RE: Letter of Recommendation for  
Baker, Shore & DiLorenzo, LLC

To Whom It May Concern,

As Accounting Manager of Sahlen Packaging Company, Inc., I naturally felt that we were paying as little sales tax as possible. We have little time for solicitors and having an outside firm review our records for tax recovery never held any importance in my mind. However, Baker, Shore & DiLorenzo changed my outlook. Their professional approach and no-risk engagement made the choice to partner with them easy.

We have retained their services for over ten years and in that time, they have remained unobtrusive and accommodating, balancing their reviews with our schedule. They do research to reinforce their position and are never pushy or overbearing. Most recently they engaged the state in a BCMS appeal on our behalf. They were successful in arguing our case and obtained a sizable recovery as a result. Over the years, Baker, Shore & DiLorenzo has improved our compliance, saved us on our utility tax payments, and found recoveries that others could not.

In conclusion, our decision to hire Baker, Shore & DiLorenzo has proved to be an ever-rewarding experience. I recommend engaging Baker Shore for a review of any Company's sales and use tax practices.

Sincerely,
