

INTRODUCING:
PAY ⚡ PI BUTTON

A Universal Payment Button for
the Pi Economy

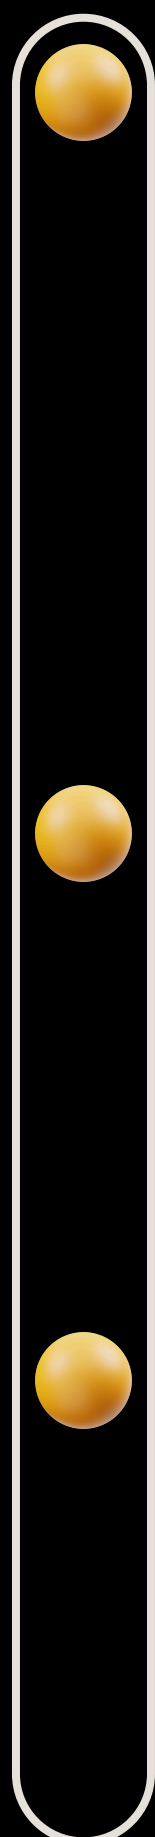

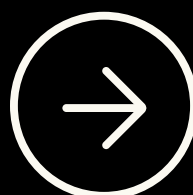

Presented by: Jae Martinez | JDM Solutions LLC

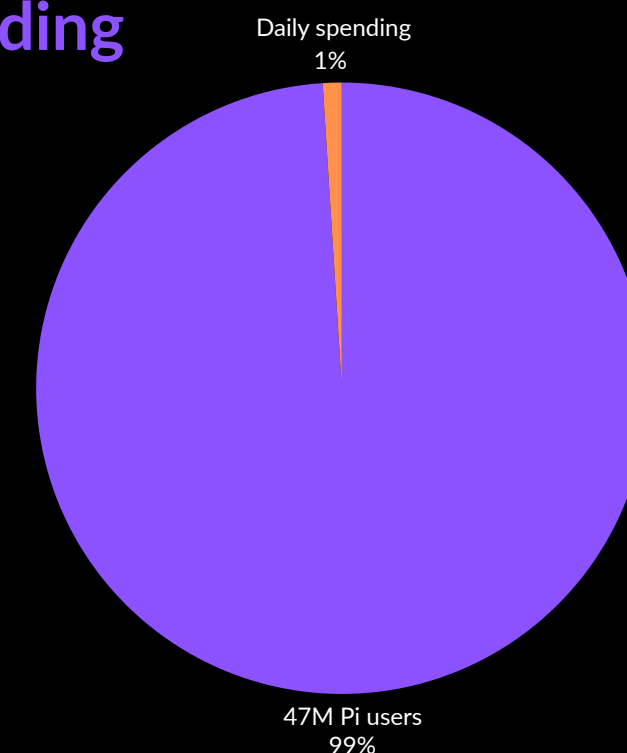

PI NETWORK LACKS REAL WORLD UTILITY

🚫 Users are mining, but not spending

- Over 47M users, yet less than 1% can use Pi in real transactions
- Most activity is limited to in-app barter and closed-loop ecosystems

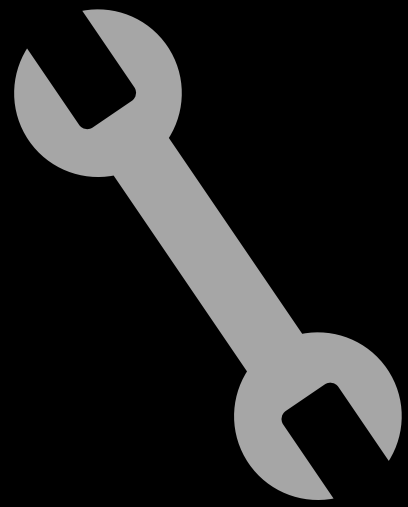

🧩 No plug-and-play infrastructure

- No native integration with Shopify, WooCommerce, or mobile apps
- Developers lack SDKs, APIs, and real documentation to build at scale

🛒 Merchants aren't onboarded

- There's no simple way to integrate it
- No payment protection, escrow, or conversion tools
- No backend dashboard to track Pi transactions

INTRODUCING: PAY ⚡ PI BUTTON

A single, universal payment button that:

- Works across Shopify, WooCommerce, and mobile apps
- Enables plug-and-play Pi payments
- Offers escrow support and merchant tools
- Becomes the recognizable gateway to the Pi economy

 *shopify* → **WOO** **COMMBCE** → Pi Economy
