

Louisiana State University

The de Soto Society

*A Premier Investment Banking and Corporate Finance
Placement Society*

Founded by finance students in 2019 to provide students with the skills and network necessary to pursue careers in investment banking and corporate finance

FOR STUDENTS

To provide a platform that allows LSU's most talented, driven, and qualified students the opportunity to train for and obtain a career in high finance while representing LSU at the highest level.

FOR EMPLOYERS

To identify LSU's best students as an additional source of applicants to complement the increasingly competitive search for top talent at traditional core universities.

Objectives

BASED ON UGA'S CORSAIR SOCIETY

Since its founding in 2006, **the University of Georgia's Corsair Society has placed over 160 students into full-time analyst programs** with top-tier investment banks and management consulting firms.

Program alumni continue to succeed following their analyst programs through direct promotion, admission to top business school programs, and work in private equity and related fields.

THE PROCESS

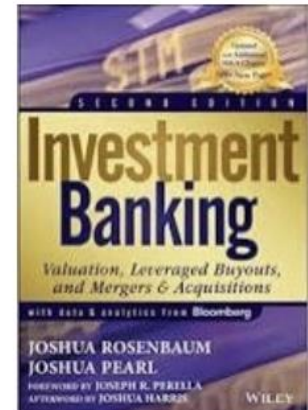

Following a rigorous selection process, members are prepared for the finance interview process by student mentors, learn valuation techniques and financial modeling in the classroom, and gain practical experience through application in case studies. The process culminates with successful students placing in finance internships the summer before senior year through our alumni contacts.

Personal Development
