LESSON 3

1 Peter 3:1-22

God's All-seeing Eye

God's Prescription For Home And Church

INTRODUCTION

According to the Genesis chapter 1&2 God made male and female to be joined together as one. God said, "It is not good for man to be alone; I will make a helper for him." Out of this union children were to be born to create a family. According to God's design husbands and wives are to live harmoniously in love and support of each other for a lifetime. He did not create another man to give man companionship. He made a woman who was created out of him from one of his ribs. Therefore, as the scriptures says, she is bone of his bones and flesh of his flesh. The family was fashioned and designed by God to be the foundation of society. All other human institutions came out of the family. The institution of marriage has always been under attack it is worsening every day. I believe the attacks on the institution of marriage and the family is Satan's major attack against God. Therefore, he is still using his same old tactic, that is, divide and conquer.

In the marriage relationship according to God the husband and wife is to have clear and distinct roles. The role that each one plays in the relationship complements one another. Th role that each play in the marriage should not conflict with one another. In today's/tonight's lesson we are going to examine closely God's design for the family.
