In the on-going quest as industry leaders, our objective is to always create the most natural looking color on the market. We developed Venetian™ to be the next step in the sunless evolutionary chain. Its unique violet hue bronzers give the appearance of natural, sun-kissed radiance... as if you just stepped of an exotic beach on the European Riviera.

Venetian™... An exotic sunless formula with a unique combination of violet and brown tone bronzers, designed to mimic the sought-after skin tones found on the beautiful beaches of the European Riviera. The unique combination of violet bronzers blends with all skin tones to produce a dark, long-lasting tan.

Full Body Spray: **\$50.00**

Norvell Venetian Sunless Solution

Fragrance: Paradise Breeze

Development Time: 1-3 hours

Average Tan Length: 5-7 days

Directions: Exfoliate thoroughly 24 hours before application for best tanning results. Apply in even, light strokes for uniform coverage and discard any unused solution from your completed session. Do not oversaturate skin. Avoid water contact and perspiration until development time has passed. After 8-12 hours rinse off in a warm shower. Use a tan extender daily to prolong the life of the tan.
