

Environmental Health & Safety (EHS) – Ergonomics

Holly Springs, NC

Compensation Range*
\$35.00/hr - \$45.00/hr

*Exact compensation may vary based on skills, experience, and education.

Job Summary:

We are seeking a motivated and detail-oriented individual to support our Environmental Health & Safety (EHS) team with a focus on industrial ergonomics. This role will contribute to the continuous improvement of the clients Occupational Health programming, provide ergonomic assessment support, and assist in implementing strategies that enhance workplace health, safety, and productivity.

Primary Responsibilities Include:

- Assist in the continuous improvement of Occupational Health programming.
- Support the implementation of new elements within the industrial ergonomics program.
- Assist with providing support for the Ergonomics program including performing ergonomic assessments.
- Assist in the assessment of ergonomic risk factors and implementation of control strategies.
- Perform data review and trend analysis to identify opportunities for program improvement.
- Perform other duties as assigned.

Basic Qualifications:

- 18 years of age or older
- Bachelor's degree from an accredited college or university.
- This is not a remote working position.

Preferred Qualifications:

- 4 to 8 years of mixed professional experience as an Athletic Trainer and/or Physical Therapist (minimum 2 years) and EHS professional (minimum 1 year)
- Degree concentrations in Ergonomics, Industrial Hygiene, Environmental and Occupational Health, Kinesiology, Exercise Physiology, Athletic Training, or Physical Therapy
- Knowledge of ergonomic assessment tools
- Applied knowledge of Cal/OSHA, OSHA and EPA regulations
- Working knowledge of ergonomic principles and practices
- Strong written, verbal and organizational skills
- Ability to prioritize effectively in a rapidly evolving environment
- Computer literate including MS Office Suite
