

Driveways

What you need to know and do to connect and properly tie in your driveway to H.O.V.E. roadways and across H.O.V.E. roadway easement.

H.O.V.E.R.M.C does not build or tie in driveways for property owners.

- H.O.V.E.R.M.C. does require a property owner to apply with H.O.V.E.R.M.C. for driveway tie in to H.O.V.E. roadways and across our easements.
- Driveways may extend, and tie into the H.O.V.E. roadway only with prior H.O.V.E.R.M.C. written approval. Application form is available at R.M.C. office and online.
- If you hire a contractor, the contractor is also required to apply and obtain written approval from H.O.V.E.R.M.C. prior to the start of any driveway construction.
- Information is available online and at the RMC Office to provide necessary driveway tie in specifications to H.O.V.E. roadways and easement guidelines prior to connecting your driveway to the H.O.V.E. road system.
- Driveway tie in to H.O.V.E. roadways and across our easements require after construction inspection to ensure that your driveway was properly constructed to H.O.V.E. specifications before sign off.

Please contact R.M.C. if you have questions.

Apron Tie-In Specifications

- Apron may be made with "Chip Seal", Asphalt Pavement, or Concrete.
- No part of H.O.V.E. roadway may be removed or undercut.
- Tie-In point may not rise above roadway.
- Apron must drain properly and not drain runoff onto any roadway surface.
- Apron surface on H.O.V.E. easement should follow easement contour if possible.
