### **Good Practice in the Care of Children and Vulnerable People (adapted from Swimming Teachers Association)**

You can reduce situations for the abuse of children (and vulnerable groups) and help to protect staff and volunteers by promoting good practice. The following are more specific examples of care which should be taken when working within a swimming context.

- Always be publicly open when working with children and those of a vulnerable nature. Avoid situations where a teacher/coach and individual swimmers are completely unobserved.
- Where any form of manual support is required, this should be provided openly and with the assent of the child/individual and consent of the parent/Carer. The teacher should also be extremely careful as it is difficult to maintain hand positions when the child/individual is constantly moving. The views of parents/guardians should always be carefully considered.
- Where possible parents/guardians should take on the responsibility for their children in the changing rooms. In the case of a vulnerable adult with a carer this is also the case. Where classes have to be supervised in the changing rooms always ensure that teachers/coaches work in pairs. Encourage an open environment, e.g. no secrets.
- Do not take children or vulnerable persons alone in a car on journeys, however short.

Where cases arise where it is unavoidable that these things do happen, they should only occur with the full knowledge and consent of a member of the Management Committee for the Club, or the child's parents or individual's carer.

And you should never:

- Engage in rough, physical or sexually provocative games, including horseplay
- Share a room with a child or vulnerable person
- Allow or engage in inappropriate touching of any form
- Allow children to use inappropriate language unchallenged
- Make sexually suggestive comments to a child even in fun
- Let allegations a child/vulnerable person makes go unrecorded, or not acted upon
- Do things of a personal nature that children or vulnerable persons can do for themselves
- Have children/vulnerable person stay at your home with you unsupervised
- Spend excessive amounts of time alone with children or vulnerable persons away from others
- Take children/vulnerable persons to your home where they will be alone with you
- Take still or movie photographs of children/vulnerable person without obtaining the guardians consent in writing. In accordance with the Club's Safeguarding Policy

It may be sometimes necessary for staff or volunteers to do things of a personal nature for children, or vulnerable persons particularly if they are young or are children with disabilities. These tasks should only be carried out with a full understanding and written consent of parents or carers and of the children/persons involved. There is a need to be responsive to the reactions and if the person is fully dependent upon you, talk with them about what you are doing and give them choices where possible. This is particularly so if you are involved in any dressing, or undressing of outer clothing, or where there is physical contact of lifting or assisting to carry out particular activities.

If during your care of a child or vulnerable person you accidentally hurt them, the child seems distressed in any manner, appears to be sexually aroused by your actions, or misunderstands or misinterprets something you have done, report any such incident as soon as possible to another colleague and make a brief written note of it. Parents or carers should be informed of the incident.
