A User's Guide to the Zoning By-law

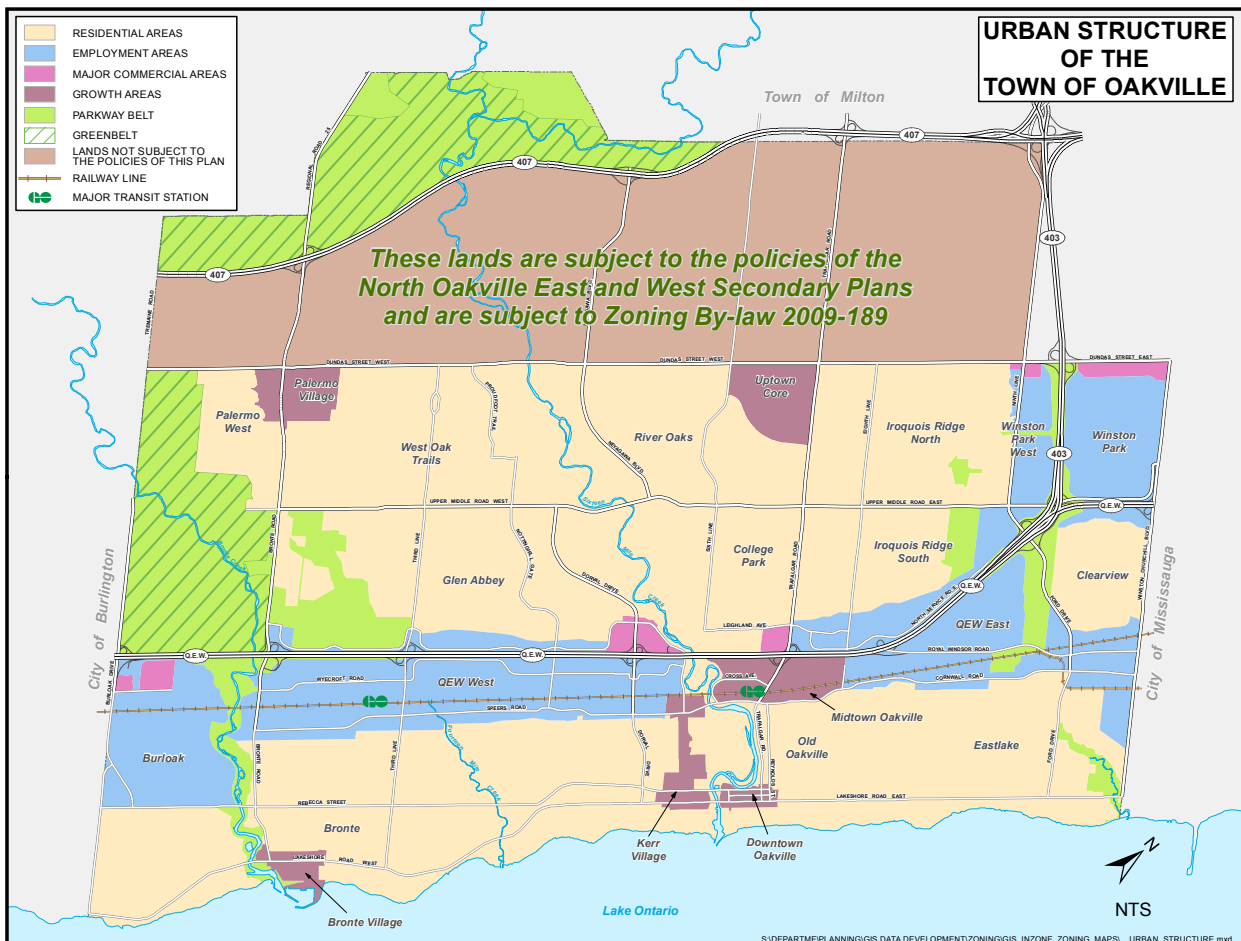

Zoning By-law 2014-014 applies to the lands south of Dundas Street and North of Highway 407. This user guide is intended only to make the By-law easier to understand and reference, and to outline how to use the By-law to find basic zoning information.

If you have any questions about the content of or how to interpret this By-law, or to obtain any content of this By-law in an alternate format, please do not hesitate to contact a member of the zoning section of Oakville's Building Services department or a planner in the Planning Services department.

Purpose of the Zoning By-law

A zoning by-law is a "rule book" that controls building and development. Zoning by-laws regulate how land and buildings are used, the location of buildings, minimum lot sizes and dimensions, building heights, and other provisions necessary to ensure proper development.

The zoning by-law implements the community vision and policies for future growth and development expressed in the *Town's* official plan, the Livable Oakville Plan. The zoning by-law puts the Livable Oakville Plan vision and policies into terms, permissions, and numbers that can be measured. The Livable Oakville Plan was unanimously adopted by Council on June 22, 2009, approved with modifications by Halton Region on November 30, 2009, and ultimately approved by the Ontario Municipal Board on May 10, 2011. The Livable Oakville Plan applies to all lands in the *Town of Oakville* south of Dundas Street and north of Highway 407, as shown on the map below.

The overall "urban structure" of Oakville. Lands north of Dundas Street and south of Highway 407 are not subject to the policies of the Livable Oakville Plan. There, the North Oakville Secondary Plans and Zoning By-law 2009-189, both as amended, apply.

How to Use this By-law

The following six steps describe how to identify what uses can be undertaken and the size of buildings that can be erected on a specific property. Staff in the zoning section of the Building Services department and Planning Services staff are always available to answer your questions and confirm the zoning regulations and planning policies applying to your property:

1. Start with the maps in Part 19 of the By-law to determine your zone

1. Find the map in Part 19 of the Zoning By-law that shows the applicable property. The By-law is divided into 32 maps based upon the grid shown on the following page;
2. Locate the property on the map; and,
3. Determine what *Zone* the property is in.

The *Zones* are identified by a short-form symbol, a series of letters and numbers. For instance, if a property is in the “Community Commercial” *Zone* it will be identified as “C2” on the maps.

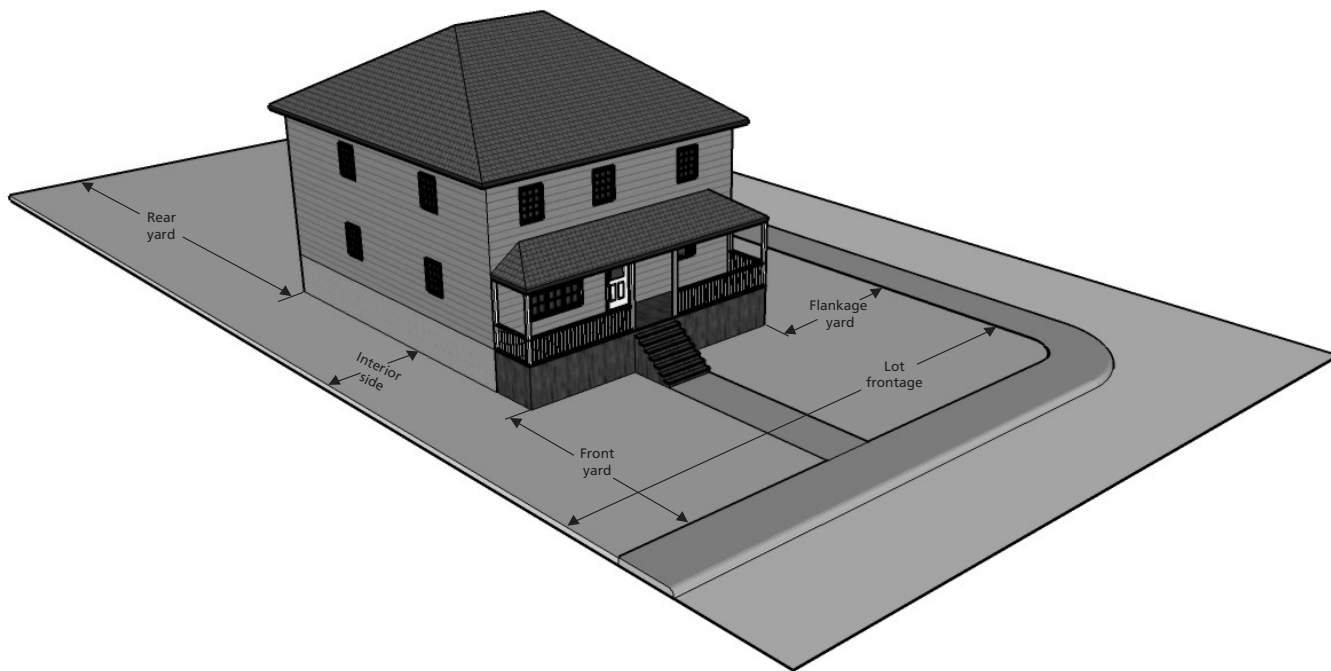

A User's Guide to the Zoning By-law

2. Turn to the appropriate Part of the By-law (Parts 6 through 14) for the use permissions and building regulations applying in your zone.

Parts 6 through 14 of this By-law contain a series of tables. The first tables contain a list of permitted *uses*. The *use* is shown in the left-hand column, and the *zones* in which each *use* is permitted are marked with a “✓” symbol in the appropriate column.

Once the permitted *uses* are known, turn to the next section of the By-law, where the *zone* regulations can be found in a separate table. There are multiple tables in the Residential *Zones* because of the wide range of housing forms and styles in Oakville. Other Parts of the By-law have fewer tables. These regulation tables state what standards apply to any *buildings* and *structures* associated with the permitted *use*. Each *zone* has its own column (in the Residential *Zones*, many *zones* have their own table). Using the Community Commercial C2 *Zone* example above, the *lot* size, *yard*, and *height* requirements are shown in the third column of Table 9.2.

These regulations establish the “*building envelope*” for development on a *lot*. The amount of developable area and the types and sizes of *buildings* allowed are further regulated by other Parts of the By-law.

Additional regulations may follow the *use* permission and *building* regulation tables and should also be reviewed to ensure your building plans comply.

3. Turn to the appropriate Part of the By-law (Parts 15 through 18) for any site- or area-specific provisions applying to your property.

Referring back to step one above, if a property has some additional site- or area-specific provisions, a number will be added to the *zone* symbol on the zoning maps contained in Part 19; for example, “C2⁻⁵⁴”. These site- or area-specific provisions modify the regulations for lands covered by that provision. These provisions are listed in the appropriate table in Part 15 of the By-law.

A User's Guide to the Zoning By-law

If the property is subject to a Holding Provision, the symbol will be preceded by the letter “H” and a number (i.e. “H1-C2”). A Holding Provision restricts the *uses* on a property only to those permitted under the Hold (typically, only existing *uses*), until a series of conditions are cleared. These conditions, and any modified provisions that apply while the Hold is in place, are listed in Part 16 of the By-law.

If the property is subject to an Interim Control By-law, a hatched line overlay will be shown on the property along with a number and letter “i” (i.e. “3i”). These properties are subject to a temporary removal of permitted *uses* or modified *building* or *structure* regulations, pending the completion of a study and potential amendment to the Zoning By-law. These provisions are listed in Part 17 of the By-law.

If the property is subject to a Temporary *Use* By-law, the symbol will be preceded by the letter “T” and a number (i.e. “T1-E2”). The intent of a temporary *use* by-law is to allow a *use* of land temporarily until the ultimate development vision for the area can be achieved through development, or when non-permanent uses are required for a short period of time. These permissions and associated provisions are listed in Part 18 of the By-law.

4. Turn to Part 4 to identify general regulations that apply in all zones.

After determining what standards may apply to a permitted *use* on the property, refer to the General Regulations section of the By-law to determine what provisions in that section may apply to the property. A review of this list will allow identification of regulations which may be applicable and which should then be reviewed.

5. Turn to Part 5 of the By-law for the parking, loading and stacking space requirements for your use.

Part 5 of this By-law contains the requirements associated with *motor vehicle parking spaces*, *bicycle parking spaces*, *loading spaces*, and *stacking spaces* with *motor vehicle* queuing (i.e. a *drive-through facility*) or pick-up and drop-off (i.e. school lay-by). Parking and loading regulations include parking and *loading space* dimensions, minimum required and maximum permitted number of spaces, and design-oriented regulations that apply to all *uses* in all *zones*.

6. Turn to Part 3 to find definitions.

Throughout the By-law, you will find certain words are *italicized*. These are terms which have a definition in the By-law. The definitions are found in Part 3 of the By-law. Reference to the definitions section should be made to ensure a clear understanding of the implications of any italicized term used in the By-law.

Any Further Questions?

If you have any questions about the content of or how to interpret this By-law, or to obtain any content of this By-law in an alternate format, please do not hesitate to contact the *Town* for more information. Zoning staff in the Building Services department and planning staff in the Planning Services departments are available Monday through Friday, 8:30 a.m. to 4:30 p.m., to assist with interpreting the *Town's* policies and regulations.

2014-014**

A By-law to restrict the *use* of land and the erecting, locating, or using of *buildings* or *structures*, and to regulate the *use* of land, *buildings*, and *structures*.

COUNCIL ENACTS AS FOLLOWS:

Administration

Portions of this by-law not yet in effect are covered with a blue tone. This version consolidates all amendments and orders of the OMB up to the consolidation date shown below. Contact the Building Services or Planning Services departments for more information.

This By-law applies to all lands south of Dundas Street and north of Highway 407.

Properties not subject to this By-law are either omitted from or not indicated on the Maps in Part 19.

The requirements of this By-law must be met before a building permit is issued for the erection, addition to, or alteration of any building or structure.

Without limiting its generality, Section 1.5 includes the Building Code (Ontario Regulation 350/06), and the permitting procedures of Conservation Halton (Ontario Regulation 162/06) and the Credit Valley Conservation Authority (Ontario Regulation 160/06).

1.1 Application

This By-law applies to all lands in the *Town* of Oakville as shown on the Maps in Part 19 of this By-law.

1.2 Repeal of Former By-laws

- a) The provisions of the *Town* of Oakville Zoning By-law 1984-63, and all amendments thereto, are hereby repealed insofar as they affect the lands covered by this By-law.
- b) The provisions of the Oakville Zoning By-law 1965-136, and all amendments thereto, are hereby repealed.

1.3 Administration

This By-law shall be administered by the person designated as the Zoning Administrator.

1.4 Compliance with this By-law and Certificates of Occupancy (2017-025)

- a) No person shall use any land or erect or use any *building* or *structure* on lands subject to this By-law except for a *use* permitted, and in accordance with the regulations provided, by this By-law for the *Zone* in which the *lot* is located.
- b) No person shall change the *use* of any *lot*, *building*, or *structure*, erect or enlarge any *building* or *structure*, or sever any lands from any existing *lot* if the effect of such action is to cause the original, remaining, or new *building*, *structure*, or *lot* to be in contravention of the By-law. (2017-025)
- c) No person shall make any change in the *use* of land, or of any *building* or *structure*, without first obtaining a certificate of occupancy.
- d) Notwithstanding subsection (c) above, certificates of occupancy shall not be required for changes in residential *uses* other than the establishment of a *bed and breakfast establishment*, *short-term accommodation*, *lodging house*, *home occupation* or *accessory dwelling unit*. (2021-068) (2023-024)

1.5 Compliance with Other Legislation

- a) Nothing in this By-law shall serve to relieve any person from any obligation to comply with the requirements of any other By-law of the *Town* of Oakville or any other regulation of the Regional Municipality of Halton, Province of Ontario, or Government of Canada that may otherwise affect the use of land, *buildings*, or *structures*.
- b) References to “the Zoning By-law” or “By-law 1984-63” in other *Town* By-laws or documents shall be deemed to refer to this By-law where this By-law applies.

Administration

liable to fines under the Planning Act.

1.7 Severability

A decision of a court of competent jurisdiction that one or more of the provisions of this By-law or any portion of the Zoning Maps to this By-law are invalid in whole or in part does not affect the validity, effectiveness, or enforceability of the other provisions or parts of the provisions of this By-law.

1.8 Transition Matters

Notwithstanding Sections 1.2 and 1.4 of this By-law, a *building* permit may be issued in accordance with Section 1.8 of this By-law for the following scenarios.

For the purposes of determining zoning compliance for matters covered by Section 1.8 of this By-law, the provisions of Zoning By-law 1984-63, as amended, as it read on the effective date of this By-law shall apply.

1.8.1 Building Permit Applications

Nothing in this By-law shall prevent the erection of a *building* or *structure* for which an application for a *building* permit was filed on or prior to the effective date of this By-law provided the *building* permit application satisfies the following requirements:

- a) The *building* permit application complies with the provisions of Zoning By-law 1984-63, as amended, as it read on the effective date of this By-law.
- b) All information is provided to allow for a zoning review to be undertaken; and,
- c) All planning approvals have been obtained.

In the scenarios described at left, the rules and regulations of Zoning By-law 1984-63 shall apply for when evaluating building permit applications. These clauses provide direction to Building Services that a building permit may be issued for an application received by the town fitting any of these scenarios.

Planning applications in process shall be reviewed under the zoning rules in force. This means for some time an application will need to conform to both Zoning By-law 1984-63, as amended, and the 2014 Zoning By-law. Applicants will need to comply with both sets of zoning regulations or seek relief or amendments to one – or possibly both – By-laws.

1.8.2 Recently Approved Planning Applications

- a) The requirements of this By-law do not apply on a *lot* where a minor variance to Zoning By-law 1984-63, as amended, was authorized by the Committee of Adjustment of the *Town* or the Ontario Municipal Board on or after May 10, 2011 and on or before the effective date of this By-law and a *building* permit for the applicable project has not yet been issued.
- b) The requirements of this By-law do not apply to a lot where a conditional or final Site Plan Approval has been granted by the *Town* on or after May 10, 2011 and on or before the effective date of this By-law and a *building* permit for the applicable project has not yet been issued.
- c) The requirements of this By-law do not apply to a lot where a provisional consent has been given by the Committee of Adjustment of the *Town* or the Ontario Municipal Board on or after May 10, 2011 and on or before the effective date of this By-law and a *building* permit for the applicable project has not yet been issued, the lot has not yet been registered at the Land Registry Office, or the applicable easement or agreement has not yet been registered on title.
- d) For clarity, where a minor variance to Zoning By-law 1984-63, as amended, was authorized by the Committee of Adjustment of the *Town* or the Ontario Municipal Board on or after May 10, 2011 and on or before the effective date of this By-law as a requisite condition for a

Administration

Site Plan Approval, Section 1.8.2(b) shall apply to give affect to the applicable Site Plan Approval.

- e) For approved site plans and minor variances where this By-law has subsequently been amended, the regulations in effect on the date of approval of the site plan or minor variance shall apply to any *building* permit applications. (2017-025)

If you have questions about the applicability of these clauses to your development or building project, contact your file's planner in the Planning Services department.

1.8.3 Cessation of Section 1.8 Relief

- a) The relief provided by Section 1.8 of this By-law shall not continue beyond the issuance of the permit, approval, or agreement upon which the exemption is founded, unless otherwise provided for in this By-law. Once the permit, agreement, or approval has been granted in accordance with Section 1.8, the provisions of Zoning By-law 1984-63, as amended shall cease to be in effect.
- b) Notwithstanding subsection (a) above, the relief provided by Section 1.8 of this By-law ceases to be in effect on the date of the lapsing of the applicable approval:
 - i) For a minor variance, a maximum of two years from the date of authorization;
 - ii) For a Site Plan, a maximum of two years from the date of final approval; and,
 - iii) For a provisional consent, a maximum of three years from the date of giving.

For Site Plans with a conditional approval only, the usual two years to obtain final approval will additionally apply to this deadline. If conditional approval is not obtained, the Site Plan loses status and the process must begin again and comply with the zoning rules in force.

1.9 Clarifications and Convenience

- a) Examples, margin notes, and illustrations are for the purpose of explanation, clarification, and convenience and do not form part of this By-law.
- b) Any numbers in parentheses following any item in any Table indicates that one or more additional regulations apply to the *use, Zone, or standard* indicated. These additional regulations are listed below the applicable Table.
- c) Any geographic, biographic, referential, or identifying information and any list of Amending By-laws contained in Parts 15, 16, 17, and 18 of this By-law is provided for the purpose of clarification and convenience and does not form part of this By-law.
- d) The following character styles are provided for the purpose of convenience. Their usage or omission shall not be considered an interpretive statement by the *Town*:
 - i) Terms that are defined in Part 3 of this By-law have been *italicized*.
 - ii) Titles of Federal or Provincial legislation have been underlined.
- e) Where a defined term listed in Part 3 of this By-law is reversed anywhere in this By-law, it is done for the ease and convenience of locating and identifying the term with other like terms. Such an inversion or lack thereof shall not be considered an interpretive statement by the *Town*.
- f) Any reference to legislation or regulations or sections thereof approved by another *public authority* shall include any amendments to or successions thereof.

Examples of where these are found include after a "✓" in a permitted use table, after a zone symbol in a table heading, after a use or building standard term, and after a standard itself.

As an example, "private school" and "school, private".

2.2 Location of Zones

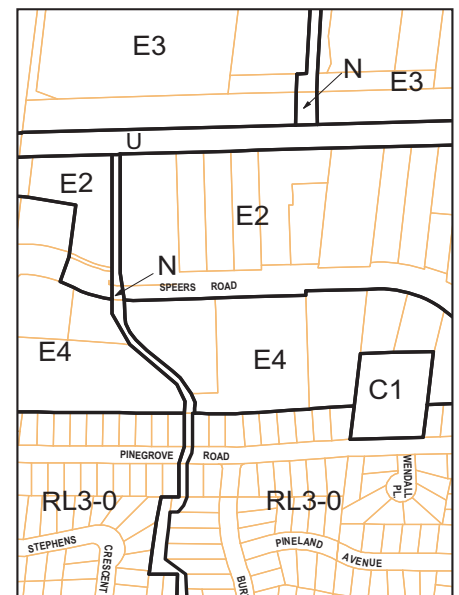

The zones and zone boundaries are shown on the Zoning Maps which are attached to and form Part 19 of this By-law. The lands identified on the Zoning Maps as being within a zone are subject to the provisions of this By-law applicable to that zone or zones.

OMB Appeals

Part 7 in its entirety

36 - General Electric Canada

Once Midtown Strategy projects are complete, staff anticipate an Official Plan Amendment will be required to update various schedules in the Livable Oakville Plan. Corresponding policy amendments may also be required to reflect changes recommended in the Parking Strategy and Mobility Hub Study work being undertaken in tandem with the Class Environmental Assessment.

In the interim, staff are recommending two transition zones – Midtown Transitional Commercial (MTC) and Midtown Transitional Employment (MTE) – apply that freeze building envelopes to those legally existing February 25, 2014. New buildings and structures would require a planning application, allowing Council to review a proposal and establish conformity with the Livable Oakville Plan (in particular, the acquisition of future roads required in Midtown Oakville). A limited range of additional uses are permitted that conform to the uses permitted in the Livable Oakville Plan to allow for the continued use of existing buildings should vacancies emerge.

Staff anticipate Midtown Strategy work to be complete later in 2015. Implementing zoning for Midtown Oakville would be introduced through a separate process, including a dedicated statutory public meeting for the Official Plan and Zoning By-law Amendments.
