# ABOUT COMPANY

Founded on a third-generation industrial legacy dating back to 1930 and operating in the Saudi market since 2005, M.C.C Heavy Equipment stands as a trusted leader in crushers and heavy machinery solutions. Guided by executive expertise in the sector since 1997, the company delivers European-engineered crushing systems built to M.C.C specifications, offering complete project lifecycle capabilities from design and installation to full plant management and long-term operational support. With over 200 projects executed across the Gulf, North Africa, South Africa, and Jordan – including equipment supply supporting major developments such as NEOM – M.C.C combines heritage, engineering precision, and long-term commitment to provide durable performance, strategic partnerships, and sustainable industrial impact.

# CEO MESSAGE

At M.C.C, our story is rooted in a legacy that began in 1930, carried forward with responsibility, passion, and belief in progress. Since 2005, we have proudly contributed to the growth of Saudi Arabia's industrial landscape, not only by supplying machinery, but by building lasting partnerships founded on trust and performance. As we look toward the future and align with Saudi Vision 2030, our commitment remains clear – to power development with strength, precision, and innovation, and to play a meaningful role in shaping a resilient and sustainable industrial tomorrow.

**MUHANNAD AMG**  
Chief Executive Officer

# Three Generations of Industrial Mastery

M.C.C is built on a family industrial legacy that began in 1930, laying the foundation for decades of expertise in the crusher and heavy machinery sector, What started as a commitment to strength and reliability evolved into a multi-generational pursuit of engineering excellence.

# OUR VISION

As a leading regional force in the heavy industry sector, M.C.C is recognized for strength, reliability, and engineering excellence. We deliver sustainable industrial solutions that create long-term value for our partners and the communities we serve. Through continuous innovation, operational discipline, and strategic expansion, we consistently set higher standards in performance and durability. Our commitment is to advance a resilient industrial future aligned with regional growth and Saudi Vision 2030.

# OUR MISSION

Our mission is to deliver integrated crushing and heavy equipment solutions that maximize productivity, operational efficiency, and long-term performance. We are committed to engineering precision, reliable execution, and sustained after-sales support that ensures uninterrupted operations for our partners. By combining heritage expertise with advanced European standards and M.C.C specifications, we provide durable systems built to perform under the most demanding industrial conditions.

for MCC.**

# OUR SERVICES

## Stationary Crushing Plants

AI-powered real-time decision system.

Predictive maintenance with zero unplanned downtime  
Self-optimizing.

high-performance crushing  
Intelligent energy and load management.

Digital Twin simulation and forecasting.

Advanced safety and environmental control.

# AI CRUSHER

# OUR SERVICES

## Advanced Crusher Solutions

We supply Jaw, Cone, and Impact crushers. Unlike standard suppliers, our European-manufactured equipment is customized specifically to M.C.C specifications to meet rigorous regional industrial demands.

# OUR SERVICES

## Comprehensive Heavy Equipment Supply

Propelling infrastructure development with a complete fleet of heavy-duty machinery—engineered for uncompromising performance and ready to operate across every scale and site condition.

Bulldozers | Excavators | Dump Trucks | Rollers | Wheel Loaders | Power Generators  
& More

# OUR SERVICES

## Asphalt Mixing Plants

ACM Prime 2.0: Mobile continuous asphalt mixing plant with RAP integration and advanced control system

Continuous Plants: High efficiency for long-term operation with optimized fuel consumption

Batch Plants: High mixing precision ensuring consistent and uniform asphalt quality

All systems feature advanced electronic controls, recycling support, and heavy-duty design for harsh operating environments

**WE GUARANTEE PERFORMANCE  
LONG AFTER THE SALE.**

# OUR SERVICES

## Concrete Batching Plants

High-capacity production up to 180 m<sup>3</sup>/hour.

Heavy-duty twin-shaft mixer delivering uniform, high-strength concrete.

Precision electronic weighing with advanced PLC automation.

Modular aggregate bins with large-capacity cement silos.

Engineered steel structure built for extreme industrial environments.

**WE GUARANTEE PERFORMANCE  
LONG AFTER THE SALE.**

# OUR SERVICES

Full-Spectrum Operational Capabilities

Installation & Commissioning

Preventive Maintenance Programs

Crusher Management & Full Project Operation

On-site Operational Supervision

**Beyond supply,  
we ensure  
operational  
success through  
on-site presence  
and technical  
supervision.**

# OUR SERVICES

An Unrivalled Support Ecosystem.

3-Year Equipment Warranty.

15-Year Spare Parts Supply Guarantee.

24/7 Dedicated Technical Hotline.

Emergency Response Teams.

**WE GUARANTEE PERFORMANCE  
LONG AFTER THE SALE.**

# OUR PROJECTS

A Regional Industrial Partner.

**With over 200  
executed projects,  
our footprint  
extends across  
key strategic  
markets.**

JORDAN KSA UAE OMAN LIBYA SUDAN SOUTH AFRICA YAMEN

# SOME OF OUR CLIENTS

Trusted by zero-compromise leaders.  
Built for mission-critical operations.  
Proven in extreme industrial  
environments.  
Partnerships driven by measurable  
results.  
Powering large-scale production  
ecosystems.

# OUR PARTNERS

Strong partnerships.  
Global standards.  
Proven performance.  
MCC fully customized.
