

Dry Eye Evaluation

Here at Nova Eye Care, we do our best to provide you with quality care. Because our office specializes in Dry Eye Disease, we can help you with your specific needs. There are many causes of dry eye disease, and your issues are specific to you. We offer the ability to discover the root cause of your dry eye issues, and to help establish a treatment that is right for you and your lifestyle. Although we do submit this evaluation to your medical insurance, not all insurance providers will pay for these charges. A few reasons may be:

- Your medical deductible has not been met
- The service is not covered by your insurance

If your insurance **does not** cover your evaluation and/or testing, Nova Eye Care will hold you financially responsible for the costs of the evaluation and/or testing. Below you will find a list of the Evaluation and Testing with the associates cost.

<u>CPT CODE</u>	<u>DESCRIPTION</u>	<u>AMOUNT</u>
99214	Office Visit – High/Moderate Complexity	\$285.00
83861	Microfluidic Analysis Tear RT	\$35.00
83861	Microfluidic Analysis Tear TL	\$35.00
83516	Inflamma Dry RT	\$35.00
83516	Inflamma Dry LT	\$35.00
	Shirmer Tear Test	\$0.00
	LipiScan of Meibomian Glands	\$0.00

YES, I would like to continue with this evaluation. I understand the cost of this evaluation and testing. I also understand that if my insurance does not cover these charges that I will be held financially responsible.

NO, I do not want to proceed with this evaluation. I understand that by declining this evaluation, the doctor will be unable to determine the severity of my specific dry eye issues.
