PHOTOBIOMODULATION CAPSULE

Next-Gen Recovery. Full-Spectrum Regeneration.

Step into a new era of wellness optimization. The Transcendent Wellness Photobiomodulation Capsule™ is a fully immersive, full-body light therapy system that uses precision-calibrated wavelengths to activate your body's natural healing, recovery, and cellular renewal processes.

We've gone beyond conventional red light therapy. Our proprietary system delivers a targeted blend of:

- **Red Light (630nm):** Stimulates collagen production, enhances skin health, and energizes cellular function.
- **Yellow Light (590nm):** Improves lymphatic flow, reduces redness, and supports skin detoxification.
- **Blue Light (450nm):** Antibacterial and anti-inflammatory, ideal for supporting skin clarity and calming the nervous system.

🔥 **Infrared Light (850nm):** Penetrates deeper tissues to reduce inflammation, enhance circulation, and support muscular recovery.

⚡ **1060nm Deep Infrared:** Targets fat metabolism and thermogenic stimulation, potentially aiding in body contouring and visceral fat reduction.
