

COVID-19 GUIDELINES

1. Wear a mask, maintain social distance, wash hands often.
2. We ask any resident or visitor who tests positive for COVID-19 to report that immediately to the building manager. The manager will make that information available to other residents of the building. The identity of the tested individual will not be made public unless the manager is authorized to do so.
3. Any resident who is returning to the building after an absence of at least 72 hours must have a temperature check before reentry.
4. Upon arrival, all visitors and guests must have a temperature check before entry.
5. Residents are encouraged to limit the number of their guests/visitors during the winter season.
6. No more than two people, or one household, may use the elevators at any one time.
7. Masks and social distancing are required in all common areas.
8. Pursuant to CDC guidelines, children two years and older, are subject to the above mask restrictions.

These Guidelines have been approved by the Board of Directors. The Board will look to CDC guidelines for any issue not covered above.
