ZARA'S FILMS

UNFORGETTABLE STORYTELLING

10/10 The most amazing photographer and videographer around!!

My husband and I in the mist of excitement over our engagement booked a different photographer.... But then I stumbled upon Zara. It was clear to me that I needed Zara to capture my special day and I quickly secured her booking.

I was in awe of her work that I'd seen on her social media but nothing prepared me for how amazing she really is! We first met her for our engagement photoshoot and she put both of us right at ease and made us feel like we'd known her our whole lives. The pictures were beautifully captured and not forced but organically captured.

Onto our wedding day...

Zara was incredible, she got the group shots done quickly so it didn't disturb the day and was good at being behind the scenes. She was easy going and every one of our guests had nothing but good words to say about her.

She went above and beyond throughout the whole day and from what I've seen on the sneak peaks, she has captured more than I could have ever wanted or imagined. It makes me so excited to see the full album and videography.

Zara is a beautiful person both inside and out, and captures the most incredible pictures and film of your day. We are so incredibly lucky to have had her part of our day.

BOOK HER NOW!! Do not hesitate! I will recommend her to all of my friends and family.

WHAT TO EXPECT

BEFORE

Our first call will be a brilliant way of getting to know one another and I just can't wait to hear all about your Wedding plans.

The most important thing to me is that from the very beginning you feel super comfortable and at ease with me as this is the thing that I pride myself on the most.

If you are happy with everything, I'll then ask you to confirm your commitment with a 30% booking fee and the signing of my contract. Once I have received these, we can then move on to the super exciting part, the planning of the most special day of your life.

Once your booking is confirmed, we can then arrange a date for your engagement shoot if you wish to have one. This is a brilliant way of helping you feel comfortable in front of the camera before the big day and also you will have some beautiful photo's to share and enjoy before you become Mr & Mrs!

One month before your wedding at the very latest, we will arrange a suitable time for our Zoom call where we can discuss everything in lots more detail and finalise timings and a schedule of shots for the day.

DURING

I'll be there to help with everything on the day and will naturally blend in with all your guests, capturing all the emotional candids and every single detail in-between.

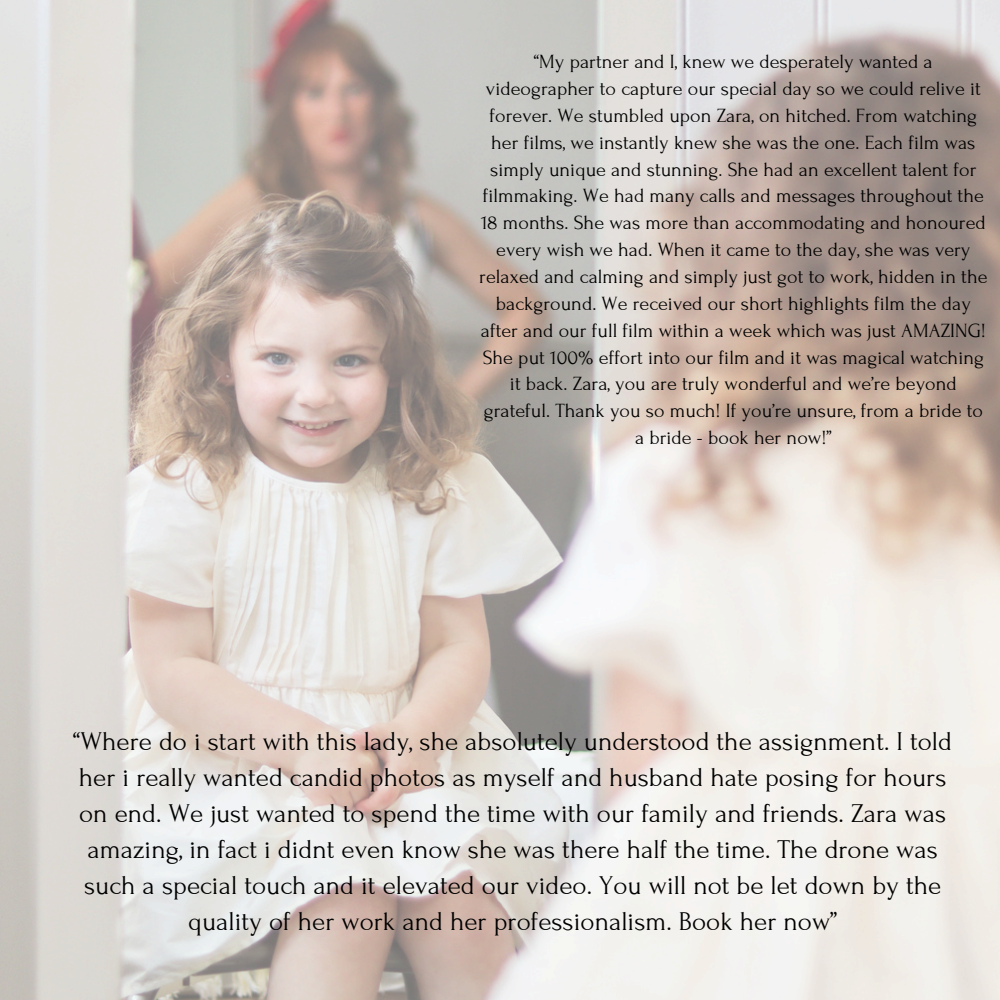

My main focus is that you just enjoy the day you have worked so hard on so just kick back and relax! I will take you both off for a relaxed walk before your Wedding Breakfast for no longer than 10-15 minutes so we can capture those all important relaxed, authentic couple portraits.

This is also a perfect time to have some much needed quiet time together as Mr & Mrs. The rest of the day will be chilled vibes, natural candids and allowing you and your guests to just have the best day ever!

AFTER

You will receive your wedding preview gallery & Video preview the very next day!

For the following 4-8 weeks I will be working very hard making sure every single photo and film and is edited to absolute perfection, so just sit tight, enjoy your previews and wait for the magic to happen in around 4-6 weeks, 6-8 in busier periods.

"My partner and I, knew we desperately wanted a videographer to capture our special day so we could relive it forever. We stumbled upon Zara, on hitched. From watching her films, we instantly knew she was the one. Each film was simply unique and stunning. She had an excellent talent for filmmaking. We had many calls and messages throughout the 18 months. She was more than accommodating and honoured every wish we had. When it came to the day, she was very relaxed and calming and simply just got to work, hidden in the background. We received our short highlights film the day after and our full film within a week which was just AMAZING! She put 100% effort into our film and it was magical watching it back. Zara, you are truly wonderful and we're beyond grateful. Thank you so much! If you're unsure, from a bride to a bride - book her now!"

"Where do i start with this lady, she absolutely understood the assignment. I told her i really wanted candid photos as myself and husband hate posing for hours on end. We just wanted to spend the time with our family and friends. Zara was amazing, in fact i didnt even know she was there half the time. The drone was such a special touch and it elevated our video. You will not be let down by the quality of her work and her professionalism. Book her now"
