## VIRTUAL BEER TASTING AND HAPPY HOUR

Shawn Savuto

*COOP Ale Works, Oklahoma City, OK*

Please join us for the Spring 2021 Chemistry and Microbiology of Beer Virtual Happy Hour with the Oklahoma Section of the ACS. Shawn Savuto of COOP Ale Works will guide the group in a virtual beer tasting while discussing the many aspects of beer that make it such a unique beverage. A list of beer suggestions roughly categorized by their major attributes follows, including malted barley, hops, yeast, and popular styles.

**4:45-5:00 pm Social**

**5:00-6:00 pm Presentation**

**The meeting will be virtual via zoom.**

*This meeting has a waiting room. Please wait for the host to let you in.*

### **Shawn Savuto Biographical Sketch**

Shawn Savuto is the QA/QC Specialist and lab manager for COOP Ale Works in OKC. A graduate of OU's Microbiology program, Shawn began home brewing in college and 5 years ago serendipitously found his way to COOP where he is able to follow his passion. When he isn't thinking about science or beer, which is rare, he can most often be found either at home in the kitchen cooking with some music or wandering the great outdoors hiking and climbing.
