

JOY LOOKS LIKE THIS...

BECAUSE CHRIST'S LOVE IS PRESENT!

Joy looks like this...because Christ's love is present.

It looks like gentle, faithful care in our residential care facility in Haiti, where the most vulnerable elderly and those living with disabilities are treated with dignity, compassion, and love.

It looks like students in Haiti and Honduras, children whose education we sponsor, learning, growing, and discovering hope for the future.

It looks like our partnership with the Ebenezer School in Honduras, where education is opening doors and shaping lives.

It looks like women and children being reached in places of deep vulnerability, including those caught in the snares of exploitation, being reminded through presence and care that they are not forgotten.

From shared meals to learning together, from friendships to celebrations, these moments are reminders that joy grows where love takes root.

Through every one of these ministries, we are sharing the light of Christ, so people know they are loved by God. Not in words alone, but in action, presence, and faithfulness. When Christ's love is made visible, joy follows.

Thank you for walking alongside Supply & Multiply. Your prayers, generosity, and encouragement make it possible for this light to shine, bringing hope, dignity, and joy where it is needed most.

We pray for you and your family to have a very Merry Christmas!
