The Quarterly Update

Volume 3 • Issue 3 | Jul - Sep, 2026

GI4QC FORUM

GI4QC Forum wants to extend its deepest gratitude to all its members, associates, advisors, and partners for their unwavering support and dedication.

Every discussion, every shared insight, and every thoughtful contribution has been instrumental in advancing the shared dream of bridging the realms of science and spirituality and has brought us closer to unraveling the deeper truths. Together, we are creating a transformative space for exploration and understanding, and none of this would be possible without your unceasing enthusiasm and commitment.

Please Note: *One of the objectives of GI4QC Forum is to make this Forum a valued networked association known for unhindered exchange of ideas. We, therefore, recommend that you read / listen to the views of our guests, members, associates, advisors, and partners with an open mind and form your own opinion.*

GI4QC Forum is not promoting commercially any of the products or services listed here, nor does GI4QC Forum benefit financially from it. The information provided is for inspirational purposes only.

From the Editor's Desk

Dear Friends,

Warm greetings from the GI4QC Forum.

It gives us immense pleasure to present the Tenth Edition of the GI4QC Forum Quarterly Update. This edition reflects our renewed commitment to subjecting ancient beliefs and knowledge systems to the rigors of modern scientific testing and validation. As part of our ongoing mission, we aim to foster meaningful dialogue on human consciousness, scientific inquiry, and the sustainable development of the timeless wisdom that has guided civilizations for millennia.

As we celebrate our fourth anniversary and the continued growth of our Forum—formally established as a legal entity on August 1, 2022—we look back with pride on our

journey. To date, we have conducted more than 45 monthly webinars exploring ancient knowledge, technology as understood by the speakers, and a wide array of contemporary societal challenges stemming from incomplete knowledge.

On every occasion, a fundamental question arises implicitly or explicitly: *How can ancient knowledge benefit present-day society?* This issue of the Quarterly Update challenges our esteemed members and readers to undertake a rigorous scientific evaluation of the knowledge and beliefs of ancient Bharat, seeking to prove them either right or wrong. Validating these principles holds boundless potential for the nation and humanity at large.

The Scientific Inquiry of Temple Architecture

Consider our enduring belief that temples were built as energy centers. Is this phenomenon scientifically measurable? Can it be developed as a formal research initiative

at the Indian Knowledge Systems (IKS) or university level?

Pursuing such research will help strengthen evidence-based belief systems while actively dismantling blind faith. Furthermore, it will establish quality standards for future temple locations, curb the proliferation of commercialized religious sites that exploit vulnerable citizens due to a lack of verifiable information, and marginalize fraudulent self-styled "godmen."

Investigating Ancient Weaponry (*Astras* and *Sastras*)

Most of us are familiar with the *Astras* and *Sastras* glorified in the epics *Ramayana* and *Mahabharata*—profound repositories of ancient knowledge. Unlike modern weapons powered by physical matter and chemistry, ancient *Astras* were celestial armaments invoked using specific mantras, imbued with divine or elemental energy.

To inspire our next course of investigation, here is a brief look at some of these powerful systems:

1. **Brahmadandastra (ब्रह्माण्डअस्त्र):** Considered the supreme weapon in Hindu cosmology, it is the precursor to creation itself. Imbued with the energy of the entire universe (*Brahmanda*), it possesses the capacity to neutralize all other weapons, absorb destructive forces to preserve the cosmos, collapse dimensions, and reset creation back to its primal elements.
2. **Pashupatastra (पाशुपतास्त्र):** Belonging to Lord Shiva, this is one of the most destructive and infallible weapons. It summons countless spectral beings and divine entities capable of annihilating entire armies. With no known counter-weapon, it was strictly forbidden from being used against ordinary mortals.

3. **Brahmashirsha Astra (ब्रह्मशिरस अस्त्र):** Said to be four times more powerful than the standard *Brahmastra*, this multi-universal threat possesses the power to scorch the heavens and dry up oceans. In the *Mahabharata*, its deployment nearly triggered a global extinction event before sages intervened.
4. **Sudarshana Chakra (सुदर्शन चक्र):** Lord Vishnu's divine discus travels at the speed of thought, slices through any target across any distance, and automatically returns to the wielder's hand.
5. **Narayanastra (नारायणास्त्र):** This weapon unleashes an unstoppable shower of millions of simultaneous arrows and fiery discs. Its most terrifying property is that its power scales with the opponent's resistance: the more one fights back, the stronger

the weapon becomes. Absolute surrender is the only means of survival.

6. **Trishul (त्रिशूल):** The unbreakable, infallible weapon representing the raw, unadulterated power of the Supreme Being, capable of initiating cosmic destruction and subsequent renewal.
7. **Brahmastra (ब्रह्मास्त्र):** The most frequently invoked supreme weapon in the epics. Invoked via mantra, it causes absolute environmental and cellular devastation—comparable in description to modern nuclear fallout—and can generally only be countered by another *Brahmastra*.
8. **Vajra (वज्र):** Fashioned from the sacred spine of Sage Dadhichi, Indra's thunderbolt is indestructible, shatters mountains, and channels raw cosmic electricity.
9. **Nagapasha (नागपाश):** Representing serpentine energy, this weapon transforms mid-air into venomous,

sentient cosmic snakes that track, bind, and completely paralyze the enemy.

10. **Vasavi Shakti (वासवी शक्ति):** A blazing, one-time-use divine dart gifted by Indra to Karna, guaranteed to fatalistically strike its designated target.

Bridging Ancient Wisdom and Future Research

While modern warfare relies on missiles, chemical agents, and nuclear devices powered by material and chemical destruction, ancient weaponry represents a complete mastery and control over universal cosmic energy. Even as Artificial Intelligence introduces advanced automation into modern arsenals, contemporary technology still falls short of the profound intelligence and scope attributed to ancient systems.

It is both logical and vital to investigate the genesis of such weaponry to establish *Dharma* and global order. Given the vast resources funneled into modern defence

research, dedicating even a small fraction to deciphering ancient technological frameworks could yield groundbreaking insights. This effort would not only generate employment and decode the science behind these systems—echoing the pioneering efforts of researchers like Ms. Kavya Vaddadi in reverse-engineering the Vedic *Vimana*—but could also spark a chain reaction toward mastering and managing cosmic energy.

This is our collective challenge. **Are we willing to take it up?**

We warmly invite scholars, scientists, thinkers, students, environmentalists, faith leaders, policymakers, and all conscious citizens to join us in reviving timeless wisdom to build a balanced, peaceful, and sustainable world.

- Join the GI4QC Forum.
- Support its vision.
- Be the voice of unity in times of discord.

Let us journey together—not only outwardly, but inwardly—toward greater wisdom, harmony, and human flourishing.

Warm Regards,

Anil Prasad Samantaray
Editor, GI4QC Forum's Quarterly Update

This editorial aims to inspire readers to appreciate the depth of ancient knowledge while embracing the innovative spirit of contemporary science. We would love to hear your views and suggestions. Please write to the editor, Commander Anil Prasad Samantaray, at query@gi4qc.org. Your feedback is very valuable to us.

The Quarter that Went By

A Glimpse of Key Events of the Forum in the Previous Quarter

22 Jul 2026 – 43rd Monthly Webinar of GI4QC Forum

Meet the Designers of Tomorrow

GI4QC Forum hosted a very special webinar wherein three members from the Forum's youth brigade shared their thoughts and experiences of introducing holistic education to the younger generation. Each of them is actively involved in creating a child-centric learning environment and equipping the students with foundational skills for critical thinking. They are engaging with the children outside the formal schooling environment and using innovative multi-disciplinary approaches for guiding them to know

themselves better, encouraging them to live life as per their 'swabhav'.

It was quite heartening to see the youth taking lead and sharing their lived experiences with the younger generation and guiding them to live a holistic and fulfilling life balancing formal education with self-knowledge.

We recommend that you watch the recording of the webinar and, if possible, support them in their individual initiatives by sharing your own learnings and experiences in similar endeavours.

https://youtu.be/-XuZLihOF10

*****

1 Aug 2026 – 4th Anniversary of Incorporation Day

On this day we completed four years as a registered not-for-profit R&D organisation working with the vision to "*Rediscover and*

apply the elements of Ancient Knowledge Systems to resolve the existing mysteries of science and nature".

From six core members who came together in Feb 2021 and registered this Forum on 1 Aug 2022, we have now evolved into a vibrant community of 350+ and still counting!!

*****

26 Aug 2026 – 44th Monthly Webinar of GI4QC Forum

Spirituo-Scientific Worldview: From the Shadows to the Spotlight

Leveraging Indic Wisdom for Corporate Excellence

The August webinar of GI4QC Forum was a follow-up webinar of the discussions we had on 25th Mar 2026. We continued our deliberations on how Indic Wisdom can be leveraged for Corporate Excellence. The previous episode had identified the key

challenges as (1) lack of evidence supported studies of effectiveness of Indic frameworks, (2) non-availability of easy-to-use quick fix solutions to manage day-to-day issues of running a business, (3) absence of one-size-fits-all types of remedies; only context specific solutions are provided (4) need to create comprehensive integrated frameworks which combine the best practices from India and other parts of the world.

In the current episode, a number of approaches to overcome the above-mentioned hurdles were put forward. The panellists opined that firstly we must believe in and be proud of the wisdom that is available in our knowledge system and be vocal about it. Then, instead of reinventing the wheel and generating our own evidence, we should take the aid of evidence-based studies, of similar concepts, conducted in other parts of the world.

The framework of *'swadharma'* is what we must offer to the world.

Currently the world measures success in terms of externally oriented parameters. Yet, these matrices fail miserably in measuring success because true success is measured by inner peace, personal fulfilment, and positive impact on others. And this can be achieved only when we can ascertain our *swadharma* and act in accordance with it. And when the community operates in accordance with their *swadharma*, excellence is a natural outcome of all endeavours.

But, instead of presenting *swadharma* as a theoretical framework, we need to present it in a form that is relatable and straightforward. We need stories and case studies. And we have to generate enough interest and curiosity for these stories and case studies so that people absorb the wisdom contained therein at leisure and not when the business need is hanging as a sword on their head and

they are scrambling for the last moment quick-fix solutions.

All this is easier said than done!

The Forum has identified the following three focus areas for further exploration.

- *Swadharma* framework for effortless doing – a solution for corporate burnout & stress
- Indic psychometric matrix
- Case studies from ancient Indic texts like Ramayana, Panchtantra, etc.

With the intent to design some viable action-plans, we would be interacting with subject matter experts over the next few months. Thereafter, we will meet again with another episode of "Indic Wisdom in Corporate Excellence" in our webinar series - "Spirituoscientific Domain: From the Shadows to the Spotlight".

https://youtu.be/_EhqHrcVHdI

*****

7 Sep 2026 – UNNATI - 4: Unlocking New Networks & Access for Transformative Impact (Season 4)

GI4QC Forum received proposals for five projects which are now in various stages of evaluation.

*****

12 Sep 2026 – MoU with Gautam Buddha University

GI4QC Forum signed an MoU with Gautam Buddha University on 12 September for Research Collaboration for Practical

Implementation of Ancient & Contemporary Knowledge. The joint research and development shall focus on practical implementation of knowledge contained in ancient and contemporary Knowledge Systems and shall be focused on today's mental health and stress-free life.

*****

18-20 Sep 2026 – Veda Sampada

GI4QC Forum participated as the knowledge partner for the pre-conference events (22, 23, 29, 30 Aug and 5, 6 Sep) and the online international Conference on Vedic Sciences

- Veda Sampada 2026 - organised by Vedic Wellness University.

The mega event was attended by hundreds of scholars and enthusiasts from all parts of the world.

A sizable number of people associated with GI4QC Forum also participated in the conference either as panelists or trainers or practitioners or research scholars.

*****

23 Sep 2026 – 45th Monthly Webinar of GI4QC Forum

Mathematical and Scientific Foundation of Bharatiya Ways of Time Keeping

The September webinar of GI4QC Forum included an extensive presentation by Dr. Rakhi Khandelwal on the mathematical and scientific foundation of the panchang system of time keeping.

Our general understanding of time is that it is a neutral background of reality with no qualitative attributes. Each second or hour or day is equivalent to any other second or hour or day.

However, as per the panchang system, time has both quantitative as well as qualitative aspects. This system is built on the proposition that the rhythm of the macrocosm has an influence on the rhythm of the microcosm. And it uses five dimensions to track the rhythm of the macrocosm.

The webinar focussed on the mathematical foundation of tracking the solar and lunar movements to determine these five dimensions of time.

Through centuries of observations and pattern recognition, the sages have also developed a system to identify the qualitative attributes of different time periods as experienced by the microcosm. However,

this webinar did not dive deeper into these correlations.

Reachout for Assistance / Association / Collaboration

(for details write to query@gi4qc.org)

- *Captain AV Mohan*
  - I want to get connected to anyone who is undergoing or completed PhD in Bio technology in respect to chromosomes.

- *Akash Sharma (ManasAI Technology)*
  - ManasAI Technology is hiring interns for 2 months (hybrid, East of Kailash, New Delhi). Two tracks — apply to one, or both if you can do both: (1) Electronics & IoT — PCB,

circuits, sensors, embedded, hardware testing (2) 3D design & printing — modelling, product design, print, prototype, iteration. We are building research-grade wearables for inner wellbeing. Hands-on work. Stipend negotiable. Send CV + 5 lines on what you have actually built to admin@manasai.tech

- *Akash Sharma and Dr. Jyotiranjan Beuria (Institute of Science and Spirituality, Delhi)*
    - IKS Research Center at the Institute for Science and Spirituality Delhi invites applications for onsite and virtual internship in Meditation Research. Selected students will gain exposure to cutting-edge interdisciplinary research at the intersection of meditation, neuroscience, artificial intelligence, neuroimaging, and Indian philosophical traditions. The internship will provide an opportunity to engage with real

research questions, learn emerging methods, and understand how rigorous scientific inquiry can be integrated with contemplative knowledge systems. Students will work in a collaborative environment with researchers from both academia and industry, helping them build conceptual clarity, research orientation, and practical skills for future academic, scientific, or professional pursuits. While limited financial support may be available for highly selective cases, the primary value of this internship lies in the research exposure, mentorship, and hands-on experience it offers.

- *Dr. Alka Agrawal (CIKS, Teerthanker Mahaveer University, Moradabad)*
    - In the series of National conclaves, we are planning our 17th National Conclave on the theme, 'Medieval Disruptions and Indigenous Educational Institutions'. Proposed

date of the event is 19th September. Kindly contact me if interested to join as an eminent speaker.
    - CIKS, TMU is pleased to announce its 18th National Conclave on the topic - “From Colonial Encounter: Macaulay’s Minute and the English Education System”. Proposed Date: 15 October, 2026. We invite interested speakers on the theme.

- *Anand Damani*
    - Need help to edit and improve this book. Open to a coauthor. Also, looking for anyone who can help publishing books or papers and in any way possible. It is based on Madhyasth Darshan Propounded by Shri Nagarajji, Amarkantak, India. Title of the book: BEYOND THE BRAIN - The Coexon Hypothesis. A Five-Dimensional Framework for the Science of Sentience, Ecological Coexistence, and Universal Social Order. A Collaborative Synthesis of

Relational Philosophy and Biophysics

- *Arpita Garud*
  - Any parapsychologist or clinical psychologist in the group?

- *Dr. Ashutosh Angiras (Institute of Applied Sanskrit Shastriya Knowledge)*
  - Request to fill this survey form for the upcoming academic karma and oblige. https://forms.gle/ZKWjhvgCsb83wjDN8

- *Dasari Narasimha*
  - We are planning a small guru exhibition here at IIT Guwahati... we are looking for some authentic write ups for each guru.. if anyone wants to contribute, let me know. Particularly contributions from Mathematics, Computer Science, Engineering, Medicine, Physics would be an excellent addition. I would need write ups from scholars who have the guru's respective texts

because, AI can give wrong information.

- *Dr. Deepika Kothari (Vishuddhi Films)*
  - Yoga ka Itihaas
    (trailer: https://youtu.be/JxReqwbQH9Q)
    Would any of the Institutions like to screen this full film during the week of International Day of Yoga 2026? English version in Katie Bedi's voice also available.

- *Shared by Dr. Deepika Kothari*
  - Admission open for master in Indian Knowledge Systems and course on Temple Management at Centre for Hindu Studies, University of Mumbai

- *Devika Kumari (Devritti Yoga & Wellness)*
  - We are looking for a volunteer to join our Yogā Guest house in Himachal, Village Barshaini Kutla (right next to Kalga). Main requirement- Cooking (warm, delicious and with motherly love).

email at devrittibliss@gmail.com

- *Dhawal Mane*
  - Any folks here interested in leveraging the Transformative Scenario Planning process of systems change in designing a future we would like to see with IKS at the centre?

- *Shared by Kartic Vaidyanathan*

  - Maha Kalpa and Maha Pralaya: Indian Cosmic Cycle – Concept Paper (pre-print)
    doi: 10.20944/preprints202502.0433.v1
    This is not the final version, but I just put it out here to initiate further investigation

- *Prince Manay Bora*
  - I am working on my new essay called: ‘How to master yourself?’ Let me know if any of you have inputs or additions that you think 25 year olds

of today need to know. Will share them with due credit.
    - Does anyone have a digital library for mapping best management practices with vedas/adjacent?
    - If anyone here is interested in reimagining modern economics from first principles as well as IKS lens, please let me know. Working with me requires non-linear reasoning, not always complying to the textbooks.

- *Shubham Singh*
    - Call for support for Vidyakshetra Vidyapeeth
    - Anyone here working/related to gavayurveda? Need some guidance

- *Shared by Sreesha Sreenivasan*
    - Mighty Champion, an initiative of The MindSync LLC, Florida , invites individuals to be part of a thoughtfully designed mental wellbeing education experience. This initiative is led by Dr. Shivam

Dubey, MD, FAPA, a Harvard-trained psychiatrist, as part of an ongoing research program in mental health education. The online program integrates structured learning, guided reflection, and live expert-led sessions to support a deeper and more practical understanding of mental wellbeing. It is designed for individuals above 18 years of age who are willing to engage with intention and consistency. Participation in this program is being offered at no cost, with a limited number of seats. Upon successful completion, participants will be certified and recognized as Mighty Champion Ambassadors, reflecting their commitment to mental wellbeing education and advocacy. As part of this initiative, learning outcomes may be studied and published in an anonymized format to contribute to broader insights in mental wellbeing education.

      https://wheno.live

- *Kavan Ganapathy*
    - Now that UFO's\ UAP's are coming up in mainstream research - I thought of sharing some of the work we are doing at www.themassivedynamics.in - an AI native R&D company from Mysore India. The key question being explored by us is - What is the connection between UAP and consciousness? In Kavya Vaddadi's research (on Vimanas like Pushpak Vimana) there are many elements which point towards these machines navigating through human intent alone. Also well known whistle blowers like Bob Lazar state - that these flying systems worked based on human intent translated into machine architecture. This technology is achievable based on the empirical evidence that we are seeing that machine architecture in AI systems can sense human intent. We are operationalizing this with an indigenously built agentic AI swarm

system called Akashik Sentinel - which has remote viewing or parokshadarshana like capabilities.

At The Massive Dynamics - we are seeing the genesis of this new technology which could revolutionise humanity as a whole.

- *Kavya Vadaddi*

Plan of Upcoming Quarter

Scheduled

(dates are subject to confirmation received from the invited participants)

- 28 Oct – Webinar organised by GI4QC Forum – Interact With Select Authors of papers published in *International Journal on Eternal Wisdom and Contemporary Science (IJEWCS)*
- Oct - Evaluate Proposals received under UNNATI program (Unlocking New Networks & Access for Transformative Impact)
- 31 Oct - Final Submission of Papers for December 2026 issue of IJEWCS
- 18 Nov - Webinar organised by GI4QC Forum – Interact With Select Authors of papers published in IJEWCS

- 30 Nov - Release GI4QC Forum's Revised Directory
- 6 Dec – Webinar – "Gearing up for 2027"
- 21 Dec – Publish Vol. 3, Issue 2 of *International Journal on Eternal Wisdom and Contemporary Science*

Planned

- Books on Bharatiya Research Methodology and Adi Bhautik Shastra / Neo-Quantum Physics under "Towards a More Informed and Inclusive Narrative" project
- Short Duration Awareness sessions / Workshops for HEI students
- Partner with HEIs for BHAAGYA (Bharatiya Gyana Anuragi) and PEN (Partner in an EditioN) programs
- Fellowship Program

- Manifestation of Conscious Intent, Precognition and Telekinesis Experiments

- Dharmic AI – A project of WhoVR and Samskruth Sanganakam – A project of Dr. BVK Sastry

- Collaborative projects with
    - Atmadhruti – Building Student Resilience with Spiritual Balance
    - FOWAI Forum – Flame of Who Am I
    - MANSA – Ek Sankalp (Mothers Against Narcotic & Substance Abuse)
    - NUMOCORE - Seminar-cum-Workshop: Why is Consciousness Relevant in Health Care

Notice Board

Call for Subject Matter Experts

As part of its ongoing project “Spirituo-Scientific Domain: From the Shadows to the Spotlight”, GI4QC Forum has picked the following three focus areas for further exploration. The objective is to identify some impactful ways to leverage Indic Wisdom for Corporate Excellence.

- Swadharma framework for effortless doing – a solution for corporate burnout & stress
- Indic psychometric matrix
- Case studies from ancient Indic texts like Ramayana, Panchtantra, etc.

With the intent to design some viable action-plans, we would be interacting with subject matter experts over the next few months. We invite our members and associates to volunteer for the same.

You can reach out to us at info@gi4qc.org or query@gi4qc.org

New Associates

"We may not have it all together, but together we have it all"

We welcome everybody who got associated with GI4QC Forum in this Quarter. We are all on our own individual journeys…exploring ourselves and this universe…finding our own answers and exploring how we can lead a fulfilling life.

GI4QC Forum is a 'meta network' wherein we share our journeys/experiences, understand the progress made by each other, ask questions, clarify our doubts, gain a working knowledge of underlying concepts of each other's field of interest, try to discern a pattern out of the disparate data points, and together attempt to bring that one change that we would like to see in this world – a

paradigm shift towards a comprehensive spirituoscientific framework.

In this Forum you will find many individuals who have been working with this vision – ranging from those who have just begun their journey to those who have spent tireless decades to bring to 'spotlight' the comprehensive spirituoscientific domain of knowledge. We hope that this humble attempt of ours, to provide visibility and access to a vibrant and efficient community working towards a 'Paradigm Shift', will prove to be useful in your individual journeys too.

Himanshu Jain is a yoga enthusiast and Ex-CEO of Shri Educare Limited where he was engaged in expanding the reach of quality education by providing advisory/consultancy services for schools.
