# Alchimia

MARAZZI

# Alchimia

Latest-generation production technology and unusual extra-large sizes for the Alchimia collection, the new Marazzi slimline wall covering with a tactile character and simple elegance. Inspired by micro-cements, materials with a particularly fine grain and sandy inclusions that create a striking bright micropixel effect, Alchimia comes in four neutral shades and two 3D structures: Raw, which creates a kind of trowel-levelled look on the surface and Tide, with the distinctive formwork look. The cement tiles of Boho, the geometric motifs of Arky and the highly coloured flowers of Gipsy, the decor modules of Alchimia allow this collection to be interpreted in a variety of ways.
