BUDGET STANDARDS

BUDGET OFFICER

The Fire District Board appoints the Fire Chief as the budget officer, responsible for preparing and supervising the preparation of the budget in accordance with Oregon Revised Statutes, Chapter 294, Budget Law.

The Budget Officer ensures that notices of the budget committee meeting is published at least twice-once in a newspaper of general circulation within the District and once on the District's website. These notices must be published 10 to 30 days before the scheduled meeting date and must be at least seven days apart.

The notice must include the purpose, time, and location of the meeting. It must also state that any person may discuss proposed programs with the budget committee at the meeting and specify when and where a copy of the budget document may be obtained.

The budget officer presents the budget document and budget message at the budget committee meeting.

BUDGET COMMITTEE/BUDGET MESSAGE

A budget committee is composed of the five members of the district board and five electors of the district. Appointed members terms are for three years. Terms are staggered so that approximately one-third of the terms ends each year.

Appointive members cannot be officers, agents, or employees of the district.

ORGANIZATION/BUDGET MESSAGE

The budget committee, at its first meeting, elects a chair person and a secretary. The budget message will be delivered, the document presented and the budget discussed.

The message is prepared by the budget officer and delivered at the initial meeting of the budget committee. It:

- < explains the budget document
- < describes the important features and outlines the new programs.
- < lists the reasons for changes in appropriations and resources
- < explains the major changes in financial policy, if any

CITIZEN INPUT

Citizens have an opportunity and are encouraged to participate in the budgeting process.

BUDGET APPROVAL

Following the presentation of the budget document by the budget officer, the entire budget committee considers budget items and hears comments from interested persons in attendance at the meeting. The budget committee may add, delete or change budget items, figures and programs as the budget is examined. The committee then votes to approve the budget.

PUBLIC HEARING

The district board meets at the time and place designated in the Notice of Public Hearing. A summary of the budget approved by the budget committee and notice of the budget hearing must be published 5 - 25 days before the scheduled hearing. The budget is discussed with persons appearing at the hearing.

As a result of the hearing, the district board may change budget estimates provided the total amount of the levy as published is not increased. Estimated expenditures in a fund cannot be increased by more than \$5,000 or 10 percent, whichever is greater, without first publishing a revised budget summary and holding another budget hearing. Budget items and the levy can always be reduced by the district board without further hearings, even though they have been published.

BUDGET ADOPTION

After the public hearing, the district board adopts the budget, makes the appropriations and declares the tax levy, and/or permanent rate

MT. ANGEL FIRE DISTRICT BUDGET MESSAGE 2025-2026

I am pleased to present the Fiscal Year 2025-2026 budget for the Mt. Angel Fire District, reflecting on our commitment to ensuring the safety and well-being of our community while effectively managing resources.

Our budget for the upcoming year has been meticulously prepared, taking into account the operational needs, goals, and objectives of the District. We have focused on maintaining a balance between providing essential services and being fiscally responsible.

We are also proud to continue our partnership/IGA with Monitor Fire District, which assists in funding a shared Training Officer employed by the Mt. Angel Fire District. Collaboration remains a cornerstone of our efforts to ensure efficient and effective emergency response services. The estimated funding from Monitor Fire District is \$54,592 for the 2025-2026 budget.

Construction of the District's new storage and shop building is set to begin this year. Following an extensive competitive bid process, R.A. Gray Construction was awarded the contract with a bid of \$607,606. This project supports our long-term capital planning goals and will reduce the need for future cash carryover allocations.

We are also fortunate to receive an up-staffing grant from the Oregon State Fire Marshal for the fourth consecutive year. Monitor Fire District was also awarded this grant, totaling \$70,000, to fund seasonal positions this summer, providing coverage during daytime hours, seven days a week.

To better support our increase of conflagration responses, we added wages and associated payroll costs to this year's budget (conflagration wages, FICA, PERS, and Workers Comp). Including these estimates in the adopted budget positions us more effectively to manage deployment during fire season. These increases are dedicated specifically to conflagration responses, and actual expenditures will depend on how often we are mobilized.

Fire Chief/ Budget Officer**

MT. ANGEL FIRE DISTRICT BUDGET CATEGORIES EXPLANATION

Within the annual budget, there are two separate funds, the General Fund, and the Building Site Fund.

GENERAL FUND

The General Fund Budget is prepared with a focus on the annual needs and requirements of operating the Fire District. Within the General Fund, there are separate categories of operation: Personnel Services, Materials & Services, Capital Outlay, Transfers, and Conflagration.

The following pages provide a brief overview of the budget categories, their purposes, and any changes from last year's budget. The first page of the budget includes a list of the projected funds and the taxes the District needs to balance the budget for the coming fiscal year.

Resource Description: This pages shows a list of resources and the amount projected to be received by the District. Resources include projected cash on hand (these are funds used to operate the District until the taxes are received in November), taxes to be received (both current and past due), interest from the General Fund, and miscellaneous income.

BUDGET CATEGORY EXPLANATION

Personnel Services: This category itemizes the salaries for all paid staff, part-time employees, insurance, payroll liabilities, and all benefits for staff and volunteers.

Materials & Services: This category itemizes the cost of operating the Fire District. It includes, materials, utilities, building maintenance, training for volunteers, board members, and staff, dispatching, and miscellaneous equipment purchases.

General Fund continued...

Capital Outlay: This category itemizes purchases of equipment that have life expectancies of more than five years with a value of \$2,000 or greater.

Contingency: The Contingency category is used to transfer funds to any category that may be overspent in an emergency.

BUILDING & SITE FUND

The Building & Site Fund was established to track money transferred from the General Fund for building and facility improvements.
