Come out and celebrate the transformation of a vacant, blighted lot into an amazing new community greenspace!

Pamela and her husband Lynn had a vision for creating a place for neighborhood children to grow healthy food and connect with nature in their community.

As part of the Beekman St. Corridor Coalition, Pamela worked with other residents to pilot the Landbank's "Dollar Lot" pilot program to bring abandoned lots into neighborhood ownership.

Partnering with Keep Cincinnati Beautiful's "Spaces to Places" program and Working In Neighborhoods, their vision is reality.
