

Dilation: I acknowledge that for the purpose of evaluation, my pupils maybe dilated. This may result in blurred vision for a length of time, which varies from person to person and may make bright lights bothersome. It is not possible for your ophthalmologist to predict how much your vision will be affected. Because driving may be difficult immediately after an examination, it maybe best if you make arrangements not to drive yourself. Please ask for assistance if your vision is markedly affected.
