# HOSTED PBX SERVICES

Putting our 30+ years of industry experience to work for you

Panasonic Hosted PBX Solutions provide business customers with all the advantages of a carrier-grade, advanced IP communications system without the significant upfront investment. Ideal for small and growing businesses of any size, these innovative new offerings ensure you always have the latest features and functionality—all for one low monthly price. Even better, with Hosted PBX, you can remove the hassles and burdens of IT resources, equipment management and system maintenance because it's all taken care of by a reputable and reliable provider. You simply pay for the seats you need with the ability to add more at any time.

# PANASONIC: THE TRUSTED TELEPHONY LEADER

When it comes to your business communications, you want the best solutions that help your employees communicate easier and collaborate better. Solutions that enhance customer interaction and increase overall satisfaction. That's what Panasonic delivers. If that's not enough, just consider these reasons why you should choose Panasonic.

## END-TO-END SOLUTION

Our comprehensive selection of PBX, SIP Trunking, hardware and software solutions can fit your specific business needs, today and tomorrow.

## CARRIER-GRADE NETWORK

Panasonic Hosted PBX solutions are backed by a true, carrier-grade network. Few, if any, of our competitors, can say that.

## UNPARALLELED SALES, SERVICE AND SUPPORT NETWORK

Our award-winning network of local dealers provides fast, professional service and support that's all backed by Panasonic's industry-leading capabilities and experience.

## FLEXIBLE HOSTED SERVICE PLANS

Panasonic offers a selection of service plans for organizations using Hosted PBX.<sup>1</sup> Depending on the number of employee or extensions required, you can choose from Canada Wide<sup>2</sup> or North America Wide.<sup>3</sup> Calling Plans and add a range of optional services to fit your specific business needs.
