ARTS & CRAFTS CHAIR DIANE SCHAFER ON HER COVID PROJECT:

Diane reports that she finally finished her “free” gravel project. She used gravel pieces from her front yard area that she is also re-doing.

She got free metal roofing and 2X4's from her neighbor and made raised planters. She planted sugar snap peas, onions, garlic, lettuce, spinach, beets and swiss chard. She included this link about gravel from YouTube: <https://youtu.be/LanOBuz99WY>

A huge thanks to Diane for sharing her amazing project with us!

A MESSAGE TO MEMBERSHIP:

I am grateful for the folks who contributed to this newsletter: Georgie Sutor, Verna Dailey, Teri Schmidt and Diane Schafer. As we continue to pursue our interests during this pandemic, I wish you all good health and grieve deeply for the nearly quarter million souls in this country who have fallen to Covid-19. This has been a year of firsts for us in dealing with so much adversity. I am hopeful for our future and the good news to come when we can get the vaccination to help save the rest of us from this dreaded scourge. I am hopeful when I get up in the morning to realize that there is so much good in this world. As we look to a Thanksgiving that may be a bit more pared down in size, we can hope for a better tomorrow.

I am still looking for a newsletter editor to replace me.

**Be well
