MULTIFLEX

REMOVABLE ALUMINIUM BAKKIE COVER

Fold. Slide. Lift out.

Reach your gear or free up the whole load bin.

LOAD BIN ACCESS

Fold it. Slide it.

Open the part of the load bin you need.

Fold for tailgate access

Lift and fold the rear panel.

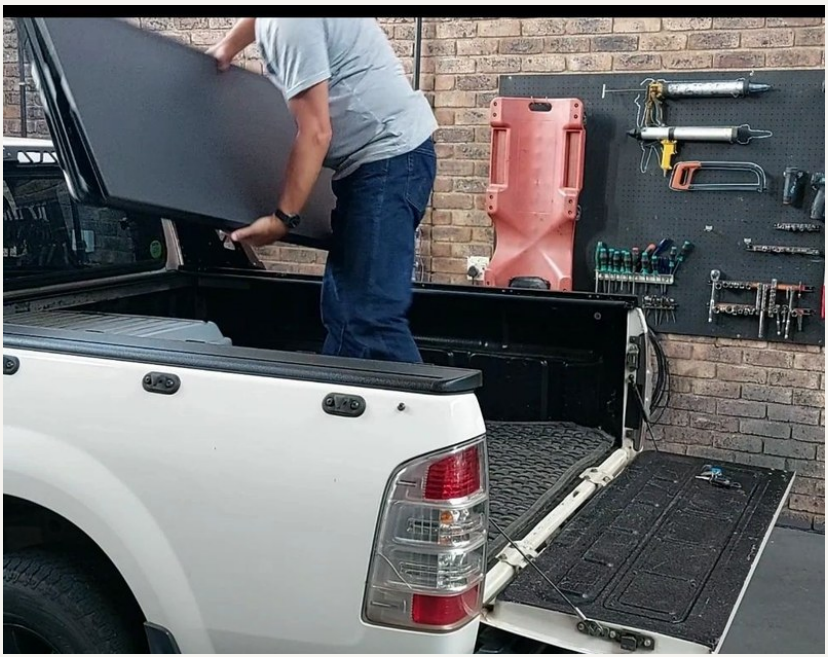

Slide for cab-side access

Slide the cover back to reach the front.

Watch the operation demo →

Need the whole bin?

Lift out the folded cover when you need room for taller cargo.

Remove and refit in seconds

With the tailgate unlocked, fold the cover and lift it out. The folded cover is compact for storage between trips.

TAILGATE LOCKING

One lock. Your tailgate.

Your existing key does the job

Close the cover and lock your tailgate to secure it. The hard panels keep tools, luggage and everyday gear out of sight.

Aluminium built for daily use.

Textured RAPTOR finish

A lightweight aluminium cover with a textured protective coating.

Seals and built-in gutters

Side-rail seals and drainage channels help keep rain out of the load bin.

Set it up your way.

Carry gear up top

Fit compatible load bars, luggage racks or bike carriers.

Keep a compatible styling bar

The cover fits many styling bars. Some setups need optional brackets.

Find the right fit for your bakkie.

Multiflex is made to suit specific vehicle configurations. Send Rigidek these details for a fitment check.

- **Make, model and year**
- **Cab type and load-bin liner**
- **Styling bar, racks or other accessories**
