

1irstgold is the only and the first interface solution which allows cryptocurrencies to participate directly in physical gold trading.

By integrating our blockchain application, we allow crypto-, and FIAT based currencies to participate in gold trading globally. In our network, we allow all participants to purchase physical gold in a decentralized, peer-to-peer manner.

We enable the experience of switching the digital world into the analog world of gold trading. At our 1irstgold ATM, holders of cryptocurrencies and FIAT currencies can obtain physical gold per issue.

By 2025 we will build a global network with over 15,000 1irstgold ATMs. In addition, there are several services from our online-store and a global network of trading partners.

We see this as a revolution in the trade in precious metals, because the side effect of our product is the creation of a globally uniform settlement and pricing.

There is no longer a spread. Buy and sell at the same rate.

Simple solutions and understandable for everyone.

With our own payment gate on our website, we allow several crypto currencies like BTC, ETH and USDT to be exchanged directly into 1GOLD free of charge. The same applies to exchanging 1GOLD for BTC, ETH and USDT, worldwide and without limits.

Through cooperation with payment service providers, we also offer this access for payment by credit card in countless FIAT currencies. Precious metal trading has never been easier, decentralized and guaranteed without a spread 365/24, theft and fraud-proof.

We are different, we are

LAUNCHING WHERE FIRST GOLD BEGAN IN THE USA

1st gold rush, 1st gold dollar coin, 1st US Mint branch, 1st gold mine & now - 1irstGold USA

Quote:

"Gold has thousands of years of a track record offering some form of protection against the unexpected." "That's worth having."

George Milling-Stanley, Chief Gold Strategist
State Street Advisors

We offer our 1irstGold ATMs for \$11K on your property. With transactions of just \$20K per month, a merchant can earn \$1600 in fees per month. At \$40K = \$3200 per mo / \$60K = \$4800 per mo / \$80K = \$6400 per mo. A typical ATM has about \$85K in it going into a weekend. Get cash, get gold, use any crypto or credit card with us on the Ethereum blockchain worldwide. Merchants desirous of an entire state or chain at \$48K please contact us.
