# Welcome to Chorley Vets

At **Chorley Vets** we want to make preventative health care easy and affordable, to help you give your pets the best care possible. We believe that prevention is better than cure, rather than waiting until a pet is ill and suffering to put things right. Early diagnosis of health problems will help your pet to live a long and healthy life.

Our **Pet Health Plan** is not pet insurance. It covers the essential treatments your pet needs throughout life, such as vaccinations, flea and worm treatments and regular health checks. Extra benefits of the plan include discounts on many other products and services at the practice. Read on for more information, or speak to one of our team today to find out more about our plan.

## Prevention is better than cure!

Our practice membership scheme has been set up to enable you to spread the cost of routine preventative health care. This allows us to provide you with the support you need to keep your pet fit and healthy year after year. It allows us to administer the appropriate vaccines, wormers and flea treatments at the correct time with minimal financial impact to you, the owner.

In addition, a thorough clinical examination allows us to carefully assess the general health of your pet and offer advice, support and treatment planning, which in many cases can prevent problems arising in the future.

## Our plans include:
