

- Addison's disease - insufficient adrenal gland
- Agammaglobulinemia - antibody deficiency
- Alopecia areata - hair loss
- Amyloidosis - abnormal protein buildup in organs and cells
- Ankylosing spondylitis - arthritis of the spine
- Anti-GBM/Anti-TBM nephritis (kidney blood vessels)
- Antiphospholipid syndrome (APS) - antibody attacks
- Autoimmune hepatitis - inflamed liver
- Autoimmune inner ear disease (AIED) - hearing loss
- Axonal & neuronal neuropathy (AMAN) - variant of Guillain-Barré
- Behcet's disease - inflamed blood vessels
- Bullous pemphigoid - blisters in mouth
- Castleman disease (CD) - lymph nodes attacked
- Celiac disease - gluten related damage to small intestine
- Chagas disease - sleeping sickness caused by parasite
- Chronic inflammatory demyelinating polyneuropathy (CIDP) - destroys nerve sheaths
- Chronic recurrent multifocal osteomyelitis (CRMO) - bone lesions
- Churg-Strauss - inflamed blood vessels
- Cicatricial pemphigoid/benign mucosal pemphigoid - blisters
- Cogan's syndrome - inflamed eyes and dizziness
- Cold agglutinin disease - anemia
- Congenital heart block - fetal death
- Coxsackie myocarditis - weak heart muscle
- CREST syndrome - esophageal dysfunction and more
- Crohn's disease - bowel dysfunction
- Dermatitis herpetiformis - rash
- Dermatomyositis - rash
- Devic's disease (neuromyelitis optica) - spinal+ optic nerves
- Discoid lupus - lupus
- Dressler's syndrome - heart
- Endometriosis - uterus
- Eosinophilic esophagitis (EoE) - food allergies
- Eosinophilic fasciitis - muscle tissue
- Erythema nodosum - underskin bumps
- Essential mixed cryoglobulinemia - inflammation
- Evans syndrome - destroys blood cells
- Fibromyalgia - pain and fatigue
- Fibrosing alveolitis - lungs
- Giant cell arteritis (temporal arteritis) - arteries
- Giant cell myocarditis - heart failure
- Glomerulonephritis - kidneys
- Goodpasture's syndrome - kidney blood vessels
- Granulomatosis with Polyangiitis - blood vessels
- Graves' disease - thyroid overproduction
- Guillain-Barre syndrome - nervous system
- Hashimoto's thyroiditis - thyroid destruction
- Hemolytic anemia - anemia
- Henoch-Schonlein purpura (HSP) - bleeding
- Herpes or pemphigoid gestationis (PG) - herpes pregnancy
- Hypogammaglobulinemia - immune system
- IgA Nephropathy - kidney
- IgG4-related sclerosing disease - fibrosis of organ tissue
- Inclusion body myositis (IBM) - muscle weakness
- Interstitial cystitis (IC) - bladder
- Juvenile arthritis - arthritis
- Juvenile diabetes (Type 1 diabetes) - diabetes
- Juvenile myositis (JM) - immune system
- Kawasaki disease - skin and lymph of children
- Lambert-Eaton syndrome - muscle weakness
- Leukocytoclastic vasculitis - blood vessels
- Lichen planus - rash
- Lichen sclerosus - skin disorder
- Ligneous conjunctivitis - eye
- Linear IgA disease (LAD) - skin
- Lupus - inflammation of skin
- Lyme disease chronic - bacterial inflammation
- Meniere's disease - inner ear
- Microscopic polyangiitis (MPA) - blood vessels

- Mixed connective tissue disease (MCTD) - tissue
- Mooren's ulcer - ulcers
- Mucha-Habermann disease - skin
- Multiple sclerosis (MS) - brain and spinal cord
- Myasthenia gravis - muscles
- Myositis - muscles
- Narcolepsy - sleeping
- Neuromyelitis optica - devic's disease
- Neutropenia - white blood cells
- Ocular cicatricial pemphigoid - mouth blisters
- Optic neuritis - optic nerve
- Palindromic rheumatism (PR) - joints
- PANDAS (Pediatric Autoimmune Neuropsychiatric Disorders -Associated with Streptococcus) - nerves
- Paraneoplastic cerebellar degeneration (PCD) - blood
- Paroxysmal nocturnal hemoglobinuria (PNH) (blood cells)
- Parry Romberg syndrome - face
- Pars planitis (peripheral uveitis) - eyes
- Parsonnage-Turner syndrome - arms
- Pemphigus - muscles
- Peripheral neuropathy - nerves
- Perivenous encephalomyelitis - brain and spinal cord
- Pernicious anemia (PA) - anemia
- POEMS syndrome (polyneuropathy, organomegaly, endocrinopathy, monoclonal gammopathy (skin blood)
- Polyarteritis nodosa - blood
- Polymyalgia rheumatica - muscle
- Polymyositis - muscle
- Postmyocardial infarction syndrome - (see Dressler's)
- Postpericardiotomy syndrome - heart
- Primary biliary cirrhosis - liver bile ducts
- Primary sclerosing cholangitis - liver bile ducts
- Progesterone dermatitis - rash
- Psoriasis - skin
- Psoriatic arthritis - arthritis
- Pure red cell aplasia (PRCA) - red blood cells
- Pyoderma gangrenosum - skin
- Raynaud's phenomenon - blood vessels
- Reactive Arthritis - arthritis
- Reflex sympathetic dystrophy - pain
- Reiter's syndrome - joints and eyes
- Relapsing polychondritis - cartilage
- Restless legs syndrome (RLS) - leg movement
- Retroperitoneal fibrosis - kidneys
- Rheumatic fever - fever
- Rheumatoid arthritis (RA) - arthritis
- Sarcoidosis - (lungs skin lymph)
- Schmidt syndrome - three disease constellation
- Scleritis - eyes
- Scleroderma - connective tissue
- Sjogren's syndrome - mouth and eyes
- Sperm & testicular autoimmunity - reproductive
- Stiff person syndrome (SPS) - heart
- Subacute bacterial endocarditis (SBE) - throat and more
- Susac's syndrome - behavior
- Sympathetic ophthalmia (SO) - eyes
- Takayasu's arteritis - blood vessels
- Temporal arteritis/Giant cell arteritis - blood vessels
- Thrombocytopenic purpura (TTP) - bleeding
- Tolosa-Hunt syndrome (THS) - headache and palsy
- Transverse myelitis - spinal cord
- Type 1 diabetes - blood sugar
- Ulcerative colitis (UC) - colon
- Undifferentiated connective tissue disease (UCTD) - tissue
- Uveitis - eyes
- Vasculitis - blood vessels
- Vitiligo - skin discoloration
- Wegener's granulomatosis Granulomatosis with Polyangiitis (GPA) - blood vessels
- Thyroid Eye Disease
