

Proof of Vaccination Requirements

Dear valued customers,

We are required under a provincial health order to ensure that all customers have been vaccinated before they can be served at our establishment.

Beginning September 13, we will be asking for your proof of vaccination – your BC Vaccine Card – and a piece of government-issued photo ID.

To give everyone time to get their BC Vaccine Card, from September 13 to 26 you can show other forms of proof of vaccination, including your British Columbia COVID-19 Immunization Record Card.

After September 26, you must show a digital version or print a paper copy of your BC Vaccine Card. For more information on how to obtain your BC Vaccine Card, please visit:

<https://www2.gov.bc.ca/vaccinecard.html>

You must have your first shot by September 13 and your second shot by October 24 in order to continue to be served in our establishment.

We will not be tracking or recording anyone's personal health information, so customers will be asked to complete the verification process every time they enter our establishment.

We understand this is a contentious issue, but we must abide by provincial health guidelines.

To those who cannot or choose not to get vaccinated, we welcome you to continue to get takeout in person or order delivery.

We continue to strive to make our establishment a safe and COVID-free business.

Thank you for helping us comply with the public order and treating our staff with kindness and respect.

If you have concerns about the proof of vaccination, we encourage you to contact the Provincial Health Officer and your local MLA.

We look forward to seeing you soon.
