4. Once subscribed, create referrals: Input patient/clinical data in asterisked fields*

PocketEye Home Create referral My referrals   TesterMeera Manage subscription Logout

Create referral

Simply ask advice from our team of ophthalmologists.
You must fill in boxes/fields with asterisks*. Please also include any other relevant information, and if unsure or not relevant, you can leave boxes blank. Attach relevant investigations as images if possible.

Consent
☐ * Patient/patient's guardian consents to this referral being sent

Patient details

* First name   * Surname

Submit referral

Annotations (left margin):

-Obtain patient consent & tick box

-Input patient details

-Please note 'Eye unit' to refer to is **PocketEye assessment**

-Input sub-specialty, suspected diagnosis, Visual Acuity & more information if relevant

IMAGE UPLOAD:

- **'Choose file'** then either **take a photo** directly on your phone or **upload a file**

-You can describe image in **'Image description'** e.g. Right eye OCT macula

-Click **'Upload'** or 'Remove' to change

-Then **'Submit referral'**

5. Once referral submitted, click 'My referrals' to see your referral list after sending them, and 'View' to see each one

6. Click 'View' to see referral, the Ophthalmologist's assessment & to live chat with them

You can **'Delete referral'** if you no longer need it

You can send more images under **'Add image'**

Under **'Assessment'**, the Ophthalmologist will put assessment advice here (you will receive an email notification once this is done)

Under **'Chat'** you can live chat with the Ophthalmologist (like WhatsApp)

For a quick recap tutorial, check out our YouTube video (it takes 10 minutes!):
