

April 19, 2018

To whom it may concern:

Formed in 1985, Redco Foods, Inc. manufactures and distributes Salada, Red Rose and Teekanne brand tea, as well as Junket brand dessert mixes from our location in Little Falls, NY.

Our company has utilized the sales & use tax review services of Baker Shore & DiLorenzo since 2009 and we've been consistently pleased with their professionalism and performance. All our engagements with them have produced substantial refunds and we consider this "found money" that otherwise would have been lost to NY statute. The additional bonus we experienced was future savings realized through their recommended corrections.

Like most, we were initially concerned about our level of involvement and if requesting a sales tax refund might trigger a state sales tax audit. Over the course of nearly a decade, I'm please to say that even after three separate sales tax refunds, we have not had a NYS sales tax audit and our involvement was minimal during each occasion.

It's been a pleasure working with the knowledgeable professionals from Baker Shore & DiLorenzo. They are a valuable resource and we will continue to reach out to them as sales tax issues arise. I highly recommend their expertise!

Sincerely,

Carine Madison
Controller
