

REFRAX QUANTUM PROTECTION

Download it. Add it. Keep using your wallet.

RQP is built to keep the wallet experience simple. You install it for free, add it once, and protected sends run in the background after that.

Protected send fee: 0.05 USDC

DESKTOP INSTALL

Chrome setup

- Download the RQP extension zip.
- Unzip it to a folder on your computer.
- Open **chrome://extensions**.
- Turn on **Developer mode**.
- Click **Load unpacked**.
- Select the unzipped extension folder.

MOBILE PATH

Wallet browser setup

- Open RQP in a wallet browser.
- Enable protection once.

- Keep using the same wallet like normal.

TRANSPARENCY

What you should know

- You install it for free.
- You pay only when a protected send is used.
- The person receiving funds does not need RQP.
- You can remove RQP at any time.
