1. Category 1 - Evidence of Investment in Barbados of at least US \$2 million from funds sourced outside of Barbados in addition to evidence of high net worth in excess of US \$5 million

The duration of the Category 1 SERP varies and becomes indefinite after age 60 whereas the Category 2 SERP is issued for renewable five (5) year periods. Category 1 holders have automatic entitlement to work permits; Category 2 holders are not allowed to work in Barbados.

Category 2 applicants must provide proof of ownership of property in Barbados as well as evidence that they can financially support themselves for the duration of the period granted.

'Investment' is defined to include rental real estate, property development projects, manufacturing, tourism, bank deposits, mutual funds or bonds or any financial instrument. All SERP qualifying investment must be purchased from funds sourced outside of the island and not subject to any encumbrances.

A spouse will have to pay a US \$150.00 application fee plus the appropriate SERP fee mentioned above. The US \$150.00 application fee will need to be paid for each dependent.

- SERP holders are also required to declare tax residency in writing to Barbados Revenue Authority.

Category 2 Terms and Fees:

- US \$5,000.00 per adult for a renewable five (5) year period.
- US \$150.00 for minor dependents (who are students) for the life of the SERP.

Spouses and dependents under 18 or still attending University will get the same period as the SERP holder (evidence of schooling required every 3 years). A spouse will have to pay a US \$150.00 application fee plus the appropriate SERP fee mentioned above. The US \$150.00 application fee will need to be paid for each dependent.

- SERP holders are also required to declare tax residency in writing to Barbados Revenue Authority.

SERP holders are entitled to claim a foreign currency tax credit (FCTC) in relation to income which is foreign sourced if such income is transferred to Barbados through the banking system. Depending on the percentage of foreign currency earned in relation to total earnings, the potential tax credit can amount to 93 per cent of the income tax that would otherwise be payable in Barbados. It is therefore possible for such persons to enjoy an effective tax rate of 2.45 per cent in Barbados in relation to their foreign sourced income which is transferred to Barbados.
