

The HOA Trash Survey link arrived in your email box today, March 24th, and will be available for one week. Please be assured that your participation will help the Board evaluate an appropriate contracted garbage rate and what companies may be willing to provide that service. Your participation is key to having an understanding of how best to approach the issues of reducing truck traffic on our streets and protecting our pocketbooks! Please participate!

If you did not receive an email regarding this survey, it is because the Main Office does not have a current email address for you. You may still participate in the survey by providing your current email address to vgvoting@gmail.com. Thank you.
