## BUDGET STANDARDS

### BUDGET OFFICER

The fire district board appoints the fire chief as the budget officer who prepares or supervises preparation of the budget as governed by Oregon Revised Statutes, Chapter 294, Budget Law.

The budget officer publishes the notice of the budget committee meeting at least two times, once in a newspaper of general circulation in the district and once on the district website, 10 to 30 days before the scheduled budget committee meeting date, separated by at least 7 days.

The notice includes the purpose, time and place of the meeting. It also states that any person may discuss proposed programs with the budget committee at this meeting and lists when and where a copy of the budget document may be obtained.

The budget officer submits the budget document and message at the budget committee meeting.

### BUDGET COMMITTEE/BUDGET MESSAGE

A budget committee is composed of the five members of the district board and five electors of the district. Appointed members terms are for three years. Terms are staggered so that approximately one-third of the terms ends each year.

Appointive members cannot be officers, agents, or employees of the district.

### ORGANIZATION/BUDGET MESSAGE

The budget committee, at its first meeting, elects a chair person and a secretary. The budget message will be delivered, the document presented and the budget discussed.

The message is prepared by the budget officer and delivered at the initial meeting of the budget committee. It:

- < explains the budget document
- < describes the important features and outlines the new programs.
- < lists the reasons for changes in appropriations and resources
- < explains the major changes in financial policy, if any

## CITIZEN INPUT

Citizens have an opportunity and are encouraged to participate in the budgeting process.

## BUDGET APPROVAL

Following the presentation of the budget document by the budget officer, the entire budget committee considers budget items and hears comments from interested persons in attendance at the meeting. The budget committee may add, delete or change budget items, figures and programs as the budget is examined. The committee then votes to approve the budget.

## PUBLIC HEARING

The district board meets at the time and place designated in the Notice of Public Hearing. A summary of the budget approved by the budget committee and notice of the budget hearing must be published 5 - 25 days before the scheduled hearing. The budget is discussed with persons appearing at the hearing.

As a result of the hearing, the district board may change budget estimates provided the total amount of the levy as published is not increased. Estimated expenditures in a fund cannot be increased by more than \$5,000 or 10 percent, whichever is greater, without first publishing a revised budget summary and holding another budget hearing. Budget items and the levy can always be reduced by the district board without further hearings, even though they have been published.

## BUDGET ADOPTION

After the public hearing, the district board adopts the budget, makes the appropriations and declares the tax levy, and/or permanent rate

## **MT. ANGEL FIRE DISTRICT BUDGET MESSAGE 2024-2025**

I am pleased to present the Fiscal Year 2024-2025 budget for the Mt. Angel Fire District, reflecting our commitment to ensuring the safety and well-being of our community while effectively managing resources.

Our budget for the upcoming year has been meticulously prepared, taking into account the operational needs, goals, and objectives of the District. We have focused on maintaining a balance between providing essential services and being fiscally responsible.

We are also proud to continue our partnership/IGA with the Monitor Fire District, which assists in funding a shared Training Officer employed by the Mt. Angel District. Collaboration remains a cornerstone of our efforts to ensure efficient and effective emergency response services. The estimated funding from Monitor Fire District is \$54,592 for this 24/25 budget.

Additionally, the District is committed to our ongoing goal of constructing an auxiliary building on the south property of the District. We are currently in the planning and design phase of this project, with final construction scheduled for completion by January 2025. Upon the conclusion of this project, it will free up future cash carryover contributions for further capital purchases.

We were fortunate to receive an up-staffing grant from the Oregon State Fire Marshal for the third consecutive year. Monitor Fire District was also awarded this grant, totaling \$70,000, to fund seasonal positions this summer, providing coverage during daytime hours, seven days a week.

Furthermore, we have applied for a \$233,049 Assistance to Firefighters Grant (AFG) to replace our aging structural turnouts, which are nearing the end of their life according to NFPA guidelines. If awarded, this allocation will be incorporated into the 2024-2025 budget at a later stage.

Fire Chief/ Budget Officer

## MT. ANGEL FIRE DISTRICT BUDGET CATEGORIES EXPLANATION

Within the annual budget, there are three separate funds, the General Fund, the Debt Service Fund, and the Building Site Fund.

### *GENERAL FUND*

The General Fund Budget is prepared with a focus on the annual needs and requirements of operating the fire district. Within the general fund there are separate categories of operation, Personnel Services, Materials & Services, Capital Outlay, Transfers, Debt Service and Contingencies.

The following pages will give a brief overview of the budget categories, their purpose and any changes from last year's budget. The first page of the budget is a list of the projected funds and taxes the district needs to balance the budget for the coming fiscal year.

**Resource Description:** This page shows a list of resources and the amount that is projected to be received by the district. Resources include projected cash on hand, (these are funds used to operate the district until the taxes are received in November), taxes to be received both current and past due, interest from the general fund and miscellaneous income.

### BUDGET CATEGORY EXPLANATION

**Personnel Services:** This category itemizes the salaries for all of the paid staff, part-time employees, insurances, payroll liabilities and all benefits for the staff and volunteers.

**Materials & Services:** This category itemizes cost of the operation of the fire district, which includes materials, utilities, building maintenance, training for volunteers, board members and staff, dispatching and misc. equipment purchases.

General Fund continued...

**Capital Outlay:** This category itemizes purchases of equipment that have life expectancies of more than five years.

**Contingency:** The Contingency category is used to transfer funds to any category that may be overspent in an emergency.

***DEBT SERVICE FUND***

The Debt Service Fund was established to track tax funds received to repay the General Obligation Bonds and to budget the interest and principal payments as per the finance agreement payment schedule.

***BUILDING & SITE FUND***

The Building & Site Fund was established to track money transferred from the General Fund for building and facility improvements.
