## Welcome Home

### Welcome back!!

Welcome to all of our happy campers!! What an interesting year it has been! We hope that all of you had a safe, healthy, and happy winter and spring season. We are thrilled to be open, and see all of your smiling faces here at Cedar Cove! We are excited for the 2020 season and can't wait to kick off a great summer. Over the course of the winter, we have been working hard to give all of our return guests, as well as our new guests a safe, fun, and happy camping season. You may notice some familiar faces around Cedar Cove this year! Eric and Danielle have stepped in to their new roles here at Cedar Cove, as have Wes and Carol! As you probably noticed, our gardens have had a wonderful overhaul so far, and that is all thanks to the hard efforts of Carol and Wes! They have chosen to spend the early days of their retirement gardening, enjoying some sunshine, and look forward to saying hello around the park! Eric and Danielle are excited to be your hosts this year, and look forward to the wonderful season ahead! Eric has been an integral part of the park since his parents (Carol and Wes) bought Cedar Cove in 2006, and is excited to become an owner, and carry on the traditions, and visions that they have worked hard towards as a family. Danielle has been a part of Cedar Cove for a few years now as well! She started out as the chef in 2011, and has since worn many hats. Together they are excited to host many camping seasons to come for all of our amazing guests. Throughout the winter season, Eric and his wonderful team worked hard to upgrade the water system throughout the park. Plenty of hard work, care, and time went into replacing and upgrading many integral parts of our large water system in hopes we could provide our guests with better pressure, and less water related issues this season. You may notice our shoreline has changed again as well! During the winter, we had to say goodbye to cottage #7. Although it is sad to see a landmark leave Cedar Cove, it brings joy, and excitement to a new family, as we welcome more seasonal campers. We take this opportunity to welcome our returning guests, and our new guests with great affection, and thank you for your continued support!

Now let's get to a wonderful camping season and have some fun!

-Eric and Danielle

# Camping During COVID-19

Go Outside!

Fresh air, sunshine, and exercise, are crucial to both our physical, and mental well being

Be Safe!

Avoid gatherings of groups larger than 5, wash your hands often, and practice social distancing

Be flexible, and respectful!

If an area is crowded, choose another activity or area.

Be mindful of your fellow campers, and stay home if unwell.

## Let's Do This!

We are thrilled to have been able to open to our seasonal campers! We do understand that this has been a terribly difficult time for many families. We here at Cedar Cove Resort hope that you and all of your loved ones have been able to stay safe and stay happy during these difficult few weeks. We would like to give a HUGE shout out to everyone working hard in healthcare, first response, essential retail, and all those amazing people on the front lines! We need to make sure that we are all continuing to be safe while here at the trailer as we do not want to see a spike in cases as it may effect the future viability of the camping season. Make sure that you are washing your hands frequently, and keeping a safe distance from your much missed neighbors. We understand that this is difficult, but the safety of our guests and employees is our primary concern always. Let's be thankful that we have this beautiful place to take a chance to relax and enjoy some nature!

# **COVID-19 and Camping**

## **Who is at Risk of Coronavirus?**

In short, during a global pandemic, everyone is at risk. Those who are more vulnerable are more at risk of serious symptoms. The people who are most at risk are people with underlying illnesses and diseases that make them more vulnerable to respiratory problems, this includes people with diabetes, lung diseases, kidney failure, individuals with suppressed immune systems due to medications that they are taking or undergoing Chemotherapy. People over 50 are also at a higher risk of having serious symptoms.

## **How is it spread?**

Just like the common cold the 2019 Novel Coronavirus is spread by:

Contact with individuals that currently have the virus from exposure to infectious droplets from sneezes and coughing.

If you touch surfaces that have been contaminated by the infectious droplets and then touching, your nose, mouth or eyes.

## **What are the Symptoms?**

The symptoms below can start anywhere from 2 to 14 days after exposure to the 2019 Novel Coronavirus.

- Cough
- Fever
- Shortness of breath or difficulty breathing

## **Steps to take to prevent getting the virus**

1. Wash your hand Thoroughly, and often with soap and water, or use alcohol based hand sanitizers.
2. Disinfect frequently touched items and surfaces
3. Avoid gathering in groups, and continue to social distance
4. Only go out when it is essential. Keeping the public out of grocery stores, and public areas as much as possible, will help to keep everyone safe.
5. Always keep a safe distance from other people and remember to only be in contact with people in “your bubble”

## **City Residents need to be cautious when entering campgrounds.**

Beyond the regular safety precautions necessary, dwellers of large cities need to be mindful of the risk they pose when going to Campgrounds.

People who are travelling outside their cities who may develop symptoms are at a disadvantage when it comes to finding appropriate medical attention, and may be forced to visit smaller community hospitals and clinics. These smaller areas may not have had any cases and putting this stress on smaller healthcare facilities is something to be very cautious of.

## **Be careful on your way.**

Campers travelling from the city should remember that restaurants, rest rooms, and gas stations are some of the highest risk areas to contract the virus, and should be avoided. Remember to come prepared, and shop at your regular neighborhood grocery store before leaving the city to ensure you have everything you may need.

## **What do the experts say?**

A lot of experts are in agreeance, that campgrounds can be one of the most practical areas to re open is all visitors are taking every possible precaution to ensure they are being safe.

What great news! So keep up the hard work and safe social distancing campers! If we continue to do so, we can continue to camp, and even begin to help the problem by staying safely at our trailers!

# IMPORTANT INFORMATION PAGE

## FIRE BAN IS...

While a Fire Ban is **ON** or **IN EFFECT**, you are **NOT** permitted to have any type of fire, at any time.

**This includes fires used for cooking and camp fires. The only exception to this fire ban is the use of a propane fireplace.** If any of our guests violate this rule, Cedar Cove Resort will be fined, and in turn the guest who refused to comply with this rule will be fined the same amount by Cedar Cove Resort. **There is zero tolerance for fires during a fire ban.**

Be sure to make yourself aware of any fire ban that is in effect. Cedar Cove Resort is located in Lanark County, and has this information available to you! [www.lanarkhighlands.ca](http://www.lanarkhighlands.ca) When a Fire Ban is in effect we post signs on you way into the parking lot, on the front door of the Lodge, in Reception, in the Store, and at the Gate. This information is also posted on our website [www.cedarcove.ca](http://www.cedarcove.ca), and to our Facebook page!

## WHAT DO I DO IN A POWER OUTAGE?

In the event of a power outage, there are a few things we would like our guests to be aware of!

1 - When the power goes out, Reception / The Lakeside Grill / The Store all have access to the generator beside the Lodge. This means that you are able to purchase ice and necessities from the Store, and come in for a meal at The Lakeside Grill!

2 - During a power outage, our internet, and debit/credit machines usually go down. If this is the case, we will only be able to accept CASH.

3 – **Please use water sparingly!!** This one is very important! Our water system is run by electricity, so please do not be putting a lot of water down your drains or toilets. The water will run into our system, but will not be able to run through the system. This has the potential to cause back ups, and nobody wants that!

4 – During a power outage, please do not use **THE WASH HOUSE!** This facility is not connected to the generator at the Lodge, meaning there are no lights, no water and no ability to flush the toilet! **During a power outage, the POOL WASHROOMS will be available during business hour only, until the power returns.**

5 – During a power outage, our phone at Reception (613-623-3133) may become unavailable, so you will be unable to reach us at the Lodge by phone. The Emergency number for Cedar Cove is 613-859-COVE(2683), but in extreme emergencies call 911!

6 – You may choose to make a “72hr Emergency Preparedness Kit” for your trailer!

- |                                       |   |
|---------------------------------------|---|
| - Water (2L / per person /per day)    | - Non Perishables (canned or other)           |
| - Hygienic products (face/hands/body) | - Flash lights and Batteries                  |
| - Unscented candles                   | - Matches                                     |
| - Cash                                | - Portable External Battery for small devices |
| - Manual can opener                   | - Blankets                                    |
| - First Aid Kit                       | - Medications (Advil, Tylenol etc)            |

**When a FIRE BAN IS IN EFFECT and the power goes out, you are still NOT PERMITTED to have a fire for any reason, even for cooking. This is very dangerous, as we would have no running water if the worst should happen. We hope that the power stays on all summer long!! However, Mother Nature is in control and you can never be too prepared!!**

### KEY FOBS

Seasonal Guest Key Fobs were automatically reprogrammed in early May, and should work at the Gate. If your Key Fob does not work it could be because:

- 1 – You have an outstanding balance on your account that needs to be paid at Reception.
- 2 – You had two (or more) Key Fobs under your name, in which case all but one were deleted. You may only have one key fob per Principal Occupant.

Your Key Fob is for you only, please do not use it to let your visitors, friends, family members, other Seasonal Guests, or service workers. Please be reminded that there is a 20 minute time limit on Key Fobs. Registered visitors must check in at Reception and pay a \$5.00 deposit for a Key Fob to gain entrance into the park. This \$5.00 deposit will be returned to the visitor when the Key Fob is returned to Reception during office hours. Seasonal Guests will not be permitted to pay this \$5.00 deposit, as this is the way we keep track of who is in the park. The only way that the visitor would not receive this deposit back, is if they left after Reception closes, and if we are closed (example Tuesdays & Wednesdays) until Peak Season. In these cases you will have to let your guests or service people in yourself. **THIS IS THE ONLY TIME YOU CAN DO THIS!** Please refer to the Our Hours of Operation section on page 1.

## Meet The Chef!

Greetings Cedar Cove, my name is Jerry Shuttleworth. I have just celebrated my one-year anniversary of being Head Chef here at The Lakeside Grill. With all the operations that the restaurant entails, I never had the opportunity to properly introduced myself last year. I was born in Windsor, and raised in a small town called Cottam. I knew from a very young age that I wanted to be a chef. The two major influences for me to cook professionally was my Czech grandma and my fire fighter father. Grandma had all the old-world recipes and taught me the love of cooking. My father worked 24 hour shifts at the Windsor fire department, working with people of all different ethnic backgrounds. They would cook dinner at the fire hall, and my dad would bring these recipes home for us to try. What that did was show me different cooking techniques and ingredients. I also enjoyed cooking shows on CBC, PBS, and TVO. With favourites such as James Barber, Justin Wilson, Stephen Yan, and Pasquale Carpino. I have been working and cooking professionally since I was sixteen years old. I attended St. Clair College and completed their Culinary Management program after which, I received my Culinary Red Seal. In my career I have lived and worked all over the Southwestern Ontario, in Windsor, London, Dutton, and Bayfield. The restaurants that I have worked have ranged from greasy spoons to fine dining, also I have experience in butcher shops and long-term care facilities. Being from Southwestern Ontario I grew up around an abundance of fresh local product. Fresh fish from Lake Erie, or Lake Huron, kilometers of orchards and green houses, and other items such as honey, maple syrup and Wine. Having been raised in such an environment gave me a "purist" food philosophy. Meaning that when I create any menu item, not only do I take cost and presentation into account. I also look for the highest quality raw product, and then in turn create all the wonderful food that is on our menu. As well I like to give my customers a little taste of the world. As well as offering some menu items that are delicious and meet dietary needs. It is with great pleasure that I welcome you to the 2020 season. I hope you will stop by and see us. Thank you.

Cheers  
Jerry Shuttleworth
