## OPSITE® FLEXIGRID TRANSPARENT FILM DRESSING

OPSITE FLEXIGRID is a moisture vapor permeable transparent film dressing indicated to dress superficial pressure sores, minor burns, scalds, abrasions and lacerations, post-operative wounds, skin grafts, donor sites, and leg ulcers in the final stage of healing and to protect the skin around stoma and under leg bags and from friction and external contamination (prophylaxis against pressure sores). It is also indicated to provide catheter fixation, to retain primary dressings (e.g. INTRASITE™ Gel or ALLEVYN™ Cavity) and to relieve pain in painful diabetic neuropathy.

368-4628	6cm x 7cm	100/Box
368-4630	10cm x 12cm	50/Box
368-4632	12cm x 25cm	20/Box
368-4631	15cm x 20cm	10/Box

## OPSITE® FLEXIFIX TRANSPARENT FILM ROLLS

OPSITE FLEXIFIX is a moisture vapor permeable transparent film roll indicated to protect the skin around stoma and under leg bags, to relieve pain in painful diabetic neuropathy, to retain primary dressings. It is also indicated as prophylaxis of pressure sores.

368-66000040	5cm x 10m	Each
368-66000041	10cm x 10m	Each
368-66000375	15cm x 10m	Each

## OPSITE® IV3000 TRANSPARENT FILM DRESSING

- Reduces risk of infection
- The film in the IV3000 has a unique molecular structure which is much more permeable to water vapour compared to other films.
- IV3000 Dressing keeps the skin drier. This improves adherence and reduces the number of unscheduled dressing changes.

368-4924	6cm x 8.5cm	100/Box
368-4925	10cm x 14cm	10/Box
368-66004009	12cm x 9cm	50/Box
368-4973	14cm x 10cm	50/Box

## OPSITE® POST OP DRESSING

- Barrier to bacteria including MRSA
- Reduce the risk of maceration, blistering and pain on removal
- Waterproof and comfortable to wear
- Manage exudate through a highly absorbent pad and breathable film
- Allow constant monitoring on the wound and peri-wound area

368-66000708	6.5cm x 5cm	100/Box
368-66000709	9.5cm x 8.5cm	20/Box
368-66000712	15.5cm x 8.5cm	20/Box
368-66000714	25cm x 10cm	20/Box
368-66000716	35cm x 10cm	20/Box

**Fax To: 1-833-743-6333**

**7GENERATIONS**  
— MEDICAL LTD. —

**ICHTHOPASTE®**

- Ichthopaste bandages contain Ichthammol which reduces irritation, soothes the skin and helps the ulcer heal
- Ichthopaste bandages relieves irritation and is designed for ulcers that are surrounded by sensitive skin

368-4959 ..... 7.5cm x 6m Roll ..... 12/Box

**VISCOPASTE® PB7 ZINC PASTE BANDAGE**

VISCOPASTE PB7 is a 10% w/w zinc paste bandage indicated to assist the management of venous leg ulcers. Where venous insufficiency exists, the paste bandage should be used under graduated compression bandaging.

VISCOPASTE PB7 is also suitable for use in the management of chronic eczema/dermatitis, where occlusion is indicated.

368-4948 ..... 7.5cm x 6m Roll ..... 12/Box

**ZIPZOC®**

- Contains zinc oxide which is soothing and has a role in wound healing.
- Preservative free formulation means skin reactions are less likely for patients with sensitive skin.
- Zipzoc and one bandage are usually thin enough to allow patients to wear their normal shoes.

368-66000747 ..... 4/Box

**PRIMAPORE® ADHESIVE NON-WOVEN DRESSING**

PRIMAPORE is an adhesive, non-woven wound dressing indicated to dress post-operative wounds; or cuts, lacerations or sutured wounds.

368-7135 ..... 8.3cm x 6cm ..... 50/Box

368-66000317 ..... 10cm x 8cm ..... 20/Box

368-66000318 ..... 15cm x 8cm ..... 20/Box

**DURAFIBER® AG ABSORBENT (GELLING FIBER) DRESSING AND SILVER**

DURAFIBER Ag is a highly absorbent, nonwoven, silver containing antimicrobial dressing indicated for chronic and acute, full or partial thickness, or shallow granulating exuding wounds including leg ulcers, pressure ulcers, diabetic ulcers, surgical wounds, wounds left to heal by secondary intent, donor sites, tunneling and fistula wounds, partial thickness burns, traumatic wounds, and wounds that are prone to bleeding such as wounds that have been surgically or mechanically debrided.

**MEPILEX® HEEL FOAM DRESSING**

Mepilex is a soft and highly conformable foam dressing that absorbs exudate and maintains a moist wound environment. The Safetac layer seals the wound edges, preventing the exudate to leak onto the surrounding skin, thus minimising the risk for maceration. The Safetac layer ensures that the dressing can be changed without damaging the wound or surrounding skin or exposing the patient to additional pain.

173-288100 .....	13cm x 20cm .....	5/Box
173-288300 .....	15cm x 22cm .....	5/Box

**MEPILEX® LITE FOAM DRESSING**

Soft silicone, absorbing foam dressing in a thinner design for better conforming.

173-284000 .....	6cm x 8.5cm .....	5/Box
173-284100 .....	10cm x 10cm .....	5/Box
173-284300 .....	15cm x 15cm .....	5/Box
173-284500-02 .....	20cm x 50cm .....	4/Box

**MEPILEX® XT FOAM DRESSING**

Mepilex XT absorbs more exudate faster than other foam dressings. Via unique exudate channels, it absorbs highly viscous fluid, drawing it away from the wound bed. Dressings using Safetac technology are clinically proven to minimize damage to the wound and pain to the patient.

173-211100-00 .....	10cm x 10cm .....	5/Box

## MEPILEX® AG SILVER HEEL FOAM DRESSING

Mepilex Heel Ag is a soft and highly conformable antimicrobial foam dressing for your heel. It absorbs exudate and maintains a moist wound environment. The Safetac layer seals the wound edges, preventing the exudate to leak onto the surrounding skin, thus minimising the risk for maceration. The Safetac layer ensures that the dressing can be changed without damaging the wound or surrounding skin or exposing the patient to additional pain.

173-388100-00.....	13cm x 20cm .....	5/Box
173-388300-00 .....	15cm x 22cm .....	5/Box

## MEPILEX® TRANSFER

Mepilex Transfer is thin and comfortable. Transfers exudate away from wound to minimize the risk of maceration.

173-294600.....	7.5cm x 7.5cm .....	5/Box
173-294700 .....	10cm x 12cm .....	5/Box
173-294800.....	15cm x 20cm .....	5/Box
173-294502 .....	20cm x 50cm.....	4/Box

## MEPILEX® TRANSFER AG SILVER DRESSING

Mepilex® Transfer Ag with Safetac® is a "multi-benefit" transfer dressing designed for low to high exuding wounds and with the patient as a central mind. Safetac is clinically proven to minimize stress and pain for the patient. Mepilex Transfer Ag effectively transfers exudate to a 2nd layer whilst preventing microbial growth.

## BIATAIN® SEASORB ALGINATE DRESSING

Biatain® alginate dressing is a highly absorbent, fiber-free dressing that forms a soft and protecting gel - ideal for highly exuding wounds.

038-3705	5cm x 5cm	30/Box
038-3710	10cm x 10cm	10/Box
038-3715	15cm x 15cm.	10/Box
038-3740	2.5cm x 44cm, Rope.	6/Box

## BIATAIN® AG SILVER SEASORB ALGINATE DRESSING

Biatain® Ag alginate dressing with silver is a unique mix of high G (guluronic acid) and highly absorbent carboxymethylcellulose (CMC) with the addition of an ionic silver complex, which releases silver ions in the presence of wound exudate. As exudate is absorbed, the dressing forms a soft, cohesive gel that intimately conforms to the wound surface.

038-3755	5cm x 5cm	30/Box
038-3760	10cm x 10cm	10/Box
038-3780	44cm, Rope	10/Box

## COMFEEL® PLUS HYDROCOLLOIDS

Combines the benefits of a see-through hydrocolloid dressing and superior exudate management. A breakthrough in hydrocolloid technology means unsurpassed absorptive capacity that helps you manage low-exudate wounds better than ever. Unique, adaptable polyurethane top film allows excess moisture to evaporate while maintaining the proper moist healing environment.

- Adhesive outer border keeps dressing in place, even over bony prominences.
- Residue-free removal helps prevent irritation.
- Adaptable polyurethane top film allows excess moisture to evaporate while maintaining the proper moist healing environment.
- "No-touch" system allows easy application while wearing gloves.

038-33146	4cm x 6cm, Regular	30/Box
038-33110	10cm x 10cm, Regular	10/Box
038-33115	15cm x 15cm, Regular	5/Box
038-33285	18cm x 20cm, Triangle, Regular	5/Box
038-33530	5cm x 7cm, Transparent	10/Box
038-33533	10cm x 10cm, Transparent	10/Box
038-33536	9cm x 14cm, Transparent	10/Box
038-33539	15cm x 15cm, Transparent	5/Box

## SEA-CLENS® WOUND CLEANSER

Sea-Cleans® is a cost effective, saline-based wound cleanser designed to loosen debris from the wound bed without interfering with the healing process

038-1063	178mL	Each
038-1061	355mL	Each

## PURILON® HYDROGEL

Purilon® Gel is primarily intended for the treatment of necrotic and sloughy wounds, e.g. leg ulcers, pressure ulcers and diabetic foot ulcers.

038-3906	8gr	10/Box
038-3900	15gr	10/Box

## WOUN'DRESS® COLLOGEN HYDROGEL

Woun'Dress® Collagen Hydrogel promotes autolytic debridement by rehydrating and softening dry wounds and necrotic tissue. Hydrogels provide a moist environment facilitating optimal wound healing.

038-1166	28g Tube	Each
038-7690	84g Tube	Each

## TRIAD® HYDROPHILIC WOUND DRESSING

Triad® Hydrophilic Wound Dressing absorbs excess wound exudate while retaining a moist wound environment. Can be utilized when conventional dressings are not feasible. Zinc oxide-based hydrophilic paste gently adheres to moist wound beds. Protects peri-wound skin.

038-1967	170g Tube	Each

739-403771	.....2cm x 45cm, Ribbon .....	5/Box

## AQUACEL® EXTRA HYDROFIBER DRESSING

This conformable and highly absorbent dressing absorbs wound fluid and creates a soft cohesive gel, maintains a moist environment which supports the body's healing process and aids in the removal of necrotic material from the wound (autolytic debridement) without damaging newly formed tissue.

739-420675	.....5cm x 5cm .....	10/Box
739-420676	.....10cm x 10cm .....	10/Box
739-420678	.....15cm x 15cm .....	5/Box
739-420679	.....20cm x 30cm .....	5/Box

## AQUACEL® AG PLUS EXTRA HYDROFIBER DRESSING

AQUACEL™ Ag+ Extra™ Dressings are antimicrobial primary dressings for use on wounds that are infected or at risk of infection. They are designed to manage the 3 key local barriers to healing - exudate, infection and biofilm.

739-413566	.....5cm x 5cm .....	10/Box
739-413567	.....10cm x 10cm .....	10/Box
739-413568	.....15cm x 15cm .....	5/Box

739-420636	.....20cm x 20cm .....	5/Box

## RESTORE® CONTACT LAYER FLEX DRESSING WITH TRIACT TECHNOLOGY

- Highly conformable – Can be shaped to fit contours of deep or irregular wounds, and in difficult anatomical locations
- Non-adherent – Virtually pain-free dressing removal for enhanced patient comfort
- Maintains a moist wound interface – Forms a gel in the presence of exudate
- Minimizes trauma to the wound bed – The dressing's gentle tack helps keep it in place over the wound

687-506487	5cm x 5cm	10/Box
687-506488	10cm x 12.5cm	10/Box
687-506489	15cm x 20cm	10/Box

## RESTORE® CONTACT LAYER SILVER DRESSING WITH TRIACT TECHNOLOGY

- Non-adhesive, non-occlusive antimicrobial wound contact dressing
- May help to reduce infection in low to moderately exuding partial and full-thickness wounds
- Shown to be effective against bacteria most frequently associated with wound infections
- Contains silver sulfate

687-509341	10cm x 12.5cm	10/Box
687-509342	15cm x 20cm	10/Box

## RESTORE® HYDROGEL DRESSING

- Maintains moist healing environment in partial and full-thickness wounds
- Clear, viscous gel
- Up to 72-hour wear time

687-529974	89mL Tube	12/Box
687-529972	Impregnated gauze sponge, 10cm x 10cm	15/Box

## MEDIHONEY® DRESSINGS

MEDIHONEY® dressings contain 95% active Leptospermum Honey, which has been shown to have several properties which assist in promoting an optimal healing environment for chronic wounds and burns that have not progressed with basic, first line treatments. Through their high osmolarity, the dressings help to cleanse the wound and remove devitalized tissue. The dressings are designed to manage varying degrees of exudates.

## MEDIHONEY® WOUND GEL

# Attends™

Better protection for the individual, enhanced efficiency for the caregiver  
Attends' product selection is designed to meet a wide range of incontinence care needs. Products are arranged in a convenient tier system, allowing for easy selection of the right product for varying incontinence needs. Leakage control, skin care, and comfort are the driving forces of performance in all tiers of attendance products.

	Light Pads 	Guards for Men 	
	Light Pads 	Insert Pads 	Undergarments 
	Shaped Pads 	Underwear 	Briefs 
	Shaped Pads 	Briefs 	
	Shaped Pads 	Briefs 	
	Briefs 		

How do I know if this is the right product for me?

Choosing the right product will ensure the correct level of skin care, leakage control, and comfort. The Attends Total Incontinence Protection System® (T.I.P.S.) Chart is a guide through Attends products "at a glance" for quick and easy product selection.

The T.I.P.S. Chart arranges Attends body-worn products in a colour-coded tier system to show the different absorbency levels available. Products with six droplets are our most absorbent and highest performing, while products with one droplet would be for lighter incontinence needs. We can help find the right product for you!

## Features & Benefits

Attends® products have a unique variety of features that make them the best choice for all incontinence needs.

Throughout this catalogue you will see the many features Attends Health care products have to offer. Many of them are represented by the list of icons on the following page. You will see their descriptions to better understand the features and why they are so beneficial.

Attends® are now using an improved Odour Control Super-Absorbent Polymer (SAP) inside our Briefs and Shaped Pads!

**BRIEF SELECTION & APPLICATION TIPS:**

- Measure around the hips or waist, which ever is largest.
- When sizing, remember Bigger is not Better. Better Fit = Better Containment.
- Angling the top tape tabs down and the bottom tape tabs up (as illustrated in the brief pictures below) can help strengthen the attachment to the brief and serves to improve the fit on some residents.

**BRIEF COLOUR CODING:**

Attends Briefs® and Confidence Briefs are colour coded by size for an easier size recognition (except for Attends Briefs® Waistband Style, in which all sizes are white). The poly backsheet colours are as follows:

**BRIEF SIZING GRID:**

Our unique sizing grade is also colour-coded by size, and incorporates an easy way to find the correct size information already available. Simply take the user's weight and height, then find the meeting point of the two numbers. This box is colour-coded to the recommended size\*. If a person weighs more than 250 pounds and has a waist size larger than 63 inches, they may fit into Attends Breathable Briefs™ size XX-large (which fit 63"-70") or Attends Bariatric Briefs® size XXX-large (which fit 70"-90").

FIND USER'S HEIGHT & WEIGHT:										WEIGHT IN POUNDS

\*Sizing is not a perfect science, therefore the sizes given in the chart above are recommended only, not guaranteed.

**WETNESS INDICATOR:**

All Attends briefs have a wetness indicator on the outside of the brief that runs from the front of the brief to the back. The wetness indicator can help in determining when the brief should be changed and assist with proper application of the brief.

A wetness indicator is a convenient way to let a caregiver know if a brief needs to be changed. The wetness indicator will change colour from yellow to blue when the user has voided to let you know.

When applying a brief, the wetness indicator can help a caregiver know when to position to breathe correctly. The top of the wetness indicator on the back side of the brief should be placed at the person's coccyx. This will help center the brief properly, and most importantly it will help position the brief so that there is enough product to bring up through the groin.

## FEATURES & BENEFITS

### Rapid Lock System®

Technological innovation designed with a unique combination of materials that provide superior performance and leakage control:

- 1) A microporous layer **wicks** fluid rapidly away from the skin.
- 2) Perma-Dry® fibers **channels** fluid throughout the brief
- 3) Hygard® polymer **locks** fluids in the core of the product, and
- 4) The unique funnel design of the microporous layer **blocks** fluids from resurfacing.

### Breathable

These briefs feature breathable side panels that allow more air flow for drier, healthier skin, but still have a moisture-proof lining along the center of the brief to prevent leakage. They also have a soft, cloth-like covering for quiet confidence.

### Comfort Flex-Tabs

These tabs are made to attach to the cloth-like covering on our Breathable Briefs. They are not sticky tape tabs; instead they use a hook-and-loop type refastening system. They are soft, flexible, and can refasten anywhere on the brief.

Hook-and-loop tabs need to be properly adhered to the brief to achieve a strong attachment. To do this use the **PRESS and TUG** technique:

**PRESS** the tab down firmly against the brief, **THEN...**  
**TUG** gently sideways on the tab (this will help to secure the tab to the brief).

### SDO®: Skin wellness, Dryness and Odor control

**SDO** means you have the unique Attends® technologies in place to create the healthiest possible skin environment:

- 1) Treated fibers stabilize the pH of urine, which retards the growth of bacteria, reducing skin irritation and infection and maintaining **skin wellness**,
- 2) The unique design of the core provides increased resiliency and continues to function even after multiple voids for maximum **dryness**, and
- 3) Reducing the pH of the urine also reduces the growth of odor-causing bacteria and ammonia for **odor control**.

### Easy-Fit Tapes

Innovative 3-piece refastening system allows repositioning of the tape tabs without tearing the brief.

### Regular Size

Innovative sizing option utilizes the width of a large brief and the length of a medium brief, providing better fit for users and reduced costs. This size selection is excellent for residents that are less than 5' 6" tall but have hips or waist measurements of 44 to 56 inches.

### Latex Free

ALL Attends Healthcare products are Latex Free.

### Discreet Packaging

Many Attends Healthcare products are available with discreet outer shipping cases for customer privacy and dignity.

305-MDTIU3TEIPNK	34" x 48"	24/Case
------------------	-----------	---------

**QUICK-DRY® REUSABLE UNDERPAD**

- Face fabric on underpads quickly wicks fluid and is dry to the touch in minutes
- Unique blend of fibers in the soaker layer help absorb and distribute fluid more effectively
- Breathable polyurethane film helps block fluid, but allows moisture vapor to escape, creating a cooler, drier and more comfortable patient environment
- Bonded construction thins the pad for less bulkiness with no decrease in absorption
- Lays flat with no bunching or rolling

320-MDTIU8SEFBLU	34" x 36"	Blue Backing	Each
320-MDTIU8SEFBLU	34" x 36"	Blue Backing	24/Case

**SWIM BRIEFS**

These swim briefs allow water to easily pass through while keeping solids securely contained and out of the pool. With quick drying nylon and a soft terry liner for comfort, the wrap style design makes it easy to change while the adjustable waist with added ties ensures a secure fit every time. Worn alone while swimming and with a diaper if needed when out of the water.

289-2180	Small, 22"-28" Waist	Each
289-2185	Medium, 30"-36"	Each

UNDERWEAR

# TENA® Unisex Underwear

## Classic & Plus

### Classic

Designed for both men and women, for full coverage and extra security. **Body-Close Fit™** design moves with the body for more comfort and greater wearer dignity.

TENA® Plus Protective Underwear with **ConfioAir® 100% Breathable Technology** allows humidity to evaporate to maintain skin's natural moisture balance.

### FEATURES

- **NOW HAS ADDITIONAL LEG ELASTICS** for improved security against leaks.
- **IMPROVED WAIST ELASTIC** for a smoother, more discrete fit. Allows pants to pull on and off just like underwear.
- **PATENTED BODY-CLOSE FIT™ TECHNOLOGY** uses more\* elastic threads throughout the pant for greater discretion and worry free security.
- **EFFECTIVE LEAKAGE PROTECTION**
- **SOFT, CLOTH-LIKE MATERIAL** feels as comfortable as underwear.
- **TEAR AWAY SIDES** for easy, convenient removal.
- **SIZING LETTERS** for correct product selection and application.

### Plus

Discreet Packaging

For moderate to heavy bladder leakage protection
