

Oklahoma ACS Family Night
Friday 08 September 2017

AN EVENING ADVENTURE OF CHEMISTRY

Sherry Marshall
Science Museum Oklahoma
Oklahoma City, OK

Whenever you approach a young budding scientist and ask them what they like to do, chances are you get the answer: "mix stuff together, and blow stuff up!" (To be honest, isn't that why some of us study chemistry now!?!). But it is that and so much more! This fun adventure features a few of the exciting activities that bring chemistry alive safely in front of our eyes and spark that youthful wonder in all of us. From the ordinary to the extraordinary we will explore chemistry concepts with quick interactive demonstrations that stimulate student interest, arouse curiosity, increase observational skills, and reinforce the learning process in a fun and positive way!

Oklahoma Baptist University, Shawnee, OK <http://www.okbu.edu>

6:00 pm Social Hour & Picnic Wood Science Building
lawn games [indoor/outdoor]—volleyball & croquet

7:30 pm Presentation Wood Science Building
large lecture hall

Sherry Marshall Biographical Sketch

Sherry received her Physics degree from Oklahoma State University (OSU), with emphasis in Curriculum and Instruction in Education and Behavioral Science, and continued graduate work in Chemistry. After a professional academic career in El Paso, TX, an unwavering passion for informal education soon led her back to Oklahoma where she joined Science Museum Oklahoma—then the Omniplex—as a museum educator. In December 2016 Sherry was named President and CEO. Sherry is an alumnus of the prestigious Noyce Foundation Leadership Institute, has served as a Fellow for the Center for the Advancement of Informal Science Education and has acted as an advisor and evaluator for institutions including the National Science Foundation and the Institute for Museum and Library Services. Science Museum Oklahoma has allowed her to follow her passion and create unique environments that foster meaningful learning, curiosity, and imagination.
