also probably some stuff that we're not hip to.

2:31:11

2 hours, 31 minutes, 11 seconds

Oh, for sure, dude. Right.

2:31:13

2 hours, 31 minutes, 13 seconds

They come out with stuff all the time that we'll never see. Probably.

2:31:15

2 hours, 31 minutes, 15 seconds

Yeah. I mean, they have drones that look like bugs. They're like, "Looks like a bug." That's crazy.

2:31:21

2 hours, 31 minutes, 21 seconds

A [__] drone. A little itty bitty drone.

2:31:23

2 hours, 31 minutes, 23 seconds

You're just sitting there spraying uh raid on something that's watching y'all [__] or whatever at night.

That's crazy, dude.

2:31:29

2 hours, 31 minutes, 29 seconds

He's getting films. Christy Gnome's husband.

2:31:33

2 hours, 31 minutes, 33 seconds

Oh, yeah. Boy, he had them merppers on him, huh? Did he What was he Was it Did anybody explain what that was about? Was it really just like a Halloween costume or something?

2:31:42

2 hours, 31 minutes, 42 seconds

I thought it was probably, but then there's some other ones where he's kind of lipstick and he actually

But it could be he was [__] around for like a party or something like that.

2:31:49

2 hours, 31 minutes, 49 seconds

Giving Kevin Spycy in a lot of this. So you could feel the Kevin Spycy coming in with some of those photos.

2:31:53

2 hours, 31 minutes, 53 seconds

But here's the question. Is is that a costume he was wearing for funsies or is this like a dress up thing? This guy's a freak. That's what I thought it was. This costume wear.

2:32:01

2 hours, 32 minutes, 1 second

It could be because if it is a costume for funsies and then somebody finds it on your laptop like like I got to explain how we're just [__] around. I was doing Wanda from In Living Color,

2:32:13

2 hours, 32 minutes, 13 seconds

you know?

2:32:14

2 hours, 32 minutes, 14 seconds

Yeah. I ain't want to gossip so you ain't heard it from me.

2:32:17

2 hours, 32 minutes, 17 seconds

I mean, was that Wanda? No. Which one was Wanda? I forget. Dude, how great was that show, dude?

Amazing show. Did you love it?

2:32:24

2 hours, 32 minutes, 24 seconds

Amazing show. Amazing show. One of the greats,

2:32:26

2 hours, 32 minutes, 26 seconds

dude. We would go in our neighborhood afterwards and me, Larry, Eddie, Wayne King, just guys off of my street, dude.

2:32:32

2 hours, 32 minutes, 32 seconds

We'd go out there and impersonate all of the freaking characters,

2:32:34

2 hours, 32 minutes, 34 seconds

bro. That show was groundbreaking. There was hundreds of messages, blah blah blah. And then this was some of them, I think. What do you mean blah blah blah?

2:32:42

2 hours, 32 minutes, 42 seconds

Messages about what?

2:32:43

2 hours, 32 minutes, 43 seconds

I don't It said there was three models of women. There was three women citing hundreds of messages purportedly sent by three women from the Oh, Christine Nome's husband. Didn't she

2:32:51

2 hours, 32 minutes, 51 seconds

just get let go or something? Hundreds of messages. Traded selfies. a woman who pledges to worship like a goddess telling her, "You turn me into a girl

2:33:01

2 hours, 33 minutes, 1 second

before asking if he should put on leggings." Oh, okay. But is this is this real, right? Or is So the Post has not

2:33:09

2 hours, 33 minutes, 9 seconds

confirmed the details reported by the Mail. This is what mail the Daily Mail.

2:33:14

2 hours, 33 minutes, 14 seconds

Yeah, that's originally reported, I think.

2:33:15

2 hours, 33 minutes, 15 seconds

Let me tell you something about the Daily Mail. They just made an article saying that uh I'm moving out of Austin.

2:33:21

2 hours, 33 minutes, 21 seconds

Oh, that uh I'm fed up with Austin. I'm moving out of Austin. That's not true.

2:33:25

2 hours, 33 minutes, 25 seconds

And that was published by the Daily Mail,

2:33:26

2 hours, 33 minutes, 26 seconds

right? And also, didn't Christy Gnome just go through something where she got let go or something? Is that right?

2:33:32

2 hours, 33 minutes, 32 seconds

Yes. And not just let go, but involved in a scandal. There's some sort of a money scandal.

2:33:37

2 hours, 33 minutes, 37 seconds

Sometimes this kind of [__] follows that. It's hard to know, but he also looks like like who's that actor right there? He looks like a little bit. What are those boobs? Those are crazy.

2:33:46

2 hours, 33 minutes, 46 seconds

Will Arnette or something? No, not Willette.

2:33:47

2 hours, 33 minutes, 47 seconds

He's got crazy fake boobs. Like they're nuts. They're just balloons. That's all it is.

2:33:52

2 hours, 33 minutes, 52 seconds

Yeah. So, how do we know he's You got tricked easy, bro. Joe just got tricked, bro.

2:33:57

2 hours, 33 minutes, 57 seconds

Well, I don't think they're real. I mean, I thought they were like a fake one that But you was thinking about him. Oh,

2:34:02

2 hours, 34 minutes, 2 seconds

[__] She's John Bonan right there. Look at that [__] That's crazy to me, dude.

2:34:06

2 hours, 34 minutes, 6 seconds

So, supposedly there's letters that he was sending to girls that you make me dress up like a girl. But look again,

2:34:13

2 hours, 34 minutes, 13 seconds

isn't it crazy that she's involved in some sort of a scandal that's about money and then this comes out? And then this comes out. I agree. It's You have to start to notice that. And then here's the craziest part. At a certain point,

2:34:24

2 hours, 34 minutes, 24 seconds

forget about him. Can you find out what she was let go for and what what's involved in it? Because there was some

2:34:31

2 hours, 34 minutes, 31 seconds

sort of a campaign fund scandal or something that has to do something with money. A lot of money, like millions,

2:34:38

2 hours, 34 minutes, 38 seconds

millions and millions of dollars, and then all of a sudden this happens. You got to get a little suspicious in this day and age.

2:34:45

2 hours, 34 minutes, 45 seconds

Oh, yeah. That was the the the campaign commercials she got in trouble for cuz it's like they hired like someone she knew and the they're like she was riding a horse through the [_]

2:34:56

2 hours, 34 minutes, 56 seconds

right. But there's something about the money being inappropriately spent.

2:34:59

2 hours, 34 minutes, 59 seconds

It's like \$ hundred billion dollars or something.

2:35:01

2 hours, 35 minutes, 1 second

100 million or 28 million. I'm trying to find this article doesn't say.

2:35:04

2 hours, 35 minutes, 4 seconds

Let's not comment until we have the specifics. Do Joe, do you think that things would be any different um with America's relationship in the Middle

2:35:12

2 hours, 35 minutes, 12 seconds

East right now if the if uh the Republicans hadn't won the election if Trump hadn't won or do you think it's all the same? It's a good question.

2:35:20

2 hours, 35 minutes, 20 seconds

You think it's all the same like Japetto in the distance like running the strings and it's all the last administration funded the proxy war in Ukraine,

2:35:29

2 hours, 35 minutes, 29 seconds

right? 200 million and they were so 200 firm tied to Christy Gnome secretly got money from \$220 million DHS uh ad contracts.

2:35:39

2 hours, 35 minutes, 39 seconds

Dude, for 220 million you could put tits on my husband for \$ 220 million, you know, but you know I'm I'm and I'm not even a gay guy,

2:35:46

2 hours, 35 minutes, 46 seconds

right? But now they're painting her out to be a nutcase, right? Cuz her husband's a freak. So this firm not saying that he's not a freak. Yeah,

2:35:56

2 hours, 35 minutes, 56 seconds

right. He might really be into dressing up like a girl. It might all be real.

2:35:59

2 hours, 35 minutes, 59 seconds

That might be you going to make me put on leggings. You deter me have autogophilia, right? So, but also that might be coming out because of

2:36:08

2 hours, 36 minutes, 8 seconds

this. And there's probably a bunch of people that got some money and they're like, "Let's try to make this ugly." Yeah. Yeah.

2:36:16

2 hours, 36 minutes, 16 seconds

Oh, yeah. Well, that's scary, too, cuz it's like,

2:36:18

2 hours, 36 minutes, 18 seconds

who knows? I mean, we we don't know anything about the case, right? We don't know anything about either case, the money missing or his fake tits. Yeah. I never had no fake tits. I mean,

2:36:27

2 hours, 36 minutes, 27 seconds

I've done some weird [__] here and there. Steo almost got a pair of fake tits. Did he? Yeah. Tell us the story. I agree. That's too much.

2:36:35

2 hours, 36 minutes, 35 seconds

But he's in that, you know, constant perpetual state of having to one up himself doing something more and more ridiculous every time.

2:36:43

2 hours, 36 minutes, 43 seconds

Do um what do you think is going to happen? You think we're going to be okay? I hope so. Of course. I don't know. Do you think about it?

2:36:51

2 hours, 36 minutes, 51 seconds

I'm confused. I can't believe we went to this war. I when we started bombing Iran, I was like, there can't this can't be true. And what about Lebanon now?

2:36:58

2 hours, 36 minutes, 58 seconds

I know Israel's invaded Lebanon. Yeah. Yeah.

2:37:02

2 hours, 37 minutes, 2 seconds

And it's like just [__] stop it. What do you need?

2:37:05

2 hours, 37 minutes, 5 seconds

Well, they're trying to supposedly they're trying to stop the terrorists.

2:37:10

2 hours, 37 minutes, 10 seconds

That's crazy though. If you're the [__] terrorist,

2:37:16

2 hours, 37 minutes, 16 seconds

you know what I'm saying? Like, if you want to stop them, [__] stand in front of the [__] mirror and start there. But also, what do I know?

2:37:24

2 hours, 37 minutes, 24 seconds

What do you know? You're right. I don't.

2:37:26

2 hours, 37 minutes, 26 seconds

But it's all just like, [__] there's got to be some way that we're better than this. What they're saying is like if this was found out by the story about Christine's husband was found out by like a

2:37:34

2 hours, 37 minutes, 34 seconds

newspaper online allegedly, and that if if they can find this out,

2:37:38

2 hours, 37 minutes, 38 seconds

then obviously hostile intelligence services, according to the CIA officer,

2:37:42

2 hours, 37 minutes, 42 seconds

Mark Polyopoulos, knows this stuff as well. If a media organization find this out,

2:37:47

2 hours, 37 minutes, 47 seconds

you can assume that a high degree of confidence that a hostile intelligence service knows this as well. added former CIA officer Mark Polyopolis.

2:37:57

2 hours, 37 minutes, 57 seconds

Damaging information like this can be a tantalizing lead for a hostile intelligence source. They approach the person and say, "If you work with us, we

2:38:04

2 hours, 38 minutes, 4 seconds

won't expose this and if you don't, we will."

2:38:08

2 hours, 38 minutes, 8 seconds

So, he's posting these online and someone came across them is what it sounds like. Well, he might be a freak. Who cares? Let him [__] cook.

2:38:15

2 hours, 38 minutes, 15 seconds

I think a lot of those people that are involved in government are freaks and I bet their husbands and wives are freaks,

2:38:19

2 hours, 38 minutes, 19 seconds

too. They're [__] weirdos. They want to be in power. Yeah, it's Yeah, they want to wear leggings.

2:38:26

2 hours, 38 minutes, 26 seconds

It's all crazy. We just have to focus on the things that we can. Like Matt McCusker, he started a garden. It's like 10 to the garden that you can have. You know,

2:38:32

2 hours, 38 minutes, 32 seconds

he grows blueberries and he grows um that's the way to do it.

2:38:36

2 hours, 38 minutes, 36 seconds

He grew one. He actually only he grew one blueberry his first. During the congressional hearings, Christine Gnome was probed about accusations of conducting a taxpayer funded affair with her former aid, Corey Luwendowski,

2:38:49

2 hours, 38 minutes, 49 seconds

who has since left the Department of Homeland Security. Cory Luwendowski, dude,

2:38:54

2 hours, 38 minutes, 54 seconds

dude, I was in a [__] fantasy football league with that guy for real. Yes, for real. Pull him up again. Yeah. No kidding. Let me see a photo of him. Mother efer, dude.

2:39:02

2 hours, 39 minutes, 2 seconds

She's pretty hot. See Lou, bro. Oh, this different dude. Yeah, seems like a different dude. Uh,

2:39:08

2 hours, 39 minutes, 8 seconds

so that guy was the guy who banging her. Okay.

2:39:13

2 hours, 39 minutes, 13 seconds

Supposedly, allegedly, who knows? But again, when there's a bunch of money that's missing and there's a scandal,

2:39:20

2 hours, 39 minutes, 20 seconds

hundreds of millions of dollars, weird [__] starts getting tossed around that throw you House of Cards, baby. Go

2:39:28

2 hours, 39 minutes, 28 seconds

rewatch it. That's I think that's probably the most accurate depiction of how the government works. Yeah, Kevin Sp is a fascinating guy.

2:39:35

2 hours, 39 minutes, 35 seconds

Well, everybody in that show was great.

2:39:37

2 hours, 39 minutes, 37 seconds

It it was just like a really well-made show.

2:39:39

2 hours, 39 minutes, 39 seconds

Yeah, that show was fascinating. He did a He did All right, dog. We got to wrap this up soon.

2:39:43

2 hours, 39 minutes, 43 seconds

Dude, that's fine with me. I thought you were I thought you I was staying here cuz you're here.

2:39:46

2 hours, 39 minutes, 46 seconds

No, I love you, too, but I have things I got to do.

2:39:49

2 hours, 39 minutes, 49 seconds

Um, are you going to be around tonight or you going going back? I might stop by. Um,

2:39:54

2 hours, 39 minutes, 54 seconds

boys in theaters April 17th. So, that's like two weeks from now. Let's [_] go. Two weeks in a few days. Yeah.

2:40:02

2 hours, 40 minutes, 2 seconds

Um, let's [_] go.

2:40:04

2 hours, 40 minutes, 4 seconds

Thank you for letting come and talk about it. I'm excited for you. And just to see you. Yeah, I'm excited, too, man. I hope it kills it.

2:40:09

2 hours, 40 minutes, 9 seconds

Yeah. I just think I'm sure it's going to be really funny with you and David Spade.

2:40:13

2 hours, 40 minutes, 13 seconds

We tried our We did a good job. This I'm sure. Dude, he's so funny. Yeah, I'm sure it's going to be awesome. But, um, thank you for everything, dude. My pleasure, man.

2:40:20

2 hours, 40 minutes, 20 seconds

And it's good to see you. And it's good to see you. Yeah. Come by tonight. Let's hang out.

2:40:23

2 hours, 40 minutes, 23 seconds

I'll come by. I have a show tonight, but I'll come by. Where you at?

2:40:26

2 hours, 40 minutes, 26 seconds

I'm at this Moody Theater. I'm practicing for my special, so I got to get ready.

2:40:28

2 hours, 40 minutes, 28 seconds

Um, with Tommy at the Moody 7.

2:40:31

2 hours, 40 minutes, 31 seconds

Okay. Come by. We'll be there till I'm I'm going to be in I'll be there for a while. Okay. I'll come by and say half. All right. All right. Beautiful.

2:40:37

2 hours, 40 minutes, 37 seconds

Good to see you, man. Jamie, thank you so much.

2:40:39

2 hours, 40 minutes, 39 seconds

Bus Boys, April 17th. Go watch it. We love you guys. Bye.
