

Throw away

Pollution

FROM YOUR POND

**Removes Ammonia & Toxic gases
Controls off odour
Makes pond environment healthier**

ZEOTRON-ULTRA
WORLD CLASS AQUA GRADE NATURAL ZEOLITE
SUITABLE FOR BOTH HIGHER AND LOWER SALINE WATER TREATMENT

BENEFITS:

- Absorbs toxic gases like ammonia, hydrogen sulphide, etc. from pond water.
- The Ultramolecular Porosity Neutralizes the captured Ammonia by Ion Exchanging the Free Ammonium.
- Reduces turbidity of water.
- Removes all odours from pond water.
- Protects bottom of the pond and prevents pollution.
- Improves O₂ levels.
- Helps for optimum pondwater growth.
- Reduces pond bottom sludge.
- Improves water quality.
- Reduces effects of pollution, toxic elements and harmful insects.

Composition:
Highly Specialized Aqua Grade Zeolite in a Super Fine powder Equipped with minerals and Yucca Duet.

DOSAGE:
For pond preparation: 40-50 kg per acre
Regular use: 10 kg per acre, once in 2-3 week intervals (or) as per the advice of aqua consultant.

10kg/acre

Trapex power plus

YUCCA SCHIDIGERA WITH PROBIOTICS FOR FAST REDUCTION OF POISONOUS GASES

- Minimises Ammonia gas
- Improves water quality
- Eliminates bad odors

250gm/acre

Mix Both and apply with sand

Application

Protocols at different times

- ✓ For gases like CO₂, H₂S, Ammonia
10-15kg/acre. After 4pm, Mix with sand and apply. Also mix Trapex 250gm/acre for extreme results.
- ✓ During water pollution & weather Changes
15-20kg/acre. After 4pm, Mix with sand and apply. Also mix Trapex 250gm/acre for extreme results.
- ✓ For application before the use of Probiotic
5-10kg/acre. After 4pm, Mix with sand and apply. Also mix Trapex 100gm/acre for extreme results.

Extreme Benefits are observed

When the protocols are implemented correctly
