WORK EXPERIENCE

Product Marketing Manager, Apex Systems

Mar 2025 - Present

- End-to-End SaaS Product & Launch Leadership: Led strategy and execution for 50+ SaaS product lifecycles, including the launch of a proprietary internal innovation platform. Leveraged Salesforce Marketing Cloud within the GTM tech stack and built positioning, launch frameworks, and workflows that shortened launch cycles by several weeks and enabled organization-wide adoption.
- Executive & Technical Strategy Alignment: Partnered with C-suite leaders, product owners, and engineering teams to shape product narratives, clarify technical priorities, and drive alignment across multiple business units and global teams. Informed strategic decisions through ongoing market, customer, and competitive insight synthesis.
- Content Architecture & Sales Enablement: Created and optimized 100+ product-focused content, messaging, and enablement assets supporting hundreds of sellers. Translated complex technical capabilities into clear value propositions that improved sales readiness and strengthened customer conversations.
- Operational & Process Optimization: Improved GTM execution by enhancing cross-team workflows and building repeatable systems, including standardized launch playbooks and structured intake processes. Eliminated dozens of redundant steps and enabled scalable, predictable product launches.
