A WIDOW WITH SCARS FROM HER PAST.
A DECLARED BACHELOR WITH HIS OWN TROUBLED HEART.
WILL THEIR JOURNEY TOGETHER LEAD TO LOVE OR LOATHING?

AUTHOR'S NOTE

Isabella Bird was a real-life Englishwoman who traveled around the world by herself in a time when it wasn't common for a woman, and an unmarried one at that, to do so.

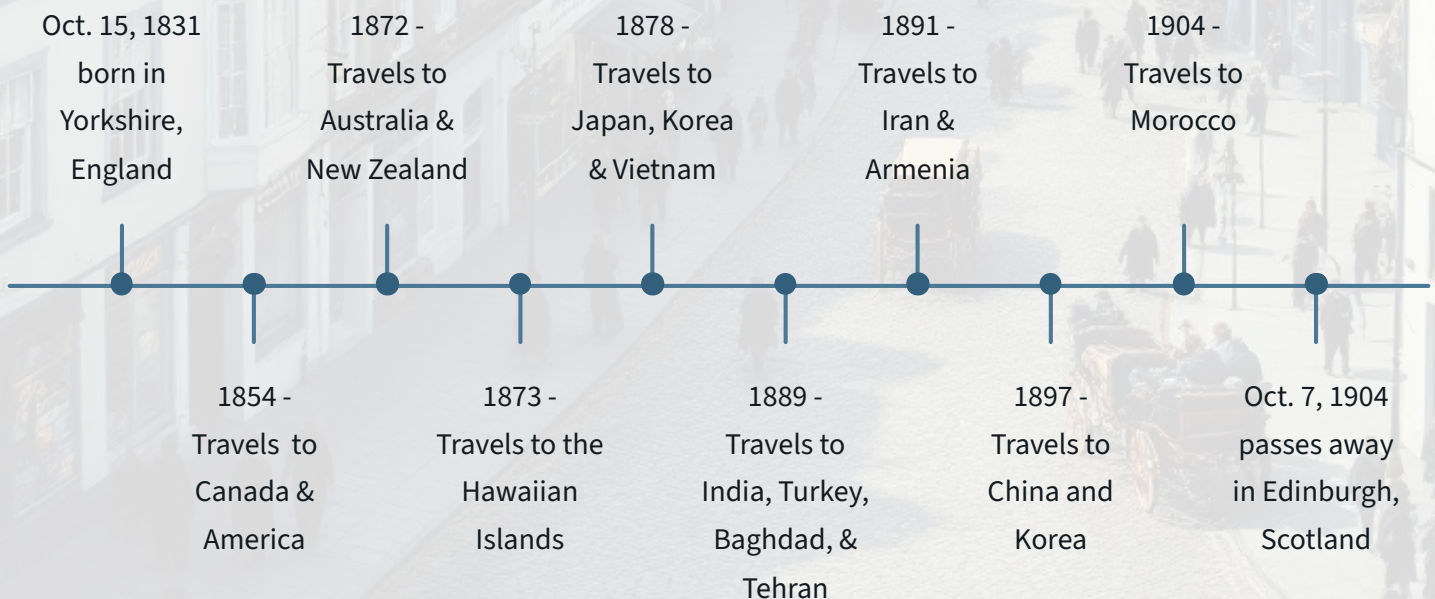

In *The Wayfaring Widow*, I have tried to remain as true to Isabella Bird's actual travels in America in 1854 as possible. Isabella's first-hand account in *The Englishwoman in America* served as the basis for most of what you see within my book's pages.

It's an intimidating prospect to bring a real person from history into a fictional novel, and I wanted to ensure I did justice to her character while at the same time creating a compelling love story in a cast of characters that were my own creation.

Because I only just grazed the surface of Isabella's adventures in my novels, I encourage you to learn more about her and even read her firsthand travel accounts. After all, as Isabella has said herself in *A Lady's Life in the Rocky Mountains*, "Everything suggests a beyond."

WHAT READERS ARE SAYING

Oh truly, what a remarkable story this was - full of angst, heart, and revelations that just tugged at my heart in both heartbreaking and heartwarming ways. I loved how beautifully it showed the evolution of the main characters' relationship - from one characterized by distrust and wariness, to one of full surrender to the depth of the affection that bloomed between them.

-BookBub reviewer

What I admire most about this novel is the rich and authentic historical detail. Casey Cline drew inspiration from Isabella Bird's real travel accounts, making the settings and journey feel vivid and convincing. I often felt like I was right there—experiencing the scenery, the suspense, the sorrow, and the joy along with the characters. ... As a fan of historical romance, I found this book deeply satisfying. The story is clean, sweet, and filled with emotional depth.

SUGGESTED GAME: THE RHYMES

Try your hand at "The Rhymes" as played by Isabella, Victoria, and Harrison in The Wayfaring Widow. Or, [browse this 1854 "Book of Parlor Games"](#) for more inspiration.

The Rhymes.

EIVING an answer of which the first word rhymes with the last of the demand addressed to you, is the difficulty of this game, which makes many forfeits.

EXAMPLE.

The company is ranged in a circle, intermixed with ladies and gentlemen, who interrogate their right-hand neighbours. These reply, and go on questioning to the right, and so on, thus :—

A Lady. "How is your *aunty*?"

A Gentleman. "Jaunty as possible. What will you do on *Sunday*?"

A Lady. "Monday, I have a balloon fight at Saint Cloud. Have you a good *appetite*?"

A Gentleman. "Quite. Do you love *company*?"

A Lady. "Not any. When are you at *home*?"

A Gentleman. "Sometimes. Are you not afraid of being *caught*?" &c.

If you can find a word without rhyme, give it. The player thus answered is obliged to give a forfeit, as are those who do not immediately find rhymes.

ABOUT THE AUTHOR

Casey Cline collects hobbies and pursuits as quickly as she reads books. She likes to believe her degrees and licenses in business, law, and real estate aren't entirely incongruous with writing historical stories about the ultimate adventure in life—love. Casey lives in Nebraska with her husband, two daughters, and three cats.
