August Fire Safety Topic:

Back to School Safety

The excitement of the Back to School season is here! As you get the kiddos ready to head back, don't forget to remind them about the ways they can stay fire-safe:

- Their schedules change; ours may not. If you know a child who is home alone before or after school, remind them that if a fire starts, get out first and then call 911.
- Make sure everyone knows the home evacuation plan and has practiced using it, with a focus on the family meet-up spot.
- Encourage kids to know two ways out of any space - the classroom, the school and the house, to name a few.
- Remind kids that lighters, matches and heating appliances are not toys.

5. Please provide the below Fire Department updates:

- **Save the Date:** Fire Prevention Week is coming Sun., Oct. 6 - Sat., Oct. 12. More info to come.

6. Thank the council and step away - unless you get caught with questions. If you receive questions you cannot answer, take a look at the FAQ below.
